

SCOPE 20

**Methods for Assessing the Effects of
Chemicals on Reproductive Functions**

Executive Committee of SCOPE

President: Professor R. O. Slatyer, Department of Environmental Biology, Australian National University, P.O. Box 475, Canberra ACT 2601, Australia.

Past President: Professor G. F. White, Institute of Behavioral Science, University of Colorado, Boulder, Colorado 80309, USA.

Vice President: Professor G. A. Zavarzin, Institute of Microbiology, USSR Academy of Sciences, Profsojuznaja 7a, 117312 Moscow, USSR.

Secretary General: Professor J. W. M. La Rivière, International Institute for Hydraulic & Environmental Engineering, Oude Delft 95, P.O. Box 315, 2601 DA Delft, The Netherlands.

Treasurer: Sir Frederick Warner, FRS, 11 Spring Chase, Brightlingsea, Essex C07 0JR, UK.

Members

Dr M. A. Ayyad, Botany Department, Faculty of Sciences, University of Alexandria, Moharran Bay, Alexandria, Egypt.

Professor M. J. Kostrowicki, Institute of Geography, Polish Academy of Sciences, Warsaw, Poland.

Professor S. Krishnaswami, School of Biological Sciences, Madurai Kamaraj University, Madurai 625 021, India.

Professor T. Rosswall, Department of Microbiology, Swedish University of Agricultural Sciences, S-75007 Uppsala, Sweden.

Professor Yasuo Shimazu, Department of Earth Science, Faculty of Science, Nagoya University, Furo-cho, Chikusa, Nagoya, Aichi 464, Japan.

Editor-in-Chief

Professor R. E. Munn, Institute for Environmental Studies, University of Toronto, Toronto, Canada M5S 1A4.

Funds to meet SCOPE expenses are provided by contributions from SCOPE National Committees, an annual subvention from ICSU (and through ICSU, from UNESCO), an annual subvention from the French Ministère de l'Environnement et du Cadre de Vie, contracts with UN Bodies, particularly UNEP, and grants from Foundations and industrial enterprises.

**International Council of Scientific Unions (ICSU)
Scientific Committee on Problems of the Environment (SCOPE)**

SCOPE is one of a number of committees established by a non-governmental group of scientific organizations, the International Council of Scientific Unions (ICSU). The membership of ICSU includes representatives from 68 National Academies of Science, 18 International Unions, and 12 other bodies called Scientific Associates. To cover multidisciplinary activities which include the interests of several unions, ICSU has established 10 scientific committees, of which SCOPE, founded in 1969, is one. Currently, representatives of 34 member countries and 15 Unions and Scientific Committees participate in the work of SCOPE, which directs particular attention to the needs of developing countries.

The mandate of SCOPE is to assemble, review, and assess the information available on man-made environmental changes and the effects of these changes on man; to assess and evaluate the methodologies of measurement of environmental parameters; to provide an intelligence service on current research; and by the recruitment of the best available scientific information and constructive thinking to establish itself as a corpus of informed advice for the benefit of centres of fundamental research and of organizations and agencies operationally engaged in studies of the environment.

SCOPE is governed by a General Assembly, which meets every three years. Between such meetings its activities are directed by the Executive Committee.
