<b>Foreword</b> .....	xiii
<b>Preface</b> .....	xv
<b>Acknowledgements</b> .....	xvii
<b>List of Contributors</b> .....	xix
<b>1 Synthesis</b> .....	1
<i>Sir Frederick Warner</i>	
<b>2 Introduction</b> .....	5
<i>R. J. C. Kirchmann, L. Appleby and C. S. Shapiro</i>	
2.1 General Framework .....	5
2.1.1 Origin of SCOPE-RADTEST .....	5
2.1.2 Project Objectives .....	6
2.1.3 Logic Flow .....	7
2.2 From the Fireball to Human Exposure .....	7
2.3 NATO Advanced Science Institutes .....	9
2.3.1 Vienna Advanced Research Workshop .....	9
2.3.2 Barnaul Advanced Research Workshop .....	10
References .....	10
<b>3 Nuclear Weapons Test Programmes of the Different Countries</b> .....	13
<i>B. B. Bennett, L. E. de Geer and A. Doury</i>	
3.1 Development of Nuclear Weapons .....	14
3.1.1 First Generation Fission Bomb .....	14
3.1.2 Boosted Fission Bomb .....	14
3.1.3 Thermonuclear Bomb .....	15
3.1.4 Third Generation Nuclear Weapons .....	16
3.2 Types of Nuclear Tests .....	16
3.3 Nuclear Test Sites .....	17
3.4 Number and Yields of Nuclear Tests .....	18
References .....	32

<b>4</b>	<b>Nuclear Explosions and their Environmental Contamination</b> . . . . .	<b>33</b>
	<i>Yu. A. Izrael, E. D. Stukin, V. N. Petrov, L. Anspaugh, A. Doury,</i> <i>R. J. C. Kirchmann and E. van der Stricht</i>	
4.1	Formation and Fractionation of Radionuclides . . . . .	33
4.1.1	General Characteristics of Radionuclides and Processes after a Nuclear Explosion . . . . .	33
4.1.2	Formation of Aerosol Particle-carriers of Radioactivity . . . . .	35
4.1.3	Fractionation of Radionuclides . . . . .	36
4.2	Atmospheric Dispersion and Fallout of Radionuclides . . . . .	44
4.2.1	Local (proximal) Fallout Patterns . . . . .	44
4.2.2	Remote Pattern (Tropospheric Fallout) . . . . .	48
4.2.3	Global Fallout . . . . .	51
4.2.4	The Modelling and Prediction of Radioactive Fallout . . . . .	52
4.3	Local and Tropospheric Fallout Patterns in Different Countries . . . . .	59
4.3.1	French Tests . . . . .	59
4.3.2	UK Tests . . . . .	60
4.3.3	USA Tests . . . . .	63
4.3.4	The Former USSR Tests . . . . .	68
4.3.4.1	The First Nuclear Explosion in the Former USSR in 1949 . . . . .	71
4.3.4.2	Formation of an Artificial Reservoir (crater explosion '1004') . . . . .	72
4.3.5	Chinese Tests . . . . .	74
4.3.6	Indian Tests . . . . .	77
4.4	Reconstruction of Former Fallout Patterns Using Mathematical Models and Archival Data . . . . .	79
4.5	Radioactive Contamination of Geological Formations, Underground Water, Gas and Oil by Underground Nuclear Explosions . . . . .	84
4.6	Ecological Effects of Nuclear Testing . . . . .	90
4.6.1	Case Study: Mururoa and Fangataufa . . . . .	90
4.6.1.1	Consequences of the Presence of the 'Centre d'Expérimentation du Pacifique (CEP)' on Terrestrial Flora and Fauna . . . . .	90
4.6.1.2	Consequences of the Presence of the CEP for the Marine Flora and Fauna . . . . .	91
4.6.2	Case Study: Nevada Test Site . . . . .	92
4.6.3	China . . . . .	93
4.6.4	Former USSR . . . . .	93
4.6.4.1	Cytogenetic Monitoring of the Natural Populations of Chironomids . . . . .	94

4.6.4.2	Examination of Wild Populations of Plants . . .	94
4.6.4.3	Lichen-Reindeer-Human Foodchain . . . . .	95
	References . . . . .	95
<b>5</b>	<b>Pathways for Internal and External Exposure . . . . .</b>	<b>99</b>
	<i>P. J. Coughtrey, R. J. C. Kirchmann, F. Harris and S. L. Simon</i>	
5.1	Internal Exposure Pathways . . . . .	99
5.1.1	Introduction . . . . .	99
5.1.2	Inhalation . . . . .	99
5.1.3	Ingestion . . . . .	101
5.1.4	Ingestion Pathways for Populations Close to Test Sites . . . . .	102
5.1.4.1	Nevada . . . . .	102
5.1.4.2	Semipalatinsk . . . . .	103
5.1.4.3	Novaya Zemlya . . . . .	104
5.1.4.4	Pacific . . . . .	106
5.1.4.5	Lob Nor . . . . .	106
5.1.4.6	Maralinga . . . . .	109
5.1.5	Conclusions . . . . .	109
5.2	External Exposure Pathways . . . . .	110
5.2.1	Natural Radiation Sources . . . . .	110
5.2.1.1	Cosmic Radiation . . . . .	110
5.2.1.2	Terrestrial Radiation . . . . .	111
5.2.2	Artificial Environmental Radiation . . . . .	112
5.2.2.1	Deposition . . . . .	112
5.2.2.2	External Irradiation . . . . .	112
	References . . . . .	112
<b>6</b>	<b>Estimation of Doses . . . . .</b>	<b>115</b>
	<i>A. Bouville, L. Anspaugh, M. I. Balonov, K. I. Gordeev, V. I. Kiselev, V. M. Loborev, N. K. Luckyanov, E. Pauli, W. L. Robison, M. Savkin, V. V. Sudakov and S. Zelentsov</i>	
6.1	Introduction . . . . .	115
6.2	Nevada Test Site (USA) . . . . .	115
6.2.1	Status of Dose Reconstruction . . . . .	116
6.2.1.1	The ORERP Study of DOE . . . . .	117
6.2.1.2	The Utah Leukaemia Case-control Study . . . . .	118
6.2.1.3	The Utah Thyroid Cohort Study . . . . .	119
6.2.1.4	The NCI Fallout Study . . . . .	120
6.2.2	Local and Regional Doses from External Irradiation . . . . .	122
6.2.3	Local and Regional Doses from Internal Irradiation . . . . .	125

6.3	Pacific: Enewetak and Bikini (Marshall Islands) . . . . .	127
6.3.1	Status of Dose Reconstruction . . . . .	128
6.3.1.1	Bikini and Enewetak Atolls . . . . .	128
6.3.1.2	Rongelap Island and Utirik Atoll . . . . .	129
6.3.1.3	Other Marshall Islands . . . . .	130
6.3.2	Local and Regional Doses from External Irradiation . . . . .	131
6.3.2.1	Bikini and Enewetak Atolls . . . . .	131
6.3.2.2	Rongelap Island and Utirik Atoll . . . . .	132
6.3.2.3	Other Marshall Islands . . . . .	133
6.3.3	Local and Regional Doses from Internal Irradiation . . . . .	133
6.3.3.1	Bikini and Enewetak Atolls . . . . .	133
6.3.3.2	Rongelap Island and Utirik Atoll . . . . .	135
6.3.3.3	Other Marshall Islands . . . . .	138
6.4	Semipalatinsk (Kazakhstan) . . . . .	138
6.4.1	Status of Dose Reconstruction . . . . .	139
6.4.2	Local and Regional Doses from External Irradiation . . . . .	141
6.4.3	Local and Regional Doses from Internal Irradiation . . . . .	151
6.5	Novaya Zemlya (Russia) . . . . .	155
6.5.1	Status of Dose Reconstruction . . . . .	157
6.5.2	Local and Regional Doses from External Irradiation . . . . .	157
6.5.3	Local and Regional Doses from Internal Irradiation . . . . .	158
6.6	Lob Nor (China) . . . . .	158
6.6.1	Status of Dose Reconstruction . . . . .	158
6.6.2	Local and Regional Doses from External Irradiation . . . . .	159
6.6.3	Local and Regional Doses from Internal Irradiation . . . . .	159
6.7	South Pacific: Mururoa and Fangataufa (France) . . . . .	161
6.7.1	Status of Dose Reconstruction . . . . .	161
6.7.2	Local and Regional Doses from External Irradiation . . . . .	162
6.7.3	Local and Regional Doses from Internal Irradiation . . . . .	162
6.8	Emu, Maralinga and Montebello (Australia) . . . . .	162
6.8.1	Status of Dose Reconstruction . . . . .	164
6.8.2	Local and Regional Doses from External Irradiation . . . . .	164
6.8.3	Local and Regional Doses from Internal Irradiation . . . . .	166
6.9	Collective Doses to the World's Population from all Tests . . . . .	166
6.10	Conclusions . . . . .	168
	References . . . . .	168
<b>7</b>	<b>Health Effects</b> . . . . .	<b>179</b>
	<i>W. Burkart, A. M. Kellerer, S. Bauer, J. R. Harrison, C. Land, Y. N. Shoikhet, V. I. Kiselev, S. L. Simon, T. Tsukatani and F. de Vathaire</i>	
7.1	Introduction . . . . .	179

7.2	Radiation and Health . . . . .	180
7.2.1	Biological Effects of Radiation . . . . .	180
7.2.2	Health Effects . . . . .	181
7.2.3	Radioepidemiology . . . . .	185
7.2.4	Learning from the Atmospheric Bomb Tests . . . . .	187
7.3	Major Affected Populations: Critical Exposures and Health Effects . . . . .	188
7.3.1	Nevada and Utah, USA . . . . .	188
7.3.1.1	Review of Public Health Service Documents . . . . .	188
7.3.1.2	Geographical Studies . . . . .	191
7.3.1.3	A Cohort Study of Thyroid Disease . . . . .	195
7.3.1.4	Nationwide Estimates on Health Effects . . . . .	197
7.3.1.5	Summary . . . . .	198
7.3.2	Semipalatinsk and Altai, former USSR . . . . .	199
7.3.2.1	Semipalatinsk Region . . . . .	199
7.3.2.2	Health Effects of the Nuclear Tests Conducted at the Semipalatinsk Test Site for the Population of the Altai Region . . . . .	206
7.3.3	Marshall Islands, Pacific, USA . . . . .	213
7.3.3.1	Acute and Deterministic Health Effects . . . . .	213
7.3.3.2	Long-term Health Effects . . . . .	214
7.3.3.3	Japanese Fishermen . . . . .	214
7.3.4	Novaya Zemlya . . . . .	215
7.3.5	Australia (Maralinga, Emu, Monte Bello Islands) . . . . .	216
7.3.6	Malden and Christmas Island, UK and USA . . . . .	216
7.3.7	Algeria . . . . .	216
7.3.8	French Polynesia (Fangataufa and Moruroa) . . . . .	217
7.3.9	Lob Nor, China . . . . .	217
7.3.10	Other Sites . . . . .	218
7.3.11	Test Participants . . . . .	218
7.3.11.1	British Test Participants . . . . .	219
7.3.11.2	US Servicemen and Weather Observers . . . . .	220
7.3.12	Global Exposures . . . . .	220
7.4	Intercomparisons and Validations . . . . .	221
7.5	Conclusions . . . . .	222
	Acknowledgement . . . . .	226
	References . . . . .	226
8	<b>Fallout Models—Past, Present and Future</b> . . . . .	229
	<i>R. D. Small</i>	
8.1	Nuclear Tests and the First Fallout Models . . . . .	229
8.2	Creation of Radioactive Particles . . . . .	231

8.3 Weather and Fallout .....	234
