

Build Your Own Keyword Density Checker with Python & AI

Create an AI-powered SEO tool without coding.

Based on [Build Your Own Keyword Density Checker With Python Ai No Coding Experience Required](#)
by Casey Builds It

Scans websites for keyword frequency.	Tool Function
CSV file with keyword counts per page.	Output Format
AI-assisted coding with Cursor.	Development Method

Automate SEO Research

Quickly check competitor keyword usage across their entire site, saving hours of manual work.

No Coding Required

Uses plain-English prompts with AI to generate Python code, making it accessible to non-programmers.

Practical Application

Identifies content gaps and optimization opportunities by comparing keyword density with competitors.
