

Build Your Own Broken Link Checker with Cursor AI

Create a free, no-code broken link checker tool in minutes.

Based on [Build A Free Broken Link Checker Tool With Cursor Ai No Coding Experience Needed](#) by Casey Builds It

Why Build Your Own Tool?

Instead of paid crawlers like Screaming Frog, building your own tool can save money and offer a more _____ experience.

Tool Functionality

The broken link checker scans a website and flags both _____ and _____ links that are broken.

User Interface

The tool includes a simple _____ so users can run scans and see results without touching any code.

Exporting Results

Scan results are automatically exported into a clean _____ file, named with the site's domain and a _____.

Standalone Application

The Python script can be converted into a standalone _____ application, meaning it can run on any Windows machine without needing _____ installed.

Time to Build

According to the article, you can build a working broken link checker with Cursor AI in about _____ minutes.

Future Enhancements

One idea for leveling up the tool is scheduling ____ scans to run on a regular basis.

Part of a Series

This broken link checker is the next piece in a series focused on building a complete free ____ toolkit.
