

Free Schema Validator Tool Workbook

Learn to audit SEO schema errors efficiently with a custom-built tool.

Based on [Free Schema Validator Tool Built With Cursor Ai Find Seo Schema Errors Fast](#) by Casey Builds It

The Problem with Schema Auditing

According to the article, what are the two main challenges of checking schema markup across an entire website manually?

Tool's Core Functionality

Besides checking a single URL, what other input methods does the tool support for schema auditing?

Data Extraction

What two types of structured data does the tool fetch and parse from HTML?

Validation Method

Instead of using Google's API, what does the tool use to flag critical schema issues?

Live Testing Integration

After flagging issues, where can users send pages for a live, side-by-side test?

Result Management

What feature allows users to reference past findings and track fixes over time?

Target Audience

Who is this tool particularly useful for, according to the article?

Key Benefit

What is a significant advantage of using this tool compared to other solutions, as mentioned in the article?
