

Generate Compliant Betting Sponsorship Disclaimers

Automate the creation of betting sponsorship disclaimers to avoid channel strikes.

Based on [Creators Are Risking Strikes With Bad Betting](#) by Casey Builds It

Step 1: Understand the Risk

Recognize that betting, gambling, supplement, or merch promotions without proper disclosures can lead to channel strikes, demonetization, or flagging.

- Ensure your disclosure is compliant with platform rules.
- A vague disclaimer or missing restrictions can trigger a review.

Step 2: Identify Required Information

Gather all necessary details for the disclaimer, including sponsor name, sponsorship type, promo codes, promoted link, age restrictions, and allowed regions.

- Note any extra details or specific requirements for the deal.

Step 3: Use the Disclaimer Generator

Input the collected sponsorship details into the generator tool.

- This tool standardizes the disclaimer creation process, removing guesswork.

Step 4: Generate the Disclaimer

The tool will output a ready-to-use disclaimer based on the provided information.

- Drop the generated disclaimer directly into your video description.

Step 5: Enhance with Advanced Options (Optional)

For more detailed and customized disclaimers, connect a Gemini API key to the generator.

- This upgrades the output from a standard template to a more in-depth version.

Step 6: Review and Implement

Ensure the generated disclaimer accurately reflects your sponsorship terms and complies with platform guidelines.

- Double-check that all specific restrictions (age, region) are included.

Step 7: Adapt the Build Process

Understand that the prompt structure used to build this tool can be adapted to create other compliance or documentation tools for your workflow.

- This process can be run locally on your machine.
