Brighton Plumbers SEO Comparison

Strategies for Local Plumbing Businesses to Rank Higher on Google

Based on Brighton Plumbers Seo by Casey's SEO

Factor	Current State (Common Mistakes)	Recommended Actions	Casey's SEO Approach
Visibility in Local Search	Invisible to customers searching 'emergency plumber near me'	Show up in the map pack and organic results for Brighton searches	Audits and optimizes Google Business Profile for maximum visibility
Website Relevance	Outdated website, not mentioning Brighton specifically	Website must clearly state service in Brighton (headlines, service pages)	Adds Brighton-specific pages and ensures NAP consistency
Google Business Profile Optimization	Profile claimed but forgotten, not updated	Fill out every field, post updates, add photos, get reviews	Completes profile optimization, posts, and photo additions
Customer Reviews	No system for collecting reviews, leading to few new ones	Implement a system to make reviews easy for happy customers (direct link)	Sets up a consistent review generation system
Citations	Inconsistent or outdated information on directories	Ensure accurate NAP data on 30-40 key local directories	Builds and cleans up citation profile on relevant directories
Google Ads vs. SEO	Wasting money on broad keywords and poor targeting	Focus on SEO first for compounding, long-term results	Prioritizes SEO foundation before considering ads
Time to See Results	Giving up too early (before 3-6 months)	Requires 3-6 months for momentum, with early wins possible	Focuses on fixing issues and building momentum over time
Website Technicals	Slow loading times on mobile, large images	Website must load fast on mobile and have visible contact info	Ensures website is mobile-friendly and loads quickly
NAP Consistency	Inconsistent Name, Address, Phone number across platforms	NAP must match exactly on website, GBP, and directories	Cleans up NAP data for consistency across all platforms
