

Local SEO Process for Brighton Dentists

Attract more patients and grow your dental practice through effective local SEO.

Based on [Local Seo For Brighton Dentists](#) by Casey's SEO

Step 1: Optimize Google Business Profile (GBP)

Ensure your GBP is fully optimized with accurate business information, relevant categories, services, and updated photos. Regularly post updates and monitor reviews to maintain an active presence.

- Your GBP is the most crucial element for local search visibility.
- Ensure your profile looks active and ready to accept new patients.

Step 2: Enhance Online Reviews

Implement a system to encourage happy patients to leave reviews. Respond promptly to all reviews, both positive and negative, to build trust and social proof.

- Reviews are trust signals that influence patient decisions.
- Make it easy for patients to leave feedback after appointments.

Step 3: Mobile-Friendly Website Optimization

Ensure your website loads quickly on mobile devices, has easily tappable buttons, a prominent phone number, and a clear call to action for booking appointments.

- A slow or difficult-to-navigate mobile site will lose potential patients.
- Your website's primary job is to make it easy to contact you.

Step 4: Build and Clean Up Citations

Verify and ensure consistency of your business name, address, and phone number (NAP) across all online directories (e.g., Yelp, Healthgrades). Correct any inaccuracies or incomplete listings.

- Inconsistent NAP data hurts your local rankings.
- This is essential work for Google to trust your business information.

Step 5: Target Relevant Local Searches

Identify and optimize for the specific search terms Brighton patients actually use when looking for dental services, such as 'dentist near me' or 'emergency dental care Brighton'.

- Focus on searches that lead to phone calls, not just general keywords.
- Understand the real search behavior of people in your local area.

Step 6: Ensure Website Content Reflects Local Focus

Make sure your website clearly states that you are a Brighton-based dentist and details the services you offer to local patients.

- Google needs to understand you serve the local Brighton community.
- Answer the searcher's question: 'Can this dentist help me today?'
