

SIX MM EXTERIOR LAMINATES (HPL)

by

DECORATING

THE DECORATIVE STORY

Dear customer, it's our privilege that you have selected advance laminates for your surface decoration requirement. We have over 300 options in various finishes for your residential & commercial spaces be it your drawing room, bedroom, kitchen, wardrobe, office or showroom, we have everything for all needs. Utmost care has been provided while manufacturing each & every sheet because we understand the emotion of the end users while selecting the design. This presentation also has QR codes given with each design if you wish to see the full sheet view of any design. Also we have given an application book that will help you while selecting the designs according to a particular application.

HAPPY DESIGNING!

SURFACING SOLUTION *for* EXTERIOR

Endless Possibilities with High pressure Laminates for exterior wall cladding.

ADVANCE EWC is a laminated panel for exteriors that requires zero maintenance. The panels combine the virtues of wood, its natural warmth and beauty, with technical requirements to ensure optimum performance on exteriors over time. ADVANCE EWC can be installed as a ventilated facade by way of overlapping slats, on false ceilings and on curved walls.

Make a great impression of your building's exterior. Don't leave any surface unattended. Our high-pressure exterior grade wall cladding panels ensure design flexibility and offer the durability you need for exterior designs.

When it comes to designing for an exterior, high-quality is a prerequisite. You want a decorative facade that can meet extreme requirements.

With ADVANCE EWC, you can also gain the peace of mind that you're working with a sustainability company.

PRODUCT DESCRIPTION

• **ADVANCE EWC (HPL)** is made with special type of synthetic polymers with UV resistant filmed layer that provides superior weather ability, excellent UV-absorbance and heat resistant performance.

— UNMATCHED — FEATURES

			
FIRE RETARDANT	ANTI-DUST	TERMITE RESISTANT	ENERGY EFFICIENT
			
CHEMICAL RESISTANT	MATCHING RIVETS	MOISTURE RESISTANT	ACOUSTIC RESISTANCE
			
ENVIRONMENT FRIENDLY	RESISTANCE TO ACID RAINS	ANTI-BACTERIAL & ANTI-FUNGAL	EXCELLENT ANTI-GRAFFITI
			
CAN WITHSTAND EXTREME TEMP. CONDITIONS FROM -60OC TO +80OC		SUPERIOR LIGHT FASTNESS PERFORMANCE (UV RESISTANCE)	

EXPLORE The HPL on exterior

A wonderful product with multiple possibilities of cladding.

with **ADVANCE HPL** you can decorate your external wall surface and protect it against heat, rain dust. **ADVANCE HPL** not only beautify the external wall but also protect it to save energy. You can use it on external surface of your exterior.

Areas of use in exterior wall cladding:

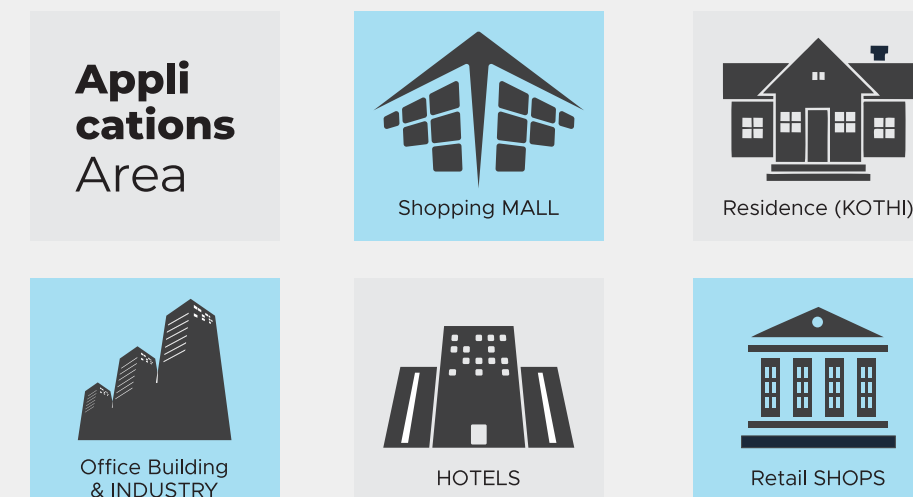

Apart from above motioned areas it can also be used as following

- Partitions- Railings - Fences - Outdoor Furniture
- Public Facilities - Playground Facilities
- Sports Facilities - Sun Protection System
- Office Entry Portals - Windows

MULTIPLE APPLICATION POSSIBILITIES

ADVANCE HPL CONSTRUCTION

NOT ONLY BEAUTIFY BUT ALSO KEEPS EXTERNAL WALL COOL THUS PREVENT EXTERNAL HEAT TO COME INSIDE. ADVANCE EWC PREVENT DIRECT HEAT TO FALL ON BASE WALL THAT PROVIDES MORE COMFORTABLE ENVIRONMENT & SAVES THE SIGNIFICANT ENERGY.

CERTIFICATE and accolades *Proof of our excellence*

SPECIFICATIONS

1. Aluminium cube channel should be of 50x25x2mm thick or 38x38x2mm thick. Every junction of two panel's aluminium cube channel 63x38x2mm thick or 75x38x2mm thick. (channel should be powder coated anodized)
2. Channel fixing will be fixed using 100mmx10mm anchor bolt on the wall in distance of 900mm c/c. Riveting hole on sheet should be 8mm.
3. Riveting hole on channel should be 5mm. Riveting distance between each rivet in horizontal 450mm-600mm c/c in elevation.
4. Riveting distance between each rivet in vertical 300mm-450mm c/c in elevation.
5. For the edge plank. Riveting distance between each rivet is 300mm-450mm c/c in ceiling.
6. For the start point from the edge of the wall, Riveting point marking will be 25mm in horizontal and 50mm in vertical in order to match the centre of the aluminium section.
7. Groove or Gap between each panel in horizontal & vertical should be 4mm-6mm..

CARE AND MAINTENANCE :

To clean the surface, use a damp cloth or sponge and a mild soap or detergent. The use of cleaners containing abrasives, acids or alkalis may damage the decorative surface. Being anticorrosive and antibacterial in nature of cladding, there is no special maintenance apart from cleaning is required.

WARRANTY:

The Company provides the warranty to the consumer/purchaser for 11 years ("to retain the laminate properties as per requirement of: (EN438-6:2005) standard specified for exterior grade) after date of purchase that, under normal use and service, EWC (HPL) Laminate Sheets are free from manufacturing defects and confirm to specifications. This Warranty is not transferable and applies only to a EWC Laminate sheet and is extended only to, and may be enforced only by, the consumer/purchaser. Proof for date of purchase is required to avail warranty. This warranty shall not apply to damage arising from improper fabrication or installation, improper maintenance or repair, accidents, abuse or misuse. Slight homogeneous variation in color may take place in course of time. In case of any dispute or difference which arises out of these warranty terms, the same shall be exclusively subject to the jurisdiction of the courts of law in Delhi, India. Company warrants that its products are of high quality standards. Nevertheless, in case of any product complaints the company's liability will be limited to the cost of its products only. In no event shall its company or its dealers/stockists be liable for any other loss or damage arising out of its products.
