

PARÉ

**Baffle**  
New-Age Ceiling System

# About us

Welcome to **PARÉ** Innovations, where craftsmanship meets innovation to redefine architectural excellence. As a premier player in the building materials sector, we specialize in crafting high-quality surfaces for ceilings, walls, and facade systems. Our commitment to pushing the boundaries of design has positioned us as leaders in India's ever-evolving architectural landscape.

At **PARÉ**, Innovation is not just a goal; it's ingrained in our DNA. With a relentless pursuit of excellence, we continuously introduce groundbreaking surfaces that captivate the imagination and set new benchmarks in the industry. Strategically headquartered in bustling Mumbai and boasting a state-of-the-art manufacturing facility near Vapi, Gujarat, we are poised to meet the diverse needs of our valued clients with unparalleled efficiency and precision.

Our journey is rooted in a rich legacy of industry expertise. Founded by visionaries with deep-seated roots in the building materials realm, **PARÉ** has emerged as a pioneer in the Innovative Products revolution. Join us as we embark on a journey to shape the future of architecture, one innovative surface at a time.

# Manufacturing Facility

Step into the future of manufacturing excellence with **PARÉ** Innovations. Nestled within our state-of-the-art facility lies the beating heart of cutting-edge technology, meticulously engineered to bring forth products of unparalleled quality.

At **PARÉ** Innovations, we don't just manufacture products; we pioneer them. Leveraging advanced European manufacturing technology, we proudly introduce a diverse range of groundbreaking products, setting new benchmarks in innovation and quality.

Being the first of our kind in India for many of our offerings, we stand as trailblazers in the industry, continuously pushing boundaries and redefining standards. Our unwavering commitment to excellence has earned us a prominent position as a leader across various sectors.

Join us in shaping the future as we continue to inspire, innovate, and lead the way towards a brighter tomorrow.

**Experience the **PARÉ** Innovations difference today.**

# Innovation

## Identify Consumer's Pain Points

- Conduct market research.
- Gather consumer feedback.
- Analyze data to pinpoint specific issues.

## Develop Solutions

- Brainstorm and design innovative products.
- Prototype and test solutions.
- Refine based on initial testing.

## Manufacture in India

- Set up production facilities.
- Ensure high-quality manufacturing standards.
- Focus on catering to the Indian market.

## Export Globally

- Adapt products for international markets.
- Comply with global standards and regulations.
- Distribute to key markets worldwide.

## Continuous Improvement

- Collect ongoing market feedback.
- Analyze feedback for actionable insights.
- Implement improvements and innovations.

## First Time In The World

**PARÉ** leads the way with groundbreaking solutions that rewrite the rules. We take pride in introducing 7+ First time in World products that are truly revolutionary. From pioneering materials to visionary designs, we set new benchmarks, making history with every innovation.

## Research & Development

Research and Development are at the core of **PARÉ**'s ethos. We believe in the power of innovation through rigorous experimentation and exploration. By collaborating closely with architects and interior designers, we gain invaluable insights that drive our R&D initiatives. Together, we strive to create perfect solutions tailored to meet the unique needs of our clients, pushing the boundaries of design and functionality.

## Sales Support

Enhance your project with our comprehensive Sales Support services. We offer stunning site images, detailed 3D renders, precise technical drawings, accurate material calculations, and expert installation support. Transform your vision into reality with our professional and reliable solutions tailored to meet your needs.

Innovative New-Age Solution

# Baffle

Discover the future of architectural elegance with our new age Polymer Baffle Ceiling. Engineered for excellence and designed to inspire, this innovative ceiling solution seamlessly blends aesthetics with functionality. Transform any space with customizable panels that offer limitless design possibilities. Elevate your environment with the versatility and sophistication with **PARÉ** Baffle Ceiling today.

# Baffle Components

Welcome to a new era of ceiling design with our innovative Baffle Ceiling System. Simplifying installation without compromising on style, our system comprises of three essential components: **Baffle Bottom**, **Baffle Top** and **Finishing Cap**.

## Baffle Top

Enhance the aesthetic appeal of your space with the **Baffle Top** the epitome of sophistication. Using a unique overlapping technique, it seamlessly integrates with the Baffle Bottom, adding a touch of elegance and refinement to your ceiling.

## Baffle Bottom

Designed for effortless installation, the **Baffle Bottom** serves as the sturdy foundation of our system. Easily mounted onto GI framing or directly onto the ceiling, it provides stability and support, ensuring a hassle-free setup process.

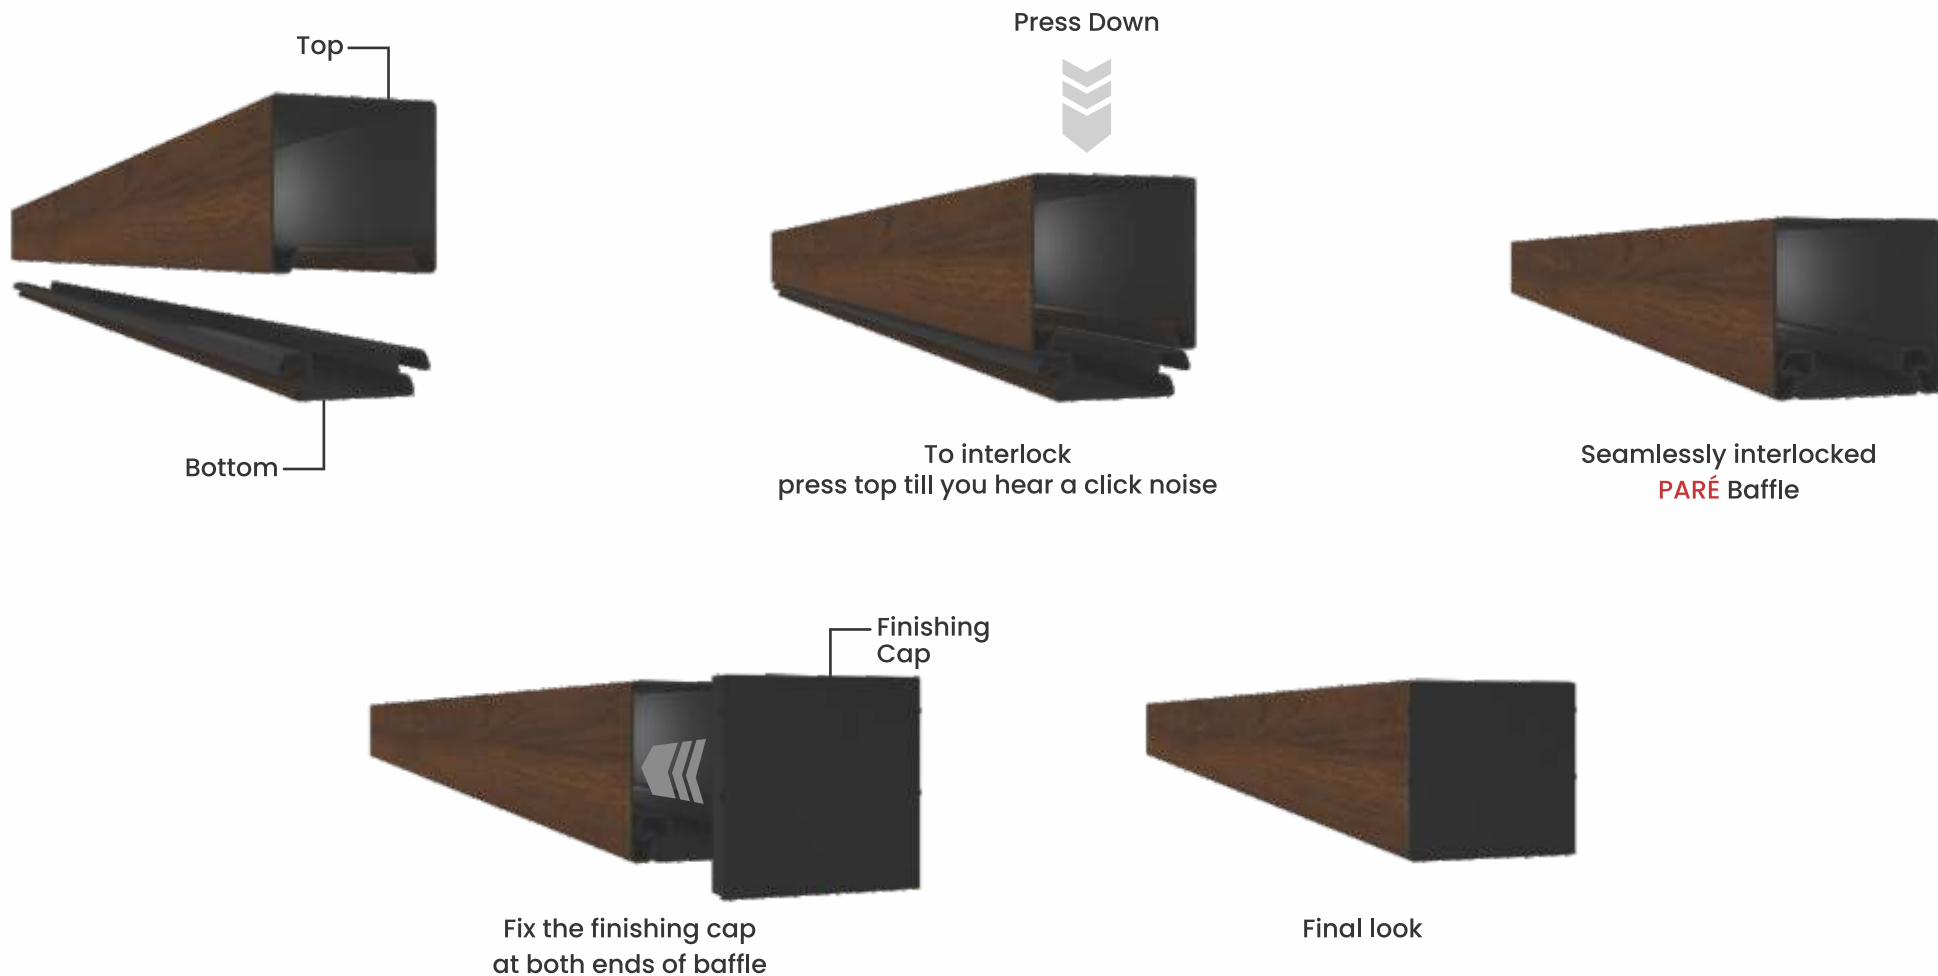

## Finishing Cap

Complete the look with our **Finishing Cap**, designed to cover both ends of the baffle. This component provides a finished appearance and protects the hollow portion from dust and other debris. Available in a standard matte black color, the Finishing Cap ensures your baffle ceiling maintains its pristine condition.

# Baffle Interlocking

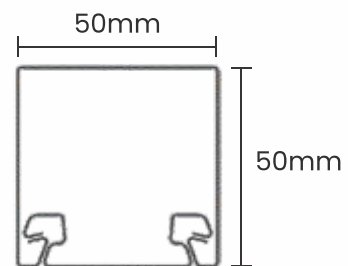

Introducing our innovative Baffle Interlocking system revolutionizing the way Baffle ceilings are installed. With interlocking panels, installation becomes a breeze, using our click lock system. Say goodbye to visible seams and hello to effortless elegance. Experience the ease and beauty of Baffle Interlocking where installation meets perfection.

# Why to Choose **PARÉ Baffle?**

## **Easy to Assemble**

Simple and straightforward assembly process for hassle-free setup.

## **Quick & Easy Installation**

Speedy and effortless installation, saving time and effort.

## **Waterproof**

Resistant to water damage, ensuring durability and longevity.

## **Fire Retardant**

Safety is paramount. Our panels are specially engineered to be fire retardant providing added protection and peace of mind.

## **Real Wood Look**

Authentic wood appearance, adding natural charm to any space.

## **Cost Effective**

Affordable solution without compromising on quality or performance.

## **10 Year Warranty**

Long-term peace of mind with a 10-year warranty against defects.

## **Termite Free**

Say goodbye to termite worries. Our panels are meticulously crafted to be termite-proof, ensuring longevity and durability.

# Why to Choose **PARÉ Baffle?**

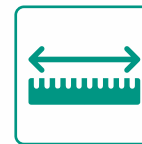

## **Light Weight**

Experience ease of handling and installation with our lightweight panels, making your project smoother and more efficient.

## **Custom Shade**

Choose from our large range of 45+ shades offered containing wooden, pastel, marble, metallic and fabric shades.

## **Custom Length**

Made-to-measure options available to fit individual project requirements precisely.

## **Anti Bacterial**

Maintain a hygienic environment with our anti-bacterial panels, designed to inhibit the growth of harmful bacteria for a healthier space.

## **No VOC**

Breathe easy with our VOC-free panels, contributing to better indoor air quality and a safer living environment.

## **Lead Free**

Committed to your well-being, our panels are manufactured without lead, ensuring they are safe for you and the environment.

## **First Time In The World**

Groundbreaking innovation, introducing a pioneering product for the first time globally.

## **Maintenance Free**

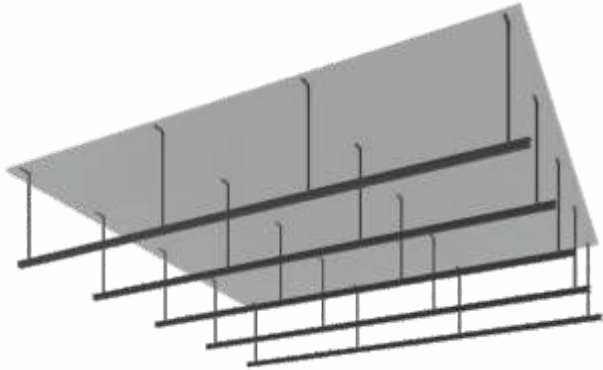

Enjoy hassle-free upkeep with our maintenance-free panels, requiring minimal cleaning and care to maintain their pristine appearance over time.

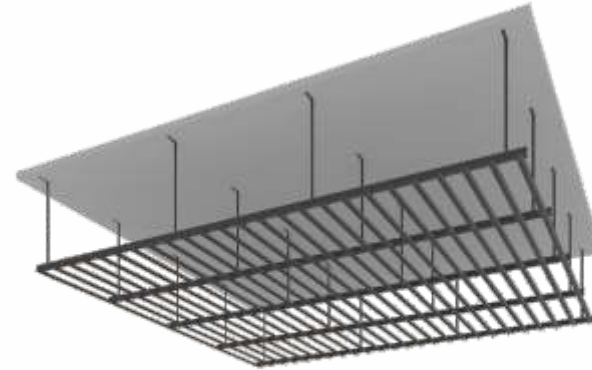

# Installation Of PARÉ Baffle on GI Framing

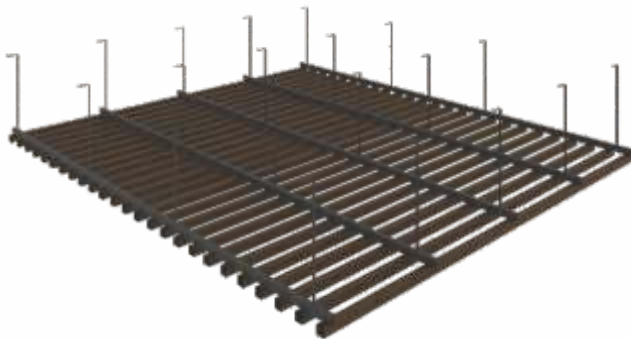

Install the Intermediate channel on ceiling angle with spacing of 600mm between the intermediate channels

1.

Baffle bottom to be screwed on Intermediate channel, at a distance of 50-150mm center to center, depending on site specifications

2.

Interlock the Baffle Top with the Baffle Bottom sequentially, one after another, using the click-lock system

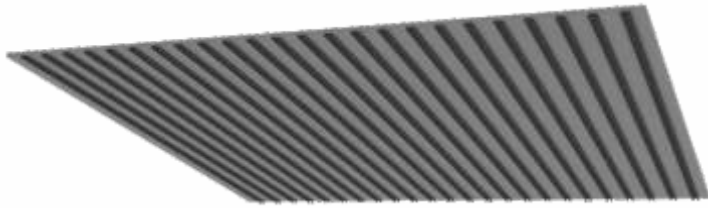

3.

Attach the Finishing Cap at both ends to complete the installation. Here is the final appearance of the PARÉ baffle on the ceiling with GI framing.

4.

# Installation Of PARÉ Baffle directly on ceiling

Screw the baffle bottom directly onto the ceiling, maintaining a distance of 50-150mm center to center. Depending on site specifications

1.

Interlock the Baffle Top with the Baffle Bottom sequentially, one after another, using the click-lock system

2.

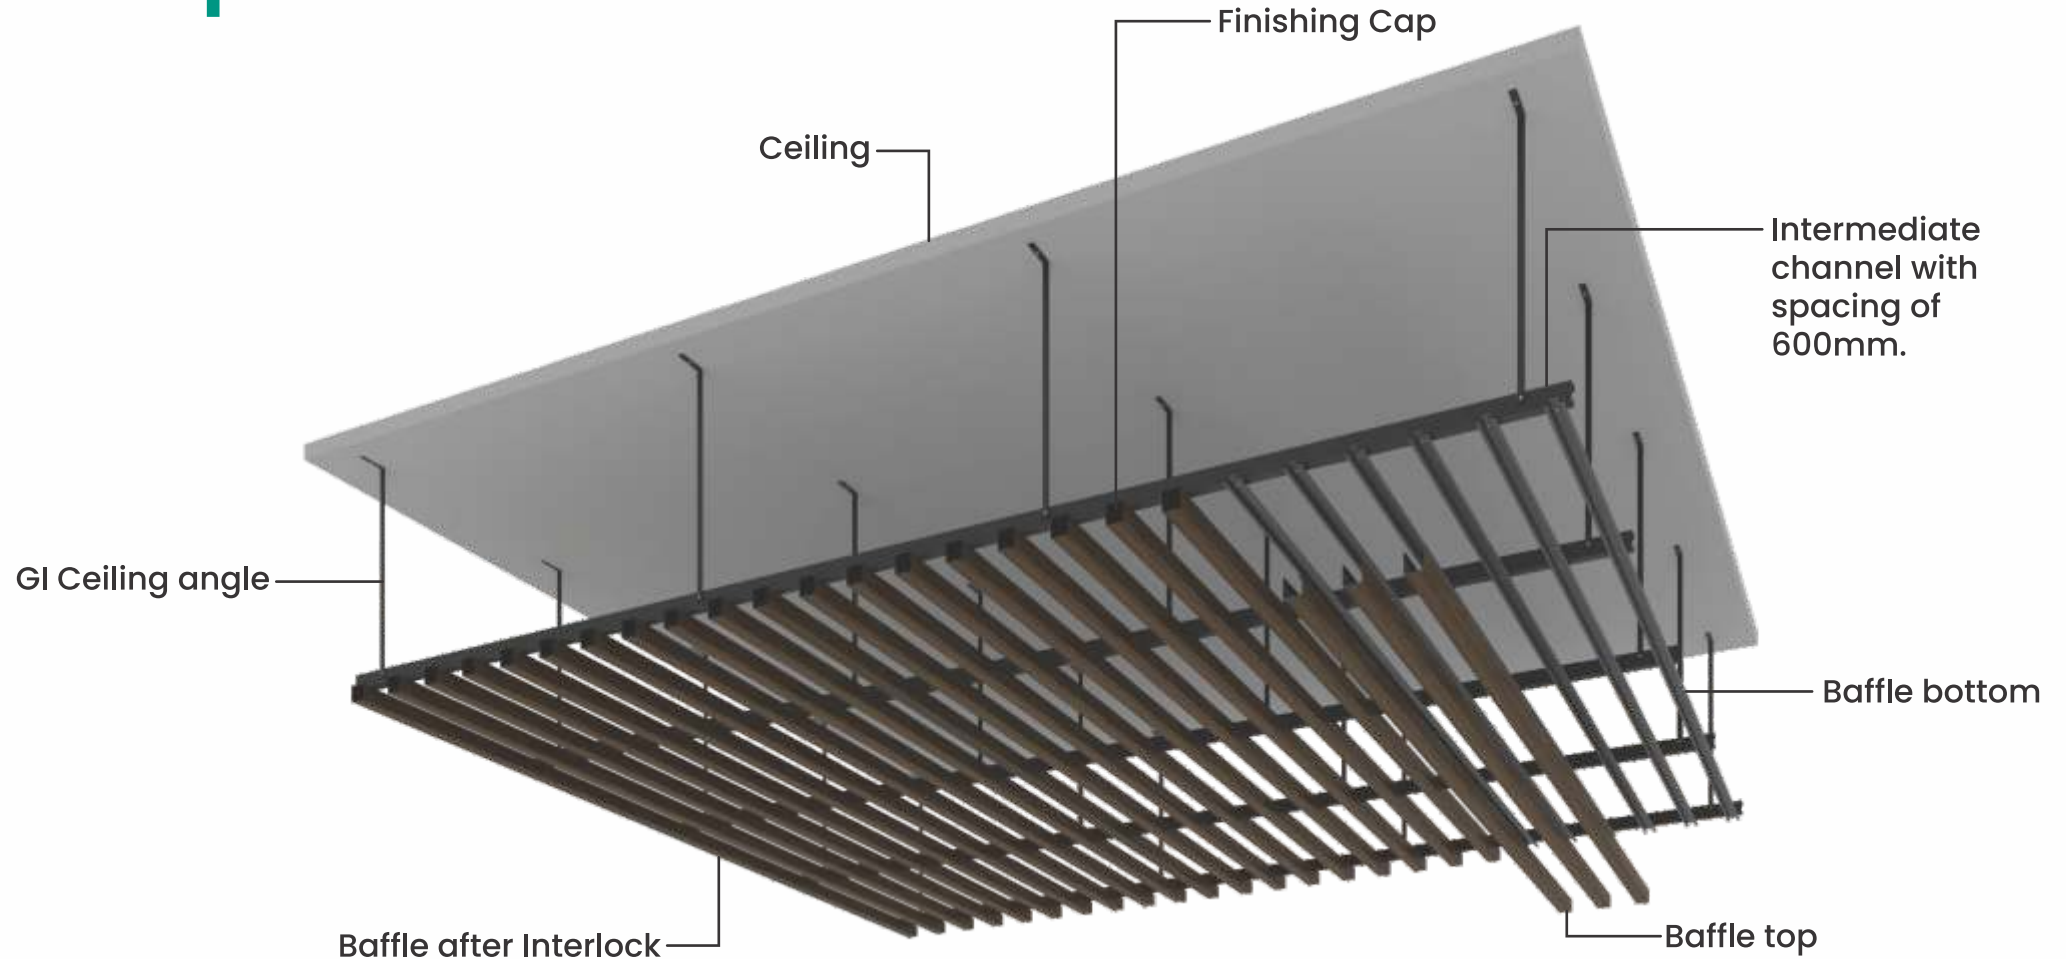

Attach the Finishing Cap at both ends to complete the installation. Here is the final appearance of the PARÉ baffle on the ceiling with GI framing.

3.

# Baffle Installation Component

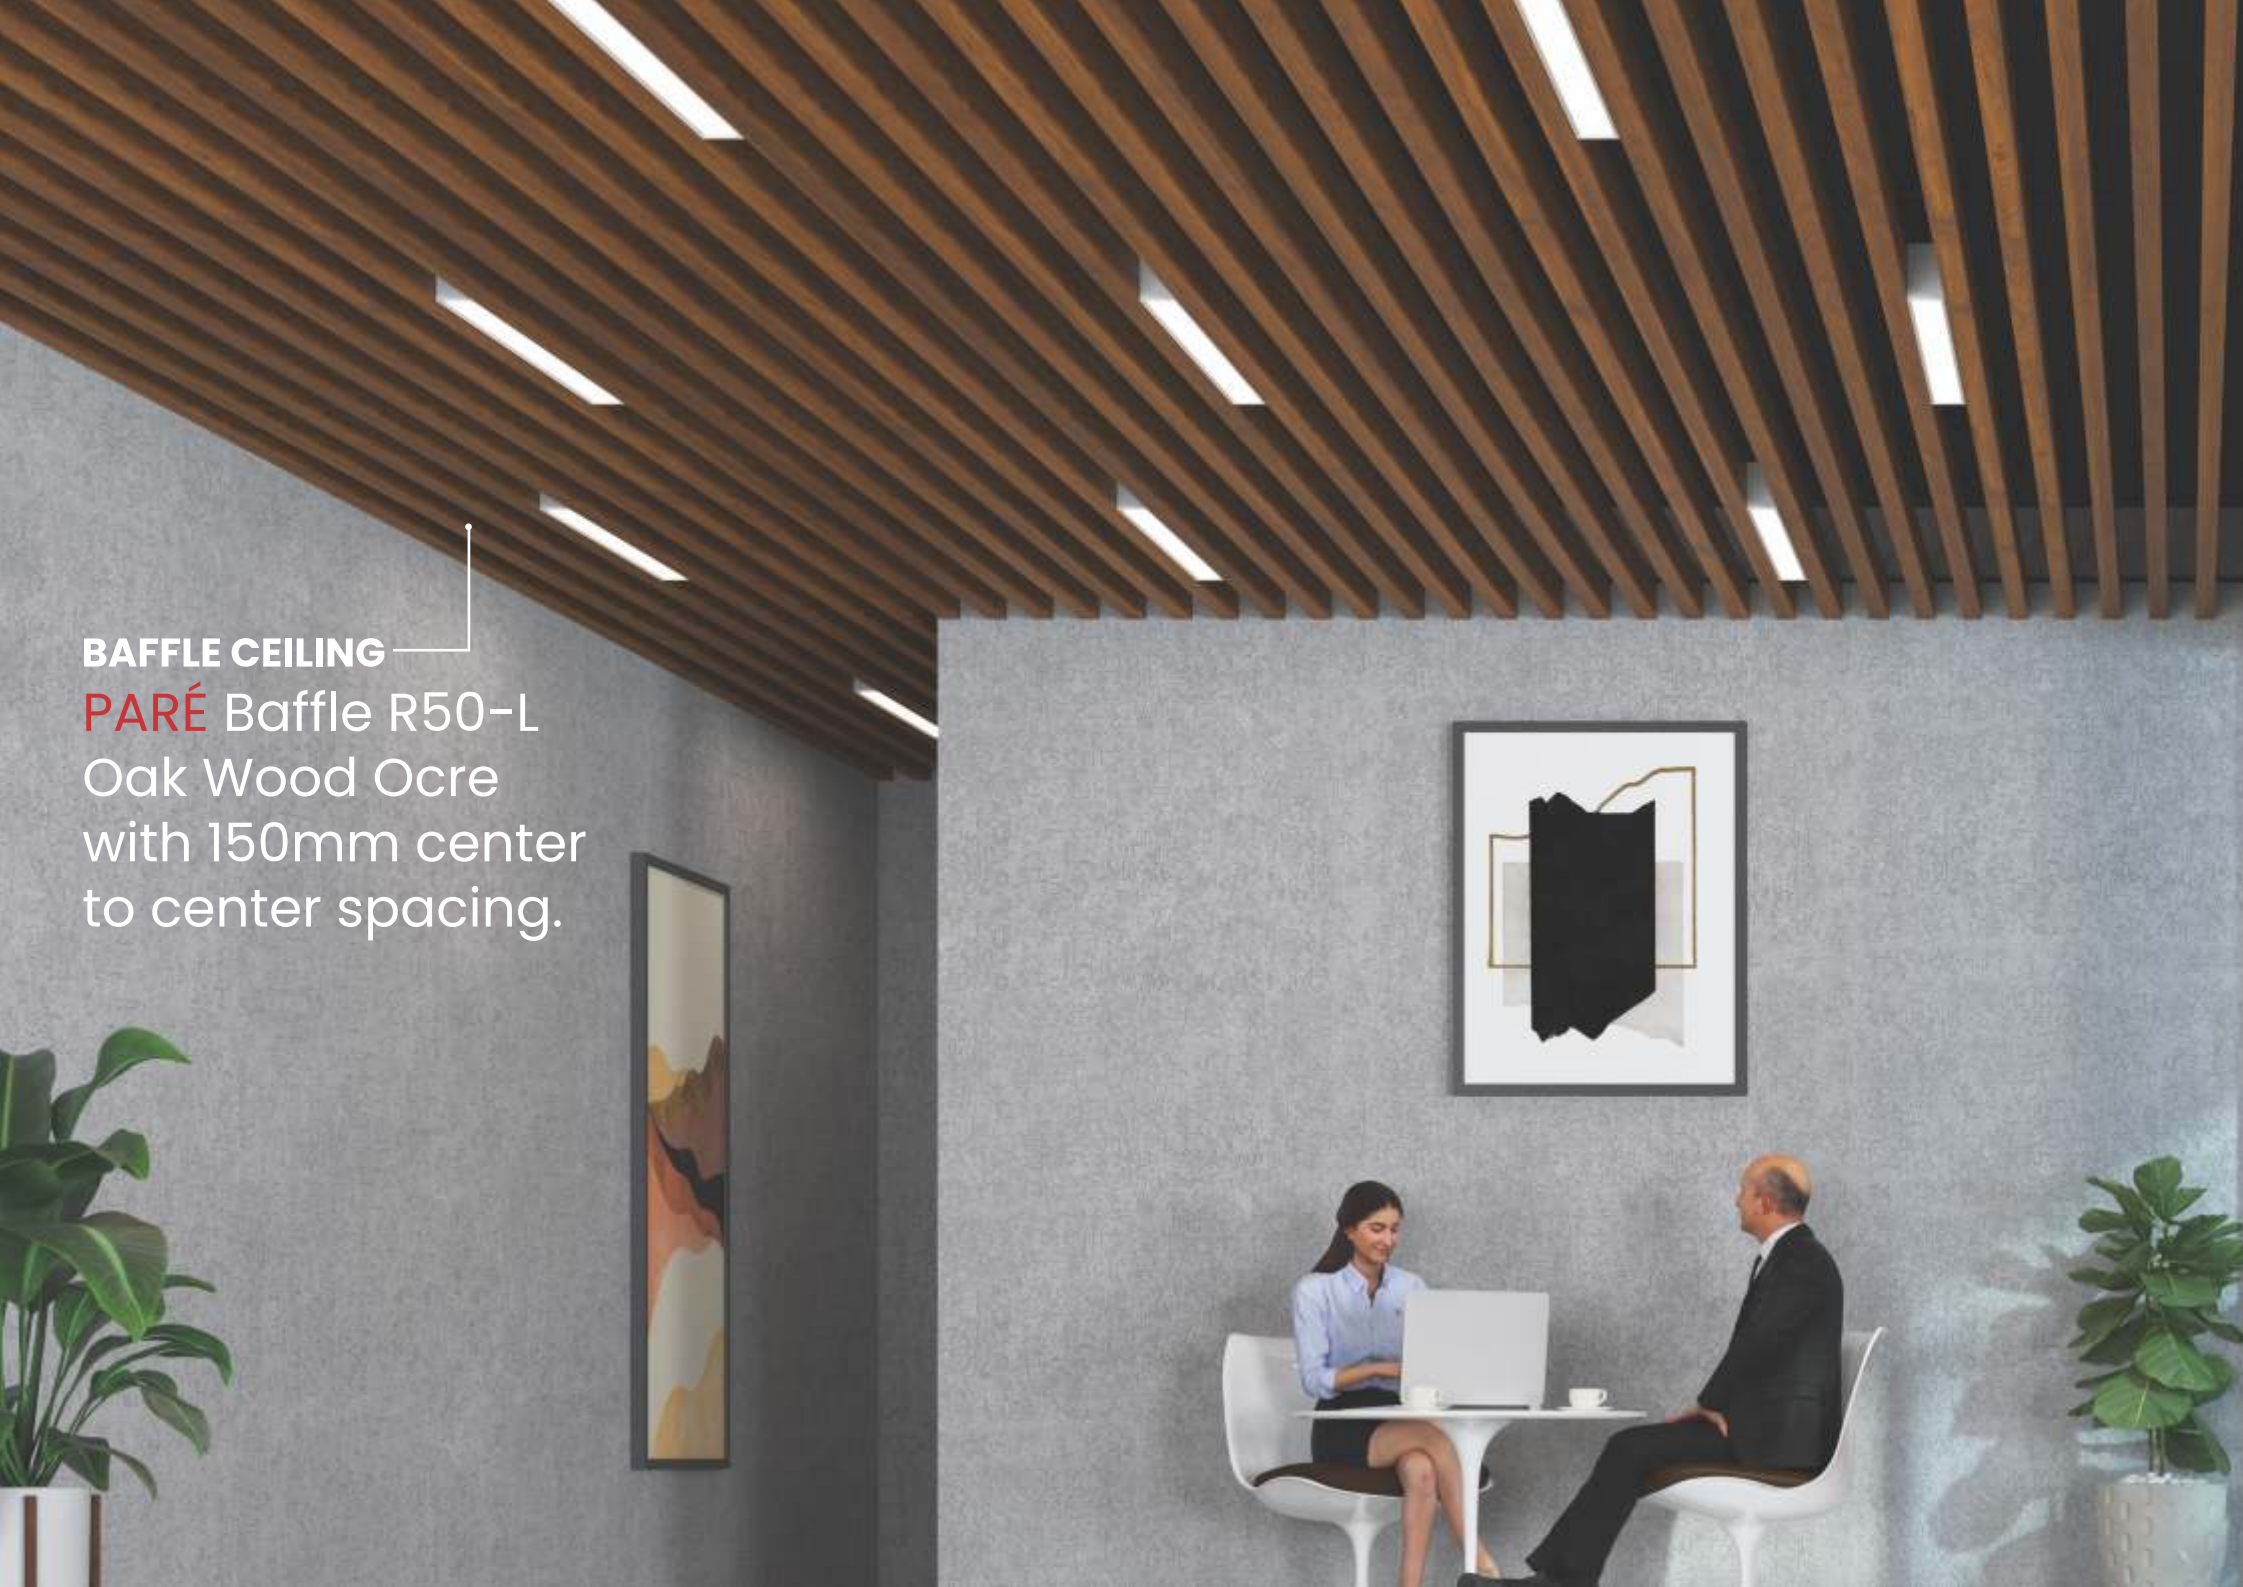

# Comparison Chart

Features	PARÉ Baffle	WPC Baffle	Aluminum Baffle
