PROPERTIES

Climate shock Resistance : Trend Clad is resistant to sudden change in temperature and humidity of the atmosphere, and maintains its physical and mechanical properties remaining firm for long.

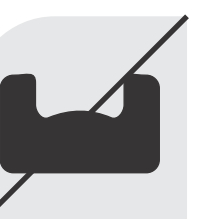

UV Resistance : A special UV protected treatment makes Trend Clad UV resistant, with its special effect, the surface doesn't lose its color when exposed to direct sunlight for long periods.*

Weather Resistance : Trend Clad is highly weather resistant as there is no effect on the surface or the core of the clad material when exposed to extreme weather conditions. It stand firm in high/low temperature or high/low humidity levels.

Graffiti Resistance : Trend Clad is graffiti resistant , any writing marks made on the surface can be easily removed with diluted solvents.

Corrosion Free : Trend Clad is absolutely corrosion free unlike other external covering products.
