

The Select Deck by Alfresco is the future of sustainable timber decking. They are a combination of ground breaking sustainable design & state of the art production.

Produced in India by Himalaya Global in the advanced 80,000 Sq ft production plant ,Select Deck panels are composite decking made of 60% natural timber and 40% recycled polymer. The panel's construction is a wood plastic composite (WPC)

The Select Deck panels are designed to to look like natural wood but need zero maintenance.

Select Deck is produced in Twin usable surface, One side is a thin grooves and another is a spaced grooves; both beautiful and usable as per design preference.
