Title of Project: Dualess Split/Merge Extension Tutorial

Target Audience: Individuals working from remotely/Individuals needing a split screen without two monitors

Directions for Reviewer(s):

- The tutorial has been split into scenes to chunk the information to review easily.
- Please read over the audio script and text on screen to check for accuracy, realistic situations and dialogue, and completeness. These videos will be inside the course and their locations are listed on the storyboard.
- Track Changes is on. Please make any simple corrections within the script or the text on screen columns.
- Use the "Comments" feature to ask questions or make comments on larger issues within the script or on-screen text.
- In the left column is the audio script. This will have a conversational tone. If it doesn't sound correct, try reading it out loud to see if it does. If not, make changes as needed. The numbers in the script are for the video maker to know where to place the images and graphics and will not be read aloud.
- In the middle column is the Text on the screen. *Grammatical and spelling errors matter here* please correct any mistakes you find in this column. The actual text that will be on screen is highlighted in yellow, bolded, and in italics for easy recognition.
- The last column contains the images, graphics, and animations that will occur. The numbers indicate where in the audio narration the image or animation will appear.

	Follow the steps to install the Dual Less Google Extension app on your laptop or desktop.	
	[3] image of shape with 2^{nd} objective	
	text on the shape. Same shape as	
	above.	

	Pin the extension to your toolbar for easy access and use the extension to split and merge your screens on your computer.	
Scene 5 – tutorial intro (installing the extension)The first thing you will need to do is make sure youhave a Google account and are signed in.We are going to start by opening a new tab.Once you have your tab opened, click on the threedots in the far-right corner of your screen.From there, click on the arrow or you can hover overthe extension section and choose Visit Chrome WebStore.Once the Chrome Web Store has opened, click in thebox that is titled Search the Store.In this box type dual less.You will see a few options that are available. You canchoose which extension app you prefer, but fortoday's tutorial we are going to choose the firstoption.Click on the blue rectangle that says Add toChrome. This will download the extension on yourcomputer. You will see a confirmation popup toensure that you would like to add the extension.Confirm by clicking Add to Chrome.It will now inform you that the extension has beenadded to your computer and you are ready to use theextension.	 [1] screen recording of Google screen [2] arrow with text pointing at Google account Sign into your Google Account [3] highlighter on dots and titles [6] arrow with text directions Type Dualless [7] screen changes to the dualless extension option 	 [2] arrow flies in from left and points to Google account on screen [3] screen zooms in on the 3 dots in right corner and highlights the dots [4] highlight revels over "extension" and "visit chrome web store" [5] zoom out after the learner clicks on the web store. [6] arrow flies in with text to search bar [7] arrow flies in from bottom to "add to chrome" button [8] red circle appears on button to "add extension" [9] screen shifts to the tabs for the next section

Scene 6- pinning the extension in the toolbar	[1] Lowes' website and Google Sheet	[2] screen zooms in on extension icon in
I like to add the extensions that I frequently use so	tabs	toolbar
that I do not have to continue to search and find them.	[3] arrow to highlight the area	[3] arrow appears pointing to extension
Let's pin this extension on your toolbar to make it	[4] smaller arrow appears	[4] smaller arrow flies into direct learner
easier for you to access and use when you need it.	[5] full screen of Lowe's Website tab	to click and pin the dualless icon
To do this, you simply click on the icon that looks like a		[5] screen zooms out to full screen view
puzzle piece in the top right section of your toolbar.		
This is where any extension that you have added will		
be found.		
Next go to the dual less icon and on the right click on		
the push pin icon. This pins that extension on your		
toolbar. Now, each time you open a tab, this extension		
will be there for easy access.		
Scene 7- Using the extension	[1] Google Sheet tab with red circle	[1] red circle circles the tab to direct the
Now that we have the extension installed and pinned	that aligns with audio	learner and aligns with audio
on your toolbar, let's walk through how to use the	[2] Lowe's Website tab with red circle	[2] red circle circles the 2 nd tab to direct
extension.	that aligns with audio	the learner and aligns with audio
For today's tutorial, I am using a Google Sheet that I	[3] Google Sheet is full screen	[3] screen shifts to Google Sheet
have been inputting building material prices from a	[6] list of ratio options appears on	
variety of places and the Lowe's website so I can	screen	[4] Screen zooms in on the dualless icon
compare some of those prices.	[7] full screen of Google Sheet	with audio
First, click on the tab that you would like to have	[9] the Google Sheet tab and the	[5] arrow flies in with audio to direct
displayed on the left of your split screen.	Lowe's Website tab appear on the	learner where the icon is located
I want my spreadsheet on the left so I will choose that	screen. Each tab takes ½ of the screen	[6] ratio options appear
tab.		[7] screen zooms out to full screen
Now find the Dual Less extension that is located in		[8] arrow points to the chosen ratio that
your toolbar and click on the icon.		aligns with audio
Once you click on the extension you will see several		[9] screen splits 50/50 after the ratio is
options that allow you to choose the size or ratio of		clicked
each screen.		[10] audio continues to show how to use
I want both of my screens equally split, so I will choose		each tab in the split screen mode.
the 5.5 ratio option.		[11] the ratio options appear to show how
		to change to a different ration and is
		aligned with audio

I can now input the pricing for specific materials from		
Lowe's easily on my spreadsheet while having the		
website available to view at the same time.		
This makes it easy to input the prices, cuts down on		
mistakes, and saves a ton of time from having to		
toggle back and forth.		
If you need to change the ratio, simply click on the		
extension icon and change to what you would like.		
Scene 8- Merging the screens back to one	[1] both screens appear	[1] the dualless icon is chosen to display
Lastly, if you would like to merge the screens back to	[2] the one rectangle ratio option is	the ratio options
one, click on the extension, scroll to the bottom and	highlighted	[2] the one rectangle is highlighted and is
choose the one rectangle.	[3] screen is one complete screen	aligned with audio
This merges your screens back to one.		[3] learner clicks on the one rectangle to
There you have it. Now you have access and the know		return to one complete screen
how to split or merge your screens at the touch of a		
button.		
Scene 9- review of the extension and goodbye	[1] stage lighted background	[2] image flies in on left
