# Universal Economics

**ARMEN A. ALCHIAN AND WILLIAM R. ALLEN**

EDITED BY JERRY L. JORDAN

---

*Foreword by William R. Allen*

LIBERTY FUND

This book is published by Liberty Fund, Inc.,  
a foundation established to encourage study of the  
ideal of a society of free and responsible individuals.

The cuneiform inscription that serves as our logo and  
as the design motif for our endpapers is the earliest-known  
written appearance of the word “freedom” (*amagi*), or “liberty.”  
It is taken from a clay document written about 2300 B.C.  
in the Sumerian city-state of Lagash.

## CONCISE CONTENTS

---

Detailed Contents vii  
Foreword xxiii

### PART ONE: *Demand, Exchange, and Property Rights*

- 1 Welcome to Economics 3
- 2 Your Economic Society 15
- 3 Choice and Cost 33
- 4 Gains from Exchange 50
- 5 Demands and the Laws of Demand 62
- 6 The Extent of Exchange 81
- 7 Keep Your Eye on the Marginals 97
- 8 More Features of Demand 109
- 9 Some Implications of the Laws of Demand 125
- 10 Markets and Prices as Social Coordinators 133
- 11 Illustrative Applications of Demand Principles 146
- 12 Shortages, Surpluses, and Prices 157
- 13 Markets and Property Rights 171

### PART TWO: *Specialization, Production, Teams, and Firms*

- 14 Productivity and Costs of Production 197
- 15 Specialization and Exchange 214
- 16 Market Supply and Price with Price-Takers 231
- 17 Timing of Adjustments 255
- 18 Facts of Life 274
- 19 Price-Searchers 285
- 20 Price-Searcher Pricing 310
- 21 Pricing and Marketing Tactics 324
- 22 Teamwork and Firms 344
- 23 The Firm's Control and Reward Structure 363
- 24 Protecting Your Dependencies 376
- 25 Dependency Assurance by Reputation and Predictable Price 389
- 26 Prohibited Marketing Tactics 402
- 27 The Corporate Firm 420
- 28 Competition for Control of the Corporation 436
- 29 The Demand for Productive Resources 449

PART THREE: *Wealth, Rates of Return, and Risk*

- 30 Arithmetic of Capital Values 475
- 31 Series of Future Values and Annuities 490
- 32 Wealth, Income, and Interest 516
- 33 A Package Called the Rate of Interest 532
- 34 Risk and Insurance 543
- 35 The Full Equilibrium: Equalized Rates of Return 558
- 36 Determinants of the Interest Rate 571
- 37 Futures Markets 586

PART FOUR: *Employment and Inflation*

- 38 Unemployment: What and Why 603
- 39 Your Earnings: How and When 614
- 40 Labor-Market Coalitions 628
- 41 Labor-Market Constraints 644
- 42 Money, Prices, and Inflation 657

Glossary 681

## DETAILED CONTENTS

---

Concise Contents v

Foreword, by William R. Allen xxiii

### PART ONE: *Demand, Exchange, and Property Rights*

- 1 Welcome to Economics 3
  - Scarcity 4
  - Goods: Economic or Free 4
  - Self-Interest? 5
  - Competition 5
  - Our Intent 8
  - Sequence of Exposition and Unsolicited Advice for Study 9
  - Questions and Meditations 10
- 2 Your Economic Society 15
  - Rights and Property Rights 16
  - Private Property Rights 17
  - The Rule against Perpetuities 20
  - Capitalist or Socialist 20
  - Alert! Free Speech Is Not “Free Resources” 21
  - Efficiency and the “Constrained Maximum” Concept 22
  - Meaning of a “Theory” 24
  - Economic Analysis Is Positive, Not Normative 24
  - Increased or Reduced Probability and Refutable Implications 25
  - Reported versus Verified Event 25
  - Transient Lucky Event versus Basic Difference:
    - The Ubiquitous Regression Effect 25
  - Economics versus Economists 26
  - Which Economic Theory? 26
  - Economics and Biology 27
  - The Basic Unit of Analysis Is the Individual, Not a Group 27
  - Questions and Meditations 27
- 3 Choice and Cost 33
  - Definition of Cost of a Chosen Action 33
  - Personal Worth 33
  - Some Confusions That Must Be Avoided 34
  - Externalities: Uncompensated Effects Borne by Other People 36
  - Costs and Effects of Actions 36

	Choices Reflect Principles of Personal Preferences	39
	The Personal Preference Principles	40
	Questions and Meditations	42
	Appendix to Chapter 3: Indifference Curves	44
4	Gains from Exchange	50
	Trade in a Refugee Camp	50
	Less Is More: Fewer Goods, More Satisfaction	51
	Thinking about the Trade	52
	More about Personal Worth	53
	To Have?	54
	Back at the Refugee Camp, Competition Develops	54
	Promises and Dependencies	56
	Reliable General Dependency: Essential in Every Economy and Society	56
	Trade Benefits Both Parties, Not Just One at the Expense of the Other	57
	Questions and Meditations	57
5	Demands and the Laws of Demand	62
	First Law of Demand	62
	“Quantity Demanded” versus “Demand”	63
	Negatively Sloped Demand	65
	Slide versus Shift	65
	Assumptions about Actions, Not about Thought Processes	66
	Direction of Relations, Not Exact Data, Is Pertinent	69
	Why So Much Concentration on “Marginals” Rather Than Totals or Averages?	71
	Dollar Price and Relative Price	72
	Meaning of “Change in Price”	73
	Suggestive Labels	74
	Questions and Meditations	75
6	The Extent of Exchange	81
	Exchange	81
	Basis of National Policy on Market Competition	82
	Intermediaries and Transaction Costs	84
	Intermediaries’ Reduction of Full Price by Reducing Transaction Preparation Costs	85
	Markets: Open or Constrained Access?	88
	Markets — Everywhere	90
	Implications of Market Exchanges, Not Judgments	90
	Contracts and Reliable Promises: The Binding Forces of Society	91
	Questions and Meditations	92
7	Keep Your Eye on the Marginals	97
	Totals, Marginals, and Averages	97
	Cost	97
	Revenue	97
	Use the Marginal or the Average?	99
	Relations among Totals, Marginals, and Averages	99

	A Basic Principle: “The Equalization of Marginals at the Maximum Aggregated Return”	102
	Cost Minimizing	105
	Questions and Meditations	105
8	More Features of Demand	109
	Why So Much Attention to Price?	109
	Changes in Money Prices and Changes in Relative Prices	109
	Which Demand?	109
	Elasticities of Demand: Responsiveness of Quantity Demanded to the Price	110
	Remember: Elasticity of Demand Is a Measure of Movements <i>along</i> a Demand Schedule, Not a Result of a Shift in the Demand Schedule	115
	The Second Law of Demand	116
	A Fan of Demand Curves	118
	Income, Wealth, and Demand	118
	Wealth and Income Effects of a Change of Price	119
	Precisely What Is Meant by the Demanded Amount?	120
	Rate of Demand versus Aggregate Volume Demanded	120
	Questions and Meditations	121
9	Some Implications of the Laws of Demand	125
	“Needed” or “Demanded” Amounts?	125
	Indirect Implications of the Laws of Demand	127
	Alleged Exceptions to the Laws of Demand	129
	Questions and Meditations	130
10	Markets and Prices as Social Coordinators	133
	A “Market-Clearing” Price?	133
	Market-Clearing Price for Allocation of a Fixed Supply of a Good	133
	“The Market” Sets the Price	134
	The Market Demand: The Sums of the Individual Demands at Each Possible Price	134
	Irrelevance of Initial Allocation of Goods for Their Final Allocation to Highest-Valuing Users	135
	Shortages Are Not Results of Reductions in Supply	136
	Markets and “Rights”	136
	Creation of Markets	137
	Reservation Demand to Own	137
	Rents	138
	Land Rent—A Pure Surplus?	138
	Quasi-Rent	139
	“Political Rent-Seeking”	139
	Questions and Meditations	141
11	Illustrative Applications of Demand Principles	146
	Marketing Arrangements: Buffer Stocks, Reserve Capacity, Stable Prices, Waiting Times, and Price Response to Demand Uncertainty	146

- Speed of Detecting Changes in Demand or Supply: The Illusion That Cost Determines Price 148
- Who Is Responsible for Higher Prices? Look in the Mirror 149
- What Made the Price Change? Always, the Initial Question 150
- Who Bears the Tax on Land Developments — Developers or Landowners? 150
- Tax on Economic Rent? 151
- Pollution and Land Values 151
- Questions and Meditations 153
- 12 Shortages, Surpluses, and Prices 157
  - Shortages and Price Ceilings 157
  - Shifts to Nonprice Competition 158
  - Wealth Transfers versus Costly Competitive Activity 159
  - Rationing by Coupons 159
  - Price Controls on Inputs (Petroleum) Do Not Reduce the Price of Outputs (Gasoline) 162
  - Statement of a Basic Principle 162
  - The Oil Industry Divided — Some Attacking and Others Defending Petroleum Price Controls 163
  - Surpluses and Price Floors 164
  - Competitive Behavior during a “Surplus” 166
  - Implications 167
  - Questions and Meditations 167
- 13 Markets and Property Rights 171
  - How Relative Preferences Are Impressed on the Owner 172
  - Government Agencies and Private Property Rights 172
  - Two False Issues 175
  - The Rule of Private Property Rights 176
  - Protection and Preservation of Alienability 177
  - Shared Ownership 177
  - How to Become a Member-Owner? 178
  - Why Deliberately Suppress Private Property Rights of a College? 179
  - Externalities 180
  - “Public Goods” 181
  - Government Control 182
  - Public, or Group, Goods: Clubs 182
  - Privately Supplied Public Goods Financed by Tie-Ins 183
  - Charity 183
  - Questions and Meditations 185
- PART TWO: *Specialization, Production, Teams, and Firms*
- 14 Productivity and Costs of Production 197
  - Productive Ability versus Costs of Production, or Absolute Advantage versus Comparative Advantage 197
  - Measure of Cost 197

	Costs versus Productive Ability	198
	No One Can Be the Lowest, or the Highest, Cost Producer of Every Good	198
	Absolute Productive Ability versus Lower Costs	198
	Marginal and Average Costs	199
	Marginal Costs	199
	Temporary Simplifying Assumptions	199
	Ricardian Superiority and Ricardian Rent	199
	Rates versus Volume of Production: An Important Distinction	200
	Marginal and Average Costs and Their Realistic Relation to Rates of Production	200
	Arithmetic of Marginal Cost	202
	The Sum of the Marginal Costs Is the Total Cost	202
	The Marginal-Average Relationship	203
	Rate and Volumes of Production	203
	Choice of Production and Consumption by Self-Sufficient Adam	203
	Marginal Costs Are Higher at Faster Rates of Production	204
	The Law of Diminishing Marginal Returns	205
	Price of Labor versus Labor Cost of Output	206
	Questions and Meditations	207
15	Specialization and Exchange	214
	Adam's and Baker's Production and Costs Compared	214
	Differences in Costs and Marginal Worths Create Opportunities for Trade	217
	Two's Company, Three's Even Better: Effects and Objections to New Entrants	218
	An Economically Complete Analysis	219
	Reduced Cost, Profit, and Dispersion of the Profit	221
	Improved Quality and the Dispersion of the Benefit	221
	Two Meanings of Specialization in Production and Several Sources of Benefits	223
	No Free Benefits: Increased Dependence	225
	Questions and Meditations	225
16	Market Supply and Price with Price-Takers	231
	Sunk Investment or Set-Up Cost	231
	What Rate of Production?	231
	Price-Taker/Sellers	232
	Price-Taker/Seller Sees a Horizontal Demand Curve at the Market Price	233
	No Rivalry among Price-Takers	233
	Aggregated Demand and Aggregated Supply in the Market	234
	Marginal Costs, Profits, and a Price-Taker's Supply Response to the Market Price:	
	A Price-Taker's Marginal Revenue Is Equal to the Market Price	235
	Determining the Rate of Production and Supply	236
	Two Types of Constant Costs: 1) Constant Total Daily Costs Regardless of Daily Rate of Production (Even If Zero); 2) Constant Costs per Unit of Production	236
	The Planned Output Rate for Profit Maximizing	237
	A Graph Showing Price-Takers' Response to the Market Price	238

	Profit-Maximizing Rates of Output at Other Market Prices	238
	Why Analyze Profit-Maximizing Rate of Production through Marginal Revenues and Marginal Costs?	239
	A Role for Average Cost	239
	The Long-Run Average Cost	240
	The Short-Run Average Cost	240
	Market Supply Curve of Price-Taker/Suppliers Is the Horizontal Sum of the Marginal Cost Curves	240
	An Upward-Sloping Market Supply Curve	241
	Industry-Wide Cost Minimization of the Profit-Maximizing Output	241
	Is the Profit Test of Survival “Socially Desirable”?	242
	Competition for Profitable Resources Converts Profit into Cost	243
	A Person, Rather Than Equipment, as the Responsible Resource	244
	Profits Are Increases in Wealth — Not Transfers of Wealth from One Person to Another	245
	Productive Resources That Enter after a New Tax	249
	Depreciation versus Capital Value Changes	249
	Obsolescence versus Depreciation	249
	Why Do Accounting Records Show Depreciation as Erosion of Initial Cost of Resource, Rather Than of Current Value?	250
	Questions and Meditations	250
17	Timing of Adjustments	255
	Tax It: Demand and Supply	255
	Deadweight Welfare Loss	257
	Mobile versus Less-Mobile Resources	258
	Comparison of Short-Run and Long-Run Effects	258
	After the Long-Run Adjustments, Consumers Pay All the Tax; New Investors Pay None	260
	Only Present and Future Costs Are Really Costs	261
	Quasi-Rent: A Temporary Surplus	261
	Infinite Elasticity of Supply	262
	The Longer-Run Responses and Effects	262
	For What Is the Tax Used?	263
	Reducing Negative-Worth Externalities	264
	Adjustments before Predicted Event Occurs	264
	Gasoline and Oil Prices	265
	Competitive Pricing Response to New Entrants: Is It Predatory?	267
	Questions and Meditations	270
18	Facts of Life	274
	The Missing Entrepreneur	275
	Example of Effect of Creative Destruction	276
	Many Producers of a Consumer Product	276
	Managers Don’t Know Their Costs as Accurately as Those Shown in the Examples	277
	Allocating Common Costs to Joint Products	278
	Supply in Terms of Mass Production and the Volume Produced	280

	Summary of Cost and Volume Output Relations	281
	Warning	282
	Demand in Terms of Volume Demanded	282
	The Historical Pattern of Prices of a Product	282
	Questions and Meditations	283
19	Price-Searchers	285
	Price-Takers and Price-Searchers	285
	Differences for Customers because of Differences among Competing Sellers	286
	Price-Searchers Search for the Best Price to Maximize Profits	286
	Price-Searchers Must Set the Prices for Their Products	287
	Signals to Price-Searchers	288
	Pricing at a Uniform Price to the Entire Public	288
	Price versus Marginal Revenue	288
	The Profit-Maximizing Price and Quantity: Marginal Revenue Equality to Marginal Cost	289
	Price-Searcher with <i>Increasing</i> Marginal Costs	289
	Increasing Marginal Costs and the Profit-Maximizing Output	291
	Knowing Patterns of Marginal Costs and Marginal Revenues	291
	Sellers Aren't Naive	292
	Closed, Restricted, and Open Markets	293
	Who Is Restricted by a Restriction on the Seller?	294
	Categories of Sellers	294
	Who Is a Monopolist?	295
	Cartels	296
	Personal Services?	296
	Objectives of the Language of Economics and the Language of Litigation	296
	Objections to (1) Closed Markets and (2) Price-Searchers in Open Markets	297
	Normative Standard for the Laws: Open Markets and Forgone Consumer Worth?	298
	"Monopoly" Distortion: Inefficient Output Ratio	298
	Is It Really Wasteful or Inefficient?	300
	Long-Run Response: Capacity and Cost Response to Demand Changes	300
	The Meaning of Consumer Worth and to Whom It Belongs	302
	Questions and Meditations	303
20	Price-Searcher Pricing	310
	Charging Different Prices among Customers to Equalize Marginal Revenues	310
	What Rate of Production?	311
	Marginal Revenue Equalization: Price Discrimination?	312
	Dumping Is Not Selling Below Cost. It's Simply Marginal Revenue	313
	College Tuition Scholarships?	313
	Discount Coupons	314
	Free and Special Services: A Free Tie-In	314
	Is Marginal Revenue Equalization Really Price Discrimination?	314

- Price-Searcher Buyer — Monopsonist 315
- Why Higher Wage Rates to All Employees? 316
- Differentiating Benefits 317
