Welcome to Roxbury's Auction No. 133

FOREWORD

Welcome to our second major numismatic sale of 2024. This auction builds upon our busy first half of the year, which has seen a raft of specialist PCGS and Art & Jewellery sales, as well as our hugely successful main auction in late March.

It has been extremely satisfying to see our new team consolidating their commitment to our vendors and building their expertise during the production of this exciting catalogue. Our dedicated team across operations, cataloguing, photography & logistics have worked tirelessly to bring this auction to fruition, and I acknowledge them all for their efforts.

There are a number of highlights within Auction 133, and we are proud to present almost four thousand lots after a late flurry of PCGS collections and consignments taken during my road trip to Canberra, Sydney, and Melbourne in late June.

Auction 133 has culminated in a diverse catalogue with strong appeal; from the inclusion of some scarce historical art and historically important early Australian maps and high-grade Australian and New Zealand trade tokens, from the Frank Coulter collection.

The Davis collection is another major collection and the best selection of Australian pre-decimal silver coins to come onto the market in recent years. Composed of countless PCGS top population coins, it is ranked in the top handful of PCGS registry sets and will certainly attract the interest of serious collectors.

The rest of the sale is well balanced, with each key collecting sector well represented. We have a diverse range of world coins and banknotes, a large range of Australian high-grade pre-decimal and decimal banknotes, and over 1,000 lots of PCGS-graded decimal issues.

On behalf of Roxbury's team, I hope you are able to find something of interest and perhaps a surprise or two in Auction 133. Once again, I look forward to what will almost be a whole working week in the auction room this time around!

Legendary Australian artist David Fielding Gough Boyd was born in Melbourne in 1924, a member of the distinguished Boyd family which for over three generations contributed to the Arts in Australia within various fields including painting, ceramics, sculpture, literature and architecture. Trained at the National Gallery School, David first exhibited with the Contemporary Art Society of Australia in 1945. Soon afterwards he turned his hand to pottery and ceramics in partnership with his wife, Hermia, working variously across Australia, England and France. He returned seriously to painting in 1957 with the series 'Australian Explorers', followed by a number of works focusing on the persecution of the Tasmanian Indigenous population. David was elected President of the Victorian branch of the Contemporary Art Society of Australia in 1960, later being awarded a scholarship from the Italian government and the Membro Albo Doro del Senato Accademico (Rome), among numerous other accolades. Commenting on the distinctive candle-carbon sfumato technique David embraced in the late 60s, critic Sheldon Williams comments 'the flame of the guttering candle can express the individualism of the painter and faithfully fulfil his personal intentions ... its spontaneous nature offers him a fluency not ... experienced in other media'. Boyd's artistic oeuvre explores a vast array of subject matter, and is held in many prestigious institutional collections throughout Australia, England and the United States.

The chart reflects surveys undertaken by Flinders from 1796 on the southern coast of New South Wales and northern coast of Van Diemen's Land and on his partial circumnavigation of Australia between 1801 and 1803 on the *Investigator*. This map was originally owned by Benjamin Francis (Frank) Helpman 1814-1874, sailor & harbourmaster before being owned by Tasmania's First Premier, William Champ 1808-1892. Refer to information sheet adhered to rear of print.

Lot 95 Samuel John Neele, Chart of the N&W Parts of Bass Straits, 1803

\$800 - \$1200

Parts of the Bass Strait, 53.3 x 31.5cm (image), 70 x 46.5cm (frame), discovered & sailed through in a Passage from England to Port Jackson in December 1800, in H.M. armed surveying vessel Lady Nelson commanded by Lt. JA.s Grant of the R.N. by direction of His Grace the Duke of Portland, likely produced by the Admiralty's first hydrographer from 1795-1808-Alexander Dalrymple and is the first map of the Victorian coastline, engraved by Samuel John Neele, Strand, London and published by Thomas Egerton, Whitehall, London on 27th December 1803. Side note: *Jane Austen's first three novels, *Sense and Sensibility, Pride and Prejudice*, and *Mansfield Park*, were published by Thomas Egerton who ran a 'Military Library' in Whitehall, London, just across from the Admiralty Office. Egerton's list was mainly composed of military treatises, maps, and training manuals, works designed to feed Britain's war effort against Napoleon. He hardly ever published novels, and Jane Austen was his first female novelist. Her brother Henry's career as a militia officer and army agent probably provided the connection. Take a look at the original title page of Pride and Prejudice (reproduced in many modern paperbacks) and you will see at the foot of the page, *Printed for T. Egerton, Military Library, Whitehall.* *from website Jane Austen's House.

Lot 96 W. Witchurch, Chart of the Southern Hemisphere, 1777 \$800 - \$1200

Lot 97 Louis Freycinet, Detroit De Bass , 1802 - 1803 \$1200 - \$2000

Rare & intricate engraved hydrographic chart of Bass Strait including parts of Tasmania & Victoria, 82 x 55.5cm (image), 103 x 77cm (frame), by French hydrographer Louis Claude Desaulses de Freycinet 1779-1842. Red #41 in margin, as published folds but otherwise pristine, professionally framed in excellent condition. Available for local pickup, alternatively, courier to be arranged and paid for by bidder.

*From the Frank Coulter collection.

Side note: This is a rare, separately published example of Freycinet's chart of the Bass Strait undertaken while part of the Baudin expedition. It was published in his celebrated and extremely rare hydrographic atlas which was part of the official account of the expedition. The title of the chart proclaims that it shows the survey undertaken by Freycinet in the 29foot Casaurina, but it actually shows the survey routes of the little Casaurina as well as those of boats of the larger ships associated with the Baudin expedition, the aptly-named Geographe and the Naturaliste. The routes of each vessel are differentiated with varying hash marks, dots, etc. The chart is unadorned and contains no decorations; it was meant to simply and clearly communicate the extensive survey undertaken by the French despite the presence of another British voyage, that of the British Royal Naval officer Matthew Flinders, which was also surveying Australia at the time.

WORLD TOKENS

Great Britain, Skidmore's Churches & Gates, Lot 184 Halfpenny, 1790's aUNC

\$400 - \$500

Small set of 18th Century Skidmore church tokens including; Spitafields, St Botolph's, St Mary's Aldermanbury, St Martin Outwich, St Giles Cripplegate, Stepney & St Martins Ludgate, all midbrown toned with some showing hints of mint red, scarce in this grade, as struck about uncirculated or better. [7]

Side note: In the mid 1790's John Skidmore issued a series of halfpenny tokens featuring Churches in the City of London. At this time there was no official small change, which caused considerable distress amongst the general population. Small transactions could not take place as no change could be given due to most provisions and small goods etc being valued in pence. This severely hampered trade and transactions. The way round this was for merchants to issue their own small change and in order not to contravene the counterfeiting laws they issued 'tokens' that were ultimately exchangeable in coin of the realm. As these were essentially a bullion coinage, exchange into official coin was not necessary and for the ten years of the 1790s 'tokens' were about the only coppers one would have had in one's pocket! As there were so many different types of tokens circulating at this time a real craze of collecting them developed. John Skidmore, an ironmonger in Holborn, saw a gap in the market and had these tokens made with London churches on to sell to collectors of the time – or if he couldn't sell them, to simply use as halfpennies. Many did circulate as change, so it is very common to find them in worn condition. *source 'Skidmore's Church Tokens of the City of London' - Simon Monks.

Terms & Conditions of sale

The following are our Terms of Sale. Please read them carefully. These terms are applicable to all online bidders & mail / email postal bidders in this auction.

Your submission of all bids in this auction constitutes your full acceptance of these 'Terms of Sale'.

- This agreement is in regard to an online, public auction, NOT an approved sale. At the live Online Auctions, when an item is SOLD, a sold icon will appear beside it, at which point all sales are final. Any bid acknowledged & relied on by the automated system shall not be withdrawn. Bidding in this action in any way confirms that the bidder personally guarantees all payments & acknowledges & accepts the Terms & Conditions of Sale as set out herein. As the system is automated, there shall be no possible recourse in the case of any dispute, & all bids are final. The Auctioneer as presented by the Online bidding system includes Roxbury's Auction House 89 641 056 840 (hereinafter called 'the Auctioneer').
- 2. Auction payments must be made in full at the conclusion of the sale. Absolutely no lots will be released until payment in full has been made. Payments may be made in Cash at 8/576 Kingsford Smith Road Hamilton, by Personal Cheques (by discretion of the Auctioneer & made out to Roxbury's Pty Ltd with copies of proper identification), or by bank transfer or major credit cards as stipulated. Successful bidders will be notified either by email via an auction receipt. All bidders accounts must be fully finalised within 14 days of the sale date.
- A 22% buyer's premium will be added to the knock down price of each lot (including GST where applicable). Payments made by Visa & Mastercard are welcome & a 1.5% surcharge will apply. We do not accept AMEX.
- 4. Unless otherwise specifically stated, each new bid shall be raised above the previous bid by such amount as is determined by the automated bidding system as set out by the Auctioneer. No party shall be allowed to retract his or her bid after acknowledgement by the Auction system.
- The Auctioneer reserves the right to refuse any bid & to withdraw any goods from sale at any time, or to disclose any reserves or vendor information, without having to state any reason.
- 6. All online bidders must complete a valid registration, with any identification as required by the Auctioneer. All online bidders must accept the Terms & Conditions of Sale as set out here to be considered a valid bidder. Postal bidders must sign & accept the Terms & Conditions & return the form to the Auctioneer to be considered a valid bidder. All lots will remain the property of the owner / vendor until cleared payment is made in full. Only then will the title of ownership of the lots pass to the purchaser, irrespective of any terms or deferment of payment. Payment on approval dealer/trade accounts must be cleared & finalised within 28 days of the sale.
- 7. Except as otherwise provided by the state of federal law, no condition or warranty is given or implied by the Auctioneer in respect of any lot offered for sale via auction. As all lots are given for inspection prior to the commencement of sale, it shall be presumed that the goods have been inspected & that the purchaser accepts the goods are sold with all faults. All lots are sold as is, on the Caveat Emptor. No error of mis-description of any lot shall give cause for an invalidation of sale or an abatement of price. The Auctioneer shall not be held responsible for any such error, despite all care being taken. All lots are inspected & offered in good faith to the best of our determination to be genuine as described (except where so noted). No guarantee is undertaken with respect to refunds on this basis.
- 8. The Auctioneer shall not be liable for any description or misdescription given on any of the goods presented here for sale in any way. Any statement as to the description of goods is given as a statement of opinion only as represented to the Auctioneer & is not to be relied on as a representation of fact. While every effort is made, the Auctioneer gives no warranty that the quantities or any grading given with respect to the description of any lot as stated is correct. All images used are given as a guide only & are not guaranteed to be an accurate representation.
- No lots purchased by a bidder may be returned, including those lots where the bidder is acting as an agent for another. There are no returns or refunds except for reasons of lack of authenticity (as

stated in clause 7 & 8 above detailing liability). It is assumed that all intending bidders (including all postal & internet bidders) have obtained their own satisfaction & / or done due diligence on all lots before submitting any bids in any manner. All bids thus submitted are subject to the full terms & conditions of sale. Items purchased & submitted to third party grading immediately voids any & all further rights of return. The Auctioneer accepts no responsibility for any mistakes in any postal or phone bidding conducted. Late remittance of payments constitutes just cause for revocation of all return privileges. In the event that a bidder is acting as an agent for another party (and that agency has not been disclosed to the Auctioneer in writing 24 hours before the sales date) the bidder is deemed by the Auctioneer to be the final buyer in all respects & is fully responsible for all payments, fees & changes. In no event may any lot(s) be returned after twenty-one (21) days from the date of the auction. All sales are then final.

- 10. If any purchaser fails to comply with any of the conditions of sale outlined in this document or if any monies paid (in any way given on settlement of account for any goods is dishonoured or unfulfilled) then all monies which the purchaser has paid to the Auctioneer on account of the purchase shall then be forfeited absolutely to the vendor. The Auctioneer, acting as agent for the vendor, is at liberty to resell the lot(s) in any manner. Upon such terms & conditions as they may deem proper & / or to then sue the purchaser for any loss or resulting damages as set out below. Damages include all losses & expenses incurred by the vendor or the Auctioneer may sustain, resulting from any resale, storage, debt recovery, legal fees & / or court costs which shall then be covered from the purchaser as liquidated damages. The Auctioneer (acting on behalf of the vendor) in the event of such resale, is also entitled to the expenses as set out below.
 - a) The total amount of any & all commissions & / or buyer's premiums applicable or any other fees & commissions lost as a result of the purchaser defaulting on the purchase.
 - b) The full cost of advertising & all other expenses related to resale as deemed necessary, including recovery & legal fees, court costs, interest, storage costs & insurance charges.
 - c) Any differential in price from the initial sale price to the final price achieved in resale of the items.
- 11. A service charge of 2% compound per month (or part thereof) will be added to overdue accounts (28 days after the date of Auction is the overdue period of all unpaid accounts). In any event the title of any lots sold will not pass to the purchaser until the full amount of the purchaser's auction account has been paid fully & remitted to the vendor, including any other services charges, storage or any other fees resulting from any late payments.
- 12. Estimates are given only as a guide & not given as starting points for bidding. Where the start price is disclosed, lots may sell for a price greater than this start price as determined by bidding. All bidding will be in increments from the start price as set out by IAG. All prices are in Australian Dollars.
- 13. Postage & Insurance: if a purchaser declines to pay the mandatory insurance charge applied to their account for cover during shipping / postage then they shall assume all responsibility for that item(s). Any possible loss or damage to that item(s) shall then be the purchaser's responsibility.
- 14. By accepting these Terms & Conditions & making a bid, the bidder guarantees that they have the funds or ability to pay for any & all items bid on (including any buyer's premiums, insurance & postage as required), within the stipulated times frames as set out above & as part of the Auction Terms & Conditions.
