

SAMOA

ELECTRICITY ACT 2010

Arrangement of Provisions

PART 1 PRELIMINARY

1. Short title and commencement
2. Interpretation
3. Objectives of this Act

PART 2 REGULATOR

4. Appointment of the Regulator
- 5.. Disqualification
6. Responsibilities, functions, and powers of the Regulator
7. Post-employment restriction
8. Office of the Regulator
9. Budget of the Office of the Regulator
10. Judicial enforcement
11. Civil liability

PART 3 LICENSING

12. Types of licences
13. Application and grant of licence
14. Suspension of licence
15. Revocation of licence
16. Offence for operating without a licence
17. Regulations for issuing of licence

18. Electricity network services licensee not to sell, transfer or lease assets

PART 4 TARIFFS

19. The Regulator to set tariffs
20. Changes to tariffs
21. Power to review tariffs
22. Tariff subsidies
23. Setting tariff regulations

PART 5 STANDARDS OF ELECTRICITY SERVICES

24. Standards of electricity services to be developed by the Regulator
25. Regulator to consult with Government for provision of electricity services to rural areas

PART 6 CONSUMER PROTECTION

26. Regulator's functions relating to disputes between consumers and electricity network services licensee

PART 7 POWER SYSTEM EXPANSION PLANNING

AND REVIEW

- 27. Power system expansion plan
- 28. Review of power system expansion plan
- 29. Regulator's prior approval for issuance of stock or long term debt
- 30. Regulator's prior approval for entering into power purchase agreements with independent power producers

**PART 8
PUBLIC CONSULTATION**

- 31. Public input and consultation

**PART 9
DISPUTE RESOLUTION**

- 32. Disputes between electricity network services licensee and independent power producers
- 33. Disputes between electricity network services licensee and consumers

**PART 10
APPEALS**

- 34. Appeal of decisions of the Regulator to be filed with the Electricity Tribunal
- 35. Notice of Appeal
- 36. Electricity Tribunal

- 37. Remuneration of Tribunal members
- 38. Revocation of appointment of Tribunal members
- 39. Ministry to provide necessary administrative support
- 40. Convening Tribunal hearings
- 41. Tribunal proceedings
- 42. Principles of natural justice to be observed
- 43. Government may be represented in any proceeding
- 44. Tribunal decisions
- 45. Decision of Tribunal to be final
- 46. Government Ministries and Agencies to assist Tribunal
- 47. Appeal to bar litigation
- 48. Enforcement of orders

**PART 11
MISCELLANEOUS**

- 49. Advice to Minister
- 50. Rules and procedures
- 51. Annual reports
- 52. Offences and penalties
- 53. Reporting of offences to the Attorney General
- 54. Regulations
- 55. Claim for failure of electricity supply
- 56. Transitional provisions
- 57. Consequential Amendments

ELECTRICITY ACT 2010

2010**No. 23**

AN ACT to provide for a new legislative framework for regulating the electricity sector, the establishment of the post of the Electricity Regulator and the Office of the Regulator, and for related matters.

[Assent date: 19 October 2010]

[Commencement date: 1 December 2011]

BE IT ENACTED by the Legislative Assembly of Samoa in Parliament assembled as follows:

**PART 1
PRELIMINARY**

1. Short title and commencement – (1) This Act may be cited as the Electricity Act 2010.

(2) This Act commences in whole or in part, on a date or dates nominated by the Minister.

2. Interpretation – In this Act, unless the context otherwise requires:

“assets” means a real or tangible property which is essential for generating electricity or for providing electricity network services;

“base tariffs” means charges to be applied to electricity services in order for the electricity network services licensee to recover its reasonable costs including a rate of return on investment consistent with other investments of comparable risk;

“Electric Power Corporation” means the Electric Power Corporation established under the Electric Power Corporation Act 1980;

“electricity network services” means electricity transmission and distribution systems ending at electricity meters or power supply entering points at consumers’ premises, supplying power for resale, and metering, billing, collection, and other services to end-use consumers;

“electricity network services licensee”, means an entity that is granted a licence to provide electricity network services;

“Electricity Regulator” or “Regulator” means the Regulator appointed under section 4;

“electricity services” means electricity generation or electricity network services, or both;

“formal decision” means a written decision containing all necessary findings, reasoning, principles and conclusions issued by the Regulator to conclude a tariff

- approval or licencing proceeding or any other proceeding of substantial public significance;
- “generation licence” means a licence to generate electricity for sale issued under this Act;
- “independent power producer” means a generator of electricity for sale to the electricity network services licensee that is not owned by the electricity network services licensee;
- “Judge” means a Judge of the Supreme Court of Samoa;
- “licence” means a licence granted under section 13;
- “licensee” means a person required to be licensed under section 13;
- “Minister” means the Minister responsible for the power or electricity sector;
- “Ministry” means the Ministry responsible for the power or electricity sector;
- “Notice of Appeal” is a notice issued and served under section 35;
- “Panel of Tribunal members” means a panel of the Electricity Tribunal members appointed under section 36(1)(b);
- “rate of return” means the return allowed on the licensee’s capital investment, including borrowed funds and equity capital;
- “reasonable costs” means all costs not resulting from conduct determined by the Regulator to be inconsistent with prudent electric power industry practice;
- “Samoa Bureau of Statistics” means the Government body responsible for the preparation of Government statistics and census;
- “power system expansion plan” is a plan required under section 27;
- “price discrimination” means charging different tariffs to consumers within the same consumer class or charging tariffs such that one class of consumers subsidizes another;
- “service licensee” is an entity licensed to provide electricity generation or network services to consumers;
- “stakeholders” means an individual, group or organisation with an interest or stake in the Electricity Regulator’s decision-making activities;

“Tribunal” or “Electricity Tribunal” means the Electricity Tribunal established under section 36.

- 3. Objectives of this Act** – The objectives of this Act are:
- (a) to establish the position of the Electricity Regulator who must exercise independently and transparently the responsibilities, functions and duties assigned or transferred to him or her under this Act;
 - (b) to separate governance and operational responsibilities in the electricity sector;
 - (c) to promote economy, efficiency, reliability and affordability of electricity provided by service licensees;
 - (d) to promote efficient use of electricity by consumers;
 - (e) to promote competition in the generation of electricity;
 - (f) to promote the use of new technology by service licensees to generate, transmit or supply electricity;
 - (g) to create a financially sound electricity sector capable of meeting the needs of consumers and the Samoan economy;
 - (h) to assure protection of consumers, responsiveness to public concerns and effective dispute resolution in the electricity sector;
 - (i) to assure the safeguarding of the environment;
 - (j) to promote the prevailing national energy policies; and
 - (k) to promote the prevailing national policies on combating climate change.

PART 2 REGULATOR

4. Appointment of the Regulator – (1) Subject to section 5, there shall be appointed by the Head of State, acting on the advice of Cabinet, a Regulator who must have and exercise the responsibilities, functions and duties conferred by this Act and any other applicable law.

(2) The appointment of the Regulator is for a term of 3 years, which term may be renewed by the Head of State, acting on the advice of Cabinet, for additional terms of 3 years each.

(3) The appointment of a Regulator under this section is to be in accordance with the terms approved by Cabinet, and is to be implemented and administered in accordance with a contract approved for that purpose by the Attorney General.

(4) A person may be removed as Regulator prior to the completion of a 3year term of an appointment where the person:

- (a) at the time of appointment and while holding the position of Regulator, has a conviction or is convicted for an offence, in Samoa or elsewhere—
 - (i) involving dishonesty or corruption; or
 - (ii) where the penalty imposed by the Court for such offence includes imprisonment for any period, irrespective of whether such penalty has been or is imposed concerning such conviction; or
- (b) is an undischarged bankrupt; or
- (c) is determined by a registered medical practitioner to be unable to perform the Regulator's responsibilities, functions, and duties due to a physical or mental incapacity; or
- (d) breaches the Code of Conduct in section 19 of the Public Service Act 2004, excluding paragraphs (j) and (l) of that section.

(5) The Head of State, acting on the advice of Cabinet, may appoint the Minister or another person to exercise the responsibilities, functions and duties conferred by this Act and any other applicable law on the Regulator, on an interim basis, during:

- (a) the period until the first Regulator is appointed;
- (b) any period of time after a Regulator ceases to hold office and before a replacement is appointed; and
- (c) a period of temporary absence or incapacity of the Regulator.

(6) A person appointed under subsection (5) may exercise all of the responsibilities, functions and duties conferred on the Regulator by this Act and any other applicable law despite any other provision of this Act.

(7) An appointment under subsection (5) may not continue for a period longer than 6 months.

(8) For the avoidance of doubt, a person appointed under subsection (1) may concurrently be appointed as the Regulator appointed under the Telecommunications Act 2005 or legislation on broadcasting, or both.

5. Disqualification – (1) Subject to this section, a person is not eligible to be appointed or to continue as the Regulator or as a member of the professional staff of the Regulator if the person, directly or indirectly, as owner, shareholder, director, officer, partner or otherwise, has a pecuniary or proprietary interest in:

- (a) a service licensee; or
- (b) a manufacturer or supplier of electricity facilities, except where the supply is incidental to the general merchandising of goods by wholesale or retail.

(2) Where an interest prohibited by subsection (1) vests in the Regulator or a member of the professional staff by will or succession for the benefit of the Regulator or a member of the professional staff, the interest must be absolutely disposed of within 3 months of vesting, and a failure to act under this subsection makes the Regulator or member of the professional staff liable to disqualification under subsection (1).

(3) For the purpose of this section:

- (a) a pecuniary or proprietary interest includes, but is not limited to, a pecuniary or proprietary interest held by a spouse, parent, child, brother or sister of the Regulator or member of the professional staff; and
- (b) the professional staff of the Regulator is to be any member of staff of the Regulator nominated as such by the Regulator, as a class of such persons or individually, or both.

6. Responsibilities, functions and powers of the Regulator – The Regulator:

- (a) is responsible for the proper and effective administration of this Act;

- (b) is responsible for providing advice to the Minister and to Cabinet on matters of electricity sector policy;
- (c) is responsible for ensuring that decisions required of him or her under this Act are made independently and transparently, and are in accordance with this Act;
- (d) must set, monitor and enforce electricity tariffs to be charged by the electricity network services licensee;
- (e) must issue, monitor and enforce licences;
- (f) must protect the interests of consumers of electricity;
- (g) must enforce the standards of electricity services;
- (h) must review and approve the electricity network services licensee's power system expansion plan and power purchase agreements;
- (i) must implement the national energy policy;
- (j) must assure the safeguarding of the environment;
- (k) must support the national policy on combating climate change;
- (l) must provide electricity sector policy advice to the Minister and the Government;
- (m) must impose and collect licence fees or surcharges on retail electricity sale revenues to cover its costs of operation;
- (n) must impose sanctions including penalties for non-compliance with terms and conditions attaching to licences;
- (o) must require licencees to provide all information necessary to carry out regulatory monitoring and enforcement functions;
- (p) must inspect and monitor service licensee's operations including entering licensees' premises in order to assure compliance with the licence conditions; and
- (q) must order licensees to engage independent consultants approved by the Regulator to carry out studies of efficiency and economy of operation and of performance by licensees.

7. Post-employment restriction – (1) Subject to subsection (2), a person who has been appointed as the Regulator under this Act must not seek employment nor be employed by a person or entity that is granted a licence under this Act.

(2) This section does not apply to a person who has ceased to be a Regulator appointed under this Act, for a period which is not less than 2 years.

(3) A person who contravenes subsection (1) commits an offence and, upon conviction, is liable to a fine not exceeding 1,000 penalty units, and 10 penalty units for each day that the offence continues.

(4) In this section, “employment” means to receive any remuneration for services provided, including but not limited to consultancy services and board membership.

8. Office of the Regulator – (1) The Office of the Electricity Regulator is established, which is to function in accordance with this section.

(2) The Regulator is responsible for the management of the Office of the Electricity Regulator.

(3) The Office of the Electricity Regulator consists of the Regulator, the staff of the Office of the Electricity Regulator and such other persons as may be seconded or appointed in accordance with this section.

(4) Except as provided in this Act, the Regulator and the Office of the Electricity Regulator is to function in accordance with the laws governing the public service and the finances of the Government of Samoa, and in particular:

- (a) the staff of the Office of the Electricity Regulator are to be appointed or employed under the Public Service Act 2004;
- (b) the Public Service Commission must appoint such staff on the recommendation of the Regulator; and
- (c) subject to section 9, the budget of the Office of the Electricity Regulator must be approved pursuant to the national budgetary process for the Government taking into account any fees or surcharges collected under this Act.

(5) The Minister, acting on the advice of the Chief Executive Officer of the Ministry and of the Regulator, may by notice in writing:

- (a) designate 1 or more persons employed by the Ministry or other Ministries or Government organisations to work with the Office of the Electricity Regulator on a secondment basis. Such secondments may be a part-time or full time, and last for such period of time as indicated in the notice; and
- (b) determine that the Office of the Electricity Regulator may share or otherwise utilise support staff, office premises and other resources of the Ministry, or another Government organisation that will include, but not be limited to, the office of the Regulator established under the Telecommunications Act 2005 or legislation on broadcasting, or both.

(6) A person who has been appointed or seconded to the Office of the Electricity Regulator and to whom the Regulator delegates a responsibility or function or duty in writing, must perform such responsibilities, functions and duties of the Regulator as specified in the delegation, and a delegation under this subsection may:

- (a) authorise a person to make orders or issue licences;
- (b) restrict the delegation to specific types of matters, or to a specific period of time;
- (c) be subject to terms, conditions or restrictions; and
- (d) be revoked by notice in writing.

(7) In addition to the persons appointed or seconded to the Office of the Electricity Regulator under this section, the Regulator may appoint such consultants as may be necessary for the efficient performance of the functions of the Regulator.

(8) All persons appointed or seconded under this section must work under the direction of the Regulator in the discharge of their responsibilities, functions, and duties.

(9) The Regulator must conduct the affairs of the Office of the Electricity Regulator in an open and transparent manner. To this end, the Regulator must, publish or cause to be published, notices, rules and procedures governing the operation of the

Office of the Electricity Regulator and the Office's dealings with the public.

(10) The Regulator must establish an official website for the Office of the Electricity Regulator to increase the transparency of the Office's affairs to persons inside and outside of Samoa.

(11) All rules, orders, codes of practice, notices and other important documents issued by the Office of the Electricity Regulator regarding the regulation of the electricity or power sector must be posted on the Regulator's official web site, and published in any other media that the Regulator considers necessary to provide adequate notice to interested persons.

(12) The Office of the Regulator established under the Telecommunications Act 2005 or any legislation on broadcasting, or both may be the same office or may be deemed to be the Office of the Electricity Regulator under this Act.

9. Budget of the Office of the Regulator – (1) The Regulator must establish an annual budget for the operations of the Office of the Electricity Regulator in line with the fiscal year of the Government of Samoa.

(2) The Regulator may levy an annual surcharge on retail electricity sale revenues and assess licence fees in order to source funds for the Office.

(3) The Regulator must hold public consultation to determine the appropriate level of such annual surcharges and licence fees under subsection (2).

10. Judicial enforcement – (1) An order of the Regulator may be made an order of the Supreme Court by filing with the Registrar of the Court a copy of the order certified by the Regulator and may be enforced in the same manner as an order of the Court.

(2) The Regulator may enforce an order of the Regulator made under this Act whether or not the order has been made an order of the Supreme Court under subsection (1).

(3) An order of the Regulator may be enforced from the date of the order and not from the date of filing such order with the Court under subsection (1).

(4) The Commissioner of Police and all police officers must provide such reasonable assistance to the Regulator as the Regulator requires in undertaking the Regulator's

responsibilities, functions and duties under this Act and any other law.

11. Civil liability – (1) Claims made by or against the Regulator are to be made under the Government Proceedings Act 1974.

(2) Despite any other law, no suit or proceeding for an act or omission in connection with the responsibilities, functions or duties imposed on the Regulator by this Act is to be brought or maintained against a person who:

- (a) has been or is the Regulator where such person has been or is acting in good faith; or
- (b) has been or is acting under the authority of the Regulator under the Act where such person has been or is acting in good faith.

PART 3 LICENSING

12. Types of licences – The Regulator may issue 2 types of licences:

- (a) electricity network services licences; and
- (b) generation licences.

13. Application and grant of licence – (1) A person wishing to generate electricity other than for their own use or to provide electricity network services must apply in writing to the Regulator for a licence to do so.

(2) The Regulator, may upon receiving an application under subsection (1), grant a licence to the applicant if the applicant meets the prescribed requirements for obtaining a licence.

(3) A licence granted under this section, must specify the following matters:

- (a) the term of the licence;
- (b) the services governed by the licence;
- (c) the conditions, including service standards, of the licence;
- (d) licence fees;
- (e) compensation for the licensee;
- (f) monitoring and enforcement of the conditions of the licence;

(g) avenues for dispute resolution.

(4) A licence issued under this Act may be granted for a period which is not less than 15 years and may be renewed by the Regulator in accordance with this Act.

(5) If the Regulator refuses an application made under this section, the Regulator must provide reasons for the refusal in writing to the unsuccessful applicant.

14. Suspension of licence – (1) A licence granted under this Act may be suspended by the Regulator if the Regulator is satisfied that there is or has been a repeated breach of this Act or of the licence conditions.

(2) If the Regulator decides to suspend a licence under this section, the Regulator must, prior to suspending a licence, provide notice to the licensee and reasonable time for the licensee to comment on the proposed licence suspension.

(3) In this section, “repeated breach” means a reported breach of this Act or of a licence condition occurring not less than 5 times.

15. Revocation of licence – (1) The Regulator may revoke a licence at any time or after restoration of a suspended licence where a licensee commits a further breach or a serious breach or of this Act or of the licence conditions.

(2) If the Regulator decides to revoke a licence under subsection (1), the Regulator must, prior to revoking a licence, provide notice and reasonable time for the licensee to comment on the proposed licence revocation.

(3) In this section:

“further breach” means a reported breach or violation of this Act or of a licence condition occurring more than once after the restoration of a suspended licence;

“serious breach” means a reported breach or violation of this Act or of a licence condition that results in great public harm, including loss of life, or property damage in excess of \$100,000.

16. Offence for operating without a licence – (1) No person must generate electricity or provide electricity network services unless the person is licensed to do so under this Act.

(2) A person who breaches subsection (1) commits an offence and upon conviction is liable to a fine not exceeding 1,000 penalty units, and 10 penalty units for each day that the offence continues.

17. Regulations for issuing of licence – The Head of State, acting on the advice of Cabinet, may make regulations for the issuing, monitoring and enforcing of licences granted under this Act.

18. Electricity network services licensee not to sell, transfer or lease assets – An electricity network services licensee must not sell, transfer or lease for more than 6 months to a person any assets, related to the licence without the prior written approval of the Regulator.

PART 4 TARIFFS

19. The Regulator to set tariffs – (1) The Regulator must set all tariffs charged by a licensee.

(2) The Regulator must set the base tariffs of the electricity network services licensee, including a fuel cost adjustment mechanism, within every 3 year period.

(3) When setting the tariffs of an electricity network services licensee, the Regulator must consider the following factors:

- (a) the likelihood of the tariff to recover the reasonable costs of providing services and to earn a rate of return on investment for the licensee consistent with other investments of comparable risk;
- (b) the ability of the low income households to pay for electricity services;
- (c) the ability of the tariff to promote economy and efficiency of electricity services;
- (d) whether the tariff will encourage the efficient use of electricity;
- (e) whether the tariff will avoid price discrimination;
- (f) whether the tariff is easy to understand and to apply.

(4) Subject to any financial or other resource constraints, the Regulator must conduct public consultations prior to making a decision on setting and changing tariffs charged by the electricity network services licensee.

(5) A licensee who fails to comply with the tariffs set by the Regulator under this section commits a breach of the licence conditions and is, upon conviction, liable to a fine not exceeding 1,000 penalty units, and 100 penalty units for each day that the breach continues.

20. Changes to tariffs – (1) An electricity network services licensee proposing to change its tariffs at any time other than the review period specified under section 19(2) must apply to the Regulator in writing for the Regulator’s approval of the change in tariff proposed.

(2) When making an application under subsection (1), the licensee must provide the Regulator all the necessary supporting information and any other information which may be requested by the Regulator regarding the reasons for the change.

(3) The Regulator must make a decision to accept, reject or modify any application regarding tariff change within 6 months of receiving the application.

(4) When the electricity network services licensee applies for a tariff change, the licensee must arrange for the notification to the public of such change through the media as well as inserting such information in its bills to consumers who receive regular electricity bills.

(5) The Regulator must not consider a tariff change for the electricity network services licensee until the notification required under subsection (4) is arranged.

21. Power to review tariffs – (1) Despite any other provision of this Act, the Regulator may at any time, at the Regulator’s own instigation initiate a review of any tariffs imposed by an electricity network services licensee.

(2) In carrying out a review under subsection (1), the Regulator must carry out consultations with the licensee and the public.

(3) If the Regulator finds, following a review under this section, that the tariff is not consistent with the factors listed in section 19(3), the Regulator may direct an electricity network

services licensee to propose a new tariff subject to the Regulator's approval under this Act.

(4) A failure of an electricity network services licensee to follow a direction of the Regulator made under subsection (3) constitutes a breach of the electricity network services licence's conditions and is sufficient grounds for the suspension or the revocation of the licence.

22. Tariff subsidies – (1) Subject to subsection (2), the Regulator may direct that tariff subsidies be granted to specified consumers.

(2) In making a direction for subsidies under subsection (1), the Regulator must:

- (a) ensure that such subsidies are targeted to such consumers as may be determined by the Regulator to be from low income households;
- (b) ensure that such subsidies are explicit and transparent; and
- (c) seek Cabinet approval, for the subsidies in tariffs to be funded by the Government.

(3) In determining what is a low income household under this section, the Regulator must, prior to making a determination, seek the advice of the Samoa Bureau of Statistics.

23. Setting tariff regulations – The Head of State, acting on the advice of Cabinet, may make regulations prescribing the principles, methodologies and processes for setting tariffs for the Regulator to implement.

PART 5 STANDARDS OF ELECTRICITY SERVICES

24. Standards of electricity services to be developed by the Regulator – (1) The Regulator must develop standards necessary for the provision of reliable, efficient, and safe electricity supply, and quality of consumer service.

(2) In developing service standards required under this Act, the Regulator must, prior to formalising any service standards, consult with consumers, technical experts and service licensees.

(3) Service standards developed under subsection (2) are to be formalised by way of regulations made under this Act.

(4) Compliance with any service standards developed under this section may be imposed as part of the conditions for the issuance of a licence under this Act.

25. Regulator to consult with Government for provision of electricity services to rural areas – The Regulator must consult with the Government to set standards governing the provision of electricity services to remote rural areas in Samoa, and assist the Government in providing options for funding sources for extending these services.

PART 6 CONSUMER PROTECTION

26. Regulator’s functions relating to disputes between consumers and electricity network services licensee – (1) The Regulator must, for all intents and purposes, be the Government’s representative responsible for resolving disputes between consumers and electricity network service licensees.

(2) The Regulator must, in performing his or her functions under this section:

- (a) review and approve the terms of service for the electricity network services licensee, including standards for consumer deposits or other measures to secure payments;
- (b) monitor the response by the electricity network services licensee to consumer complaints;
- (c) set standards for metering, billing and collection of tariffs and fees;
- (d) investigate and resolve complaints of consumers as to their failure to obtain redress from the electricity network services licensee regarding rates, billings or unsatisfactory services;
- (e) determine the requirements for fair and reasonable compensation to consumers where damage is proven to have occurred through the electricity network services licensee’s operations;
- (f) appoint a consumer advisory committee, as needed, to advise on issues of importance to consumers,

including quality of service, efficiency in attending to emergencies and handling of consumer complaints.

PART 7
POWER SYSTEM EXPANSION
PLANNING AND REVIEW

27. Power system expansion plan – (1) An electricity network services licensee must develop a power system expansion plan.

(2) A power system expansion plan required under subsection (1) must be produced by the electricity network services licensee and must be submitted to the Regulator at the commencement of the Regulator's fiscal year for 2011 or such other year as may be decided by the Regulator.

(3) The power system expansion plan must be updated 1 year before the triennial tariff review conducted under section 19(2) and must indicate the electricity network services licensee's plan for the next 5 years, describing capital expenditures for proposed network expansion or rehabilitation as well as new power supply requirements.

(4) If a new power supply is proposed under subsection (3), the plan must consider and compare, in accordance with criteria determined in writing by the Regulator, all feasible alternatives to ensure the most economic new power supply is selected.

(5) In approving a power system expansion plan, the Regulator must give preference to cost effective measures and methods that improve the efficiency of the power system and minimise losses of electricity or waste of energy.

(6) Subject to this Act, any investments made consistently with an approved power system expansion plan may be recovered through electricity tariffs.

(7) In developing a power system expansion plan, the electricity network services licensee must consider and compare all feasible alternatives of new power supply, including independent power producers and consumer owned generation.

28. Review of power system expansion plan – (1) The Regulator may review an electricity network services licensee approved power system expansion plan.

(2) In reviewing a power system expansion plan, the Regulator must consider whether the power system expansion plan:

- (a) provides a reliable electricity supply consistent with the applicable service standards;
- (b) is economically efficient; and
- (c) is consistent with the Samoa national energy, economic, environmental and Government community service obligations policies, and other interests.

29. Regulator’s prior approval for issuance of stock or long-term debt – (1) An electricity network services licensee who intends to issue stock or enter into a long term debt with any financial institution or person must first apply in writing to the Regulator for approval.

(2) The Regulator may, upon receipt of an application under subsection (1), approve the application where the Regulator is of the opinion that the issuance of stock or long-term debt is consistent with the electricity network service licensee’s approved power system expansion plan.

(3) An electricity network services licensee who fails to seek prior approval under this section commits a breach of the licence conditions, and is, upon conviction, liable to a fine not exceeding 1,000 penalty units.

(4) In this section, “long-term” means a period exceeding one calendar year.

30. Regulator’s prior approval for entering into power purchase agreements with independent power producers– (1) An electricity network services licensee who intends to enter into a power purchase agreement with an independent power producer must first apply in writing to the Regulator for approval.

(2) The Regulator may, upon receipt of an application under subsection (1), approve an application where the Regulator is of the opinion that the purchased power is at least cost, and that the contract is consistent with the electricity network services licensee’s approved power system expansion plan.

(3) An electricity network services licensee which fails to seek prior approval under this section commits a breach of the licence conditions, and is, upon conviction, liable to a fine not exceeding 1,000 penalty units.

PART 8 PUBLIC CONSULTATION

31. Public input and consultation – (1) Subject to any financial or other resource constraints, the Regulator must:

- (a) seek public input in all matters having widespread public impact arising from the exercise of the Regulator's duties, functions or responsibilities under this Act; and
- (b) provide opportunities for consultation with affected stakeholders arising from any proceedings undertaken under this Act.

(2) In seeking public input and carrying out consultations under this section, the Regulator must have regard to the following:

- (a) the Regulator must ensure that the Government is kept fully informed of pending proceedings;
- (b) the Regulator may, where he or she thinks it appropriate to do so in the public interest, keep the public fully informed of pending proceedings;
- (c) the Regulator must consult with licensees, representatives of consumers and other stakeholders it considers have an interest in the matters before it;
- (d) the Regulator must establish and publish public consultation procedures;
- (e) the Regulator must require the electricity network services licensee to prepare and distribute a statement of consumer rights and responsibilities;
- (f) the Regulator must maintain an informative and user friendly web site and must require the electricity network services licensee to do so.

**PART 9
DISPUTE RESOLUTION**

32. Disputes between electricity network services licensee and independent power producers – (1) A dispute arising between electricity network services licensee and independent power producers may be referred to the Regulator.

(2) A dispute referred to the Regulator under subsection (1) may be resolved by the Regulator in a manner which the Regulator considers appropriate, and in so doing, the Regulator must consider setting terms of interconnection with power network and approving any power purchase agreement.

33. Disputes between electricity network services licensee and consumers – (1) Subject to subsection (2), the Regulator may take one of the following actions regarding disputes between the electricity network services licensee and its consumer or group of consumers:

- (a) assign a member of the Regulator’s staff or consultant to attempt to mediate the dispute; or
- (b) hear the dispute and issue an order to resolve the dispute.

(2) The Regulator may only take action under subsection (1) where the electricity network services licensee certifies in writing that an initial dispute resolution attempt between it and the consumer or consumer group has failed.

(3) If an electricity network services licensee does not attempt initial dispute resolution between it and the consumer or consumer group, the Regulator may direct the electricity network services licensee to make necessary arrangements in order to hold an initial dispute resolution.

(4) In this section, “initial dispute resolution” is a process of resolving any disputes between the parties concerned and which does not include the participation of the Regulator.

(5) The Regulator’s costs under subsection (1), including but not limited to any travel or other expenses incurred by or on behalf of the Regulator in connection with the Regulator’s assistance or intervention, is to be paid to the Regulator by the parties to the dispute.

PART 10
APPEALS

34. Appeal of decisions of the Regulator to be filed with the Electricity Tribunal – An appeal relating to a decision made by the Regulator under this Act is to be made, in writing, to the Electricity Tribunal.

35. Notice of Appeal – (1) An appeal regarding a decision of the Regulator must be commenced by way of a notice.

(2) A Notice of Appeal under this Act is to be served upon the Minister and must be accompanied by:

- (a) a bank cheque payable to the Minister in the amount of—
 - (i) for an incorporated body, \$100,000; or
 - (ii) for a natural person, an amount not exceeding \$50,000 to be determined by the Tribunal having sufficient regard to the merits of the appellant’s case, –
to defray the costs of the Tribunal; and
- (b) a signed written undertaking by the appellant to pay damages and all costs from an appeal found by the Tribunal to be frivolous.

(3) The appellant must also serve, on the same date, copies of the Notice of Appeal and accompanying documents on the Regulator and the Attorney General and where relevant, to any other person who may be a respondent or a party to the appeal.

(4) The Notice of Appeal is to be served within 30 days after the date of the decision of the Regulator which is the subject of the appeal.

(5) The Notice of Appeal must set out:

- (a) the relevant section of the Act under which the decision appealed against was made; and
- (b) the grounds of appeal which must set out in sufficient detail—
 - (i) the grounds upon which the appellant contends that the decision appealed against was based on an error of fact or was wrong in law, or both; and

- (ii) the grounds upon which the appellant is appealing against the exercise of a discretion by the Regulator.

(6) Any deposited funds required under section 35(2)(a) which have not been used for the purpose of expediting an appeal must be returned to the Appellant upon the final determination of the appeal.

36. Electricity Tribunal—(1) There is to be an Electricity Tribunal comprising a presiding member and 2 other members, appointed as follows:

- (a) the presiding member must be presided over by a Judge or a lawyer who is qualified to be a Judge, who must be appointed by the Chief Justice when the Tribunal is required to hear and determine an appeal;
 - (b) the other 2 members must be appointed by the presiding member from the Panel of Tribunal members, who must be appointed by the Head of State acting on the advice of Cabinet. These persons are to have the following credentials—
 - (i) qualifications or experience in economics or management finance; or
 - (ii) qualifications or experience in power engineering or power business management; or
 - (iii) legal qualifications with a power or electricity sector background.
- (2) Prior to the commencement of a Tribunal proceeding, each member is required to state that the member has:
- (a) no personal interest or involvement in the matter under dispute; and
 - (b) no association of any nature with any of the disputing parties which may be perceived as affecting the impartiality of the member.

37. Remuneration of Tribunal members – A Tribunal member is entitled to receive a sitting fee, allowance and other expenses approved by Cabinet.

38. Revocation of appointment of Tribunal members –

The Head of State, acting on the advice of Cabinet, has the power to revoke the appointment of a member of the Tribunal where the member:

- (a) becomes of unsound mind or otherwise becomes permanently unable to perform his or her functions by way of health; or
- (b) is convicted of an offence for which he or she is sentenced to any period of imprisonment; or
- (c) fails without reasonable excuse to carry out any of the functions conferred or imposed on him or her under this Act; or
- (d) engages in such activities as are reasonably considered prejudicial to the interest of the Tribunal; or
- (e) has an interest in the proceedings which the member has failed to disclose.

39. Ministry to provide necessary administrative support

– The Ministry responsible for justice and courts administration must provide the necessary administrative support to the Tribunal whenever the Tribunal convenes under this Part.

40. Convening Tribunal hearings – (1) The presiding member must convene a meeting of the Tribunal as soon as is necessary for the Tribunal to hear and determine a dispute referred to the Tribunal.

(2) If the Tribunal is to be convened, it must do so at a time and place, and conduct its proceedings, as determined by the Presiding Member.

41. Tribunal proceedings – (1) The Tribunal has powers and protections applying to a Commission of Inquiry under the Commissions of Inquiry Act 1964.

(2) A person who, after being summoned or ordered to attend before a Tribunal or to produce any books, papers, writings, or documents to a Tribunal:

- (a) fails to appear according to the requirements of such a summons; or
- (b) refuses to be sworn or to give evidence or to make answer to any questions as may be put to the

person by a member of a Tribunal relating to the subject of the inquiry; or

- (c) fails to produce any books, papers, writings, or documents,—

commits an offence, and upon conviction is liable to a fine not exceeding 50 penalty units or to imprisonment for a term not exceeding 6 months, or both.

42. Principles of natural justice to be observed – (1) A Tribunal proceeding is to be conducted in accordance with the principles of natural justice.

(2) Despite anything in this Act, any matter that is referred to the Tribunal must be dealt with as expeditiously as possible, and the Tribunal has powers to do anything or issue orders to be complied with to permit the timely determination of a dispute.

(3) During a Tribunal hearing, the following matters must be observed:

- (a) sworn statements are to be submitted by persons intending to provide evidence or make submissions to a Tribunal; and
- (b) the right to cross examine a witness is restricted only to matters which the Tribunal considers to be of such a probative nature that they need to be tested under cross examination; and
- (c) each party, and an interested person permitted to participate in a Tribunal proceeding, may prepare and submit written submissions, which are to be provided to other parties and their representatives on terms determined by the Tribunal.

43. Government may be represented in any proceeding – (1) In any proceeding under this Part, the Attorney General may elect whether he or she wishes to represent the Government.

(2) Where the Attorney General chooses to represent the Government, the Government is to be regarded as a party to the dispute.

(3) Despite anything in this Act, no orders may be made for the payment of any costs associated with any Tribunal proceedings against the Government.

44. Tribunal decisions – (1) A decision of the Tribunal must be validly made on a majority vote.

(2) The Tribunal must give due deference to the expertise of the Regulator.

(3) Subject to subsection (4), the Tribunal may conduct a detailed economic or technical review of a decision by the Regulator if in its opinion, finds that the decision being appealed is technically or economically erroneous.

(4) Where the Tribunal conducts an economic or technical review of a decision by the Regulator, it must first consider the initial submission from the appellant, the Government and any other interested parties.

(5) If the Tribunal finds that the Regulator made an erroneous decision, the Tribunal may:

- (a) confirm, modify or reverse the decision or order of the Regulator; or
- (b) refer the decision or order back to the Regulator for re-consideration, either generally or in relation to any matter specified by the Tribunal; or
- (c) order that the decision of the Regulator to which an appeal relates does not have effect until the appeal is determined; or
- (d) dismiss the appeal; or
- (e) subject to subsection (6), order costs to be paid against a person.

(6) Despite subsection (5)(e), costs may not be awarded against a Government Ministry or statutory body, other than an electricity network services licensee.

45. Decision of Tribunal to be final – A decision of the Tribunal is final and binding on all parties, and all persons named in an order made by a Tribunal.

46. Government Ministries and agencies to assist Tribunal – (1) All government Ministries and agencies must cooperate with the Tribunal and make available, at no cost to the Tribunal, a document or record in its custody which the Tribunal requires, or which may assist in the consideration and determination of a dispute.

(2) A dispute arising between the Tribunal and a government Ministry or agency over the disclosure of

information required under subsection (1) is to be referred to the Attorney General for determination on the matter.

47. Appeal to bar litigation – (1) Subject to subsection (2), no person may commence any proceedings in Court regarding a decision of the Regulator unless the person has first lodged an appeal with the Tribunal.

(2) Despite subsection (1), a person is entitled to commence proceedings in Court for matters relating to the judicial review of the procedures undertaken by the Tribunal.

48. Enforcement of orders – A person who fails or refuses to obey an order of the Tribunal, commits an offence and upon conviction is liable to the following penalties:

- (a) for a natural person, to a fine not exceeding 100 penalty units or to a term of imprisonment not exceeding 12 months, or both; or
- (b) for a company or other incorporated body, to a fine not exceeding 1,000 penalty units for a first offence and 2,000 penalty units for a subsequent offence.

PART 11 MISCELLANEOUS

49. Advice to Minister – The Regulator must provide advice to the Minister and the Government on matters of electricity sector policy, and upon any specific request from the Minister to do so.

50. Rules and procedures – (1) Subject to subsection (2), the Regulator must determine rules and procedures for the processing of tariffs and licence applications as well as dispute resolution proceedings as the Regulator deems fit.

(2) Despite subsection (1), if in making a decision required under this Act and in any proceedings undertaken under this Act, the Regulator must provide his or her decision in a formal decision stating the basis of his or her decision.

51. Annual reports – (1) The Regulator must, within 6 months after 30 June in each year, provide annual reports to Cabinet and Parliament through the Minister, which must set

out all the activities of the Office of the Regulator and the status of Office of the Regulator and its progress in achieving the objectives of this Act.

(2) The annual report must provide an account for funds received and disbursed and must contain estimates of funding needs and activities for the following year.

(3) The annual financial reports of the Office of the Regulator are subject to an audit by the Controller and Auditor General.

(4) The Controller and Auditor General must audit the accounts of the Office of the Regulator annually.

52. Offences and penalties – A person who contravenes a provision of this Act for which a penalty has not been provided for, commits an offence and upon conviction, is liable to a fine not exceeding 5,000 penalty units or a term of imprisonment not exceeding 5 years, or both.

53. Reporting of offences to the Attorney General – (1)
The Regulator must:

- (a) report all breaches of this Act to the Attorney General; and
- (b) advise the Attorney General as to any necessary prosecutions which the Regulator believes ought to be pursued against a person.

(2) Upon the receipt of advice for prosecution under subsection (1), the Attorney General may, subject to resource constraints, consider the laying of charges against the person.

54. Regulations – (1) The Head of State, acting on the advice of Cabinet, may make such Regulations as are necessary or expedient for the implementation of this Act.

(2) Without limiting subsection (1), regulations made under this Act may make provision for:

- (a) prescribing the principles, methodologies and processes for setting tariffs for the Regulator to implement;
- (b) the issuing, monitoring and enforcing of licences granted under the provisions of this Act, in particular, to provide for the following matters

relating to the issuing of a licence under this Act—

- (i) the term of the licence;
 - (ii) the services governed by the licence;
 - (iii) the conditions, including service standards, of the licence;
 - (iv) licence fees;
 - (v) compensation of licensee;
 - (vi) monitoring and enforcement of the terms and conditions of the licence;
 - (vii) avenues for dispute resolution;
- (c) specifying procedures, forms or fees relating to tariff setting, licensing, public consultation and least cost new power supply measures; and
 - (d) prescribing service standards for electricity service providers required under this Act.

(3) Regulations made under this Act may prescribe offences and may impose penalties in respect of the commission of an offence, being fines not exceeding 100 penalty units or imprisonment for terms not exceeding 6 months, or both.

55. Claim for failure of electricity supply – (1) A consumer of electricity supplied or sold to that consumer by an electricity network services licensee may not bring a claim against an electricity network services licensee where there is an increase, diminution or discontinuance of the supply of electricity:

- (a) caused by accident, drought or other natural phenomenon or other unavoidable cause; or
- (b) caused by an electricity network services licensee in the proper performance of its functions.

(2) In any filings referred to the Regulator or any proceedings taken to Court against an electricity network services licensee by a consumer for a claim of damages, the burden of proof is on an electricity network services licensee to establish the defence provided to it under subsection (1).

56. Transitional provisions – Despite anything in this Act:

- (a) the Electric Power Corporation shall be issued the following licences under this Act upon the commencement of this Act—

- (i) a licence to cover its existing generation activities for 10 years from the commencement of this Act; and
 - (ii) a licence to cover its existing electricity network services activities for 10 years from the commencement of this Act;
- (b) all existing tariffs and an additional charge that is charged to compensate the Electric Power Corporation for the cost of fuel used for the supply of electricity that are in force at the commencement of this Act are deemed to be approved by the Regulator under this Act.

57. Consequential amendments – The following enactments are to be amended:

- (a) the Electric Power Corporation Act 1980 is amended as follows—
 - (i) section 3 is amended by inserting a new definition immediately after the definition of the term “Minister” as follows:
 - ““Regulator” means the Electricity Regulator appointed under the Electricity Act 2010.”;
 - (ii) section 15 is amended by deleting the words “The functions of the Corporation are” where they appear in this section and substituting them with the following words:
 - “Subject to the Electricity Act 2010, the functions of the Corporation are.”;
 - (iii) section 15A is deleted and substituted with the following:

“15A. Protection of lines - (1) Where any tree growing on any land causes or is likely to cause damage to an electric line, the General Manager may give written notice to the owner or occupier of that land to remove the tree or any part of the tree.

(2) A person given a notice under subsection (1) must comply with the notice.

(3) Despite subsection (2), any person who receives a notice under subsection (1) and is dissatisfied with the notice may appeal in writing to the Regulator.

(4) Where the Regulator receives an appeal under subsection (3), the Regulator must make a determination on the matter within 14 days of receiving the appeal.

(5) In making a determination under this section, the Regulator must consider all the circumstances of the matter, and particularly the degree of damage that the tree is causing to the power lines and the effect, if any, the removal of the tree will have on the person claiming to own the tree.

(6) Once an appeal is lodged with the Regulator under this section, the General Manager and staff of the Corporation must not enter the affected land to remove any tree or part of a tree until the Regulator determines the appeal.

(7) A person who wilfully fails to comply with a notice under this section or who interferes with or attempts to interfere with a person attempting to comply with such notice commits an offence and upon conviction is liable to a fine not exceeding 20 penalty units or to imprisonment for a term not exceeding 3 months, or both.

(8) Despite anything in this section, in cases of imminent danger to life or health or the integrity of the power system, the General Manager must not be required to provide a notice under this section.”;

(iv) section 16 is amended by deleting subsection (1) and substituting it with the following:

“(1) Subject to any direction, approval or authorisation by the Regulator under the Electricity Act 2010, the Corporation has power to do all things necessary or convenient to be done or in connection with, or as incidental to, the performance of the functions under this Act.”;

(v) a new section 17A is to be inserted immediately after section 17 as follows:

“17A. Corporation to provide adequate supply of electricity - Subject to any financial or other resource constraints, the Corporation must ensure that an adequate supply of electricity is made available for all of the people of Samoa;

(vi) section 21 is amended by:

(A) deleting the word “The” where it first appears in subsection (1) and substituting the following:

“Subject to subsection (3), the”;
and

(B) inserting a new subsection immediately after subsection (2) as follows:

“(3) Despite anything in this section, the Corporation must be required to maintain its accounts in accordance with such directions, instructions or requirements as may be issued by the Regulator from time to time.”;

(vii) section 23A is repealed;

- (viii) section 24 is amended by deleting the phrase “or generate or distribute electricity”;
 - (ix) section 25(3) is amended by deleting the phrase “or generating or distributing electricity.”;
 - (x) section 48 is repealed;
 - (xi) section 51 is amended by deleting paragraphs (f), (h), (i) and (j).
- (b) section 2 of the Fair Trading Act 1998 is amended by deleting the word “electricity” where it appears in the definitions of the terms “goods” and “services”;
- (c) section 15 of the Value Added Goods and Services Tax Act 1992/1993 is amended by deleting the phrase “under the Electric Power Corporation Act 1980” where it appears in paragraph (e).

REVISION NOTES 2011 – 2015

This is the official version of this Act as at 31 December 2015.

This Act has been revised by the Legislative Drafting Division in from 2011 to 2015 under the authority of the Attorney General given under the *Revision and Publication of Laws Act 2008*.
