Provided that the Commission must, before deciding to cancel the licence in terms of this paragraph, determine that the licensee will not be able to resolve its financial problems within a reasonable time, given the circumstances.

(3) Before cancelling a licence in terms of subsection (1), the Commission shall notify the licensee in writing of its intention to cancel the licence concerned and the reasons for doing so, and may allow the licensee an opportunity to make representations in the matter, or to demonstrate that circumstances have changed so that cancellation may no longer be warranted.

(4) If, at the conclusion of the inquiry in terms of subsection (2), the Commission is satisfied for any reason specified in subsection (2) that it is in the public interest that the licence concerned should be cancelled, the Commission may, by notice in writing to the licensee, cancel the licence or proceed in terms of subsection (5), or take such other action as it considers appropriate.

(5) Instead of cancelling a licence, the Commission may allow the licence to remain in force subject to such further terms and conditions as it may deem necessary to impose, and such terms and conditions shall form part of the licence.

(6) In the event that the Commission decides to cancel a licence, it shall serve on the licensee a notice of cancellation fixing the date on which the cancellation shall take effect and the Commission shall make such interim arrangements in regard to the undertaking of the licensee for maintaining continuity in the provision of its electricity service as the Commission may consider appropriate.

days after the publication of the notice in the Gazette, within which objections or representations in connection with the proposal may be made;

(7) After taking into account any objections or representations received in response to a notice in terms of subsection (6), the Commission may confirm the proposed changes to the methodology or accounting procedures and shall thereafter incorporate such changes.

(8) Notwithstanding paragraph (d) of subsection (3), in fixing or approving prices and tariffs the Commission may differentiate among consumers on the basis of differences in total electricity consumption, the time periods on which electricity is consumed, load factor, power factor, voltage levels, and other such criteria as affect the cost of providing a service.

(9) Any fines or penalties levied against a licensee in terms of this Act or any other law or regulation shall not be chargeable to the licensee's customers.
