

# The EU Youth Ambassador Programme

**ONE**

**At The ONE Campaign, we believe that activism is a powerful force for change. Our European Youth Ambassador programme brings together passionate individuals from diverse backgrounds, equipping them to become effective advocates for a more just world by demanding the investments needed to create economic opportunities and healthier lives in Africa.**

In Belgium, 50 Youth Ambassadors commit to a one-year programme where they advocate for global health, international development, and a fairer Africa-EU partnership. Representing diverse backgrounds and experiences, they are students, community leaders, scientists, political activists, and creatives united by a shared belief in justice and opportunity for all.

Educating our activists is a significant part of the program. ONE's programmes in Africa and Europe train and foster activists' skills in policy engagement, advocacy campaigning, and storytelling while offering them a platform to influence decision-makers and inspire their network and community.

As an Ambassador, you will receive trainings, access to high-profile events, policy briefings, and support from ONE's expert team. You will lead campaigns and advocacy actions, attending both online and offline actions. This is a great opportunity to build skills in campaigning and advocacy while gaining experience in the international development sector.

# Our Vision: Building Future Leaders

The YA programme is designed to nurture activists who not only understand the intricacies of global challenges but also possess the tools to drive solutions. These individuals embody resilience, creativity, and an unwavering commitment to justice and to build a more just world, because none of us are equal until all of us are equal. They are students, entrepreneurs, political activists, healthcare workers, scientists, and community leaders united by a shared vision: a fairer, more sustainable world where every voice counts.
