AMY

Staying fresh and odour-free is important to help you stay on your A-game. That is why we offer comfort and protection, pure and simple.

Antibacterial Effectiveness - ISO 200743 : 2013				
Staphylococcus aureus	Original	10 Wash	30 Wash	50 Wash
Growth value of control specimen F	+2.6	+2.6	+2.5	+2.5
Antibacterial Activity	+3.9	+3.7	+3.4	+3.3
Klebsiella pneumonie	Original	10 Wash	30 Wash	50 Wash
Growth value of control specimen F	+2.6	+2.6	+2.5	+2.4
Antibacterial Activity	+3.8	+3.6	+3.4	+3.2

STAY FRESH AND HEALTHY TO IMPROVE QUALITY OF LIFE

Our expertise in research and development has contributed to the production of this recycled antimicrobial yarn. The special functionality offers a long-lasting antimicrobial effect helping to inhibit the growth of bacteria, fungus and odour. The benefit of versatile antimicrobial options helps keep the wearer feeling fresh, safe and offers softness and comfort. This superior performance opens the door to endless design opportunities.

Potential Benefits:

- Ensures better odour control
- Inhibits the growth of bacteria and fungus which protects wearer from harmful microbes
- Active antimicrobial properties proven to withstand more than 50 wash cycles

END USES:
