

The Recruitment System in Salesforce

The HR Recruitment System in Salesforce is a system that allows candidates to apply for jobs. It also helps companies to effectively manage the recruitment process in Salesforce.

For: any organisation using Salesforce

Sample Features: Application forms; candidate 360 view; autoresponders; automated recruitment assignments; full communication preview via email integration; recruitment process management incl. kanban view; contracts; e-signatures; notifications, reports and more

Benefits: Shorter recruitment cycle; less HR calls; full control and visibility over the process; standardized data quality; 100% adjusted to your needs; process and cost measurements.
