An Extended Look at *Winter World*

Each month, Earth grows colder.

Snow falls in summer. Glaciers trample cities across North America, Europe, and Asia. The new ice age shows no signs of stopping.

Chaos erupts.

Around the world, people abandon their homes and flock to regions where they can survive. Nations prepare to go to war for the world's last habitable zones.

Scientists search the cause of the new ice age. They send probes into the solar system to collect readings. Near Mars, a probe finds a mysterious object, drifting toward the Sun. Is it responsible for the new ice age? Or is it merely an observer? Or neither? Could it be a relic from a long-extinct civilization? One thing is certain: investigating the object is humanity's best hope of survival.

As the ice age claims more lives and the world slides into anarchy, an international consortium launches a mission into space to make contact. But the first contact mission doesn't go as planned. What the crew discovers out there is beyond anyone's imagination.

Two members of the first contact mission may hold the keys to humanity's salvation.

Dr. Emma Matthews is the commander aboard the International Space Station. For months, she has watched the world below freeze and civilization unravel. The headlines tell only half of the story. The messages from her sister tell the rest, of a world witnessing mass migrations, fighting for survival, struggling to provide a future for their children. When a catastrophe strikes the ISS, Emma faces her own fight for survival.

Dr. James Sinclair is one of the greatest scientists alive. A mind before his time. Years ago, he invented something with the potential to change the world—an invention that would upset the balance of power in the world forever. Fearing that change, his enemies sent him to prison for a crime he didn't commit. But with humanity's future at stake, NASA asks him to join the first contact mission. His expertise is vital to the mission's success—and to saving Emma. With the clock ticking down to humanity's final days on Earth, James makes a decision that will change his life forever and may determine the fate of the entire human race.

Dark Stranger Revealed (The Children Of The Gods Paranormal Romance Book 2)

Author: I. T. Lucas

"**Outstanding!** The story gripped me from the beginning and I didn't stop until I finished the third book. The other books on my kindle will have to wait because I'm going to keep reading the series to the last page."

"**An excellent read!** This is a very different take on paranormal and it was an accidental find. After reading the first book in the series, I bought the entire set. It's fast paced, intriguing and the characters are fully formed and interesting. I cannot put it down!"

"**A new favorite author and series!!!** I really enjoyed this book and the entire series. It's a wonderful paranormal book that is completely different from everything else out there. I devoured all five within a 3 day period of time. Both the writing, characters and story line was AMAZING and I'm dying to get my hands on the next book!!"

"**I LOVE LOVE LOVE THIS SERIES!** I was trying to find a series similar to the Black Dagger Brotherhood series by JR Ward and this hit the nail on the head! I finished the entire series within two weeks and I cannot wait for Book 9 to release! IT Lucas, please keep this story line going as long as possible... I cannot wait to see what happens to the rest of the clan!"

"Awesome story with intriguing characters. Romance and intrigue that draws one in. Better than Shades of Grey by a mile."

I. T. Lucas is one of the best authors I have come across. The Children of the Gods series is fantastic. The characters are savage, gritty sexy, enthralling and the story lines are thrilling. I can't put the book down once I have started and I have read 11 of them. The men are superbly buffed and wild, and the women give them a run for their money in the gorgeous, sexy and strong stakes. Very highly recommend these books to anyone who enjoys sitting on the edge of their seat and chewing their nails in anticipation of what is to come. Very explicit and cruel in some of the books.

"...I was completely hooked from start to finish and did not want to put it down until I was done! I found myself devastated that the story was over already and wanting to read more..." - OnlineBookClub.org

Considering that she's completely out of her element, Syssi feels comfortable and safe letting go with him. That is, until she begins to suspect that all is not as it seems. Piecing the puzzle together, she draws a scary, yet wrong conclusion...

awakening when it seems that the world is on the brink of a brighter future. When Matthew offers him a chance at immortality and a new life free from the restraints of his puritanical upbringing, Marcus seizes the opportunity to become a vampire. Fast-forward to contemporary Paris, where Phoebe Taylor--the young employee at Sotheby's whom Marcus has fallen for--is about to embark on her own journey to immortality. Though the modernized version of the process at first seems uncomplicated, the couple discovers that the challenges facing a human who wishes to be a vampire are no less formidable than they were in the eighteenth century. She had nothing to go back to. Raised a trust-fund baby, she's never had people that cared for her instead of her wealth. He's quiet and serious, commanding and sure, but makes every effort to let her know he sees her, and he's interested. She begins to believe that he may be her future, and she lets him know she's interested. Yet no matter how often she puts herself in his path, he just won't claim her!

Among General Lo'San's customs and people, it is the place of the female to claim and mate her male. He cannot imagine doing it any other way. Synclare's customs indicate that the male should claim and mate his female, and she won't do it differently. It is not her place to tell an Alien General that he is hers — it's all on him to take that stance. While they try to find their way through their confusing clash of customs, a manipulative danger lingers on the horizon disguised as family. This danger could cost Synclare her life if they aren't careful. Will Lo'San recognize the danger to his beloved Synclare before it can steal her away from him, or will he continue to fall under the plan of deception that's been woven for him?

An Extended Look at *The Atlantis Plague*

In Marbella, Spain, Dr. Kate Warner awakens to a horrifying reality: the human race stands on the brink of extinction. A pandemic unlike any before it has swept the globe. Nearly a billion people are dead—and those that the Atlantis Plague does not kill, it transforms at the genetic level. A few rapidly evolve. The remainder devolve.

As the world slips into chaos, radical solutions emerge. Industrialized nations offer a miracle drug, Orchid, which they mass produce and distribute to refugee camps around the world. But Orchid is merely a way to buy time. It treats the symptoms of the plague but never cures the disease.

Immari International offers a different approach: do nothing. Let the plague run its course. The Immari envision a world populated by the genetically superior survivors—a new human race, ready to fulfill its destiny.

With control of the world population hanging in the balance, the Orchid Alliance and the Immari descend into open warfare. Now the last hope for humanity is to find a cure. Kate alone holds the key to unraveling the mystery surrounding the Atlantis Plague. The answer may lie in understanding pivotal events in human history—events when the human genome mysteriously changed. Her journey takes her across the barren wastelands of Europe and northern Africa, but it is her research into the past that takes her where she never expected to go. She soon discovers that the history of human evolution is not what it seems—and setting it right may require a sacrifice she never imagined.

Half-Blood Academy 1: Magic Trials

Author: Meg Xuemei X

"Welcome to Half Death Academy." That's what they call my new school--because only half the students survive.

Rule #1: Keep your head down and don't mess with the four gorgeous demigods who rule the school.

Rule #2: When the demigods try to kill you, lie down and die.

Too bad I never was very good at following the rules. And when my forbidden power awakens, I'll make them regret they tried to make me their bitch.

Magic Trials is the first book in the Half-Blood Academy series, a reverse harem bully romance starring four handsome, cruel, yet overprotective demigods and a badass heroine. Heart-pounding action blends with steamy romance. For fans of Ilona Andrews, Jaymin Eve, Leia Stone, K.F. Breene, and Ivy Asher.

* EXCERPT *

"Now, I need to get you naked."

The Demigod of War held my gown, and I raised my arms for him to pull it off my head carefully. It would take some effort since the gown hugged my every curve. A tearing sound rent the air before I could stop him from ripping my gown into two pieces.

"It's an expensive dress, Axel!" I cried.

"I can afford to buy you thousands more," he said, gloating, yet his voice remained seductive. "I'll buy you a thousand gowns tomorrow to replace this one."

I had a feeling he was going to tear off all of the dresses Héctor had provided for me. He couldn't help it. The demigods were all territorial and possessive, and Axel was one of the worst.

"That's not the point," I shouted in dismay. "I loved this gown. And you should give the money to the poor instead of buying me dresses. I don't need any."

"You're so beautiful, Cookie." His hot mouth stole the rest of my protests, and his strong fingers thrust inside my liquid heat.

Here's what readers are saying about Magic Trials:

"This book starts out at 100 mph and never slows down." ★★★★★

"The steamy romance is like the icing on the cake. I enjoy it, but the story stands on its own without it; amazing characters, beautiful new worlds, daring adventure, and just enough giggles." ★★★★★

"Magic Trials hit most of my soft spots: strong heroine, boarding school, possessive alpha males not too happy about sharing, and while the jerk of the group takes the bullying path, it's not her against everyone and most definitely not her against all of her love interests." ★★★★★

"This is a super fun, exciting beginning to a series I'm really looking forward to diving into. I can't wait to see what danger Marigold will face, the way she will put the men in their place, and the friends she will make along the way." ★★★★★

Dark Secrets Absolved (The Children Of The Gods Paranormal Romance Book 46)

Author: I. T. Lucas

"Waiting for each next book in series is always torture :) Just finished reading this latest installment in the series and that was after going back and reading the entire series for the second time. To give this some context - although I am a voracious reader from the classics to contemporary, I can count on one hand how many books I have ever read a second time and those were primarily classics - Jane Austin, Dickens, etc. With that said, I absolutely love this series - it is so much fun! Lucas does an excellent job of character development and easily form a clear picture of the characters in my mind. I'll be going through withdrawal until book 47 is released :)

He'd survived the transition into immortality, had been accepted into the clan, and was about to marry the most wonderful woman on the face of the planet, his true love mate, his salvation, his everything.

What could have possibly gone wrong?

Just about everything.

He may look like an ordinary 41-year-old, but owing to a rare condition, he's been alive for centuries. Tom has lived history--performing with Shakespeare, exploring the high seas with Captain Cook, and sharing cocktails with Fitzgerald. Now, he just wants an ordinary life.

Unfortunately for Tom, the Albatross Society, the secretive group which protects people like Tom, has one rule: Never fall in love. As painful memories of his past and the erratic behavior of the Society's watchful leader threaten to derail his new life and romance, the one thing he can't have just happens to be the one thing that might save him. Tom will have to decide once and for all whether to remain stuck in the past, or finally begin living in the present.

How to Stop Time tells a love story across the ages—and for the ages—about a man lost in time, the woman who could save him, and the lifetimes it can take to learn how to live. It is a bighearted, wildly original novel about losing and finding yourself, the inevitability of change, and how with enough time to learn, we just might find happiness.

Soon to be a major motion picture starring Benedict Cumberbatch.

The Commander's Captive: An Alien Breeder Romance (The House of Kaimar Book 1)

Author: *Miranda Bridges*

Aliens.

That's right. I said it.

I know—it sounds stupid to me also. I'm a psychologist (sort of), so you'd think I'd be able to reason my way out of this mess. Except the reality is that I've been abducted to become their breeder, and it doesn't take an advanced degree to recognize this is all sorts of jacked up.

But I digress.

Apparently, these aliens are on the brink of extinction and need me and my fellow captives to repopulate. Yay us. I guess it's time to figure out an escape plan before they knock me up. I'll be back later.

Hopefully.

Dark Enemy: Taken (The Children Of The Gods Paranormal Romance Series Book 4)

Author: I. T. Lucas

"I still can't get over just how absolutely amazing this series is!! To intertwine Greek Mythology and history in all aspects as well as current events is absolutely mind blowing! So much so that when you really look at it can certainly seem plausible..."

"Move over Romeo and Juliet!"

"Loved it! Exciting, interesting and hot. Love Amanda and Dalhu starts to grow on me. Highly recommended for those looking for an exciting and sensual read."

"Once in while a book or series comes along that simply won't let you put it down and this was one of those great finds! I normally find myself skimming through characters to get to the ones I like, but not this time! I loved every sentence of every character introduced and simply want more!"

Since the dawn of human civilization, two warring factions of immortals, the descendants of the gods of old, have been secretly shaping its destiny. Amanda's small clan champions progress and peace, while their powerful enemy, the Doomers, propagates ignorance and war.

Descending from a single goddess, the only one to survive the ancient cataclysm that wiped out her kind, Amanda's clan members are forbidden to each other. And as the only other known immortals are their hated enemies, they've been long resigned to a lonely existence of fleeting trysts with human partners. That is, until Amanda, the goddess's youngest daughter and a researcher of paranormal abilities, makes a game-changing discovery; two of her test subjects might be dormant carriers of the immortal gene. But before she can prove it, she gets snatched off a Beverly Hills street by a huge Doomer.

Dalhu can't believe his luck when he stumbles upon the beautiful immortal professor. Presented with a once in a lifetime opportunity to grab an immortal female for himself, he kidnaps her and runs. If he gets caught, either by her people or his, his life is forfeit. But for a chance of a loving mate and a family of his own, Dalhu is prepared to do everything in his power to win Amanda's heart, and that includes leaving the Doom brotherhood and his old life behind.

Amanda soon discovers that there is more to the handsome Doomer than his dark past and a hulking, sexy body. But succumbing to her enemy's seduction, or worse, developing feelings for a ruthless killer is out of the question. No man is worth life on the run, not even the one and only immortal male she could claim as her own.

Her clan and her research must come first.

Dr. Paul Kraus has spent his career searching for what he calls humanity's lost tribes--human ancestors who have gone extinct. When Kraus compares the DNA samples of the lost tribes with our own, he discovers a pattern of changes. A code. He believes he knows what the code is, but the technology doesn't exist to fully decode it. To protect the secret, Kraus hides his work and disappears.

For years, the secret remains buried. When Kraus dies mysteriously, his work is lost forever.

Now the technology exists to finally unravel the code buried in the human genome. The race to find Kraus's research has begun, and one group will do anything to find it.

Dr. Peyton Shaw and her mother have obtained part of Kraus's research--and a cryptic message that could lead to the remaining pieces. They soon learn that finding those pieces may be more dangerous than anyone imagined. But there's no choice. His work is the key to stopping a global conspiracy--and an event that will change humanity forever.

The ultimate secret, buried in the human genome, will change our very understanding of what it means to be human. For Peyton, finding it may come at an incredible price. Author: Presley Hall

We don't trust each other. We don't even like each other. So why does he keep saving my life?

I'm not supposed to be here.

Not on this planet. Not in this galaxy. And especially not surrounded by massive alien warriors.

The other women all believe we're safe with them, but I don't. Maybe it's because I've already seen how awful humans can be, and I have no reason to think aliens will be any different.

At least the one named Jaro seems to agree with me that combining our forces is a bad idea. He looks at me with the same suspicion I have for him.

But as our group makes the dangerous trek to the Voxerans' encampment, one wrong move separates me from the others—and to my shock, it's Jaro who comes after me.

Now we're stranded together, forced to rely on each other to survive. If we can't learn to trust each other, there's a good chance we'll die out here.

And if we *do* learn to trust each other?

Well, maybe we'll get more than we bargained for...

Lion's Mate: Paranormal Menage Protector Romance

Author: Lilly Wilder

Two Alpha Males Fighting To Be Top Dog (Cat?) And Willing To Protect Me If I Joined Their Pride...And Mate

I go for guys that are all big swingers and hard hitters.

They tend to be shallow and direct.

They don't mess around, because they're not complicated enough to promise me forever.

Problem is, they tend not to mind where their swings hit.

One night, my current leading asshole got a little too rough.

And then two incredibly attractive men came in to rescue me...who happen to be lion shapeshifters.

Leo and Jackson are both big, protective, hard-hitting – totally my type.

But uncomplicated?

Abusive?

Just like every other guy in my life?

I guess I'll find out.

Lion's Mate is a standalone paranormal romance with a HEA and NO cheating!

Chosen by a Beast: An Alien Breeder Romance (Hearts of Stone Book 1)

Author: Miranda Bridges

I've been abducted. Twice.

And now my situation with this new group of aliens has gone from bad to worse. I was with a bunch of elf-like aliens who had unparalleled technology, but now I'm in the midst of a group of primitive gargoyle aliens running around in loincloths.

Which doesn't hide much, let me tell you. There's one gargoyle in particular who watches my every move, but what's under his loincloth scares me more than his beastly appearance.

To be sure we're worthy to breed with, the savages have us each perform a rite of passage.

And by that I mean a test of survival. Navigate the terrain, scavenge for food, defend myself against wildlife—basically all the things that could cause bodily harm or death. So that's fun.

And as much as I'd like to be rescued by the alien who's stalking me, it looks like I'm on my own. Maybe I shouldn't have flipped him off, but how was I supposed

to know I'd need his help?

Now, I'm going to have to tap into my survival skills or I'll be dead by morning. May the odds and the aliens be ever in my favor. Or something.

Year One: Chronicles of The One, Book 1

Author: Nora Roberts

#1 NEW YORK TIMES BESTSELLER (December 2017)

A stunning new novel from the #1 *New York Times* bestselling author Nora Roberts—*Year One* is an epic of hope and horror, chaos and magick, and a journey that will unite a desperate group of people to fight the battle of their lives...

It began on New Year's Eve.

The sickness came on suddenly, and spread quickly. The fear spread even faster. Within weeks, everything people counted on began to fail them. The electrical grid sputtered; law and government collapsed—and more than half of the world's population was decimated.

Where there had been order, there was now chaos. And as the power of science and technology receded, magick rose up in its place. Some of it is good, like the witchcraft worked by Lana Bingham, practicing in the loft apartment she shares with her lover, Max. Some of it is unimaginably evil, and it can lurk anywhere, around a corner, in fetid tunnels beneath the river—or in the ones you know and love the most.

As word spreads that neither the immune nor the gifted are safe from the authorities who patrol the ravaged streets, and with nothing left to count on but each other, Lana and Max make their way out of a wrecked New York City. At the same time, other travelers are heading west too, into a new frontier. Chuck, a tech genius trying to hack his way through a world gone offline. Arlys, a journalist who has lost her audience but uses pen and paper to record the truth. Fred, her young colleague, possessed of burgeoning abilities and an optimism that seems out of place in this bleak landscape. And Rachel and Jonah, a resourceful doctor and a paramedic who fend off despair with their determination to keep a young mother and three infants in their care alive.

In a world of survivors where every stranger encountered could be either a savage or a savior, none of them knows exactly where they are heading, or why. But a purpose awaits them that will shape their lives and the lives of all those who remain.

The end has come. The beginning comes next.

Days go by without contact to the outside world. Then weeks.

In the chaos, conspiracy theories rage about a foreign cyberattack. Was it the North Koreans? The Russians? The Chinese? Might it be the first shockwave of a global shift in power?

But even these questions become unimportant as Mike and his family struggle for survival in the wintry tomb of a doomed New York.

Mikko: A Scifi Alien Warrior Romance (Stolen Warriors Book 2)

Author: Ella Maven

Hide and seek is a lot less fun in an alien prison where the winner gets... me.

Rian: I'm not a stranger to being behind bars, but this prison leaves a lot to be desired. There are zero communal showers, minimal locking cells, and the other prisoners are extremely hostile. That could be because they are aliens and this is a prison in another galaxy. Add in the fact that I'm a human female, and my life span has just dropped some serious time.

I'm about to go down fighting when a scary blue alien with spikes decides he's my rescuer. Except he doesn't seem happy about my presence and, well, join the club, buddy.

Mikko: After spending a third of my life in the Pit, I returned for some payback but instead find a human female fighting for her life. She's small, snarly, and irritatingly beautiful.

When a coveted reward is offered to the prisoners for our capture, the game changes. My enemies thought I was unpredictable with anger issues before? They haven't seen anything yet. I'll escape again with my female, and then the real payback begins.

Mikko is a SciFi Alien Warrior Romance featuring a prickly, snarky hero with a heart of gold and a heroine who loves as hard as she fights.

Dark Enemy Captive (The Children Of The Gods Paranormal Romance Book 5)

Author: I. T. Lucas

"New favorite author. This author is incredible and her books are fantastic. They are riveting. There are many mornings I don't want to get up for work because I've stayed up so late reading her book. She's now one of my new favorites."

"Holy Moly!!!! One of the best series I've read in a long time! I can hardly wait for the next book. FANTASTIC!!!! "

"I have been a reader all my life and always have my favorite authors. Every once in a while, I find a new author that engages me so much that I don't want to put the book down. This series is one of them. It is not a stand alone series of books, each one builds on the prior ones. So far, another great thing about this series is that I don't need to wait a year for the next book to hit. Hats off to I.T. Lucas for bringing your love of writing to those of us who love to read."

"Again this author has done it! Another masterpiece for the collection. What started out of curiosity has become an obsession. The Children Of The Gods is magnificent. Dalhu and Amanda's story is beautiful and eternal. Romeo and Juliet to the max. I'm sorry if I offend anyone because I love Shakespeare too, but there's a new author in the Romance masters section and is I.T. Lucas. Until the next one..."

When the rescue team returns with Amanda and the chained Dalhu to the keep, Amanda is not as thrilled to be back as she thought she'd be. Between Kian's contempt for her and Dalhu's imprisonment, Amanda's budding relationship with Dalhu seems doomed. Things start to look up when Annani offers her help, and together with Syssi they resolve to find a way for Amanda to be with Dalhu. But will she still want him when she realizes that he is responsible for her nephew's murder? Could she? Will she take the easy way out and choose Andrew instead?

Taken by the Alien Warrior: A Sci Fi Alien Romance (Warriors of Agron Book 1)

Author: Hope Hart

The aliens who stole me made a mistake.

The Grivath have sold us on Gule- a planet where hope goes to die.

The women who are imprisoned with me are in high demand and they all look like models. Me? I'm 5'2 shy, curvy, and a kindergarten teacher. Maybe they really meant to take my pageant queen sister?

If that's not bad enough, our ship has crashed and half of the women are missing. Did I mention the locals want to eat us? Insert the tall, incredibly-built warrior aliens, who saved us. Things are looking up, except that one of them is eyeing me like a snack, and not in a cannibalistic way-- if you catch my drift.

Terex is tough, fierce, and bossy, and doesn't seem to understand that I can't stay and be his snuggle bunny. I'm not quite sure why he isn't chasing after one of the other women when every man I've ever known has overlooked me.

But not Terex. When he looks at me, he doesn't seem to see chubby, awkward Ellie. And his gaze burns brighter instead of shifting away.

Now, I've just got to convince him to help me find the other women and get back to Earth.

Should be a piece of cake... Right?

Taken by the Alien Warrior is a full-length romance with no cliffhanger and a guaranteed HEA. While this is a spin-off series from the hugely popular Arcav Alien Invasion series, this is a standalone series.

If you like hot aliens and kick-ass heroines, you'll love Warriors of Agron- Hope Hart's new sci-fi romance series.

The Ninth Necromancer needs a swordswoman.

Gideon has a sword, some dirty magazines, and no more time for undead nonsense.

Tamsyn Muir’s *Gideon the Ninth* unveils a solar system of swordplay, cut-throat politics, and lesbian necromancers. Her characters leap off the page, as skillfully animated as arcane revenants. The result is a heart-pounding epic science fantasy.

Brought up by unfriendly, ossifying nuns, ancient retainers, and countless skeletons, Gideon is ready to abandon a life of servitude and an afterlife as a reanimated corpse. She packs up her sword, her shoes, and her dirty magazines, and prepares to launch her daring escape. But her childhood nemesis won’t set her free without a service.

Harrowhark Nonagesimus, Reverend Daughter of the Ninth House and bone witch extraordinaire, has been summoned into action. The Emperor has invited the heirs to each of his loyal Houses to a deadly trial of wits and skill. If Harrowhark succeeds she will become an immortal, all-powerful servant of the Resurrection, but no necromancer can ascend without their cavalier. Because the United States is no more. And the lawless land that’s replaced it is a deadly place for a woman.

My worst fear comes true when I’m captured by the Steel Demons MC, the most ruthless biker gang in the Southwest. These men thrive on the violence and chaos brought on by the Collapse, and they’re eager to unleash it all on me.

It doesn’t even matter that the President’s dog likes me. I’m as good as dead.

Rexor: A SciFi Alien Warrior Romance (Stolen Warriors Book 1)

Author: Ella Maven

They thought I was dangerous before, but now that I have a female to defend... I'm ruthless.

Daisy: I'm a glass half-full girl, but this last week has really tested my outlook on life. First of all, aliens exist. Yeah, there's a doozy. Second of all, they steal humans from Earth, and they're not nice about it. Like at all. Anger issues abound in other galaxies apparently.

My situation worsens when I learn I'm the prize in some really effed-up alien gladiator games. I'm just going to admit it now--my glass is empty, and this doesn't look good for me...

Rexor: Once I was a proud Drixonian Warrior. Now I'm an experiment gone bad and a former gladiator who can't control his bloodlust.

When I see a human female with sunshine hair in danger, I can't let her fall into the clutches of monsters who will break her. I steal her with the intention of rescuing her, not keeping her for myself. She's beauty and happiness. I'm a hideous shadow of what I once was and losing my mind with every planet's rotation. All I know is that while we're on the run from our enemies, I'll do anything to protect her. Even if I have to break myself to do it.

Rexor is a SciFi Alien Warrior Romance with lots of action, a heroine who's really trying to look on the bright side, and a tortured hero with a few...enhancements.

Anyway, I'm still trying to figure out how to get him to do what I want when I stumble onto plans for an assassination. I decide to get involved because if anyone is going to kill the sexy prince it's going to be me. Especially if he calls me his "namori" one more time. Whatever that means.
