

Quicksilver

Author: Dean Koontz

#1 *New York Times* bestselling master of suspense Dean Koontz takes a surprising and exhilarating road trip with a man in pursuit of his strange past—mile by frightening mile.

Quinn Quicksilver was born a mystery—abandoned at three days old on a desert highway in Arizona. Raised in an orphanage, never knowing his parents, Quinn had a happy if unexceptional life. Until the day of “strange magnetism.” It compelled him to drive out to the middle of nowhere. It helped him find a coin worth a lot of money. And it practically saved his life when two government agents showed up in the diner in pursuit of him. Now Quinn is on the run from those agents and who knows what else, fleeing for his life.

During a shoot-out at a forlorn dude ranch, he finally meets his destined companions: Bridget Raining, a beauty as gifted in foresight as she is with firearms, and her grandpa Sparky, a romance novelist with an unusual past. Bridget knows what it’s like to be Quinn. She’s hunted, too. The only way to stay alive is to keep moving.

Barreling through the Sonoran Desert, the formidable trio is impelled by that same inexplicable magnetism toward the inevitable. With every deeply disturbing mile, something sinister is in the rearview—an enemy that is more than a match for Quinn. Even as he discovers within himself resources that are every bit as scary.

1984

Author: *George Orwell*

A PBS Great American Read Top 100 Pick

With extraordinary relevance and renewed popularity, George Orwell's *1984* takes on new life in this edition.

"Orwell saw, to his credit, that the act of falsifying reality is only secondarily a way of changing perceptions. It is, above all, a way of asserting power."—The New Yorker

In *1984*, London is a grim city in the totalitarian state of Oceania where Big Brother is always watching you and the Thought Police can practically read your mind. Winston Smith is a man in grave danger for the simple reason that his memory still functions. Drawn into a forbidden love affair, Winston finds the courage to join a secret revolutionary organization called The Brotherhood, dedicated to the destruction of the Party. Together with his beloved Julia, he hazards his life in a deadly match against the powers that be.

Lionel Trilling said of Orwell's masterpiece, "1984 is a profound, terrifying, and wholly fascinating book. It is a fantasy of the political future, and like any such fantasy, serves its author as a magnifying device for an examination of the present." Though the year 1984 now exists in the past, Orwell's novel remains an urgent call for the individual willing to speak truth to power.

The Handmaid's Tale

Author: Margaret Atwood

Now a Hulu Original Series

The Handmaid's Tale is a novel of such power that the reader will be unable to forget its images and its forecast. Set in the near future, it describes life in what was once the United States and is now called the Republic of Gilead, a monotheocracy that has reacted to social unrest and a sharply declining birthrate by reverting to, and going beyond, the repressive intolerance of the original Puritans. The regime takes the Book of Genesis absolutely at its word, with bizarre consequences for the women and men in its population.

The story is told through the eyes of Offred, one of the unfortunate Handmaids under the new social order. In condensed but eloquent prose, by turns cool-eyed, tender, despairing, passionate, and wry, she reveals to us the dark corners behind the establishment's calm facade, as certain tendencies now in existence are carried to their logical conclusions. *The Handmaid's Tale* is funny, unexpected, horrifying, and altogether convincing. It is at once scathing satire, dire warning, and a tour de force. It is Margaret Atwood at her best.

Alien Exile: A SciFi Alien Romance (Fated Mates of the Sea Sand Warlords Book 5)

Author: Ursa Dax

"I know that I may be frightening, my mate. But beneath all that makes me strange to you, my heart recognizes yours..."

ZOEY

I've spent most of my time on this alien planet alone in the wrecked human ship. So now that I'm living with the other girls and the barbarian warriors at the Cliffs of Uruzai, I'm finding it hard to adjust. These Sea Sand guys are just so... alien.

But they're nothing compared to the monster that comes stalking out of the shadows of the cliffs one night. He has a snout, and claws, and a massive spiked tail. He's more like a crocodile than a man, and even worse than that, he claims he has a human mate. When his dark eyes settle on me, I know with a sinking feeling exactly who it is he's been looking for.

I want to stay as far away from this nine-foot-tall lizard man as I possibly can. But when a mission across the sands throws us together, I find myself spending a lot more time with him than I'd bargained for. And I find myself starting to grow closer to him than I ever would have imagined.

But as my feelings for him grow, so does my fear. Because this mission we're on? It could be the end of him. The end of both of us, before we even begin.

KOR

I have travelled days upon days to find my soft, strange mate. But now that I have found her, she recoils from me. I am the in-between, the exile, caught halfway between the sea and the sands and the only one of my kind. I am aware that I am strange, but I never thought my own beautiful mate would regard me as a monster.

The Sea Sand men tell me my mate does not feel the mate bond for me. If I am to have her, I must somehow win her. But before I can figure out how to do that, we are forced into a journey to the Bitter Sea. The Sea Sand tribes need me to find my father's people, a race of beings I have never even seen.

Crossing the Bitter Sea is the most dangerous thing I've ever done. But it is in service of my mate, so I will do it. And I will not hesitate.

I would do anything to keep her safe. Even if that means tearing myself from her side forever.

The Mirror

Author: Marlys Millhiser

In this twisting time-travel thriller, a woman faints on the eve of her wedding—and awakens at the turn of the century in her grandmother's body . . .

The night before she is supposed to get married, Shay Garrett has no idea that a glimpse into her grandmother's antique Chinese mirror will completely transform her seemingly ordinary life. But after a bizarre blackout, she wakes up to find herself in the same house—but in the year 1900. Even stranger, she realizes she is now living in the body of her grandmother, Brandy McCabe, as a young woman. Meanwhile, Brandy, having looked into the same mirror, awakens in Shay's body in the present day—and discovers herself pregnant.

As Rachael—the woman who links these two generations, mother to one and daughter to another—weaves back and forth between two time periods, this imaginative thriller explores questions of family, identity, and love. Courageous, compassionate Shay finds herself fighting against the confines of a society still decades away from women's liberation, while Brandy struggles to adapt to the modern world she has suddenly been thrust into. The truth behind this inexplicable turn of events is more complex than either woman can imagine—and *The Mirror* is a tribute to the triumph of the female spirit, even in the face of seemingly insurmountable obstacles.

"What happens will surprise you. In the meantime, settle down for a good read." —*The Denver Post*
