## Barbarian's Taming: A SciFi Alien Romance (Ice Planet Barbarians Book 9)

**Author: Ruby Dixon**

As a newcomer to the alien tribe, I've struggled to find my place. It might be because I'm a tad headstrong at times. And yes, I might have thrown a few things at people's heads. But I had a good reason to pitch a fit - my shy sister was stolen away right under my nose. Of course, now she's back and mated. Everyone's happy...except me.

I need...affection.

Attention.

Okay, I'm lonely. *Really* lonely.

Strangely enough, the only person that I think understands what I'm going through is the same blue-skinned brute that stole my sister. It's wrong to hook up with him, even as a mindless fling.

Except...I'm not so good with the whole 'rules' thing.

And he's not so great with the 'fling' thing.

Now resonance is giving us a second chance, but...I'm afraid. What if what I have with my mate is too broken to be fixed? What if there's no hope left for us at all?

Each month, Earth grows colder.

Snow falls in summer. Glaciers trample cities across North America, Europe, and Asia. The new ice age shows no signs of stopping.

Chaos erupts.

Around the world, people abandon their homes and flock to regions where they can survive. Nations prepare to go to war for the world's last habitable zones.

Scientists search the cause of the new ice age. They send probes into the solar system to collect readings. Near Mars, a probe finds a mysterious object, drifting toward the Sun. Is it responsible for the new ice age? Or is it merely an observer? Or neither? Could it be a relic from a long-extinct civilization? One thing is certain: investigating the object is humanity's best hope of survival.

As the ice age claims more lives and the world slides into anarchy, an international consortium launches a mission into space to make contact. But the first contact mission doesn't go as planned. What the crew discovers out there is beyond anyone's imagination.

Two members of the first contact mission may hold the keys to humanity's salvation.

Dr. Emma Matthews is the commander aboard the International Space Station. For months, she has watched the world below freeze and civilization unravel. The headlines tell only half of the story. The messages from her sister tell the rest, of a world witnessing mass migrations, fighting for survival, struggling to provide a future for their children. When a catastrophe strikes the ISS, Emma faces her own fight for survival.

Dr. James Sinclair is one of the greatest scientists alive. A mind before his time. Years ago, he invented something with the potential to change the world—an invention that would upset the balance of power in the world forever. Fearing that change, his enemies sent him to prison for a crime he didn't commit. But with humanity's future at stake, NASA asks him to join the first contact mission. His expertise is vital to the mission's success—and to saving Emma. With the clock ticking down to humanity's final days on Earth, James makes a decision that will change his life forever and may determine the fate of the entire human race.

## **Claimed by the Hunter: A Post-Apocalyptic Alien Romance (Xarc'n Warriors Book 1)**

**Author: Lynnea Lee**

**Alice**

My name is Alice, and I live in the Bugpocalypse.

I survived my first post-apocalyptic winter, and spring is here. And that's bad news! With warm weather comes the endless swarms of deadly bugs.

I need to forage for food, but there's just one little problem. Okay, so "little" isn't the best word to describe the fierce Xarc'n warrior who is obsessed with me. **Kaj'k is freakin' HUGE! And his sharp claws, pointy fangs, and massive horns are scary AF.**

I reject his gift of food and flowers, but my massively muscled alien hunter doesn't get the hint. He tosses me over his shoulders and carries me to his shuttle. I expect the worse, but all he does is purr at me.

**Kaj'k**

I've spent my entire life fighting the swarm. Genetically engineered to hunt the scourge across the galaxy, Xarc'n hunters are the ultimate predator. It takes a lot to take one of us down. Then, I meet the little human female who brings me to my knees.

My Alice is full of fire, and I have no doubt she could survive on her own. **But she's my mate, and she's mine to protect.** When cannibals and scourge threaten my female, I toss her over my shoulder and carry her to my ship.

**Now that I have my mate in my arms, I'm never letting her go!**

What does one danger-loving corsair do when he's stranded with a beautiful human female on a jungle planet? I'm about to find out...

## **Lauren's Barbarian: A SciFi Alien Romance (Icehome Book 1)**

**Author: Ruby Dixon**

A lush, tropical island on an icy planet makes no sense.

Then again, not much makes sense anymore after waking up and finding myself not in bed but on a strange world populated by aliens. Since that moment, I've learned that nothing is normal anymore and I've got to roll with the punches. I can handle this, though. I'm strong and capable.

So... washed up on a tropical island? Got it handled.

Separated from the others in my group? Handled.

Stranded alone with a brutal but delicious alien man that can't speak English but has great...ahem...body language? Yup, handled.

Add in the fact that my cootie – a symbiont I need to survive – has chosen my big, hulking alien friend as my fated mate? Let's just say that the situation isn't the only thing that's going to be handled.

But it isn't long before I learn that the tropical island paradise is a death trap and we're all in grave danger, aliens and humans alike. To survive this, I'll need my tempting guy to give me a hand with the situation...good thing he's got four of them.

This romance features all of the adventure, humor and community you've come to expect in the Ice Planet Barbarians series, but it stands on its own. You do not need to read the other series (or be caught up) in order to read LAUREN'S BARBARIAN. Enjoy!

## **Marked (Tribes Book 1)**

**Author: Milana Jacks**

**This alien female crash-landed then marked my territory. I have a lot to say about that. Namely, welcome to the tribe, human.**

My exciting vacation gets a little too exciting when my ship blows up, and my escape pod lands on an alien planet filled with a predator species. They're barely civilized, not a translator chip in sight, and there's no mistaking the way they drool when they stalk me.

I gravitate toward the one that seems to want to keep me safe. Impossibly huge, black hair, pale eyes.

But tribal law decrees I'm the prize in a series of deadly games. To claim me, he must win. If he loses, I'm toast.

\*\*\* From the author of the Horde and the Beasts, comes a new exciting series with an authentic Alpha alien male voice, humor, and heart. They're primal. They're Vikings in space. They can shift and will hook you for life.

**Author: Zoey Draven**

**She made a deal with the Dakkari devil. Now, he owns her.**

On the unforgiving planet of Dakkar, I did what all the humans in our village did: kept my head down, worked to provide for my family, and I certainly didn't break any Dakkari laws to risk inciting the alien race's merciless wrath.

Unfortunately, the same couldn't be said for my brother and one careless mistake brings a horde of the nomadic, barbarian Dakkari straight to our doorstep, led by their powerful horde king—a cold, ruthless, battle-scarred warrior demanding retribution.

In order to save my brother's life, I do the unthinkable.

I sell myself to the horde king as his war prize. I agree to warm his furs, to travel with his horde across the wild lands of Dakkar, and to never see my family again.

But as I struggle with my new reality, I discover that the surly, mysterious, dominant horde king never intended for me to be his concubine...

He wants me as his *queen*.

## **Enticed by an Alien Warlord (Fated Mates of the Ferlaern Warriors Book 1)**

**Author: Ava Ross**

**He has tusks and a tail and insists she's his fated mate. She's enticed, but determined not to get involved. Can a burly alien warrior and a single mom find love together on a planet far from Earth?**

*Garek:* With my clan threatened, I don't have time for romance with a pesky Earth female. Until I meet Piper. She and her youngling son are part of our planet's new settlement. Soon, I find myself helping her plan her home and talking about odd Earthling activities. What is a square dance, and must I do it? She's soft and lush in all the right places, and I could pick her up and carry her around with one arm. And her son... I ache to show him how to tame a mighty winged trundier. Piper may say she doesn't need love, but I'll do whatever it takes to win her heart.

*Piper:* I brought my eight-year-old son to Ferlaern to start anew--the new wild west, we're calling this planet. The other women want romance but not me. Then I meet Garek, a seven-foot-tall, gruff warrior who's out to steal my heart. Burned in the past, I'm afraid to trust. ## **Savage: A Rough Romance (Alpha Brotherhood Book 1)**

**Author: Sara Fields**

**I thought no alpha could tame me. I was wrong.**

Many men have tried to master me, but never one like Aric. He is not just an alpha, he is a fearsome beast, and he means to take for himself what warriors and kings could not conquer.

I thought I could fight him, but his mere presence forced overwhelming, unimaginable need upon me and now it is too late. I'm about to go into heat, and what comes next will be truly shameful.

He's going to ravage me, ruthlessly laying claim to every single inch of me, and it's going to hurt. But no matter how desperately I plead as he wrenches one screaming climax after another from my helplessly willing body, he will not stop until I'm sore, spent, and marked as his.

It will be nothing short of savage.

**Publisher's Note:** *Savage* is a stand-alone novel which is the first entry in the *Alpha Brotherhood* series. It includes spankings, rough sexual scenes, intense and humiliating punishments, and strong D/s themes. If such material offends you, please don't buy this book.

## **Depraved: A Dark Romance**

Breaking women like Yulia Wyndham is the reason for Jon Rexall's existence, and bending her to his will should have been just like countless previous missions. Simply hunt her down, strip her bare, and torment her quivering body until she yields. Then move on to the next target.

But as Yulia lies before him naked and bound, her throat sore from screaming and her thighs glistening with the evidence of her helpless, desperate need, Jon knows this time is different.

She will plead for mercy as she is punished and beg shamefully for the climax endlessly denied to her. But when she surrenders at last he is not just going to ravage her long, hard, and painfully.

He is going to make her his.

Forever.

**Publisher's Note:** *Depraved* includes spankings, rough sexual scenes, intense and humiliating punishments, and strong D/s themes. If such material offends you, please don't buy this book.

It's a survival mechanism necessary for this sparsely-populated world we're stranded on...and romantic, in a weird, alien way.

Everyone expects resonance to happen when twenty newcomers are dropped onto the frosty world. I doubt anyone expects the gorgeous, golden god named Ashtar to resonate to someone like me, though. He's fierce. Flirty. Powerful. Disgustingly handsome.

I'm...not any of those things. I'm bland. Boring. Clumsy.

But resonance seems to think we'd be great together. And Ashtar does, too...

### **An Extended Look at *The Atlantis Plague***

In Marbella, Spain, Dr. Kate Warner awakens to a horrifying reality: the human race stands on the brink of extinction. A pandemic unlike any before it has swept the globe. Nearly a billion people are dead—and those that the Atlantis Plague does not kill, it transforms at the genetic level. A few rapidly evolve. The remainder devolve.

As the world slips into chaos, radical solutions emerge. Industrialized nations offer a miracle drug, Orchid, which they mass produce and distribute to refugee camps around the world. But Orchid is merely a way to buy time. It treats the symptoms of the plague but never cures the disease.

Immari International offers a different approach: do nothing. Let the plague run its course. The Immari envision a world populated by the genetically superior survivors—a new human race, ready to fulfill its destiny.

With control of the world population hanging in the balance, the Orchid Alliance and the Immari descend into open warfare. Now the last hope for humanity is to find a cure. Kate alone holds the key to unraveling the mystery surrounding the Atlantis Plague. The answer may lie in understanding pivotal events in human history—events when the human genome mysteriously changed. Her journey takes her across the barren wastelands of Europe and northern Africa, but it is her research into the past that takes her where she never expected to go. She soon discovers that the history of human evolution is not what it seems—and setting it right may require a sacrifice she never imagined.

Her home. Her job. In a few short months, Mina has lost everything, including hope. Freezing and alone on a winter night, she isn't sure if she will make it to the next day. Or even if it matters.

She wakes up to find herself naked and freezing, but no longer alone. An angel appears out of the snow to save her. An angel with fangs and claws, and a pain in his eyes which matches her own.

Betrayed by everyone he cares about, Myk-El retreats into a solitary life of study and discipline. When he finds himself alone on a strange planet, his only real regret is that his books did not accompany him.

Then he finds a fragile, helpless female in the snow. Experience has taught him not to trust, but he cannot resist the appeal in her big, blue eyes. As he thaws her frozen body, she begins to thaw his frozen heart.

But when the hidden forces behind their arrival on the planet make their presence known, will Mina be able to save him in return? Or will they use her to destroy him?

413 - Days since I've spoken to another living human

4 - Men who have climbed my fence looking for safety

## 1 - Last chance for Love

Kelsey survived the start of the apocalypse and thrived in the new world with help from her friends but now they're gone. Alone for over a year and mentally broken with high anxiety, she pushes through every day trying to find the will to keep going. Until three sweet, sexy men and one hot a\*\*hole climbs her fence looking for sanctuary.

Linc, Oliver, Grayson and Devin have been on the run from the dead and are at the end of their rope when a horde chases them straight into Kelsey's fences. When she lets them in they feel like they've hit the apocalypse jackpot with all the food, shelter and security they could want. It isn't long before they all realize that Kelsey's the real prize. ## Grr!: An Alien Warrior Romance

**Author: Zeta Star**

**Without Grr,—I didn't name him, okay?—I'd have been a goner. And his furry abs? Just a bonus. (A nice one.)**

First, giant alien lizard-guys abduct me. Then they leave me alone in a cell next to Grr. Then the force-field between us dies.

So now it's just me and Grr. Sure, he's beat up and pissed off with claws and fangs (I kind of like the fangs). And he growls a lot. Anyone would in our situation.

But hey, if you're going to escape an alien prison ship and get chased across a planet where half the creatures you meet try to eat you, it's good to have seven-feet of Grr at your side. He's also easy on the eyes. Abs-on-abs, biceps-on-biceps, and let's say all the right bulges in all the right places.

And he likes ear rubs. And other rubs. And rubbing me. (I like that too.)

The more time I spend with Grr, the more I think getting abducted by aliens wasn't such a bad thing.

I just hope the lizard-guys don't kill us before Grr can call in the big guns.

The ones that aren't furry.

(Seriously, I'm not talking about the St. Bernard sized hamster. We just met him.)

Grr! is a full-length (and I mean full-length) alien warrior romance with pulse-pounding action, lots of humor, cute critters, and all the hotness.

If you like alien abduction romance with a twist, give Grr! a try. HEA guaranteed.

## Bonded to the Stryxian: A Sci-fi Alien Romance (Stryxian Alien Warriors Book 1)

**Author: Ella Blake**

Humans made a deal with the Stryxian males: Help us defend Earth, and when the war is over, we'll send you women to help rebuild your dying species. Now, the war appears to be over and Trinity Bentzer's number has been called in the lottery. Only, instead of winning a boatload of money, she's getting some badass winged alien she's never met. Trin's not thrilled to be shipped off and matched up, until she meets Raig. Maybe she hit the jackpot, after all.

Commander Raig Thanor's job is to supervise the females' move to their holding chambers until they are sent to their final matches, but the moment he meets Trinity, he knows she's his. If only claiming her didn't risk sparking a war within his own people.

This is book one of the Stryxian Alien Warrior series but can be read alone with no cliffhangers and no cheating. I write what I love to read, so there is always consent and always a happy ending.

## Possessed: A Sci-Fi Alien Warrior Romance (Raider Warlords of the Vandar Book 1)

**Author: Tana Stone**

**I sacrificed myself to save my sister's ship. Now the raider warlord owns me.**

It was my own fault. I was the navigator of our ship, and I'm the one who led us straight into Vandar territory.

We'd heard rumors about the Vandar raiders—everyone in the galaxy had. Terrifying and ruthless, they were a scourge on the Zagrath empire and destroyed everything in their path.

Few had actually laid eyes on the Vandar or the notorious warlords who led their fleets of warships—and survived to talk about it. So, when the ruthless aliens boarded our ship intent on destroying it and killing the crew, I did the only thing I could do.

I gave myself to the dark and menacing warlord. In exchange for allowing my sister's ship passage out of the Vandar territory, I must share his bed and travel with his crew of deadly raiders. Even though the sight of the huge, battle-scarred alien terrifies me.

But as I adjust to my new life on a savage warship, I discover that the dominant alien warrior wants more than just my body. He wants to possess my soul. And he'll make a new deal with me to get it.

*Possessed* is a full-length sci-fi romance novel with a HEA and no cheating. It features steamy scenes on a raider warship, alien horde space battles, and some serious enemies-to-lovers heat.

If you like dominant and dangerous alien warriors, alien abduction to seduction romance, and hot scenes with a happily ever after, you'll love *Possessed*, the first book in Tana Stone's sci-fi romance Raider Warlords of the Vandar series. Each book can be read as a standalone.

## Dark Stranger Revealed (The Children Of The Gods Paranormal Romance Book 2)

**Author: I. T. Lucas**

"**Outstanding!** The story gripped me from the beginning and I didn't stop until I finished the third book. The other books on my kindle will have to wait because I'm going to keep reading the series to the last page."

"**An excellent read!** This is a very different take on paranormal and it was an accidental find. After reading the first book in the series, I bought the entire set. It's fast paced, intriguing and the characters are fully formed and interesting. I cannot put it down!"

"**A new favorite author and series!!!** I really enjoyed this book and the entire series. It's a wonderful paranormal book that is completely different from everything else out there. I devoured all five within a 3 day period of time. Both the writing, characters and story line was AMAZING and I'm dying to get my hands on the next book!!"

"**I LOVE LOVE LOVE THIS SERIES!** I was trying to find a series similar to the Black Dagger Brotherhood series by JR Ward and this hit the nail on the head! I finished the entire series within two weeks and I cannot wait for Book 9 to release! IT Lucas, please keep this story line going as long as possible... I cannot wait to see what happens to the rest of the clan!"

"Awesome story with intriguing characters. Romance and intrigue that draws one in. Better than Shades of Grey by a mile."

**I. T. Lucas is one of the best authors I have come across.** The Children of the Gods series is fantastic. The characters are savage, gritty sexy, enthralling and the story lines are thrilling. I can't put the book down once I have started and I have read 11 of them. The men are superbly buffed and wild, and the women give them a run for their money in the gorgeous, sexy and strong stakes. Very highly recommend these books to anyone who enjoys sitting on the edge of their seat and chewing their nails in anticipation of what is to come. Very explicit and cruel in some of the books.

"...I was completely hooked from start to finish and did not want to put it down until I was done! I found myself devastated that the story was over already and wanting to read more..." - OnlineBookClub.org

It doesn't match the records of any known vessel. Deep within, researchers find evidence of a scientific experiment that will rewrite our basic understanding of the human race.

In Atlanta, Dr. Peyton Shaw is awakened by the phone call she has dreaded for years. As the CDC's leading epidemiologist, she's among the first responders to outbreaks around the world. It's a lonely and dangerous job, but it's her life—and she's good at it. This time, she may have met her match.

In Kenya, an Ebola-like pathogen has infected two Americans. One lies at death's door. With the clock ticking, Peyton assembles her team and joins personnel from the Kenyan Ministry of Health and the WHO. What they find in the remote village is beyond their worst fears. As she traces the origin of the pathogen, Peyton begins to believe that there is more to this outbreak—that it may be merely the opening act in a conspiracy with far reaching consequences.

In Berlin, Desmond Hughes awakens in a hotel room with no memory of how he got there or who he is. On the floor, he finds a dead security guard from an international pharmaceutical company. His only clue leads him to Peyton Shaw—a woman who seems to know him, but refuses to tell him how. With the police searching the city for him, Desmond desperately tries to piece together what happened to him. To his shock and horror, he learns that he may be involved in causing the outbreak—and could hold the only key to stopping it.

As the pathogen spreads around the world, Peyton and Desmond race to unravel the conspiracy behind the pandemic—and uncover secrets some want to keep buried. With time running out, they face an unimaginable decision.

## **Provoked: A Sci-Fi Alien Warrior Romance (Raider Warlords of the Vandar Book 6)**

**Author: Tana Stone**

**I snuck onto the wrong ship. Now I'm at the mercy of the most terrifying and deadly of the Vandar warlords—and he refuses to let me go.**

Running away and joining my sister and her Vandar mate seemed like a great idea. Until I stowed away on the wrong ship.

Now I'm on a Vandar warbird flying far away from my home planet, but my sister is nowhere in sight. Instead, I'm trapped with the Vandar warlord they call the Deranged Raas. They whisper that he's insane, and when I meet the menacing alien, I understand why.

The dark and ruthless warlord might be huge and gorgeous, but he also rules with absolute power and domination. He and his crew live and fight in the remotest part of the galaxy, where there are no rules and no mercy. It's where he plans to take me unless I can convince him to let me go.

Raas Vassim does not tolerate stowaways or challenge. But I didn't run away from one controlling life to end up in another. No way will I submit to his commands—even if his touch provokes feelings I've never experienced before. Although I fear his darkness, it also stokes a fire deep within me. And makes me want to delve beneath his dominant and savage exterior.

All I need to do to get away from the Raas is to send a message to my sister, which he'll let me do. For a price. But is submitting to him a price I'm willing to pay?

*Provoked* is a full-length sci-fi romance novel with a HEA and no cheating. It features steamy scenes on a raider warship, alien horde space battles, and some serious heat.

If you like dominant and dangerous alien warriors, alien abduction to seduction romance, and hot scenes with a happily ever after, you'll love *Provoked*, the sixth book in Tana Stone's sci-fi romance Raider Warlords of the Vandar series. Each book can be read as a standalone, but the series is better when read in order.

## **Saved by the Stryxian: A Sci-fi Alien Romance (Stryxian Alien Warriors Book 2)**

**Author: Ella Blake**

When Brandy Trentler's wealthy family insists she marry the jerk who cheated on her, she signs up for the Stryxian mate lottery. Who knew her number would be drawn in the first round? Nothing goes right after that--the transport ship is attacked, she is captured by the enemy Morr-ta aliens and thrown in prison. When a gorgeous Stryxian warrior rescues her, she thinks she's won freedom and her fated mate, but he has some big, bad secret and apparently, it's a deal breaker for him.

Kando Cardax probably shouldn't go back into the enemy's lair to rescue the human female, but he cannot leave her to certain death. He also cannot hide his metal cyborg parts from her forever, especially since with each passing moment, he's falling in love with her.

Passions flare as the two take refuge in a hidden section of the enemy base, but a discovery that could upend the Morr-ta war makes their odds of survival slim. Kando will do anything to protect Brandy as they fight to flee the enemy base, even if it means revealing himself as a cyborg to save her. All he's known is fear

and aversion to cyborgs like him. Why should he expect Brandy to react any differently? And how will he let her go when he is asked to make the ultimate sacrifice to save both the Stryxian and human species?

This is book 2 in the Stryxian Alien Warriors series. I write what I love to read, so there is always consent and a happy ending, and never cheating or cliffhangers. Enjoy!

I wanna win her.

## Half-Blood Academy 1: Magic Trials

**Author: Meg Xuemei X**

"Welcome to Half Death Academy." That's what they call my new school--because only half the students survive.

**Rule #1: Keep your head down and don't mess with the four gorgeous demigods who rule the school.**

**Rule #2: When the demigods try to kill you, lie down and die.**

Too bad I never was very good at following the rules. And when my forbidden power awakens, I'll make them regret they tried to make me their bitch.

Magic Trials is the first book in the Half-Blood Academy series, a reverse harem bully romance starring four handsome, cruel, yet overprotective demigods and a badass heroine. Heart-pounding action blends with steamy romance. For fans of Ilona Andrews, Jaymin Eve, Leia Stone, K.F. Breene, and Ivy Asher.

\* EXCERPT \*

"Now, I need to get you naked."

The Demigod of War held my gown, and I raised my arms for him to pull it off my head carefully. It would take some effort since the gown hugged my every curve. A tearing sound rent the air before I could stop him from ripping my gown into two pieces.

"It's an expensive dress, Axel!" I cried.

"I can afford to buy you thousands more," he said, gloating, yet his voice remained seductive. "I'll buy you a thousand gowns tomorrow to replace this one."

I had a feeling he was going to tear off all of the dresses Héctor had provided for me. He couldn't help it. The demigods were all territorial and possessive, and Axel was one of the worst.

"That's not the point," I shouted in dismay. "I loved this gown. And you should give the money to the poor instead of buying me dresses. I don't need any."

"You're so beautiful, Cookie." His hot mouth stole the rest of my protests, and his strong fingers thrust inside my liquid heat.

Here's what readers are saying about Magic Trials:

"This book starts out at 100 mph and never slows down." ★★★★★

"The steamy romance is like the icing on the cake. I enjoy it, but the story stands on its own without it; amazing characters, beautiful new worlds, daring adventure, and just enough giggles." ★★★★★

"Magic Trials hit most of my soft spots: strong heroine, boarding school, possessive alpha males not too happy about sharing, and while the jerk of the group takes the bullying path, it's not her against everyone and most definitely not her against all of her love interests." ★★★★★

"This is a super fun, exciting beginning to a series I'm really looking forward to diving into. I can't wait to see what danger Marigold will face, the way she will put the men in their place, and the friends she will make along the way." ★★★★★
