That hope is nearly shattered when Estanza's old enemies in the Equilibrium Institute strike directly at Redward's king. Revenge and money bring the mercenaries into an allied fleet—one intended to neutralize the last threats to the peace.

But the Institute's plans for the Syntactic Cluster are intricate and deep. Even as the mercenaries and their employers move against the enemies they see, shadows gather in the Cluster, bearing whispers of a forgotten name: *Cobra Squadron*.

Labyrinth of Fright (Underdog Book #5): LitRPG Series

Author: Alexey Osadchuk

After wiping out the drak nest, Eric finds himself now also in a trap. In order to avoid dying in a cave-in, he activates the manuscript he received for defeating the Lady of the Anomaly. A portal then whisks Eric away to the lookout point atop the mysterious Citadel of Chaos.

The entrance to the Citadel is guarded by the Gatekeeper, a huge troll encased head to toe in a suit of plate armor. Thanks to his Friend of the Trolls amulet, Eric manages to avoid fighting him and thus passes the Gatekeeper's first test and can enter the Citadel of Chaos to partake in its mysteries.

Eric isn't interested in its mysteries though and he tells the troll as much directly. He even goes so far as to say he would rather just go on his merry way and leave the Citadel. But the Gatekeeper informs Eric that he will not be able to leave quite so easily because now that he has activated the manuscript, he must undergo a test known as Unity with Chaos!

On the one hand, Eric understands that taking part in the undoubtedly dangerous activity threatens to end not only in loss of time, but possibly loss of life as well. On the other hand though, he remembers perfectly well what Chaos Magic is capable of.

What if Eric is able to pass the test? Will Chaos grant him power? After all, Eric is conscious of the fact that, despite how markedly he has changed and grown stronger, he is still nowhere near as powerful as the Steel King, who is holding Maya and Mee in captivity.

Could the gods perhaps be telling Eric the time has come to do as the Woodwose instructed?

The time has come to grow stronger!

Devolution: A Firsthand Account of the Rainier Sasquatch Massacre

Author: Max Brooks

NEW YORK TIMES BESTSELLER • The #1 New York Times bestselling author of World War Z is back with “the Bigfoot thriller you didn't know you needed in your life, and one of the greatest horror novels I've ever read” (Blake Crouch, author of Dark Matter and Recursion).

As the ash and chaos from Mount Rainier's eruption swirled and finally settled, the story of the Greenloop massacre has passed unnoticed, unexamined . . . until now. The journals of resident Kate Holland, recovered from the town's bloody wreckage, capture a tale too harrowing—and too earth-shattering in its implications—to be forgotten. In these pages, Max Brooks brings Kate's extraordinary account to light for the first time, faithfully reproducing her words alongside his own extensive investigations into the massacre and the legendary beasts behind it. Kate's is a tale of unexpected strength and resilience, of humanity's defiance in the face of a terrible predator's gaze, and, inevitably, of savagery and death.

Yet it is also far more than that.

Because if what Kate Holland saw in those days is real, then we must accept the impossible. We must accept that the creature known as Bigfoot walks among

us—and that it is a beast of terrible strength and ferocity.

Part survival narrative, part bloody horror tale, part scientific journey into the boundaries between truth and fiction, this is a Bigfoot story as only Max Brooks could chronicle it—and like none you've ever read before.

Praise for *Devolution*

"Delightful . . . [A] tale of supernatural mayhem that fans of King and Crichton alike will enjoy."—*Kirkus Reviews* (starred review)

"The story is told in such a compelling manner that horror fans will want to believe and, perhaps, take the warning to heart."—*Booklist* (starred review)

My Favorites: A Collection of Short Stories

Author: Ben Bova

In this new anthology, Ben Bova has compiled fourteen of his favorite short stories. Each story includes an all-new introduction with compelling insight into the narrative.

Exploring the boundaries of the genre, Bova not only writes of spaceships, aliens, and time travel in most of his titles, but also speculates on the beginnings of science fiction in "Scheherazade and the Storytellers," as well as the morality of man in "The Angel's Gift." Stories such as "The Café Coup" and "We'll Always Have Paris" dip into speculative historical fiction, asking questions about what would happen if someone could change history for the better. This expansive collection is a key addition for Bova fans and sci-fi lovers alike!

Stories included in this anthology: "Monster Slayer," "Muzhestvo," "We'll Always Have Paris," "The Great Moon Hoax, or A Princess of Mars," "Inspiration," "Scheherazade and the Storytellers," "The Supersonic Zeppelin," "Mars Farts," "The Man Who Hated Gravity," "Sepulcher," "The Café Coup," "The Angel's Gift," "Waterbot," and "Sam and the Flying Dutchman."

The future for Major Andrew Grayson of the Commonwealth Defense Corps and his wife, Halley? Flying desk duty on the front. No more nightmares of monstrous things. No more traumas to the mind and body. But when an offer comes down from above, Andrew has to make a choice: continue pushing papers into retirement, or jump right back into the fight? What's a podhead to do?

The remaining Lankies may have retreated in fear, but the threat isn't over. They need to be wiped out for good before they strike again. That'll take a new offensive deployment. Aboard an Avenger warship, Andrew and the special tactics team under his command embark on the ultimate search-and-destroy mission. This time, it'll be on Lanky turf.

No big heroics. No unnecessary risks. Just a swift hit-and-run raid in the hostile Capella system. Blow the alien seed ships into oblivion and get the hell back to Earth. At least, that's the objective. But when does anything in war go according to plan?

A Beautifully Foolish Endeavor: A Novel (The Carls Book 2)

Author: Hank Green

THE INSTANT *NEW YORK TIMES* BESTSELLER

Who has the right to change the world forever?

How will we live online?

How do we find comfort in an increasingly isolated world?

The Carls disappeared the same way they appeared, in an instant. While the robots were on Earth, they caused confusion and destruction with only their presence. Part of their maelstrom was the sudden viral fame and untimely death of April May: a young woman who stumbled into Carl's path, giving them their name, becoming their advocate, and putting herself in the middle of an avalanche of conspiracy theories.

Months later, April's friends are trying to find their footing in a post-Carl world. Andy has picked up April's mantle of fame, speaking at conferences and online; Maya, ravaged by grief, begins to follow a string of mysteries that she is convinced will lead her to April; and Miranda is contemplating defying her friends' advice and pursuing a new scientific operation...one that might have repercussions beyond anyone's comprehension. Just as it is starting to seem like the gang may never learn the real story behind the events that changed their lives forever, a series of clues arrive—mysterious books that seem to predict the future and control

the actions of their readers—all of which seems to suggest that April could be very much alive.

In the midst of the search for the truth and the search for April is a growing force, something that wants to capture our consciousness and even control our reality. *A Beautifully Foolish Endeavor* is the bold and brilliant follow-up to *An Absolutely Remarkable Thing*. It is a fast-paced adventure that is also a biting social commentary, asking hard, urgent questions about the way we live, our freedoms, our future, and how we handle the unknown.

Veil Rising

Abducted along with thousands of others. Transported to a world of slavery for alien masters. Mind-wiped, so every hellish day in the mines feels like just another job shift.

This has been going on for millennia. And one day, archaeologist Ali Johnson decodes an ancient Sumerian tablet that unveils the truth. Those secrets set her on a trail of clues that lead to the right place at the absolute wrong time.

The plan to keep humanity at heel relies on periodic purges, and the countdown to genocide is ticking. Ali may be the spark that ignites galactic rebellion.

But before she can save mankind, she must remember who she is, what she's lost, and why one terrible figure continues to haunt her dreams.

Backlash Rising

After narrowly escaping her enemy, Ali reels back from the edge of death.

She finds herself surrounded by a strange subterranean species who hide from the enslavement she just fled. Some think Ali is the long-awaited key to their salvation. Others want her killed.

But Ali doesn't have time for life-or-death politics. She knows the Annunaki overlords have a planet-killing weapon en route. Her friends, family, along with the entire Bawn race, face annihilation...except for those willing to betray and sabotage for the Annunaki cause.

Ali may only have days to unravel the knot of doom tightening around them all. Still, she can't escape one mounting fear: What if this threat is only a trial run for the Annunaki? What if the real target is Ali's home, the birthplace of humanity and all the rebellion that comes with it -- Earth?

Alliance Rising

The aliens want her dead. Easier said than done.

Ali, archaeologist and expert at cuneiform translation, knows about the long-departed Anunnaki slavers, not just because of the ancient writings she has found in Mesopotamia, but because she has their blood running through her veins.

Now Ali's found a terrifying truth:

The Anunnaki are coming back.

The powers afforded by Ali's dangerous mixed blood make it just conceivable she can stop them... once she hooks up with the Space Templars.

Oh, and they have to fix a little problem: the Anunnaki left behind portals all around the Earth through which they can pour millions of troops in a matter of minutes.

Step one: Close the back doors.

So the race is on:

Can Ali kill the portals before the Anunnaki kill her?

The Space Between Worlds

Author: Micaiah Johnson

NEW YORK TIMES BOOK REVIEW EDITORS' CHOICE • An outsider who can travel between worlds discovers a secret that threatens the very fabric of the multiverse in this stunning debut, a powerful examination of identity, privilege, and belonging.

"Gorgeous writing, mind-bending world-building, razor-sharp social commentary, and a main character who demands your attention—and your allegiance."—Rob Hart, author of *The Warehouse*

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • *Library Journal* • *Book Riot*

Multiverse travel is finally possible, but there's just one catch: No one can visit a world where their counterpart is still alive. Enter Cara, whose parallel selves happen to be exceptionally good at dying—from disease, turf wars, or vendettas they couldn't outrun. Cara's life has been cut short on 372 worlds in total.

On this dystopian Earth, however, Cara has survived. Identified as an outlier and therefore a perfect candidate for multiverse travel, Cara is plucked from the dirt of the wastelands. Now what once made her marginalized has finally become an unexpected source of power. She has a nice apartment on the lower levels of the wealthy and walled-off Wiley City. She works—and shamelessly flirts—with her enticing yet aloof handler, Dell, as the two women collect off-world data for the Eldridge Institute. She even occasionally leaves the city to visit her family in the wastes, though she struggles to feel at home in either place. So long as she can keep her head down and avoid trouble, Cara is on a sure path to citizenship and security.

But trouble finds Cara when one of her eight remaining doppelgängers dies under mysterious circumstances, plunging her into a new world with an old secret. What she discovers will connect her past and her future in ways she could have never imagined—and reveal her own role in a plot that endangers not just her world but the entire multiverse.

"Clever characters, surprise twists, plenty of action, and a plot that highlights social and racial inequities in astute prose."—*Library Journal* (starred review)

Maine-based writers Sharon Lee and Steve Miller teamed up in the late 1980s to bring the world the story of Kinzel, an inept wizard with a love of cats, a thirst for justice, and a staff of true power. Since then, the husband and wife have written dozens of short stories and twenty plus novels, most set in their star-spanning Liaden Universe®. Before settling down to the serene and stable life of a science fiction and fantasy writer, Steve was a traveling poet, rock-band reviewer, reporter, and editor of a string of community newspapers. Hench: A Novel

Author: Natalie Zina Walschots

"This book is fast, furious, compelling, and angry as hell." -- Seanan McGuire, *New York Times* bestselling author

The Boys meets *My Year of Rest and Relaxation* in this smart, imaginative, and evocative novel of love, betrayal, revenge, and redemption, told with razor-sharp wit and affection, in which a young woman discovers the greatest superpower—for good or ill—is a properly executed spreadsheet.

Anna does boring things for terrible people because even criminals need office help and she needs a job. Working for a monster lurking beneath the surface of the world isn't glamorous. But is it really worse than working for an oil conglomerate or an insurance company? In this economy?

As a temp, she's just a cog in the machine. But when she finally gets a promising assignment, everything goes very wrong, and an encounter with the so-called "hero" leaves her badly injured. And, to her horror, compared to the other bodies strewn about, she's the lucky one.

So, of course, then she gets laid off.

With no money and no mobility, with only her anger and internet research acumen, she discovers her suffering at the hands of a hero is far from unique. When people start listening to the story that her data tells, she realizes she might not be as powerless as she thinks.

Because the key to everything is data: knowing how to collate it, how to manipulate it, and how to weaponize it. By tallying up the human cost these caped forces of nature wreak upon the world, she discovers that the line between good and evil is mostly marketing. And with social media and viral videos, she can control that appearance.

It's not too long before she's employed once more, this time by one of the worst villains on earth. As she becomes an increasingly valuable lieutenant, she might just save the world.

A sharp, witty, modern debut, *Hench* explores the individual cost of justice through a fascinating mix of Millennial office politics, heroism measured through data science, body horror, and a profound misunderstanding of quantum mechanics.

Mistaken

Author: Pixie Unger

"Then it's settled." The leader gestured to the group of warrior orcs in the room, "pick one to be the boy's father."

I sat on the floor with my son, Max. He crawled into my lap as I whispered. "One of them is going to ... keep taking care of you. Can you tell me who the nice one is?"

The orcs in the room snorted with disbelief and laughter.

Max pointed to one with a shaved head and extensive tattoos.

"That one?" I asked. "Are you sure?"

He nodded before hiding his face into my neck.

"OK." I looked up in the vague direction of the leader. "That one, I guess."

He said something. They looked surprised, but the one Max had indicated came over and scooped him up easily.

"MOMMA!" he screamed and tried to reach for me.

I hung my head and wept. Then the warrior bent down and grabbed my arm in his other hand. He pulled me upright and led me away.

"What? What are you doing?"

"The boy is going to need a family," the leader said like it was obvious. "It is an odd move letting your child choose your mate, but you are an odd people."

A few years earlier there had been an invasion. Hordes of tall, grey aliens with tusks arrived in spaceships as big as cities. Before all the news went dark, humans named the creatures orcs. The human armies had fought and failed. War crimes were committed on both sides. Eventually, society collapsed and the government was overthrown when food supplies failed. The humans turned on each other. Nowhere was safe. The orcs had rounded up the survivors and locked them away in refugee camps. In the fullness of time, some women had little grey babies.

Kari had watched the screaming and cursing woman give birth to Max in the field that had been converted to a prison. Afterwards the woman shakily got to her feet and left him there, as he cried. He was going to die alone, unwanted. Even if he was only half human and Kari was living as a conquered species in one of the many refugee camps on earth, none of that was his fault. He was just a baby. She couldn't bring herself to leave him there, so Kari adopted him.

Max wasn't the only grey child in the place. Kari and the others raising grey children had formed their own family group. Eventually that got them noticed. Suddenly all the kids were assigned an orc father and taken from the camp where they had been living. This asshole may be the official father, but, as far as Kari is concerned, if he thinks that means he's part of their family, he is mistaken.

One way or another, Kari has to figure out how to make this work. Her son needs her to keep him safe. When part of her extended family is brought to her new home, she has a couple of allies. Kari slowly starts to understand that the orcs maybe aren't as monstrous as they seem. She will have to face her past and come to terms with her new reality before she can face her future.

A startling debut about class and race, *Lakewood* evokes a terrifying world of medical experimentation—part *The Handmaid's Tale*, part *The Immortal Life of Henrietta Lacks*.

When Lena Johnson's beloved grandmother dies, and the full extent of the family debt is revealed, the black millennial drops out of college to support her family and takes a job in the mysterious and remote town of Lakewood, Michigan.

On paper, her new job is too good to be true. High paying. No out of pocket medical expenses. A free place to live. All Lena has to do is participate in a secret program—and lie to her friends and family about the research being done in Lakewood. An eye drop that makes brown eyes blue, a medication that could be a cure for dementia, golden pills promised to make all bad thoughts go away.

The discoveries made in Lakewood, Lena is told, will change the world—but the consequences for the subjects involved could be devastating. As the truths of the program reveal themselves, Lena learns how much she's willing to sacrifice for the sake of her family.

Provocative and thrilling, *Lakewood* is a breathtaking novel that takes an unflinching look at the moral dilemmas many working-class families face, and the horror that has been forced on black bodies in the name of science.

A Tower in Space-Time (The Stasis Stories #5)

Author: Laurence Dahners

This hard Sci-Fi novel is the fifth book in the "Stasis Stories," a series of optimistic tales of technological innovation in the near future. They follow Kaem Seba, a young man with extraordinary math talents. With his friends, he's developing a device that allows time to be stopped within limited volumes of space-time.

In this 5th story, Kaem's newfound physical fitness is letting him perform at an astonishing level in physical endeavors such as soccer, and martial arts.

The company he, Arya Vaii, and Gunnar Schmidt founded to commercially develop his time-stopping discovery is making money hand over fist. Currently, their profits come from their use of the phenomenal physical properties of a time-stopped segment of space-time to build rockets.

But now they're building their space tower. Taking off at a thirty-degree angle from eastern Virginia, it's 200 kilometers long and a hundred kilometers high. By placing the interior of their spacecraft—and its passengers—in stasis they can accelerate launches at fifteen gravities, reaching orbital speeds before the craft leaves the rail. This lets them put payloads in orbit for a thousand times lower cost than a rocket!

The world, and some unscrupulous people, are turning to Kaem and his company to further our exploitation of orbital space...

"This is a story of fortitude and love for family - do you have what it takes to survive and make it back to your loved ones."

The New Madrid fault zone, six times larger than the San Andreas in California, has generated a series of massive earthquakes thrusting the Atwood and Chandler families in a fight to survive. Attorney Jack Atwood and his brother-in-law Tony Chandler are winding up their year-end tax planning presentation atop The Met, a skyscraper in St. Louis, before returning to Memphis for their family's Christmas celebration. Jill Atwood, her daughter Emily and teenage son Tate, are in a downtown Memphis performing arts theater attending the dress rehearsal for Emily's Christmas pageant. Beth Chandler, 28 weeks pregnant, together with her 3-year old autistic son, are traveling from Louisiana to join the rest of the family in Memphis.

Will they arrive for Christmas? Will they arrive at all? Their lives are about to change forever.

The Macedonian Hazard

Author: Eric Flint

TIME TRAVEL ALTERNATE HISTORY FROM A MASTER. A new tale of time-displaced persons fighting for their lives in the ancient world, from 1632 and Boundary series creator Eric Flint.

It's been more than a year since the cruise ship Queen of the Sea was transported in time and space to the ancient Mediterranean not long after the death of Alexander the Great.

Captain Lars Floden and the other "Ship People" are trying to plant the seeds of modern civilization. It's not an easy task, to put it mildly, even if they have a tacit alliance with the co-regents of Alexander's empire, his widow Roxane, and Eurydice, the wife of his half-brother.

For they have plenty of enemies, too. Cassander is using every foul means available to turn Macedonia and Greece into his own empire. The brutal general Antigonos One-Eye is doing the same in Mesopotamia. And Ptolemy, the cleverest of them all, is expanding his Egyptian realm to the Red Sea.

Things aren't any easier in the colony that passengers from the cruise ship founded on the Caribbean island of Trinidad. President Allen Wiley is trying to build a twenty-first century democratic nation, but the people he has to work with aren't the most suitable for the task: oldsters from the future, local tribesmen, and third-century BCE immigrants from Europe and Africa.

War, religious strife, assassinations, espionage, poisonings and other murders—and a fair amount of love, too—all mix together with the Ship People's knowledge from the 21st century to form a new weaving of the fates. Hopefully, that will lead to a bright new future. If it doesn't kill everyone first.

At the publisher's request, this title is sold without DRM (Digital Rights Management).

Surviving the Evacuation, Book 18: Rebuilt in a Day

Author: Frank Tayell

It took three weeks to destroy civilisation. It won't be rebuilt in a day.

A year after the outbreak, a sharp winter is followed by a sudden thaw. Spring has come early to Nova Scotia, bringing new hope. For the thirteen thousand survivors who've found sanctuary in northern Canada, and for the first time since the apocalypse, extinction isn't imminent. But it looms large in the near future, a legacy of the nuclear war that destroyed civilisation.

As the weather improves, some survivors quit the small community. Even more plan their departure. The old-world supplies of food, oil, and ammunition have been consumed. More will have to be grown, drilled, and made. Medicine, paper, clothes: in a few years there will be none left to salvage. If it can't be manufactured, it will have to be forgone. What knowledge can't be preserved will be lost.

Humanity's future appears bleak unless more people can be found. Hoping there is some truth in the rumours of a redoubt in Vancouver, an expedition to the Pacific is launched. The journey will be perilous as North America was ground zero for the outbreak, and for the nuclear war.

Set in Canada and beyond, as survivors from the Atlantic and Pacific meet.

Please note, this book features places and events, and heroes and villains from the saga of the Pacific survivors told in the series Life Goes On.

THE BATTLE FOR THE NEW WORLD IS A FIGHT TO THE FINISH! A NEW RING OF FIRE NOVEL BY BEST-SELLING WRITING TEAM ERIC FLINT AND CHARLES E. GANNON

A New Day in the New World

It's 1637 in the Caribbean. Commander Eddie Cantrell and his ally and friend Admiral Martin Tromp start it off with some nasty surprises for Spain, whose centuries-long exploitation and rapine of the New World has run unchecked. Until now.

Yet life goes on in the Caribbean. Relationships among the allied Dutch, Swedes, Germans, up-timers, and even Irish mercenaries continue to evolve and deepen. New friendships must be forged with the native peoples, who will not only shape the colonists' future in the Caribbean, but will also decide whether they will be given access to a Louisiana oilfield that could change the balance of power.

But for now, the only oil Imperial Spain knows about is the crude pouring out of the Allies' pumps on Trinidad—which threatens its interests in both the New and the Old Worlds. So, following in the footsteps of the conquistadors, the empire's commanders are resolved to show that they do not take threats lightly or lying down. Indeed, their historical reaction is to respond with overwhelming—and often genocidal—force.

The battle for the New World has not merely begun; it is a fight to the finish.
