70,000 years ago, the human race almost went extinct.

We survived, but no one knows how.

Until now.

The countdown to the next stage of human evolution is about to begin, and humanity might not survive this time.

Off the coast of Antarctica, a research vessel discovers a mysterious structure buried deep within an iceberg. It has been there for thousands of years, and something is guarding it. Could it be the fabled city of Atlantis? Or is it something more dangerous?

At the same moment, in Jakarta, Indonesia, a brilliant geneticist named Kate Warner has just discovered a breakthrough treatment for autism. Or so she thinks. What she has found is far more deadly—for her and for the entire human race. Her work could unleash the next stage of human evolution. It might also hold the key to unlocking the mysterious structure off the coast of Antarctica.

On the other side of Jakarta, Agent David Vale is racing to uncover a conspiracy with far-reaching implications. But he's out of time. His informant inside the conspiracy is dead. His own organization has been infiltrated—and his enemy has turned the hunt on him. Now he's on the run. But when he receives a coded message related to an imminent attack, he risks everything to save the one person that can help him stop it: Dr. Kate Warner.

Together, Kate and David race to unravel a global conspiracy and learn the truth about the Atlantis Gene... and human origins. Their journey takes them to the far corners of the globe and into the secrets of their pasts. Their enemy is close on their heels and will stop at nothing to obtain Kate's research and force the next stage of human evolution—even if it means killing 99.9% of the world's population. ### **An Extended Look at *Winter World***

Each month, Earth grows colder.

Snow falls in summer. Glaciers trample cities across North America, Europe, and Asia. The new ice age shows no signs of stopping.

Chaos erupts.

Around the world, people abandon their homes and flock to regions where they can survive. Nations prepare to go to war for the world's last habitable zones.

Scientists search the cause of the new ice age. They send probes into the solar system to collect readings. Near Mars, a probe finds a mysterious object, drifting toward the Sun. Is it responsible for the new ice age? Or is it merely an observer? Or neither? Could it be a relic from a long-extinct civilization? One thing is certain: investigating the object is humanity's best hope of survival.

As the ice age claims more lives and the world slides into anarchy, an international consortium launches a mission into space to make contact. But the first contact mission doesn't go as planned. What the crew discovers out there is beyond anyone's imagination.

Two members of the first contact mission may hold the keys to humanity's salvation.

Dr. Emma Matthews is the commander aboard the International Space Station. For months, she has watched the world below freeze and civilization unravel. The headlines tell only half of the story. The messages from her sister tell the rest, of a world witnessing mass migrations, fighting for survival, struggling to provide a future for their children. When a catastrophe strikes the ISS, Emma faces her own fight for survival.

Dr. James Sinclair is one of the greatest scientists alive. A mind before his time. She will plead for mercy as she is punished and beg shamefully for the climax endlessly denied to her. But when she surrenders at last he is not just going to ravage her long, hard, and painfully.

He is going to make her his.

Forever.

#### **An Extended Look at *The Atlantis Plague***

In Marbella, Spain, Dr. Kate Warner awakens to a horrifying reality: the human race stands on the brink of extinction. A pandemic unlike any before it has swept the globe. Nearly a billion people are dead—and those that the Atlantis Plague does not kill, it transforms at the genetic level. A few rapidly evolve. The remainder devolve.

As the world slips into chaos, radical solutions emerge. Industrialized nations offer a miracle drug, Orchid, which they mass produce and distribute to refugee camps around the world. But Orchid is merely a way to buy time. It treats the symptoms of the plague but never cures the disease.

Immari International offers a different approach: do nothing. Let the plague run its course. The Immari envision a world populated by the genetically superior survivors—a new human race, ready to fulfill its destiny.

With control of the world population hanging in the balance, the Orchid Alliance and the Immari descend into open warfare. Now the last hope for humanity is to find a cure. Kate alone holds the key to unraveling the mystery surrounding the Atlantis Plague. The answer may lie in understanding pivotal events in human history—events when the human genome mysteriously changed. Her journey takes her across the barren wastelands of Europe and northern Africa, but it is her research into the past that takes her where she never expected to go. She soon discovers that the history of human evolution is not what it seems—and setting it right may require a sacrifice she never imagined.

"**An excellent read!** This is a very different take on paranormal and it was an accidental find. After reading the first book in the series, I bought the entire set. It's fast paced, intriguing and the characters are fully formed and interesting. I cannot put it down!"

"**A new favorite author and series!!!** I really enjoyed this book and the entire series. It's a wonderful paranormal book that is completely different from everything else out there. I devoured all five within a 3 day period of time. Both the writing, characters and story line was AMAZING and I'm dying to get my hands on the next book!!"

I finished the entire series within two weeks and I cannot wait for Book 9 to release! IT Lucas, please keep this story line going as long as possible... I cannot wait to see what happens to the rest of the clan!"

"Awesome story with intriguing characters. Romance and intrigue that draws one in. Better than Shades of Grey by a mile."

**I. T. Lucas is one of the best authors I have come across.** The Children of the Gods series is fantastic. The characters are savage, gritty sexy, enthralling and the story lines are thrilling. I can't put the book down once I have started and I have read 11 of them. The men are superbly buffed and wild, and the women give them a run for their money in the gorgeous, sexy and strong stakes. Very highly recommend these books to anyone who enjoys sitting on the edge of their seat and chewing their nails in anticipation of what is to come. Very explicit and cruel in some of the books.

His only clue leads him to Peyton Shaw—a woman who seems to know him, but refuses to tell him how. To his shock and horror, he learns that he may be involved in causing the outbreak—and could hold the only key to stopping it.

**No male in the tribal lands would stoop so low as to steal a prize instead of winning her fair and square.**

Nar

There's a reason I'm standing knee-deep in mud, my body pelted with rain that annoys me to the bone. I'm hating on the rival tribe, and I'm entering their games only to eliminate their Earl. I'm not here for the prize.

The moment I spot the female—who's shivering, miserable, but still managing to spit at her captors—I forget I'm not competing for her. My heart thumps in my ears, and the hunter steers.

I wanna win her.

Michelle

Once upon a recent time, I traveled on a ship bound for a sun-and-sea vacation planet. Until it crashed, and the natives captured and threw me in a hole—then dragged me in front of a couple hundred warriors who're here competing for breeding rights.

I hate them all. Except for the one who seems not quite like the others. Oh, he's pretty much like them, but some instinct within me tells me if I stop throwing my inner pity party and do as I'm told, I just might survive...

Nar

**Ask me how I feel about stealing the prize now.**

## A Winged Embrace: A Mate Index Alien Romance (The Mate Index Book 13)

**Author: S.J. Sanders**

Diamond Shipley is a jewel thief—not a particularly successful one as far as her trade goes, but it pays the bills, or it did until someone betrayed her and her partner and landed her ass in jail after years of evading the law. Looking at years behind bars, she does what any sensible person would do. She agrees to become a bride in the Mate Index. A one-way ticket off Earth and her record expunged, it is the perfect opportunity to ply her skills somewhere fresh. Sure, she would have to get around her new mate while she got together a nice little pile of credits, but how hard can that be?

She does not expect him to be a mountain of muscle and sex appeal—or head of security for that matter. Yet beneath that hard exterior is a gentle male with a heart a gold. Can she keep her eye on the prize or will she let love make a fool of her yet?

Tar-denovak yielded to his mother's scheming and sent away for a bride from the Mate Index Distribution Program, but he had not expected to be so captivated by his little mate. She is so small and vulnerable that it rouses every protective instinct a male could have toward his mate, even if she has a tendency towards mischief. As head of security, he has many responsibilities, not the least of which was now keeping his mate too busy to get into trouble. As amusing as his female is, it is no laughing matter when a shipment of volatile imperium level qualath stones goes missing. With such a potentially catastrophic power supply stolen, it sends the entire space station into an uproar. Could his little mate be more dangerous than she lets on?

With familial responsibilities hounding him, a small contingent of females from his mother world arriving to prepare for his mating ceremony, and a rival determined to steal all he has, Tar is divided between his responsibilities and finding the love he has always dreamed about. Can he afford to trust the one being who might lead him to ruin?

## Grr!: An Alien Warrior Romance

**Author: Zeta Star**

**Without Grr,—I didn't name him, okay?—I'd have been a goner. And his furry abs? Just a bonus. (A nice one.)**

First, giant alien lizard-guys abduct me. Then they leave me alone in a cell next to Grr. Then the force-field between us dies.

So now it's just me and Grr. Sure, he's beat up and pissed off with claws and fangs (I kind of like the fangs). And he growls a lot. Anyone would in our situation.

But hey, if you're going to escape an alien prison ship and get chased across a planet where half the creatures you meet try to eat you, it's good to have seven-feet of Grr at your side. He's also easy on the eyes. Abs-on-abs, biceps-on-biceps, and let's say all the right bulges in all the right places.

And he likes ear rubs. And other rubs. And rubbing me. (I like that too.)

The more time I spend with Grr, the more I think getting abducted by aliens wasn't such a bad thing.

I just hope the lizard-guys don't kill us before Grr can call in the big guns.

The ones that aren't furry.

(Seriously, I'm not talking about the St. Bernard sized hamster. We just met him.)

Grr! is a full-length (and I mean full-length) alien warrior romance with pulse-pounding action, lots of humor, cute critters, and all the hotness.

If you like alien abduction romance with a twist, give Grr! a try. HEA guaranteed.

## **Possessed: A Sci-Fi Alien Warrior Romance (Raider Warlords of the Vandar Book 1)**

***Author: Tana Stone***

**I sacrificed myself to save my sister's ship. Now the raider warlord owns me.**

It was my own fault. I was the navigator of our ship, and I'm the one who led us straight into Vandar territory.

We'd heard rumors about the Vandar raiders—everyone in the galaxy had. Terrifying and ruthless, they were a scourge on the Zagrath empire and destroyed everything in their path.

Few had actually laid eyes on the Vandar or the notorious warlords who led their fleets of warships—and survived to talk about it. So, when the ruthless aliens boarded our ship intent on destroying it and killing the crew, I did the only thing I could do.

I gave myself to the dark and menacing warlord. In exchange for allowing my sister's ship passage out of the Vandar territory, I must share his bed and travel with his crew of deadly raiders. Even though the sight of the huge, battle-scarred alien terrifies me.

But as I adjust to my new life on a savage warship, I discover that the dominant alien warrior wants more than just my body. He wants to possess my soul. And he'll make a new deal with me to get it.

## **Half-Blood Academy 1: Magic Trials**

***Author: Meg Xuemei X***

"Welcome to Half Death Academy." That's what they call my new school--because only half the students survive.

**Rule #1: Keep your head down and don't mess with the four gorgeous demigods who rule the school.**

**Rule #2: When the demigods try to kill you, lie down and die.**

Too bad I never was very good at following the rules. And when my forbidden power awakens, I'll make them regret they tried to make me their bitch.

Magic Trials is the first book in the Half-Blood Academy series, a reverse harem bully romance starring four handsome, cruel, yet overprotective demigods and a badass heroine. Heart-pounding action blends with steamy romance. For fans of Ilona Andrews, Jaymin Eve, Leia Stone, K.F. Breene, and Ivy Asher.

\* EXCERPT \*

"Now, I need to get you naked."

The Demigod of War held my gown, and I raised my arms for him to pull it off my head carefully. It would take some effort since the gown hugged my every curve. A tearing sound rent the air before I could stop him from ripping my gown into two pieces.

"It's an expensive dress, Axel!" I cried.

"I can afford to buy you thousands more," he said, gloating, yet his voice remained seductive. "I'll buy you a thousand gowns tomorrow to replace this one."

I had a feeling he was going to tear off all of the dresses Héctor had provided for me. He couldn't help it. The demigods were all territorial and possessive, and Axel was one of the worst.

"That's not the point," I shouted in dismay. "I loved this gown. And you should give the money to the poor instead of buying me dresses. I don't need any."

"You're so beautiful, Cookie." His hot mouth stole the rest of my protests, and his strong fingers thrust inside my liquid heat.

Here's what readers are saying about Magic Trials:

"This book starts out at 100 mph and never slows down." ★★★★★

"The steamy romance is like the icing on the cake. I enjoy it, but the story stands on its own without it; amazing characters, beautiful new worlds, daring adventure, and just enough giggles." ★★★★★

"Magic Trials hit most of my soft spots: strong heroine, boarding school, possessive alpha males not too happy about sharing, and while the jerk of the group takes the bullying path, it's not her against everyone and most definitely not her against all of her love interests." ★★★★★

"This is a super fun, exciting beginning to a series I'm really looking forward to diving into. I can't wait to see what danger Marigold will face, the way she will put the men in their place, and the friends she will make along the way." ★★★★★

## **Nanny For The Alien Warlord: A SciFi Romance (Intergalactic Fated Mates Book 5)**

***Author: Athena Storm***

**I'll do anything to save my kids. I'll even be his servant.**

In any other situation, I'd give this gorgeous warlord a piece of my mind.

Who does he think he is that I'd fall for that handsome face, those ripped abs, and lick-worthy muscles?

Yes, this warlord is the only thing protecting me and my two little kids from the tyrant looking to kill us.

And sure, ever since we crash landed in his kingdom, he's taken care of us. Protected us. Looked after the kids and kept us safe.

If that means serving him, so be it. I'll do anything he wants, as long as he continues to protect us.

But to then say that I'm his fated mate? And that he loves me?

Please. I may be a servant, but I don't have to like it THAT much.

I am for sure going to find a way out of having to rely on him.

We are so not going to be a family I keep reminding myself.

But then...why is it that when he's around, I'm not thinking of myself as his nanny. Or his servant. But rather as his...

Too bad for them, I'm not the docile type they're used to commanding. I might want them, but I have no intention of joining the trail of broken hearts and bodies in their wake.

None of us are entirely happy with the deal we strike, but we have no choice.

## **Dark Enemy: Taken (The Children Of The Gods Paranormal Romance Series Book 4)**

***Author: I. T. Lucas***

**"I still can't get over just how absolutely amazing this series is!! To intertwine Greek Mythology and history in all aspects as well as current events is absolutely mind blowing! So much so that when you really look at it can certainly seem plausible..."**

**"Move over Romeo and Juliet!"**

"Loved it! Exciting, interesting and hot. Love Amanda and Dalhu starts to grow on me. Highly recommended for those looking for an exciting and sensual read."

"Once in while a book or series comes along that simply won't let you put it down and this was one of those great finds! I normally find myself skimming through characters to get to the ones I like, but not this time! I loved every sentence of every character introduced and simply want more!"

Since the dawn of human civilization, two warring factions of immortals, the descendants of the gods of old, have been secretly shaping its destiny. Amanda's small clan champions progress and peace, while their powerful enemy, the Doomers, propagates ignorance and war. Descending from a single goddess, the only one to survive the ancient cataclysm that wiped out her kind, Amanda's clan members are forbidden to each other. And as the only other known immortals are their hated enemies, they've been long resigned to a lonely existence of fleeting trysts with human partners. That is, until Amanda, the goddess's youngest daughter and a researcher of paranormal abilities, makes a game-changing discovery; two of her test subjects might be dormant carriers of the immortal gene. But before she can prove it, she gets snatched off a Beverly Hills street by a huge Doomer.

Dalhu can't believe his luck when he stumbles upon the beautiful immortal professor. Presented with a once in a lifetime opportunity to grab an immortal female for himself, he kidnaps her and runs. If he gets caught, either by her people or his, his life is forfeit. But for a chance of a loving mate and a family of his own, Dalhu is prepared to do everything in his power to win Amanda's heart, and that includes leaving the Doom brotherhood and his old life behind.

Amanda soon discovers that there is more to the handsome Doomer than his dark past and a hulking, sexy body. But succumbing to her enemy's seduction, or worse, developing feelings for a ruthless killer is out of the question. No man is worth life on the run, not even the one and only immortal male she could claim as her own.

Her clan and her research must come first.

## **Taken: Alien Commander's Captive (Haalux Empire Book 1)**

**Author: Hattie Jacks**

**All enemies of the Empire must die. But not her, she is mine to claim...**

**JAYNE:** I've dedicated my life to defending clients against injustice, but the imposing alien male that's captured me doesn't believe in innocent until proven guilty. All Commander Rexitor cares about is his precious Empire and I'm its biggest threat.

This alien is going to make sure I pay for my crime. Haalux justice is swift and brutal, just like him. But I believe in justice and I'm prepared to do anything to survive, even if it means defying him or the Empire.

But the one thing I'm not going to do is ask for his help, because what I see in his eyes means I'm going to have to give up far more than I bargained for if I do.

**REXITOR:** I didn't want anything to do with the criminal. She says she's innocent, but so do all the rest. She insists she understands justice, but what could a human know of justice?

The evidence speaks for itself - she's the killer. Jayne faces execution, and I'll lose the soft curves and quiet voice that calls to my primal side in a way I never thought possible.

Marked Haalux warriors like me don't deserve a mate, I accepted that.

But she's here and destined to be destroyed in front of me.

Unless I claim her first.

**The Commander demands obedience. He intends to claim me, train me, and turn me into his perfect little pleasure trophy.**

He doesn't believe in love. I don't believe in giving in without a fight.

There's no amount of discipline or ecstasy that could break me to his will... I hope.

## **Lauren's Barbarian: A SciFi Alien Romance (Icehome Book 1)**

**Author: Ruby Dixon**

A lush, tropical island on an icy planet makes no sense.

Then again, not much makes sense anymore after waking up and finding myself not in bed but on a strange world populated by aliens. Since that moment, I've learned that nothing is normal anymore and I've got to roll with the punches. I can handle this, though. I'm strong and capable.

So... washed up on a tropical island? Got it handled.

Separated from the others in my group? Handled.

Stranded alone with a brutal but delicious alien man that can't speak English but has great...ahem...body language? Yup, handled.

Add in the fact that my cootie – a symbiont I need to survive – has chosen my big, hulking alien friend as my fated mate? Let's just say that the situation isn't the only thing that's going to be handled.

But it isn't long before I learn that the tropical island paradise is a death trap and we're all in grave danger, aliens and humans alike. To survive this, I'll need my tempting guy to give me a hand with the situation...good thing he's got four of them.

This romance features all of the adventure, humor and community you've come to expect in the Ice Planet Barbarians series, but it stands on its own. You do not need to read the other series (or be caught up) in order to read LAUREN'S BARBARIAN. Enjoy!

## **Taken by the Alien Warrior: A Sci Fi Alien Romance (Warriors of Agron Book 1)**

***Author: Hope Hart***

### **The aliens who stole me made a mistake.**

The Grivath have sold us on Gule- a planet where hope goes to die.

The women who are imprisoned with me are in high demand and they all look like models. Me? I'm 5'2 shy, curvy, and a kindergarten teacher. Maybe they really meant to take my pageant queen sister?

If that's not bad enough, our ship has crashed and half of the women are missing. Did I mention the locals want to eat us? Insert the tall, incredibly-built warrior aliens, who saved us. Things are looking up, except that one of them is eyeing me like a snack, and not in a cannibalistic way-- if you catch my drift.

Terex is tough, fierce, and bossy, and doesn't seem to understand that I can't stay and be his snuggle bunny. I'm not quite sure why he isn't chasing after one of the other women when every man I've ever known has overlooked me.

But not Terex. When he looks at me, he doesn't seem to see chubby, awkward Ellie. And his gaze burns brighter instead of shifting away.

Now, I've just got to convince him to help me find the other women and get back to Earth.

Should be a piece of cake... Right?

*Taken by the Alien Warrior is a full-length romance with no cliffhanger and a guaranteed HEA. While this is a spin-off series from the hugely popular Arcav Alien Invasion series, this is a standalone series.*

If you like hot aliens and kick-ass heroines, you'll love Warriors of Agron- Hope Hart's new sci-fi romance series.

## Lawless (Steel Demons MC Book 1)

**Author: Crystal Ash**

**The Collapse changed everything. Good men became killers. Strong women became property. And every day turned into a fight for survival.**

I once dreamed of becoming a nurse. That dream went up in flames the same day I graduated nursing school, when women were banned from holding any kind of medical license.

Now as an unlicensed medic, I travel what was once the southwestern United States, trading medical services for food, transportation, and shelter with the hopes of reaching Canada.

Because the United States is no more. And the lawless land that's replaced it is a deadly place for a woman.

My worst fear comes true when I'm captured by the Steel Demons MC, the most ruthless biker gang in the Southwest. These men thrive on the violence and chaos brought on by the Collapse, and they're eager to unleash it all on me.

It doesn't even matter that the President's dog likes me. I'm as good as dead.

*Sons of Anarchy* meets *The Handmaid's Tale* in this dystopian reverse harem adventure! This wild ride is **not** for the faint of heart and contains adult themes that may be triggering.

Reading order:

1. Lawless
2. Powerless
3. Fearless
4. Painless
5. Helpless

## Barbarian's Treasure: A SciFi Alien Romance (Ice Planet Barbarians Book 21)

**Author: Ruby Dixon**

Everyone knows Megan and Cashol hit it off the moment they resonated...didn't they? But when Josie goes into labor, an off-hand comment makes Megan point out to her friend that no, things weren't always so smooth. Just because resonance is immediate doesn't mean it's immediately perfect.

But also...just because it's an instant bond doesn't mean it's wrong. Sometimes it's very, very right.
