Ever since Rachel found a way to save the souls of vampires, the old undead's longtime ascendancy has been broken. Now Constance sees eliminating Rachel as the key to consolidating her own power.

Rachel has no desire to be enthralled or killed--and she's terrified of what may become of the city if Constance forces a return to the ancient ways. But even a witch-born demon can't stand against the old undead--at least, not alone. And if Rachel refuses to claim the role of Cincinnati's master demon, the city will tear itself apart, taking her and all those who stand beside her with it.

CLAIMED (BOOK 1):

Recently jobless and homeless, now I've been kidnapped by aliens.

I thought my day couldn't get any worse... until the disgusting Orkun warlords who abducted me tell me I'm meant to be a "bride" for their commander.

No! No freaking way.

Their leader, Tordax, is the most stunning of all. His touch sets off fireworks in my body, and I'm drawn to him in a way I can't understand—especially considering we don't even speak the same language.

But am I really safer now, or have I just traded one captor for another?

What does this powerful alien want with me?

And why does he keep looking at me like I'm his?

STOLEN (BOOK 2):

I refuse to let myself fall for an alien. And even though I can't deny the chemistry that sparks between Malav and me, I can't afford to get attached to anyone on this planet.

Because I've got a secret.

I'm going to steal a ship. And I'm going to go home.

RESCUED (BOOK 3):

Sorsir looks at me like I'm the most precious thing he's ever seen. He tells me he wants to take care of me. Protect me.

With her twenty-fifth birthday approaching, and no suitors even remotely sniffing in her general direction, Susan will be forced to leave the family lands to work as an indentured servant in the capital city. Her only way out is to settle for an arranged marriage through the PMA – the Prime Mating Agency. She just never expected to be paired to a grumpy, massive lizardman, and above all not to grow so fond of his scales and quirky ways.

With everything going on, the last thing Olix needs is a mate, especially a squishy, scaleless, off-worlder with strange ways, and an obsession with farming. He is a Hunter, not a dirt digger. The Seer must have been mistaken when she insisted that, for the sake of the people, he take a mate from the stars. How can such a tiny thing be their salvation? And yet, his Susan's softness is disturbingly addictive while hiding a surprising resilience.

With his ancestral lands on the line and the future of the clans threatened, could this wisp of a woman turn their fate around?

Alien Rebel's Fake Bride: A SciFi Alien Romance (Draconian Warriors Book 13)

Author: Juno Wells

Crystal

Truth be told I've always been a little jumpy but being kidnapped by aliens shoved my anxiety into high gear. They buy and sell us Earth girls like chattel. Stealing us from our dying planet and keeping us on lockdown until they're ready to trade us away.

When my fellow humans and I are rescued by the savage Draconian Warriors things get better, but we're not free. So the other women leverage me into mating one of the Draconians in a grand scheme to take over the ship.

I'm nothing if not a team player but why did it have to be the huge scarred one who's as socially awkward as I am? Deceiving these brutal warriors seems like a really bad idea, the kind that could cause a small human like me to wind up dead, or worse, desperately in love with a massive, winged, and tailed alien.

Drake

I live for nothing more than starting a revolution among my Draconian brethren. I will set us free, at long last, from the misery of our Draconian Queens who have been driven insane by a parasite.

I don't have time or desire to rescue the human Queens, but my brother insists. When one of them lays claim to me, I'm suspicious. She panicked at the mere sight of me during the rescue and only hours later she selected me for her mate?

I'm no fool. She's a wily one, talking and squirming her way past my defenses. She's soft, beautiful and scents like a goddess but I can't let her ruin my people's only chance at freedom. Somehow, I have to make her my Queen and set my people free.

Author: Lynnea Lee

Alice

My name is Alice, and I live in the Bugpocalypse.

I survived my first post-apocalyptic winter, and spring is here. And that's bad news! With warm weather comes the endless swarms of deadly bugs.

I need to forage for food, but there's just one little problem. Okay, so "little" isn't the best word to describe the fierce Xarc'n warrior who is obsessed with me. **Kaj'k is freakin' HUGE! And his sharp claws, pointy fangs, and massive horns are scary AF.**

I reject his gift of food and flowers, but my massively muscled alien hunter doesn't get the hint. He tosses me over his shoulders and carries me to his shuttle. I expect the worse, but all he does is purr at me.

Kaj'k

I've spent my entire life fighting the swarm. Genetically engineered to hunt the scourge across the galaxy, Xarc'n hunters are the ultimate predator. It takes a lot to take one of us down. Then, I meet the little human female who brings me to my knees.

My Alice is full of fire, and I have no doubt she could survive on her own. **But she's my mate, and she's mine to protect.** When cannibals and scourge threaten my female, I toss her over my shoulder and carry her to my ship.

Now that I have my mate in my arms, I'm never letting her go!

I have a sneaking suspicion aliens abducted me last night. My first clue? The muscular blue guys with horns and tails. My second? I'm locked in a room, and I can see two suns in the sky outside the window.

I've no memory of how I reached this planet, and neither have the women with me. One thing's sure—we're stuck. Nobody tells us why we're here, or what happens to the women who are taken by the guards and never return.

The guards are sleazy assholes, and I'm glad I can't understand what they say to me when they leer. Apart from one. There's something strange about the way he protects me from the other guards but pretends he doesn't. When this fierce alien touches me my blood runs hot, and the physical effect I have on him is um... obvious.

But instead of taking what he wants, this guard offers me something I never dreamed of—a way out.

Will escaping with my alien warrior save me, or am I walking into a worse situation? Because this domineering blue guy tells me I'm his mate and that if I want to stay alive, I must do exactly what he says.

Exactly what he says? This should be interesting.

Possessed: A Sci-Fi Alien Warrior Romance (Raider Warlords of the Vandar Book 1)

Author: Tana Stone

I sacrificed myself to save my sister's ship. Now the raider warlord owns me.

It was my own fault. I was the navigator of our ship, and I'm the one who led us straight into Vandar territory. We'd heard rumors about the Vandar raiders—everyone in the galaxy had. Terrifying and ruthless, they were a scourge on the Zagrath empire and destroyed everything in their path. Few had actually laid eyes on the Vandar or the notorious warlords who led their fleets of warships—and survived to talk about it.

So, when the ruthless aliens boarded our ship intent on destroying it and killing the crew, I did the only thing I could do. I gave myself to the dark and menacing warlord.

In exchange for allowing my sister's ship passage out of the Vandar territory, I must share his bed and travel with his crew of deadly raiders. Even though the sight of the huge, battle-scarred alien terrifies me.

But as I adjust to my new life on a savage warship, I discover that the dominant alien warrior wants more than just my body. He wants to possess my soul. And he'll make a new deal with me to get it.

New York Times bestselling author Dianne Duvall brings readers the second stand-alone novel in a thrilling new sci-fi romance series full of action, humor, and happily-ever-afters.

Eliana's life has never been what one might term ordinary. At least, it hasn't been for a very long time. As a powerful Immortal Guardian, she spends her nights hunting and slaying psychotic vampires that most of humanity doesn't even realize exist. Then an opportunity arises that instantly makes her extraordinary existence seem downright boring. The leader of the Immortal Guardians asks her to guard a group of mortals who are embarking upon a voyage across the galaxy to the planet Lasara. How could she possibly say no?

In no time at all, Eliana is hurtling through space on board a Lasaran battleship and getting to know not one but *two* alien races. It's the most exciting adventure of her long life... until the ship is unexpectedly attacked. Amid the chaos and destruction that follow, she valiantly helps everyone she can before an explosion renders her unconscious. When Eliana awakens, she finds herself alone, floating in space, clad only in a spacesuit, with no ship in sight. Alone--that is--except for the warm, deep voice that carries over the comm in her helmet.

Commander Dagon and the crew of the Segonian battleship *Ranasura* respond to a distress call from their Lasaran allies and join a massive Alliance-wide search-and-rescue mission. He quickly achieves communication with a lone Earthling female and races toward her. Every time they speak, his fascination with her grows and he becomes more desperate to reach her before her oxygen supply runs out. Her strength, bravery, and humor entice him, even more so when she defies all odds and they meet in person.

But they are not the only ones searching for Earthling survivors. When Eliana herself becomes the hunted and their enemies begin to close in, can the two of them fight their way to victory, or will their enemies take everything?

She never wanted a body. Until she met her human marine.

One of the most advanced AI's in the empire, Keris is used to being so much more than any biological could dream of. She never expected that saving a lone human would lead to her taking physical form...

But a new form comes with a whole host of new problems. She's gone from being able to run a ship single-handed to struggling to co-ordinate her own two legs. And when Jay is around, her new brain quits functioning. All she can think about is the handsome human, and what his lips would feel like on hers...

But when the chips are down and Jay is taken from her, she'll show them that any woman scorned is a dangerous thing, AI or not...
