In the near future, a new ice age has begun.

Humanity stands on the brink of extinction.

Desperate for answers, scientists send probes into the solar system to take readings. Near Mars, they identify a mysterious object moving toward the Sun. Is it the cause of the ice age? Or could it be humanity's only hope of survival?

With time running out, NASA launches a mission to make contact. But the object isn't what anyone thought. In the dark of space, alone, the team makes a discovery that will change the course of human history—and possibly end it.

Filled with real science and fascinating details, *Winter World* is that unique blend of fact and fiction that could completely change how you see our planet—and humanity's future. For those intrepid souls starting this bestselling trilogy, be warned: you may well be up late into the night turning the pages.

### **An Extended Look at *Winter World***

Each month, Earth grows colder.

Snow falls in summer. Glaciers trample cities across North America, Europe, and Asia. The new ice age shows no signs of stopping.

Chaos erupts.

Around the world, people abandon their homes and flock to regions where they can survive. Nations prepare to go to war for the world's last habitable zones.

Scientists search the cause of the new ice age. They send probes into the solar system to collect readings. Near Mars, a probe finds a mysterious object, drifting toward the Sun. Is it responsible for the new ice age? Or is it merely an observer? Or neither? Could it be a relic from a long-extinct civilization? One thing is

certain: investigating the object is humanity's best hope of survival.

As the ice age claims more lives and the world slides into anarchy, an international consortium launches a mission into space to make contact. But the first contact mission doesn't go as planned. What the crew discovers out there is beyond anyone's imagination.

Two members of the first contact mission may hold the keys to humanity's salvation.

Dr. Emma Matthews is the commander aboard the International Space Station. For months, she has watched the world below freeze and civilization unravel. The headlines tell only half of the story. The messages from her sister tell the rest, of a world witnessing mass migrations, fighting for survival, struggling to provide a future for their children. When a catastrophe strikes the ISS, Emma faces her own fight for survival.

Dr. James Sinclair is one of the greatest scientists alive. A mind before his time. Years ago, he invented something with the potential to change the world—an invention that would upset the balance of power in the world forever. Fearing that change, his enemies sent him to prison for a crime he didn't commit. But with humanity's future at stake, NASA asks him to join the first contact mission. His expertise is vital to the mission's success—and to saving Emma. With the clock ticking down to humanity's final days on Earth, James makes a decision that will change his life forever and may determine the fate of the entire human race.

## How to Stop Time: A Novel

**Author: Matt Haig**

**“A quirky romcom dusted with philosophical observations....A delightfully witty...poignant novel.” —*The Washington Post***

**“She smiled a soft, troubled smile and I felt the whole world slipping away, and I wanted to slip with it, to go wherever she was going... I had existed whole years without her, but that was all it had been. An existence. A book with no words.”**

Tom Hazard has just moved back to London, his old home, to settle down and become a high school history teacher. And on his first day at school, he meets a captivating French teacher at his school who seems fascinated by him. But Tom has a dangerous secret. He may look like an ordinary 41-year-old, but owing to a rare condition, he's been alive for centuries. Tom has lived history--performing with Shakespeare, exploring the high seas with Captain Cook, and sharing cocktails with Fitzgerald. Now, he just wants an ordinary life.

Unfortunately for Tom, the Albatross Society, the secretive group which protects people like Tom, has one rule: Never fall in love. As painful memories of his past and the erratic behavior of the Society's watchful leader threaten to derail his new life and romance, the one thing he can't have just happens to be the one thing that might save him. Tom will have to decide once and for all whether to remain stuck in the past, or finally begin living in the present.

*How to Stop Time* tells a love story across the ages—and for the ages—about a man lost in time, the woman who could save him, and the lifetimes it can take to learn how to live. It is a bighearted, wildly original novel about losing and finding yourself, the inevitability of change, and how with enough time to learn, we just might find happiness.

Soon to be a major motion picture starring Benedict Cumberbatch.

## Dark Stranger Revealed (The Children Of The Gods Paranormal Romance Book 2)

**Author: I. T. Lucas**

**"Outstanding!** The story gripped me from the beginning and I didn't stop until I finished the third book. The other books on my kindle will have to wait because I'm going to keep reading the series to the last page."

**"An excellent read!** This is a very different take on paranormal and it was an accidental find. After reading the first book in the series, I bought the entire set. It's fast paced, intriguing and the characters are fully formed and interesting. I cannot put it down!"

**"A new favorite author and series!!!** I really enjoyed this book and the entire series. It's a wonderful paranormal book that is completely different from everything else out there. I devoured all five within a 3 day period of time. Both the writing, characters and story line was AMAZING and I'm dying to get my hands on the next book!!"

**"I LOVE LOVE LOVE THIS SERIES!** I was trying to find a series similar to the Black Dagger Brotherhood series by JR Ward and this hit the nail on the head! I finished the entire series within two weeks and I cannot wait for Book 9 to release! IT Lucas, please keep this story line going as long as possible... I cannot wait to see what happens to the rest of the clan!"

"Awesome story with intriguing characters. Romance and intrigue that draws one in. Better than Shades of Grey by a mile."

**I. T. Lucas is one of the best authors I have come across.** The Children of the Gods series is fantastic. The characters are savage, gritty sexy, enthralling and the story lines are thrilling. I can't put the book down once I have started and I have read 11 of them. The men are superbly buffed and wild, and the women give them a run for their money in the gorgeous, sexy and strong stakes. Very highly recommend these books to anyone who enjoys sitting on the edge of their seat and chewing their nails in anticipation of what is to come. Very explicit and cruel in some of the books.

### An Extended Look at *The Atlantis Plague*

In Marbella, Spain, Dr. Kate Warner awakens to a horrifying reality: the human race stands on the brink of extinction. A pandemic unlike any before it has swept the globe. Nearly a billion people are dead—and those that the Atlantis Plague does not kill, it transforms at the genetic level. A few rapidly evolve. The remainder devolve.

As the world slips into chaos, radical solutions emerge. Industrialized nations offer a miracle drug, Orchid, which they mass produce and distribute to refugee camps around the world. But Orchid is merely a way to buy time. It treats the symptoms of the plague but never cures the disease.

Immari International offers a different approach: do nothing. Let the plague run its course. The Immari envision a world populated by the genetically superior survivors—a new human race, ready to fulfill its destiny.

With control of the world population hanging in the balance, the Orchid Alliance and the Immari descend into open warfare. Now the last hope for humanity is to find a cure. Kate alone holds the key to unraveling the mystery surrounding the Atlantis Plague. The answer may lie in understanding pivotal events in human history—events when the human genome mysteriously changed. Her journey takes her across the barren wastelands of Europe and northern Africa, but it is her research into the past that takes her where she never expected to go. She soon discovers that the history of human evolution is not what it seems—and setting it right may require a sacrifice she never imagined.

## Half-Blood Academy 1: Magic Trials

**Author: Meg Xuemei X**

"Welcome to Half Death Academy." That's what they call my new school--because only half the students survive.

**Rule #1: Keep your head down and don't mess with the four gorgeous demigods who rule the school.**

**Rule #2: When the demigods try to kill you, lie down and die.**

Too bad I never was very good at following the rules. And when my forbidden power awakens, I'll make them regret they tried to make me their bitch.

Magic Trials is the first book in the Half-Blood Academy series, a reverse harem bully romance starring four handsome, cruel, yet overprotective demigods and a badass heroine. Heart-pounding action blends with steamy romance. For fans of Ilona Andrews, Jaymin Eve, Leia Stone, K.F. Breene, and Ivy Asher.

\* EXCERPT \*

"Now, I need to get you naked."

The Demigod of War held my gown, and I raised my arms for him to pull it off my head carefully. It would take some effort since the gown hugged my every curve. A tearing sound rent the air before I could stop him from ripping my gown into two pieces.

"It's an expensive dress, Axel!" I cried.

"I can afford to buy you thousands more," he said, gloating, yet his voice remained seductive. "I'll buy you a thousand gowns tomorrow to replace this one."

I had a feeling he was going to tear off all of the dresses Héctor had provided for me. He couldn't help it. The demigods were all territorial and possessive, and Axel was one of the worst.

"That's not the point," I shouted in dismay. "I loved this gown. And you should give the money to the poor instead of buying me dresses. I don't need any."

"You're so beautiful, Cookie." His hot mouth stole the rest of my protests, and his strong fingers thrust inside my liquid heat.

---

Here's what readers are saying about Magic Trials:

"This book starts out at 100 mph and never slows down." ★★★★★

"The steamy romance is like the icing on the cake. I enjoy it, but the story stands on its own without it; amazing characters, beautiful new worlds, daring adventure, and just enough giggles." ★★★★★

"Magic Trials hit most of my soft spots: strong heroine, boarding school, possessive alpha males not too happy about sharing, and while the jerk of the group takes the bullying path, it's not her against everyone and most definitely not her against all of her love interests." ★★★★★

"This is a super fun, exciting beginning to a series I'm really looking forward to diving into. I can't wait to see what danger Marigold will face, the way she will put the men in their place, and the friends she will make along the way." ★★★★★

## King's Mate: An Alpha Shifter Romance (Alpha Beasts Book 1)

**Author: Piper Stone**

**A king takes what is his, and she is mine.**

Her scent drew me to her, but something deeper and more powerful told me she was mine. Something that would not be denied. Something that demanded I claim her then and there.

I took her the way a beast takes his mate. Roughly. Savagely. Without mercy or remorse.

She will run, and when she does she will be punished, but it is not me that she fears. Every quivering, desperate climax reminds her that her body knows its master, and that terrifies her.

She knows I am not a gentle king, and she will scream for me as she learns her place.

**Publisher's Note:** *King's Mate* is a stand-alone novel which is the first entry in the *Alpha Beasts* series. It includes spankings and rough, intense sexual scenes. If such material offends you, please don't buy this book.

**Author: Tana Stone**

**I sacrificed myself to save my sister's ship. Now the raider warlord owns me.**

We'd heard rumors about the Vandar raiders—everyone in the galaxy had. Terrifying and ruthless, they were a scourge on the Zagrath empire and destroyed everything in their path.

Few had actually laid eyes on the Vandar or the notorious warlords who led their fleets of warships—and survived to talk about it. So, when the ruthless aliens boarded our ship intent on destroying it and killing the crew, I did the only thing I could do.

I gave myself to the dark and menacing warlord. In exchange for allowing my sister's ship passage out of the Vandar territory, I must share his bed and travel with his crew of deadly raiders. Even though the sight of the huge, battle-scarred alien terrifies me.

## **Dark Secrets Absolved (The Children Of The Gods Paranormal Romance Book 46)**

**Author: I. T. Lucas**

**"Waiting for each next book in series is always torture :)** Just finished reading this latest installment in the series and that was after going back and reading the entire series for the second time. To give this some context - although I am a voracious reader from the classics to contemporary, I can count on one hand how many books I have ever read a second time and those were primarily classics - Jane Austin, Dickens, etc. With that said, I absolutely love this series - it is so much fun! Lucas does an excellent job of character development and easily form a clear picture of the characters in my mind. I'll be going through withdrawal until book 47 is released :)

Absolution.

David had given and received it.

The few short hours since he'd emerged from the coma had felt incredible. He'd finally been free of the guilt and pain, and for the first time since Jonah's death, he had felt truly happy and optimistic about the future.

He'd survived the transition into immortality, had been accepted into the clan, and was about to marry the most wonderful woman on the face of the planet, his true love mate, his salvation, his everything.

What could have possibly gone wrong?

Just about everything.

## **Chosen by a Beast: An Alien Breeder Romance (Hearts of Stone Book 1)**

**Author: Miranda Bridges**

I've been abducted. Twice.

And now my situation with this new group of aliens has gone from bad to worse. I was with a bunch of elf-like aliens who had unparalleled technology, but now I'm in the midst of a group of primitive gargoyle aliens running around in loincloths.

Which doesn't hide much, let me tell you. There's one gargoyle in particular who watches my every move, but what's under his loincloth scares me more than his beastly appearance.

To be sure we're worthy to breed with, the savages have us each perform a rite of passage.

And by that I mean a test of survival. Navigate the terrain, scavenge for food, defend myself against wildlife—basically all the things that could cause bodily harm or death. So that's fun.

And as much as I'd like to be rescued by the alien who's stalking me, it looks like I'm on my own. Maybe I shouldn't have flipped him off, but how was I supposed to know I'd need his help?

Now, I'm going to have to tap into my survival skills or I'll be dead by morning. May the odds and the aliens be ever in my favor. Or something.

I'm not supposed to be here.

Not on this planet. Not in this galaxy. And especially not surrounded by massive alien warriors.

The other women all believe we're safe with them, but I don't. Maybe it's because I've already seen how awful humans can be, and I have no reason to think aliens will be any different.

At least the one named Jaro seems to agree with me that combining our forces is a bad idea. He looks at me with the same suspicion I have for him.

But as our group makes the dangerous trek to the Voxerans' encampment, one wrong move separates me from the others—and to my shock, it's Jaro who comes after me.

Dr. Paul Kraus has spent his career searching for what he calls humanity's lost tribes--human ancestors who have gone extinct. When Kraus compares the DNA samples of the lost tribes with our own, he discovers a pattern of changes. A code. He believes he knows what the code is, but the technology doesn't exist to fully decode it. To protect the secret, Kraus hides his work and disappears.

For years, the secret remains buried. When Kraus dies mysteriously, his work is lost forever.

Now the technology exists to finally unravel the code buried in the human genome. The race to find Kraus's research has begun, and one group will do anything to find it.

Dr. Peyton Shaw and her mother have obtained part of Kraus's research--and a cryptic message that could lead to the remaining pieces. They soon learn that finding those pieces may be more dangerous than anyone imagined. But there's no choice. His work is the key to stopping a global conspiracy--and an event that will change humanity forever.

The ultimate secret, buried in the human genome, will change our very understanding of what it means to be human. For Peyton, finding it may come at an incredible price. She must weigh the lives of strangers against those she loves: Desmond Hughes and her mother. With time running out, Peyton makes a fateful choice--one that can never be undone.

**Author: Luna Kingsley**

**I sold myself to save my family. I belong to the Pheons now.**

I sign over a year of my life at the galactic employment agency with one swipe of the stylus. Most humans would be excited for a journey off-planet, but mine isn't going to be fun. My family needs cash, and Pheons will pay anything for Earth women. At least I'm not giving up much. I've never really had a life of my own—raising three younger siblings took up most of my time and energy.

Haikon is the first alien I encounter when I step off the transport shuttle. He's grumpy and standoffish—so why do I toss and turn every night thinking about his sharp, angry features and broad shoulders? The other women whisper that Pheons are forbidden from mating with outsiders, but there's no mistaking the lust in his eyes as he watches me.

An attack by enemy raiders forces us into the desert together, and I discover the softer side of the big, blue warrior. I'm used to putting my happiness on hold. Now, all I think about is being his.

His is a full-length, sci-fi romance novel with a HEA and no cheating.

## Year One: Chronicles of The One, Book 1

**Author: Nora Roberts**

**#1 NEW YORK TIMES BESTSELLER (December 2017)**

**A stunning new novel from the #1 *New York Times* bestselling author Nora Roberts—*Year One* is an epic of hope and horror, chaos and magick, and a journey that will unite a desperate group of people to fight the battle of their lives...**

It began on New Year's Eve.

The sickness came on suddenly, and spread quickly. The fear spread even faster. Within weeks, everything people counted on began to fail them. The electrical grid sputtered; law and government collapsed—and more than half of the world's population was decimated.

Where there had been order, there was now chaos. And as the power of science and technology receded, magick rose up in its place. Some of it is good, like the witchcraft worked by Lana Bingham, practicing in the loft apartment she shares with her lover, Max. Some of it is unimaginably evil, and it can lurk anywhere, around a corner, in fetid tunnels beneath the river—or in the ones you know and love the most.

As word spreads that neither the immune nor the gifted are safe from the authorities who patrol the ravaged streets, and with nothing left to count on but each other, Lana and Max make their way out of a wrecked New York City. At the same time, other travelers are heading west too, into a new frontier. Chuck, a tech genius trying to hack his way through a world gone offline. Arlys, a journalist who has lost her audience but uses pen and paper to record the truth. Fred, her young colleague, possessed of burgeoning abilities and an optimism that seems out of place in this bleak landscape. And Rachel and Jonah, a resourceful doctor and a paramedic who fend off despair with their determination to keep a young mother and three infants in their care alive.

In a world of survivors where every stranger encountered could be either a savage or a savior, none of them knows exactly where they are heading, or why. But a purpose awaits them that will shape their lives and the lives of all those who remain.

The end has come. The beginning comes next.

## Taken by the Alien Warrior: A Sci Fi Alien Romance (Warriors of Agron Book 1)

**Author: Hope Hart**

**The aliens who stole me made a mistake.**

The Grivath have sold us on Gule- a planet where hope goes to die.

The women who are imprisoned with me are in high demand and they all look like models. Me? I'm 5'2 shy, curvy, and a kindergarten teacher. Maybe they really meant to take my pageant queen sister?

If that's not bad enough, our ship has crashed and half of the women are missing. Did I mention the locals want to eat us? Insert the tall, incredibly-built warrior aliens, who saved us. Things are looking up, except that one of them is eyeing me like a snack, and not in a cannibalistic way-- if you catch my drift.

Terex is tough, fierce, and bossy, and doesn't seem to understand that I can't stay and be his snuggle bunny. I'm not quite sure why he isn't chasing after one of the other women when every man I've ever known has overlooked me.

But not Terex. When he looks at me, he doesn't seem to see chubby, awkward Ellie. And his gaze burns brighter instead of shifting away.

Now, I've just got to convince him to help me find the other women and get back to Earth.

Should be a piece of cake... Right?

*Taken by the Alien Warrior is a full-length romance with no cliffhanger and a guaranteed HEA. While this is a spin-off series from the hugely popular Arcav Alien Invasion series, this is a standalone series.*

If you like hot aliens and kick-ass heroines, you'll love Warriors of Agron- Hope Hart's new sci-fi romance series.

## **Mikko: A SciFi Alien Warrior Romance (Stolen Warriors Book 2)**

**Author: Ella Maven**

**Hide and seek is a lot less fun in an alien prison where the winner gets... me.**

Rian: I'm not a stranger to being behind bars, but this prison leaves a lot to be desired. There are zero communal showers, minimal locking cells, and the other prisoners are extremely hostile. That could be because they are aliens and this is a prison in another galaxy. Add in the fact that I'm a human female, and my life span has just dropped some serious time.

I'm about to go down fighting when a scary blue alien with spikes decides he's my rescuer. Except he doesn't seem happy about my presence and, well, join the club, buddy.

Mikko: After spending a third of my life in the Pit, I returned for some payback but instead find a human female fighting for her life. She's small, snarly, and irritatingly beautiful.

When a coveted reward is offered to the prisoners for our capture, the game changes. My enemies thought I was unpredictable with anger issues before? They haven't seen anything yet. I'll escape again with my female, and then the real payback begins.

*Mikko is a SciFi Alien Warrior Romance featuring a prickly, snarky hero with a heart of gold and a heroine who loves as hard as she fights.*

## **Alien AI's Marine (Warriors of the Lathar Book 14)**

**Author: Mina Carter**

**He's the lone human male in a sea of lethal alien warriors. He's either gifted or suicidal...**

Kidnapped by aliens, rescued, and now on a secret base in a system he can't even pronounce, Major Jay Stephens has given up on a wing and a prayer... he's now on kicking butt and taking names. Especially when it comes to the alien AI who's risked everything, even her 'life' to protect him.

The only problem... she's gone and gotten herself a body. Beautiful and delicate, she evokes reactions in him that should be illegal. The REAL problem? An AI in physical form is totally illegal and against just about every law in Latharian society. Which means lots of lethal aliens want to kill it, and by extension, his AI.

And that's going to be a problem. Because Jay thinks... no, he *knows* he's in love with her, and no little (large) green (totally not green) men are going to draanth up the best thing he ever had...

**She never wanted a body. Until she met her human marine.**

One of the most advanced AI's in the empire, Keris is used to being so much more than any biological could dream of. She never expected that saving a lone human would lead to her taking physical form...

But a new form comes with a whole host of new problems. She's gone from being able to run a ship single-handed to struggling to co-ordinate her own two legs. And when Jay is around, her new brain quits functioning. All she can think about is the handsome human, and what his lips would feel like on hers...

But when the chips are down and Jay is taken from her, she'll show them that any woman scorned is a dangerous thing, AI or not...

## **Rexor: A SciFi Alien Warrior Romance (Stolen Warriors Book 1)**

**Author: Ella Maven**

**They thought I was dangerous before, but now that I have a female to defend... I'm ruthless.**

Daisy: I'm a glass half-full girl, but this last week has really tested my outlook on life. First of all, aliens exist. Yeah, there's a doozy. Second of all, they steal humans from Earth, and they're not nice about it. Like at all. Anger issues abound in other galaxies apparently.

My situation worsens when I learn I'm the prize in some really effed-up alien gladiator games. I'm just going to admit it now--my glass is empty, and this doesn't look good for me...

Rexor: Once I was a proud Drixonian Warrior. Now I'm an experiment gone bad and a former gladiator who can't control his bloodlust.

When I see a human female with sunshine hair in danger, I can't let her fall into the clutches of monsters who will break her. I steal her with the intention of rescuing her, not keeping her for myself. She's beauty and happiness. I'm a hideous shadow of what I once was and losing my mind with every planet's rotation. All I know is that while we're on the run from our enemies, I'll do anything to protect her. Even if I have to break myself to do it.

*Rexor is a SciFi Alien Warrior Romance with lots of action, a heroine who's really trying to look on the bright side, and a tortured hero with a few...enhancements.*

## Owned

**Author: L.V. Lane**

### Ava

When civilization first collapsed, survival replaced compassion.

Many dark years followed before I found a delicate peace within Sanctuary's walls.

But that was over now.

Standing on the desolate rooftop, I watched enemy soldiers take our community.

After three days on the streets with no provisions and nothing but a temperamental handgun to defend myself, I knew I was out of options.

That was when he found me, the killer with enough weapons to start a one-man war.

### Nora

Life had gotten complicated long before my son was born.

It was a thousand times harder after.

The peaceful enclave, Sanctuary, offered hope until it became caught between two warring factions.

They turned it into a pile of rubble.

Now a new community awaited me.

One where women were owned.

I didn't like being around men, hated them, truth be told.

But I had to pick someone, so I picked him, the too young, too perceptive doctor who brought out the temper in me.

Why? Because he felt like the safe option.

As it turns out, the unassuming doctor wasn't quite what he seemed.

*Publisher's note:* Owned is a post-apocalyptic romance following two interlinked stories. It contains dark, explicit themes and power exchange.

"It's a story that has an edge of brutality that you would expect considering the world in which the story takes place and hot, lustful desperation that can turn to more. It has the alpha males that always make her books and headstrong, feisty females that keep the guys on their toes. Like all of LV Lane's stories, once she creates a world I just can't get enough. I want to see the hints of the world-building blossom and expand like a map before me. I always want more." ~Amazon reviewer \*■\*■\*■\*■\*■

"Set in a post apocalyptic landscape humanity is definitely different and choice is a luxury for most. Owned tells the story of two men and the women they "own." It reminds us that humans are animals at their heart, only the strong or protected survive.

It's packed with brutal action, amazing world building and sexual chemistry that almost melted my iPad! It's the kind of story that had me smirking as I read, a great sign and I've got my fingers crossed that we get stories for more characters from this new civilisation." ~Amazon reviewer \*■\*■\*■\*■\*■

"A fast-paced read with loads of drama, suspense, steam and emotion. Great characters, great world building and an entertaining story. I loved it." ~Amazon reviewer \*■\*■\*■\*■\*■
