**Author: Ruby Dixon**

On Risdal III, it's custom for women to marry for convenience. It provides safety and security in a universe that offers none for humans.

Me, I don't really \*need\* a husband. I just want one. And I want one man in particular. There's a new guy in town, a by-the-books military man named Rektar. Every day I show up to his office and flirt with him. I bring pies. I twirl my hair. I make it very, very obvious what I want.

Rektar is patient, and gentle for all his hulking form. He'd be a great husband. He's also completely clueless that I'm flirting with him.

So it's time for me to be a little bit bolder...

### An Extended Look at *Winter World*

Each month, Earth grows colder.

Snow falls in summer. Glaciers trample cities across North America, Europe, and Asia. The new ice age shows no signs of stopping.

Chaos erupts.

Around the world, people abandon their homes and flock to regions where they can survive. Nations prepare to go to war for the world's last habitable zones.

Scientists search the cause of the new ice age. They send probes into the solar system to collect readings. Near Mars, a probe finds a mysterious object, drifting toward the Sun. Is it responsible for the new ice age? Or is it merely an observer? Or neither? Could it be a relic from a long-extinct civilization? One thing is certain: investigating the object is humanity's best hope of survival.

As the ice age claims more lives and the world slides into anarchy, an international consortium launches a mission into space to make contact. But the first contact mission doesn't go as planned. What the crew discovers out there is beyond anyone's imagination.

Two members of the first contact mission may hold the keys to humanity's salvation.

Dr. Emma Matthews is the commander aboard the International Space Station. For months, she has watched the world below freeze and civilization unravel. The headlines tell only half of the story. The messages from her sister tell the rest, of a world witnessing mass migrations, fighting for survival, struggling to provide a future for their children. When a catastrophe strikes the ISS, Emma faces her own fight for survival.

Dr. James Sinclair is one of the greatest scientists alive. A mind before his time. Years ago, he invented something with the potential to change the world—an invention that would upset the balance of power in the world forever. Fearing that change, his enemies sent him to prison for a crime he didn't commit. But with humanity's future at stake, NASA asks him to join the first contact mission. His expertise is vital to the mission's success—and to saving Emma. With the clock ticking down to humanity's final days on Earth, James makes a decision that will change his life forever and may determine the fate of the entire human race.

## The Segonian (Aldebarian Alliance Book 2)

**Author: Dianne Duvall**

New York Times bestselling author Dianne Duvall brings readers the second stand-alone novel in a thrilling new sci-fi romance series full of action, humor, and happily-ever-afters.

Eliana's life has never been what one might term ordinary. At least, it hasn't been for a very long time. As a powerful Immortal Guardian, she spends her nights hunting and slaying psychotic vampires that most of humanity doesn't even realize exist. Then an opportunity arises that instantly makes her extraordinary existence seem downright boring. The leader of the Immortal Guardians asks her to guard a group of mortals who are embarking upon a voyage across the galaxy to the planet Lasara. How could she possibly say no?

In no time at all, Eliana is hurtling through space on board a Lasaran battleship and getting to know not one but two alien races. It's the most exciting adventure of her long life... until the ship is unexpectedly attacked. Amid the chaos and destruction that follow, she valiantly helps everyone she can before an explosion renders her unconscious. When Eliana awakens, she finds herself alone, floating in space, clad only in a spacesuit, with no ship in sight. Alone—that is—except for the warm, deep voice that carries over the comm in her helmet.

Commander Dagon and the crew of the Segonian battleship Ranasura respond to a distress call from their Lasaran allies and join a massive Alliance-wide search-and-rescue mission. He quickly achieves communication with a lone Earthling female and races toward her. Every time they speak, his fascination with her grows and he becomes more desperate to reach her before her oxygen supply runs out. Her strength, bravery, and humor entice him, even more so when she defies all odds and they meet in person.

As he and Eliana embark upon a quest to find her missing friends, a bond swiftly grows between them that deepens with every laugh and smile and tender touch they share. But they are not the only ones searching for Earthling survivors. When Eliana herself becomes the hunted and their enemies begin to close in, can the two of them fight their way to victory, or will their enemies take everything?

**"Waiting for each next book in series is always torture :) Just finished reading this latest installment in the series and that was after going back and reading the entire series for the second time. Lucas does an excellent job of character development and easily form a clear picture of the characters in my mind. I'll be going through withdrawal until book 47 is released :)**

**Author: Hope Hart**

### **The aliens who stole me made a mistake.**

The Grivath have sold us on Gule- a planet where hope goes to die.

The women who are imprisoned with me are in high demand and they all look like models. Me? I'm 5'2 shy, curvy, and a kindergarten teacher. Maybe they really meant to take my pageant queen sister?

If that's not bad enough, our ship has crashed and half of the women are missing. Did I mention the locals want to eat us? Insert the tall, incredibly-built warrior aliens, who saved us. Things are looking up, except that one of them is eyeing me like a snack, and not in a cannibalistic way-- if you catch my drift.

Terex is tough, fierce, and bossy, and doesn't seem to understand that I can't stay and be his snuggle bunny. I'm not quite sure why he isn't chasing after one of the other women when every man I've ever known has overlooked me.

But not Terex. When he looks at me, he doesn't seem to see chubby, awkward Ellie. And his gaze burns brighter instead of shifting away.

Now, I've just got to convince him to help me find the other women and get back to Earth.

Should be a piece of cake... Right?

Nearly a billion people are dead—and those that the Atlantis Plague does not kill, it transforms at the genetic level. A few rapidly evolve. The remainder devolve.

As the world slips into chaos, radical solutions emerge. Industrialized nations offer a miracle drug, Orchid, which they mass produce and distribute to refugee camps around the world. But Orchid is merely a way to buy time. It treats the symptoms of the plague but never cures the disease.

With control of the world population hanging in the balance, the Orchid Alliance and the Immari descend into open warfare. Now the last hope for humanity is to find a cure. Kate alone holds the key to unraveling the mystery surrounding the Atlantis Plague. ## **Dark Stranger Revealed (The Children Of The Gods Paranormal Romance Book 2)**

**Author: I. T. Lucas**

**"Outstanding!** The story gripped me from the beginning and I didn't stop until I finished the third book. The other books on my kindle will have to wait because I'm going to keep reading the series to the last page."

"**An excellent read!** This is a very different take on paranormal and it was an accidental find. After reading the first book in the series, I bought the entire set. It's fast paced, intriguing and the characters are fully formed and interesting. I cannot put it down!"

"**A new favorite author and series!!!** I really enjoyed this book and the entire series. It's a wonderful paranormal book that is completely different from everything else out there. I devoured all five within a 3 day period of time. Both the writing, characters and story line was AMAZING and I'm dying to get my hands on the next book!!"

"**I LOVE LOVE LOVE THIS SERIES!** I was trying to find a series similar to the Black Dagger Brotherhood series by JR Ward and this hit the nail on the head! I finished the entire series within two weeks and I cannot wait for Book 9 to release! IT Lucas, please keep this story line going as long as possible... I cannot wait to see what happens to the rest of the clan!"

"Awesome story with intriguing characters. Romance and intrigue that draws one in. Better than Shades of Grey by a mile."

**I. T. Lucas is one of the best authors I have come across.** The Children of the Gods series is fantastic. The characters are savage, gritty sexy, enthralling and the story lines are thrilling. I can't put the book down once I have started and I have read 11 of them. The men are superbly buffed and wild, and the women give them a run for their money in the gorgeous, sexy and strong stakes. Very highly recommend these books to anyone who enjoys sitting on the edge of their seat and chewing their nails in anticipation of what is to come. Very explicit and cruel in some of the books.

"...I was completely hooked from start to finish and did not want to put it down until I was done! I found myself devastated that the story was over already and wanting to read more..." - OnlineBookClub.org

## **Half-Blood Academy 1: Magic Trials**

***Author: Meg Xuemei X***

"Welcome to Half Death Academy." That's what they call my new school--because only half the students survive.

**Rule #1: Keep your head down and don't mess with the four gorgeous demigods who rule the school.**

**Rule #2: When the demigods try to kill you, lie down and die.**

Too bad I never was very good at following the rules. And when my forbidden power awakens, I'll make them regret they tried to make me their bitch.

Magic Trials is the first book in the Half-Blood Academy series, a reverse harem bully romance starring four handsome, cruel, yet overprotective demigods and a

badass heroine. Heart-pounding action blends with steamy romance. For fans of Ilona Andrews, Jaymin Eve, Leia Stone, K.F. Breene, and Ivy Asher.

\* EXCERPT \*

"Now, I need to get you naked."

The Demigod of War held my gown, and I raised my arms for him to pull it off my head carefully. It would take some effort since the gown hugged my every curve.

A tearing sound rent the air before I could stop him from ripping my gown into two pieces.

"It's an expensive dress, Axel!" I cried.

"I can afford to buy you thousands more," he said, gloating, yet his voice remained seductive. "I'll buy you a thousand gowns tomorrow to replace this one."

I had a feeling he was going to tear off all of the dresses Héctor had provided for me. He couldn't help it. The demigods were all territorial and possessive, and Axel was one of the worst.

"That's not the point," I shouted in dismay. "I loved this gown. And you should give the money to the poor instead of buying me dresses. I don't need any."

"You're so beautiful, Cookie." His hot mouth stole the rest of my protests, and his strong fingers thrust inside my liquid heat.

---

Here's what readers are saying about Magic Trials:

"This book starts out at 100 mph and never slows down." ★★★★★

"The steamy romance is like the icing on the cake. I enjoy it, but the story stands on its own without it; amazing characters, beautiful new worlds, daring adventure, and just enough giggles." ★★★★★

"Magic Trials hit most of my soft spots: strong heroine, boarding school, possessive alpha males not too happy about sharing, and while the jerk of the group takes the bullying path, it's not her against everyone and most definitely not her against all of her love interests." ★★★★★

"This is a super fun, exciting beginning to a series I'm really looking forward to diving into. I can't wait to see what danger Marigold will face, the way she will put the men in their place, and the friends she will make along the way." ★★★★★

Aliens.

That's right. I said it.

I know—it sounds stupid to me also. I'm a psychologist (sort of), so you'd think I'd be able to reason my way out of this mess. Except the reality is that I've been abducted to become their breeder, and it doesn't take an advanced degree to recognize this is all sorts of jacked up.

But I digress.

Apparently, these aliens are on the brink of extinction and need me and my fellow captives to repopulate. Yay us. I guess it's time to figure out an escape plan before they knock me up. I'll be back later.

Hopefully.

### An Extended Look at *Genome*

In 2003, the first human genome was sequenced. It was a breakthrough of historic proportions, but only one scientist knows the full truth of what lies buried in our DNA. That secret will change everything we thought we knew about our past. And our future.

Dr. Paul Kraus has spent his career searching for what he calls humanity's lost tribes--human ancestors who have gone extinct. When Kraus compares the DNA samples of the lost tribes with our own, he discovers a pattern of changes. A code. He believes he knows what the code is, but the technology doesn't exist to fully decode it. To protect the secret, Kraus hides his work and disappears.

For years, the secret remains buried. When Kraus dies mysteriously, his work is lost forever.

Now the technology exists to finally unravel the code buried in the human genome. The race to find Kraus's research has begun, and one group will do anything to find it.

Dr. Peyton Shaw and her mother have obtained part of Kraus's research--and a cryptic message that could lead to the remaining pieces. They soon learn that finding those pieces may be more dangerous than anyone imagined. But there's no choice. His work is the key to stopping a global conspiracy--and an event that will change humanity forever.

The ultimate secret, buried in the human genome, will change our very understanding of what it means to be human. For Peyton, finding it may come at an incredible price. She must weigh the lives of strangers against those she loves: Desmond Hughes and her mother. With time running out, Peyton makes a fateful choice--one that can never be undone.

Since the dawn of human civilization, two warring factions of immortals, the descendants of the gods of old, have been secretly shaping its destiny. Amanda's small clan champions progress and peace, while their powerful enemy, the Doomers, propagates ignorance and war. Descending from a single goddess, the only one to survive the ancient cataclysm that wiped out her kind, Amanda's clan members are forbidden to each other. And as the only other known immortals are their hated enemies, they've been long resigned to a lonely existence of fleeting trysts with human partners. That is, until Amanda, the goddess's youngest daughter and a researcher of paranormal abilities, makes a game-changing discovery; two of her test subjects might be dormant carriers of the immortal gene. But before she can prove it, she gets snatched off a Beverly Hills street by a huge Doomer.

Dalhu can't believe his luck when he stumbles upon the beautiful immortal professor. Presented with a once in a lifetime opportunity to grab an immortal female for himself, he kidnaps her and runs. If he gets caught, either by her people or his, his life is forfeit. But for a chance of a loving mate and a family of his own, Dalhu is prepared to do everything in his power to win Amanda's heart, and that includes leaving the Doom brotherhood and his old life behind.

Amanda soon discovers that there is more to the handsome Doomer than his dark past and a hulking, sexy body. But succumbing to her enemy's seduction, or worse, developing feelings for a ruthless killer is out of the question. No man is worth life on the run, not even the one and only immortal male she could claim as her own.

Her clan and her research must come first.

## Primal (Alpha Brotherhood Book 2)

**Author: Sara Fields**

**I escaped the chains of a king. Now a far more fearsome brute has claimed me.**

The Brotherhood gave him the right to breed me, but that is not why I am naked, wet, and sore.

My bottom bears the marks of his hard, punishing hand because I defied my alpha.

My body is slick with his seed and my own arousal because he took me anyway.

He didn't use me like a king enjoying a subject. He took me the way a beast claims his mate.

It was long, hard, and painfully intense, but it was much more than that.

It was primal.

**Publisher's Note:** *Primal* is a stand-alone novel which is the second entry in the *Alpha Brotherhood* series. It includes spankings, rough sexual scenes, intense and humiliating punishments, and strong D/s themes. If such material offends you, please don't buy this book.

My family needs cash, and Pheons will pay anything for Earth women. At least I'm not giving up much. I've never really had a life of my own—raising three younger siblings took up most of my time and energy.

Haikon is the first alien I encounter when I step off the transport shuttle. He's grumpy and standoffish—so why do I toss and turn every night thinking about his sharp, angry features and broad shoulders? The other women whisper that Pheons are forbidden from mating with outsiders, but there's no mistaking the lust in his eyes as he watches me.

An attack by enemy raiders forces us into the desert together, and I discover the softer side of the big, blue warrior. I'm used to putting my happiness on hold. Now, all I think about is being his.

His is a full-length, sci-fi romance novel with a HEA and no cheating.

## Dark Enemy Captive (The Children Of The Gods Paranormal Romance Book 5)

**Author: I. T. Lucas**

"New favorite author. This author is incredible and her books are fantastic. They are riveting. There are many mornings I don't want to get up for work because I've stayed up so late reading her book. She's now one of my new favorites."

"Holy Moly!!!! One of the best series I've read in a long time! I can hardly wait for the next book. FANTASTIC!!!! "

"I have been a reader all my life and always have my favorite authors. Every once in a while, I find a new author that engages me so much that I don't want to put the book down. This series is one of them. It is not a stand alone series of books, each one builds on the prior ones. So far, another great thing about this series is that I don't need to wait a year for the next book to hit. Hats off to I.T. Lucas for bringing your love of writing to those of us who love to read."

"**Again this author has done it! Another masterpiece for the collection.** What started out of curiosity has become an obsession. The Children Of The Gods is magnificent. Dalhu and Amanda's story is beautiful and eternal. Romeo and Juliet to the max. I'm sorry if I offend anyone because I love Shakespeare too, but there's a new author in the Romance masters section and is I.T. Lucas. Until the next one..."

Mike Mitchell is an average New Yorker struggling just to keep his family together when a string of disasters shreds the bustling city around them. In the space of hours, the Internet and communication networks go down, just as a monster snowstorm cuts New York off.

Days go by without contact to the outside world. Then weeks.

In the chaos, conspiracy theories rage about a foreign cyberattack. Is it war? Was it the North Koreans? The Russians? The Chinese? Might this be the first shockwave of a global shift in power?

But even these questions become unimportant as Mike and his family struggle for survival in the wintry tomb of a doomed New York.

Based on real-world wargame scenarios, the World War C trilogy could forever change the way you look at the modern world we live in. Be warned, this gripping bestseller may keep you up late into the night turning pages.

**Author: Presley Hall**

**We don't trust each other. We don't even like each other. So why does he keep saving my life?**

I'm not supposed to be here.

Not on this planet. Not in this galaxy. And especially not surrounded by massive alien warriors.

The other women all believe we're safe with them, but I don't. Maybe it's because I've already seen how awful humans can be, and I have no reason to think aliens will be any different.

At least the one named Jaro seems to agree with me that combining our forces is a bad idea. He looks at me with the same suspicion I have for him.

But as our group makes the dangerous trek to the Voxerans' encampment, one wrong move separates me from the others—and to my shock, it's Jaro who comes after me.

Now we're stranded together, forced to rely on each other to survive. If we can't learn to trust each other, there's a good chance we'll die out here.

And if we *do* learn to trust each other?

## **Year One: Chronicles of The One, Book 1**

**Author: Nora Roberts**

**#1 NEW YORK TIMES BESTSELLER (December 2017)**

**A stunning new novel from the #1 *New York Times* bestselling author Nora Roberts—*Year One* is an epic of hope and horror, chaos and magick, and a journey that will unite a desperate group of people to fight the battle of their lives...**

It began on New Year's Eve.

The sickness came on suddenly, and spread quickly. The fear spread even faster. Within weeks, everything people counted on began to fail them. The electrical grid sputtered; law and government collapsed—and more than half of the world's population was decimated.

Where there had been order, there was now chaos. And as the power of science and technology receded, magick rose up in its place. Some of it is good, like the witchcraft worked by Lana Bingham, practicing in the loft apartment she shares with her lover, Max. Some of it is unimaginably evil, and it can lurk anywhere, around a corner, in fetid tunnels beneath the river—or in the ones you know and love the most.

As word spreads that neither the immune nor the gifted are safe from the authorities who patrol the ravaged streets, and with nothing left to count on but each other, Lana and Max make their way out of a wrecked New York City. At the same time, other travelers are heading west too, into a new frontier. Chuck, a tech genius trying to hack his way through a world gone offline. Arlys, a journalist who has lost her audience but uses pen and paper to record the truth. Fred, her young colleague, possessed of burgeoning abilities and an optimism that seems out of place in this bleak landscape. And Rachel and Jonah, a resourceful doctor and a paramedic who fend off despair with their determination to keep a young mother and three infants in their care alive.

In a world of survivors where every stranger encountered could be either a savage or a savior, none of them knows exactly where they are heading, or why. But a purpose awaits them that will shape their lives and the lives of all those who remain.

The end has come. The beginning comes next.

**Author: Jude Gray**

**Sometimes Fate has a dark sense of humor, which can be...unfortunate.**

Kreia doesn't expect to feel anything other than hatred and fear for the man who mistakes her for a boy--no doubt her disguise has something to do with that--but her dislike soon melts away as her fear eases and she begins to feel...something else.

Something she *shouldn't* be feeling for a wealthy, arrogant Craeshen who wouldn't give a little nothing thief like her a second glance. Certainly she shouldn't have feelings for a man who sees her as a street boy, a thief, and worse, a *Drimuti*--the race he hates.

Instead of sending her to the authorities as planned, he changes his mind and decides to take her to the deadlands to teach her lessons and skills that will help her become a "man," and she knows it's only a matter of time before he discovers her secret.

Her only hope is to escape him and his men and find her way back to the city so she can disappear and never see him again.

♥♥♥

Dexx Tavin is losing his mind.

He is not attracted to men, yet when the little street thief attempts to run and he is forced to give chase, a primitive part of him awakens and he realizes suddenly that he's attracted to the boy. Worse, apparently this thieving street kid--this *Drimuti*--is his fated mate.

Fate can take a flying leap.

I knew the men of the *Vostra* expected obedience from their mates. I didn't know one of them would *claim* me, or knot me, or throw me over his knee for a stern punishment.

When my ship was captured by the leader of a deadly alien crime family, my whole world changed. Draga isn't a gentle man. He takes what he wants. Including me.

And when you belong to an alien crime lord, you don't make the rules. You either follow them, or get disciplined. Firmly.

**Author: Ella Maven**

**They thought I was dangerous before, but now that I have a female to defend... I'm ruthless.**

Daisy: I'm a glass half-full girl, but this last week has really tested my outlook on life. First of all, aliens exist. Yeah, there's a doozy. Second of all, they steal humans from Earth, and they're not nice about it. Like at all. Anger issues abound in other galaxies apparently.

My situation worsens when I learn I'm the prize in some really effed-up alien gladiator games. I'm just going to admit it now--my glass is empty, and this doesn't look good for me...

Rexor: Once I was a proud Drixonian Warrior. Now I'm an experiment gone bad and a former gladiator who can't control his bloodlust.

When I see a human female with sunshine hair in danger, I can't let her fall into the clutches of monsters who will break her. I steal her with the intention of rescuing her, not keeping her for myself. She's beauty and happiness. I'm a hideous shadow of what I once was and losing my mind with every planet's rotation.
