

How to Stop Time: A Novel

Author: Matt Haig

“A quirky romcom dusted with philosophical observations....A delightfully witty...poignant novel.” —*The Washington Post*

“She smiled a soft, troubled smile and I felt the whole world slipping away, and I wanted to slip with it, to go wherever she was going... I had existed whole years without her, but that was all it had been. An existence. A book with no words.”

Tom Hazard has just moved back to London, his old home, to settle down and become a high school history teacher. And on his first day at school, he meets a captivating French teacher at his school who seems fascinated by him. But Tom has a dangerous secret. He may look like an ordinary 41-year-old, but owing to a rare condition, he's been alive for centuries. Tom has lived history--performing with Shakespeare, exploring the high seas with Captain Cook, and sharing cocktails with Fitzgerald. Now, he just wants an ordinary life.

Unfortunately for Tom, the Albatross Society, the secretive group which protects people like Tom, has one rule: Never fall in love. As painful memories of his past and the erratic behavior of the Society's watchful leader threaten to derail his new life and romance, the one thing he can't have just happens to be the one thing that might save him. Tom will have to decide once and for all whether to remain stuck in the past, or finally begin living in the present.

How to Stop Time tells a love story across the ages—and for the ages—about a man lost in time, the woman who could save him, and the lifetimes it can take to learn how to live. It is a bighearted, wildly original novel about losing and finding yourself, the inevitability of change, and how with enough time to learn, we just might find happiness.

Soon to be a major motion picture starring Benedict Cumberbatch.

An Extended Look at *Winter World*

Each month, Earth grows colder.

Snow falls in summer. Glaciers trample cities across North America, Europe, and Asia. The new ice age shows no signs of stopping.

Chaos erupts.

Around the world, people abandon their homes and flock to regions where they can survive. Nations prepare to go to war for the world's last habitable zones.

Scientists search the cause of the new ice age. They send probes into the solar system to collect readings. Near Mars, a probe finds a mysterious object, drifting toward the Sun. Is it responsible for the new ice age? Or is it merely an observer? Or neither? Could it be a relic from a long-extinct civilization? One thing is certain: investigating the object is humanity's best hope of survival.

As the ice age claims more lives and the world slides into anarchy, an international consortium launches a mission into space to make contact. But the first contact mission doesn't go as planned. What the crew discovers out there is beyond anyone's imagination.

Two members of the first contact mission may hold the keys to humanity's salvation.

Dr. Emma Matthews is the commander aboard the International Space Station. For months, she has watched the world below freeze and civilization unravel. The headlines tell only half of the story. The messages from her sister tell the rest, of a world witnessing mass migrations, fighting for survival, struggling to provide a future for their children. When a catastrophe strikes the ISS, Emma faces her own fight for survival.

Dr. James Sinclair is one of the greatest scientists alive. A mind before his time. Years ago, he invented something with the potential to change the world—an invention that would upset the balance of power in the world forever. Fearing that change, his enemies sent him to prison for a crime he didn't commit. But with humanity's future at stake, NASA asks him to join the first contact mission. His expertise is vital to the mission's success—and to saving Emma. With the clock ticking down to humanity's final days on Earth, James makes a decision that will change his life forever and may determine the fate of the entire human race.

Dark Secrets Absolved (The Children Of The Gods Paranormal Romance Book 46)

Author: I. T. Lucas

"Waiting for each next book in series is always torture :) Just finished reading this latest installment in the series and that was after going back and reading the entire series for the second time. To give this some context - although I am a voracious reader from the classics to contemporary, I can count on one hand how many books I have ever read a second time and those were primarily classics - Jane Austin, Dickens, etc. With that said, I absolutely love this series - it is so much fun! Lucas does an excellent job of character development and easily form a clear picture of the characters in my mind. I'll be going through withdrawal until book 47 is released :)

Absolution.

David had given and received it.

The few short hours since he'd emerged from the coma had felt incredible. He'd finally been free of the guilt and pain, and for the first time since Jonah's death, he had felt truly happy and optimistic about the future.

He'd survived the transition into immortality, had been accepted into the clan, and was about to marry the most wonderful woman on the face of the planet, his true love mate, his salvation, his everything.

What could have possibly gone wrong?

Just about everything.

Dark Stranger Revealed (The Children Of The Gods Paranormal Romance Book 2)

Author: I. T. Lucas

"**Outstanding!** The story gripped me from the beginning and I didn't stop until I finished the third book. The other books on my kindle will have to wait because I'm going to keep reading the series to the last page."

"**An excellent read!** This is a very different take on paranormal and it was an accidental find. After reading the first book in the series, I bought the entire set. It's fast paced, intriguing and the characters are fully formed and interesting. I cannot put it down!"

"**A new favorite author and series!!!** I really enjoyed this book and the entire series. It's a wonderful paranormal book that is completely different from everything else out there. I devoured all five within a 3 day period of time. Both the writing, characters and story line was AMAZING and I'm dying to get my hands on the next book!!"

"**I LOVE LOVE LOVE THIS SERIES!** I was trying to find a series similar to the Black Dagger Brotherhood series by JR Ward and this hit the nail on the head! I finished the entire series within two weeks and I cannot wait for Book 9 to release! IT Lucas, please keep this story line going as long as possible... I cannot wait to see what happens to the rest of the clan!"

"Awesome story with intriguing characters. Romance and intrigue that draws one in. Better than *Shades of Grey* by a mile."

I. T. Lucas is one of the best authors I have come across. The Children of the Gods series is fantastic. The characters are savage, gritty sexy, enthralling and the story lines are thrilling. I can't put the book down once I have started and I have read 11 of them. The men are superbly buffed and wild, and the women give them a run for their money in the gorgeous, sexy and strong stakes. Very highly recommend these books to anyone who enjoys sitting on the edge of their seat and chewing their nails in anticipation of what is to come. Very explicit and cruel in some of the books.

An Extended Look at *The Atlantis Plague*

In Marbella, Spain, Dr. Kate Warner awakens to a horrifying reality: the human race stands on the brink of extinction. A pandemic unlike any before it has swept the globe. Nearly a billion people are dead—and those that the Atlantis Plague does not kill, it transforms at the genetic level. A few rapidly evolve. The remainder devolve.

As the world slips into chaos, radical solutions emerge. Industrialized nations offer a miracle drug, Orchid, which they mass produce and distribute to refugee camps around the world. But Orchid is merely a way to buy time. It treats the symptoms of the plague but never cures the disease.

Immari International offers a different approach: do nothing. Let the plague run its course. The Immari envision a world populated by the genetically superior survivors—a new human race, ready to fulfill its destiny.

With control of the world population hanging in the balance, the Orchid Alliance and the Immari descend into open warfare. Now the last hope for humanity is to find a cure. Kate alone holds the key to unraveling the mystery surrounding the Atlantis Plague. The answer may lie in understanding pivotal events in human history—events when the human genome mysteriously changed. Her journey takes her across the barren wastelands of Europe and northern Africa, but it is her research into the past that takes her where she never expected to go. She soon discovers that the history of human evolution is not what it seems—and setting it right may require a sacrifice she never imagined.

The Segonian (Aldebarian Alliance Book 2)

Author: Dianne Duvall

New York Times bestselling author Dianne Duvall brings readers the second stand-alone novel in a thrilling new sci-fi romance series full of action, humor, and happily-ever-afters.

Eliana's life has never been what one might term ordinary. At least, it hasn't been for a very long time. As a powerful Immortal Guardian, she spends her nights hunting and slaying psychotic vampires that most of humanity doesn't even realize exist. Then an opportunity arises that instantly makes her extraordinary existence seem downright boring. The leader of the Immortal Guardians asks her to guard a group of mortals who are embarking upon a voyage across the galaxy to the planet Lasara. How could she possibly say no?

In no time at all, Eliana is hurtling through space on board a Lasaran battleship and getting to know not one but *two* alien races. It's the most exciting adventure of her long life... until the ship is unexpectedly attacked. Amid the chaos and destruction that follow, she valiantly helps everyone she can before an explosion renders her unconscious. When Eliana awakens, she finds herself alone, floating in space, clad only in a spacesuit, with no ship in sight. Alone--that is--except for the warm, deep voice that carries over the comm in her helmet.

Commander Dagon and the crew of the Segonian battleship *Ranasura* respond to a distress call from their Lasaran allies and join a massive Alliance-wide search-and-rescue mission. He quickly achieves communication with a lone Earthling female and races toward her. Every time they speak, his fascination with her grows and he becomes more desperate to reach her before her oxygen supply runs out. Her strength, bravery, and humor entice him, even more so when she defies all odds and they meet in person.

As he and Eliana embark upon a quest to find her missing friends, a bond swiftly grows between them that deepens with every laugh and smile and tender touch they share. But they are not the only ones searching for Earthling survivors. When Eliana herself becomes the hunted and their enemies begin to close in, can the two of them fight their way to victory, or will their enemies take everything?

Few had actually laid eyes on the Vandar or the notorious warlords who led their fleets of warships—and survived to talk about it. So, when the ruthless aliens boarded our ship intent on destroying it and killing the crew, I did the only thing I could do.

I gave myself to the dark and menacing warlord. In exchange for allowing my sister's ship passage out of the Vandar territory, I must share his bed and travel with his crew of deadly raiders. Even though the sight of the huge, battle-scarred alien terrifies me.

Primal (Alpha Brotherhood Book 2)

Author: Sara Fields

I escaped the chains of a king. Now a far more fearsome brute has claimed me.

My bottom bears the marks of his hard, punishing hand because I defied my alpha.

My body is slick with his seed and my own arousal because he took me anyway.

It was primal.

Author: Zoey Draven

She made a deal with the Dakkari devil. Now, he owns her.

On the unforgiving planet of Dakkar, I did what all the humans in our village did: kept my head down, worked to provide for my family, and I certainly didn't break any Dakkari laws to risk inciting the alien race's merciless wrath.

Unfortunately, the same couldn't be said for my brother and one careless mistake brings a horde of the nomadic, barbarian Dakkari straight to our doorstep, led by their powerful horde king—a cold, ruthless, battle-scarred warrior demanding retribution.

In order to save my brother's life, I do the unthinkable.

I sell myself to the horde king as his war prize. I agree to warm his furs, to travel with his horde across the wild lands of Dakkar, and to never see my family again.

But as I struggle with my new reality, I discover that the surly, mysterious, dominant horde king never intended for me to be his concubine...

He wants me as his *queen*.

Owned

Author: L.V. Lane

Ava

When civilization first collapsed, survival replaced compassion.

Many dark years followed before I found a delicate peace within Sanctuary's walls.

But that was over now.

Standing on the desolate rooftop, I watched enemy soldiers take our community.

After three days on the streets with no provisions and nothing but a temperamental handgun to defend myself, I knew I was out of options.

That was when he found me, the killer with enough weapons to start a one-man war.

Nora

Life had gotten complicated long before my son was born.

It was a thousand times harder after.

The peaceful enclave, Sanctuary, offered hope until it became caught between two warring factions.
They turned it into a pile of rubble.
Now a new community awaited me.
One where women were owned.
I didn't like being around men, hated them, truth be told.
But I had to pick someone, so I picked him, the too young, too perceptive doctor who brought out the temper in me.
Why? Because he felt like the safe option.
As it turns out, the unassuming doctor wasn't quite what he seemed.

Publisher's note: Owned is a post-apocalyptic romance following two interlinked stories. It contains dark, explicit themes and power exchange.

Glacier: An Alien Warrior Romance (Elemental Mates Book 1)

Author: Miranda Bridges

He is ice cold.

Both his personality and his skin. When his icy gaze lands on me it freezes me temporarily, but the first time he touches me...

Sparks fly.

Not the romantic kind. The tattoos on his pale skin illuminate and they are brighter than the Northern Lights. And then something in his eyes changes, making him less callous, less cold.

And making me hot.

He says he needs me for something important, something monumental, but I'm not easily swayed. Even if he's gorgeous and I do need his help.

I guess we'll see if I can melt his heart before he chills me to the point of no return.

His Human Assistant (Monsters Love Curvy Girls Book 3)

Author: Michele Mills

I'm a corporate whistleblower running for my life, so I take the first job I can find off planet.

Now I'm a lowly assistant for some rich devil named Hannibal Hellstone? And when I say "devil," I mean DEVIL. As in this guy's skin is dark red, he has shiny black horns, sharp fangs, silver-tipped claws and a barbed tail. This Hyrrokin is scary AF and his eight-year-old son looks just like him. And, he has a sharp-toothed, three-headed, fire-breathing "dog" at his side.

gulp

I'm supposed to live with my new boss?

I don't know anything about kids. And I don't like pets. But, jeez, this guy is hawt. And his kid is sweet too. My heart cracks open for them—and their "dog."

Hannibal starts throwing heated glances my way. But if this honorable soldier knew the real me, the girl with the checkered past, would he still want me? Oh well, it's not like this is going to get serious—he's told everyone he's never, ever, going to marry anyone ever again.

This is good, right?

That's what I want too...right?

Taken by the Alien Warrior: A Sci Fi Alien Romance (Warriors of Agron Book 1)

Author: Hope Hart

The aliens who stole me made a mistake.

The Grivath have sold us on Gule- a planet where hope goes to die.

The women who are imprisoned with me are in high demand and they all look like models. Me? I'm 5'2 shy, curvy, and a kindergarten teacher. Maybe they really meant to take my pageant queen sister?

If that's not bad enough, our ship has crashed and half of the women are missing. Did I mention the locals want to eat us? Insert the tall, incredibly-built warrior aliens, who saved us. Things are looking up, except that one of them is eyeing me like a snack, and not in a cannibalistic way-- if you catch my drift.

Terex is tough, fierce, and bossy, and doesn't seem to understand that I can't stay and be his snuggle bunny. I'm not quite sure why he isn't chasing after one of the other women when every man I've ever known has overlooked me.

But not Terex. When he looks at me, he doesn't seem to see chubby, awkward Ellie. And his gaze burns brighter instead of shifting away.

Now, I've just got to convince him to help me find the other women and get back to Earth.

Should be a piece of cake... Right?

Taken by the Alien Warrior is a full-length romance with no cliffhanger and a guaranteed HEA. While this is a spin-off series from the hugely popular Arcav Alien Invasion series, this is a standalone series.

If you like hot aliens and kick-ass heroines, you'll love Warriors of Agron- Hope Hart's new sci-fi romance series.

Half-Blood Academy 1: Magic Trials

Author: Meg Xuemei X

"Welcome to Half Death Academy." That's what they call my new school--because only half the students survive.

Rule #1: Keep your head down and don't mess with the four gorgeous demigods who rule the school.

Rule #2: When the demigods try to kill you, lie down and die.

Too bad I never was very good at following the rules. And when my forbidden power awakens, I'll make them regret they tried to make me their bitch.

Magic Trials is the first book in the Half-Blood Academy series, a reverse harem bully romance starring four handsome, cruel, yet overprotective demigods and a badass heroine. Heart-pounding action blends with steamy romance. For fans of Ilona Andrews, Jaymin Eve, Leia Stone, K.F. Breene, and Ivy Asher.

* EXCERPT *

"Now, I need to get you naked."

The Demigod of War held my gown, and I raised my arms for him to pull it off my head carefully. It would take some effort since the gown hugged my every curve. A tearing sound rent the air before I could stop him from ripping my gown into two pieces.

"It's an expensive dress, Axel!" I cried.

"I can afford to buy you thousands more," he said, gloating, yet his voice remained seductive. "I'll buy you a thousand gowns tomorrow to replace this one."

I had a feeling he was going to tear off all of the dresses Héctor had provided for me. He couldn't help it. The demigods were all territorial and possessive, and Axel was one of the worst.

"That's not the point," I shouted in dismay. "I loved this gown. And you should give the money to the poor instead of buying me dresses. I don't need any."

"You're so beautiful, Cookie." His hot mouth stole the rest of my protests, and his strong fingers thrust inside my liquid heat.

Here's what readers are saying about Magic Trials:

"This book starts out at 100 mph and never slows down." ★★★★★

"The steamy romance is like the icing on the cake. I enjoy it, but the story stands on its own without it; amazing characters, beautiful new worlds, daring adventure, and just enough giggles." ★★★★★

"Magic Trials hit most of my soft spots: strong heroine, boarding school, possessive alpha males not too happy about sharing, and while the jerk of the group takes the bullying path, it's not her against everyone and most definitely not her against all of her love interests." ★★★★★

"This is a super fun, exciting beginning to a series I'm really looking forward to diving into. I can't wait to see what danger Marigold will face, the way she will put the men in their place, and the friends she will make along the way." ★★★★★

Year One: Chronicles of The One, Book 1

Author: Nora Roberts

#1 NEW YORK TIMES BESTSELLER (December 2017)

A stunning new novel from the #1 *New York Times* bestselling author Nora Roberts—*Year One* is an epic of hope and horror, chaos and magick, and a journey that will unite a desperate group of people to fight the battle of their lives...

It began on New Year's Eve.

The sickness came on suddenly, and spread quickly. The fear spread even faster. Within weeks, everything people counted on began to fail them. The electrical grid sputtered; law and government collapsed—and more than half of the world's population was decimated.

Where there had been order, there was now chaos. And as the power of science and technology receded, magick rose up in its place. Some of it is good, like the witchcraft worked by Lana Bingham, practicing in the loft apartment she shares with her lover, Max. Some of it is unimaginably evil, and it can lurk anywhere, around a corner, in fetid tunnels beneath the river—or in the ones you know and love the most.

As word spreads that neither the immune nor the gifted are safe from the authorities who patrol the ravaged streets, and with nothing left to count on but each other, Lana and Max make their way out of a wrecked New York City. At the same time, other travelers are heading west too, into a new frontier. Chuck, a tech genius trying to hack his way through a world gone offline. Arlys, a journalist who has lost her audience but uses pen and paper to record the truth. Fred, her young colleague, possessed of burgeoning abilities and an optimism that seems out of place in this bleak landscape. And Rachel and Jonah, a resourceful doctor and a paramedic who fend off despair with their determination to keep a young mother and three infants in their care alive.

In a world of survivors where every stranger encountered could be either a savage or a savior, none of them knows exactly where they are heading, or why. But a purpose awaits them that will shape their lives and the lives of all those who remain.

The end has come. The beginning comes next.

Chosen by a Beast: An Alien Breeder Romance (Hearts of Stone Book 1)

Author: Miranda Bridges

I've been abducted. Twice.

And now my situation with this new group of aliens has gone from bad to worse. I was with a bunch of elf-like aliens who had unparalleled technology, but now I'm in the midst of a group of primitive gargoyle aliens running around in loincloths.

Which doesn't hide much, let me tell you. There's one gargoyle in particular who watches my every move, but what's under his loincloth scares me more than his beastly appearance.

To be sure we're worthy to breed with, the savages have us each perform a rite of passage.

And by that I mean a test of survival. Navigate the terrain, scavenge for food, defend myself against wildlife—basically all the things that could cause bodily harm or death. So that's fun.

And as much as I'd like to be rescued by the alien who's stalking me, it looks like I'm on my own. Maybe I shouldn't have flipped him off, but how was I supposed to know I'd need his help?

Now, I'm going to have to tap into my survival skills or I'll be dead by morning. May the odds and the aliens be ever in my favor. Or something.

The Commander's Captive: An Alien Breeder Romance (The House of Kaimar Book 1)

Author: Miranda Bridges

Aliens.

That's right. I said it.

I know—it sounds stupid to me also. I'm a psychologist (sort of), so you'd think I'd be able to reason my way out of this mess. Except the reality is that I've been abducted to become their breeder, and it doesn't take an advanced degree to recognize this is all sorts of jacked up.

But I digress.

Apparently, these aliens are on the brink of extinction and need me and my fellow captives to repopulate. Yay us. I guess it's time to figure out an escape plan before they knock me up. I'll be back later.

Hopefully.

Inferno: An Alien Warrior Romance (Elemental Mates Book 2)

Author: Miranda Bridges

I'm in an alien zoo.

The only problem is I'm the one in the exhibit.

If I thought being abducted was scary it's nothing compared to being gawked at by aliens everyday. Some of them look like they want to eat me while others look like they want to play with me.

However, there's one male who stares at me with a blazing hunger that's as bright as his red hair. It makes me think he wants to eat me *and* play with me in the most sinful ways.

I don't have time for that, but it doesn't stop me from asking for his help. He agrees only if I promise to be his mate.

Yeah, whatever. I'll say and do just about anything to get back to my sister.

Can I walk away from the flames of his desire without getting burned? Or will he make me his, effectively incinerating my intentions to leave?

His (A Steamy SciFi Romance): Earth Women for Alien Warriors

Author: Luna Kingsley

I sold myself to save my family. I belong to the Pheons now.

I sign over a year of my life at the galactic employment agency with one swipe of the stylus. Most humans would be excited for a journey off-planet, but mine isn't going to be fun. My family needs cash, and Pheons will pay anything for Earth women. At least I'm not giving up much. I've never really had a life of my own—raising three younger siblings took up most of my time and energy.

Haikon is the first alien I encounter when I step off the transport shuttle. He's grumpy and standoffish—so why do I toss and turn every night thinking about his sharp, angry features and broad shoulders? The other women whisper that Pheons are forbidden from mating with outsiders, but there's no mistaking the lust in his eyes as he watches me.

An attack by enemy raiders forces us into the desert together, and I discover the softer side of the big, blue warrior. I'm used to putting my happiness on hold. Now, all I think about is being his.

His is a full-length, sci-fi romance novel with a HEA and no cheating.

Everyone knows the Vandar raiders are cruel and merciless, so when my ship is attacked by another of the alien race's warlords, I expect to be blown out of the sky. Instead, he takes me as his captive.

I may be the warlord's prize, but no way will I submit to his demands. Even if his hard body and fiery eyes ignite a desire in me like nothing have before.

Despite my captivity, I'm still determined to find my sister. This Vandar warrior might not have her, but he knows who does. If I can give him what he wants, maybe he'll help me find her. But can I risk letting him control more than my body? Can I risk him plundering my heart?

Author: Presley Hall

We don't trust each other. We don't even like each other. So why does he keep saving my life?

I'm not supposed to be here.

Not on this planet. Not in this galaxy. And especially not surrounded by massive alien warriors.

The other women all believe we're safe with them, but I don't. Maybe it's because I've already seen how awful humans can be, and I have no reason to think aliens will be any different.

At least the one named Jaro seems to agree with me that combining our forces is a bad idea. He looks at me with the same suspicion I have for him.

But as our group makes the dangerous trek to the Voxerans' encampment, one wrong move separates me from the others—and to my shock, it's Jaro who comes after me.

Now we're stranded together, forced to rely on each other to survive. If we can't learn to trust each other, there's a good chance we'll die out here.

And if we *do* learn to trust each other?

Well, maybe we'll get more than we bargained for...

Author: Ella Maven

They thought I was dangerous before, but now that I have a female to defend... I'm ruthless.

Daisy: I'm a glass half-full girl, but this last week has really tested my outlook on life. First of all, aliens exist. Yeah, there's a doozy. Second of all, they steal humans from Earth, and they're not nice about it. Like at all. Anger issues abound in other galaxies apparently.

My situation worsens when I learn I'm the prize in some really effed-up alien gladiator games. I'm just going to admit it now--my glass is empty, and this doesn't look good for me...

Rexor: Once I was a proud Drixonian Warrior. Now I'm an experiment gone bad and a former gladiator who can't control his bloodlust.

When I see a human female with sunshine hair in danger, I can't let her fall into the clutches of monsters who will break her. I steal her with the intention of rescuing her, not keeping her for myself. She's beauty and happiness. I'm a hideous shadow of what I once was and losing my mind with every planet's rotation. "Loved it! Exciting, interesting and hot. Love Amanda and Dalhu starts to grow on me. Highly recommended for those looking for an exciting and sensual read."

"Once in while a book or series comes along that simply won't let you put it down and this was one of those great finds! I normally find myself skimming through characters to get to the ones I like, but not this time! I loved every sentence of every character introduced and simply want more!"

Since the dawn of human civilization, two warring factions of immortals, the descendants of the gods of old, have been secretly shaping its destiny. Amanda's small clan champions progress and peace, while their powerful enemy, the Doomers, propagates ignorance and war.

Descending from a single goddess, the only one to survive the ancient cataclysm that wiped out her kind, Amanda's clan members are forbidden to each other. And as the only other known immortals are their hated enemies, they've been long resigned to a lonely existence of fleeting trysts with human partners. That is, until Amanda, the goddess's youngest daughter and a researcher of paranormal abilities, makes a game-changing discovery; two of her test subjects might be dormant carriers of the immortal gene. But before she can prove it, she gets snatched off a Beverly Hills street by a huge Doomer.

Dalhu can't believe his luck when he stumbles upon the beautiful immortal professor. Presented with a once in a lifetime opportunity to grab an immortal female for himself, he kidnaps her and runs. If he gets caught, either by her people or his, his life is forfeit. But for a chance of a loving mate and a family of his own, Dalhu is prepared to do everything in his power to win Amanda's heart, and that includes leaving the Doom brotherhood and his old life behind.

Amanda soon discovers that there is more to the handsome Doomer than his dark past and a hulking, sexy body. But succumbing to her enemy's seduction, or worse, developing feelings for a ruthless killer is out of the question. No man is worth life on the run, not even the one and only immortal male she could claim as her own.

Her clan and her research must come first.

The Ninth Necromancer needs a swordswoman.

Gideon has a sword, some dirty magazines, and no more time for undead nonsense.

Tamsyn Muir’s *Gideon the Ninth* unveils a solar system of swordplay, cut-throat politics, and lesbian necromancers. Her characters leap off the page, as skillfully animated as arcane revenants. The result is a heart-pounding epic science fantasy.

Brought up by unfriendly, ossifying nuns, ancient retainers, and countless skeletons, Gideon is ready to abandon a life of servitude and an afterlife as a reanimated corpse. She packs up her sword, her shoes, and her dirty magazines, and prepares to launch her daring escape. But her childhood nemesis won’t set her free without a service.

Harrowhark Nonagesimus, Reverend Daughter of the Ninth House and bone witch extraordinaire, has been summoned into action. The Emperor has invited the heirs to each of his loyal Houses to a deadly trial of wits and skill. If Harrowhark succeeds she will become an immortal, all-powerful servant of the Resurrection, but no necromancer can ascend without their cavalier. Without Gideon’s sword, Harrow will fail, and the Ninth House will die.

Of course, some things are better left dead.

I’m in my birthday suit, but I’m not ready to party.

When I wake up on a strange planet, my first thought is *not* to go streaking. Actually, it’s to find some clothes and avoid the local natives.

Too bad they find me first.

Instead of probing me like a normal alien, they make me their prized possession. Yay, right? Nope. Turns out they have intentions for me that are not conducive to my plan to live long and prosper. So I run like Forrest Gump.

And smack right into another alien.

Except this one is hot. Like fuego. However, he’s not interested in me at all. I take much umbrage and decide to seduce him to scratch an itch, as well as stay close to him so I don’t die. I like sex, but I like breathing more. Just a little.

Anyway, the warrior is as welcoming as a cactus, but I can sense what he’s trying to hide and it draws me to him. Will I be able to keep from probing him emotionally without getting in too deep myself? (Sexual pun intended) Only one way to find out...

Dark Enemy Captive (The Children Of The Gods Paranormal Romance Book 5)

Author: I. T. Lucas

"New favorite author. This author is incredible and her books are fantastic. They are riveting. There are many mornings I don't want to get up for work because I've stayed up so late reading her book. She's now one of my new favorites."

"Holy Moly!!!! One of the best series I've read in a long time! I can hardly wait for the next book. FANTASTIC!!!! "

"I have been a reader all my life and always have my favorite authors. Every once in a while, I find a new author that engages me so much that I don't want to put the book down. This series is one of them. It is not a stand alone series of books, each one builds on the prior ones. So far, another great thing about this series is that I don't need to wait a year for the next book to hit. Hats off to I.T. Lucas for bringing your love of writing to those of us who love to read."

"Again this author has done it! Another masterpiece for the collection. What started out of curiosity has become an obsession. The Children Of The Gods is magnificent. Dalhu and Amanda's story is beautiful and eternal. Romeo and Juliet to the max. I'm sorry if I offend anyone because I love Shakespeare too, but there's a new author in the Romance masters section and is I.T. Lucas. Until the next one..."

When the rescue team returns with Amanda and the chained Dalhu to the keep, Amanda is not as thrilled to be back as she thought she'd be. Between Kian's contempt for her and Dalhu's imprisonment, Amanda's budding relationship with Dalhu seems doomed. Things start to look up when Annani offers her help, and together with Syssi they resolve to find a way for Amanda to be with Dalhu. But will she still want him when she realizes that he is responsible for her nephew's murder? Could she? Will she take the easy way out and choose Andrew instead?

Alien Protector: A Science Fiction Romance

Author: Penelope Woods

When we crashed, I knew what to expect.

Aliens. Lots of them.

I didn't expect a marriage proposal...

I've never heard of an alien who gives back rubs. But I'm willing to try anything if it means getting off this planet.

Marriage with an alien warrior was *not* on my bucket list of things to do. He tells me he wants to *breed* me. But there's more to him than his muscle-bound exterior and devilishly handsome smirk. Little by little, he opens up.

He makes my heart swell. I feel for him...

And then he takes the next step to feel me.

Sensing immediate danger in the region, he gives me his protection, but he's packing more than heat. A quick taste of pleasure, combined with a heavy touch, and I'm ready for more.

I've never been touched by an alien. But I think I like it.

This is not a test. This is my new twisted reality.

Anyway, I'm still trying to figure out how to get him to do what I want when I stumble onto plans for an assassination. I decide to get involved because if anyone is going to kill the sexy prince it's going to be me. Especially if he calls me his "namori" one more time. Whatever that means.

So now I'm trying to keep us alive, but he's making everything difficult with his kisses and his... well let's just say I better keep my mind focused and my legs, er... mouth closed.

A Breath Of Snow And Ashes (Outlander, Book 6)

Author: Diana Gabaldon

BONUS: This edition includes an excerpt from Diana Gabaldon's *An Echo in the Bone*.

This sixth novel in Diana Gabaldon's bestselling Outlander saga is a masterpiece of historical fiction from one of the most popular authors of our time. *A Breath of Snow and Ashes* continues the extraordinary story of 18th-century Scotsman Jamie Fraser and his 20th-century wife, Claire.

The year is 1772, and on the eve of the American Revolution, the long fuse of rebellion has already been lit. Men lie dead in the streets of Boston, and in the backwoods of North Carolina, isolated cabins burn in the forest.

With chaos brewing, the governor calls upon Jamie Fraser to unite the backcountry and safeguard the colony for King and Crown. But from his wife Jamie knows that three years hence the shot heard round the world will be fired, and the result will be independence—with those loyal to the King either dead or in exile. And there is also the matter of a tiny clipping from *The Wilmington Gazette*, dated 1776, which reports Jamie's death, along with his kin. For once, he hopes, his time-traveling family may be wrong about the future.
