

Roommate

Author: Sarina Bowen

Wanted: One roommate to share a 3-bedroom house, split the rent, and ideally not be the guy I can't stop thinking about.

I'm a man with too many secrets, so the last thing I need is a new roommate with a sexy smile and blue eyes that see right through me. Eight years ago, Roderick left town after high school. We're not friends. I owe him nothing. But back then, I let one of my secrets slip, and he's the only one who noticed.

Part of me knows I should run far, far away. But the other part wants him to come upstairs and spend the night. But if I let him in, I could lose everything.

Seeking: a room to rent in town. I'm tidy, have no pets, and I will feed you homemade bread.

I should probably add: Gay AF, and has no filter. It's no wonder my new landlord is so wary of me.

A smarter man would ignore those hot glances from Kieran Shipley. The broody lumberjack wants more from me than another homemade pretzel, but if I push my luck, I'll end up back on the street.

Too bad I've never been smart with my heart...

From Darkness and Magic: Vampires of Blood and Bones Vol. 8

Author: B.A. Stretke

An M/M/M Romance

Quincy York is a coven guard and soldier. He's devoted to his coven and his Master Louis DuCane. He's young for a vampire, just over a century old, but he has already made a name for himself and can see a promotion in the offing. He's been assigned to work security for the summit between Master DuCane and two elders of the Hellhound pack. This is a very important and delicate diplomatic mission, and Quincy knows that if he distinguishes himself, good things will come his way. That all changes when a small scuffle breaks out in a palace corridor, and Quincy finds himself face to face with one of the fearsome Hellhounds, and then summarily dismissed. No reason is given; he's just been removed from their detail. Quincy finds himself demoted to a routine murder investigation in town. Busy work until the hellhounds are gone. Humiliated.

Fox Wilder and Mateo Lahara are elders of the Hellhound Pack, serving their Bard and their community. They are fearsome and devastating warriors, possessing a potent blend of strength, skill, and magic. They are a mated pair and have been together for over a century. They are here in Mt. Pleasant to strike a deal with Master Louis DuCane, peace and cooperation between the vampire and the hellhound worlds. What they didn't expect is to find their third mate among Louis' coven guards. They didn't expect their third to be a vampire. Mateo doesn't care, but Fox holds deep prejudices that cause him to act rashly and cost them dearly. Can the pain of a disastrous first impression be fixed? Can they convince Quincy that they mean it when they say forever? Can Fox come to terms with his past and allow them all the future they deserve?

Other mysteries are lurking around Mt. Pleasant, and something dark and noxious is in the air. Fox, Mateo, and Quincy need to defeat it all if they stand a chance at forever.

Right as Raine: An Aster Valley Novel

Author: Lucy Lennox

Tiller:

As the first openly gay professional football player, I can't afford to make any mistakes, on or off the field. And the absolute biggest mistake I could make right now would be to fall for Mikey Vining, my best friend, employee and, more importantly, Coach's baby boy. I might fantasize about Mikey at night—*every* night—but actually touching him would be a serious personal foul.

And falling for him? That's completely out of bounds.

Mikey:

I've learned my lesson about falling for one of my dad's players. They're a bunch of spoiled jocks with more muscles than brains. I've spent years learning to keep my eyes, and my hands, to myself. But resisting the temptation becomes nearly impossible when Tiller Raine and I end up together in a small cabin in a remote Colorado town.

Suddenly, there's not much to do but look at each other. And talk. And hopefully, *hopefully* touch.

But what happens when our stay in Aster Valley is over and it's time to return to the real world? Will Coach blow the whistle on our relationship? Or will Tiller admit there might actually be something he loves more than football after all?

Of Secrets and Wolves (Winsford Shifters Book 1)

Author: Alice Winters

Rowan

My whole life, I've been taught to despise shifters. So when I'm hired to track two escaped convicts, I'm suddenly thrust into the world I hate—or thought I did. Yet I'm inexplicably drawn to the alpha of the pack whose land the convicts may be hiding on. He's different than any shifter I've ever met—laid back and quick to laugh, caring and protective, and makes me feel complete for the first time in my life. As secrets are revealed, I start to wonder if everything I've been raised to believe was a lie, though it may not matter because it seems like someone wants us dead.

Quinn

I'm no stranger to prejudice from humans, but it's different when Rowan comes into my life. Though I shouldn't let myself be distracted, I'm captivated by him. At first, he's stiff, fighting to keep his misconstrued beliefs intact, but as I break down the wall he's created, I'm able to show him a place among the fun chaos of my pack. After one of my pack goes missing, it leaves Rowan and me racing to bring them home, but the only way we're going to survive this is if Rowan learns to accept the bond that's growing between us—a bond that could give us the strength to put aside our reservations and give in to what both of us want.

Of Secrets and Wolves is an action-filled romance with a dash of comedy. It's the first book in a series with a continuing storyline and an HFN.

Other Half (PsyCop Book 12)

Author: Jordan Castillo Price

Victor Bayne never saw himself as husband material, but after an undercover stint as half of a married couple, he's willing to give it a shot. Jacob Marks was eager to settle down from the get-go, so once Vic popped the question, the wedding should've been smooth sailing.

But new evidence has come to light that casts a pall over the whole affair: decades of psychic experimentation and intrigue. Vic would hardly be shocked to discover he's been an unwitting test subject, but it's not his name on the roster.

It's Jacob's.

Planning a wedding on short notice is challenging enough without a covert investigation. Vic can deal with premarital counseling, floral emergencies, and the world's most annoying baker—but can he handle what he finds out about his other half?

PsyCop is an ongoing series filled with supernatural action and delightfully awkward humor—with a steady undercurrent of gay romance. It's best read in order, so if you're new to the series, start with PsyCop #1, Among the Living...and prepare for a hauntingly good read.

When everything goes sideways during his search, and he ends up passing out while staring into the face of a giant elk, only to wake up days later on a bed of furs, gazing into the eyes of the most gorgeous man he's ever seen, the course of Tucker's life changes in an instant. Teaching Foster's Cowboy: An MM BDSM Romance (Different Hearts Book 5)

Author: Izaia Winter

One drink. Three times a week. For thirty minutes and no more.

Foster knows he should stay away from him. As the owner of the largest BDSM club in the state, he accepts the big, sweet bartender next door isn't for him. It doesn't matter if Elias's blushes set his body on fire. It doesn't matter if he sees the same burning need he feels reflected in Elias's gaze because Elias isn't submissive and dominance runs through the very core of Foster's being.

Those are the rules.

Submissive and inexperienced, Elias is fascinated by the worldly, sophisticated man who comes into his bar. He's everything Elias has ever wanted in a man: a compact body, an intense stare, and dominance that clings to his skin. It's a shame he never makes a move.

But rules are meant to be broken.

And then something unexpected happens. When a coworker comes in and drags his stranger out of the bar, Elias can't help but follow. As Elias lets his curiosity overtake him, he finds himself Foster's partner, and suddenly, the man who never makes a move is making them all.

*Author's Note: If you're looking for some hardcore/dark BDSM romance, this **isn't** that book. I live to write cute, sweet, feel-good romance. And just because Foster likes things a little rough doesn't mean he's not going to get the same treatment. Enjoy!*

A sexy, passionate, utterly addictive standalone MM romance from #1 NYT Bestseller Lauren Blakely!

What could go wrong with a hot, no-strings-attached fling before he leaves town in five days? Trouble is, soon our nights together lead to days, to long conversations, to getting to know each other, and to something I never expected—falling ridiculously hard for a man who's getting on a plane to America when I live a world away.

My life is here. His is there. And no amount of falling or feeling will change that one big problem.

Forbidden Friend (His Best Friend's Brother Book 2)

Author: R. Cayden

At work, at home—my best friend's twin brother is everywhere I look, tempting me.

Leo

Keep your filthy hands off my brother.

It's Kai's one rule before his brother moves into our condo. I tell him no problem; I can handle that.

He and River look identical, after all, and it's not like I'm crushing on Kai.

Or anyone, for that matter. I'm a one-night-only type of guy.

And River is apparently the opposite: a hopeless romantic, totally incapable of staying single.

We'd be a disaster. So after he moves in, why is it that I suddenly can't stop thinking about how good it feels to make him smile?

Why am I torturing myself, fantasizing about his touch?

My best friend's brother is forbidden, but Kai is right.

I'm desperate to rub my filthy hands all over him.

Forbidden Friend is a sweet and steamy M/M romance with low angst. It features secret office hookups and two guys who keep stumbling into romantic temptation on the way to a very happy HEA. It can be enjoyed alone but is best appreciated as part of the *His Best Friend's Brother* series.

Ranger: A Standalone MM Romance

Author: Nora Phoenix

I've been living under storm clouds since my honorable discharge, but Julian's the sun.

I've tried everything to deal with my PTSD from yoga to sunning my buttocks, but nothing seemed to help.

So when my brother suggests a service dog, I figure I don't have anything to lose. The last thing I expect is for the dog to come with a cheerful, quirky trainer I can't get out of my head...

I'm too screwed up for love, but a chance to explore a side of myself I didn't realize existed until recently is too good to pass up.

But the more I get to know Julian, the more I start to think I might not be beyond saving after all...

Ranger is a low angst standalone MM romance featuring a slightly grumpy veteran, a sunshiney animal trainer, an ornery goat, a deaf donkey, and some seriously hot encounters, resulting in a very happy ending. While *Ranger* was a side character in *Heart (Ballsy Boys 3)*, his book is a stand alone and can be read on its own.

A new city. A new job. A new name.

Maybe everyone will leave me alone and let me wallow in peace.

But Skylar Dawson, a student almost twenty years my junior, has a different plan.

Everything about him is endless—his eyes, his smile, even his babbling mouth.

He shines with a blinding inner light I can't ignore.

He's a ray of sunshine in my dark world.

Skylar Dawson will not be ignored.

But will his energy and patience run out when he realizes I'm too tormented and broken to love him back?

Beautiful and Terrible Things

Author: Riley Hart

We were six years old when I fell in love with Gage Beaumont.

We were seventeen when he realized he felt the same.

His dad was the town troublemaker, and I was the son of a cop. We couldn't have been more different, yet we were best friends, had each other's backs, and kept each other's secrets. *What you are, I am*, we always said.

Then one night irrevocably changed our lives forever.

It's ten years before I see Gage again, and instantly I can tell he's not the same boy I fell in love with. We're both haunted and hardened by the memory of that night--of everything we did and saw.

Yet as much as we've changed, the connection between us lingers. Our history is so devastatingly complicated that it's difficult to allow ourselves happiness. With every touch, every laugh, every moment we take back, the more signs I see of the old Gage resurfacing. Little by little, I'm becoming the Joey he remembers too.

But it's never that easy. If we truly want to heal, we have to find strength not only in each other, but in ourselves. Life is filled with beautiful and terrible things, and this time, we'll do whatever it takes to hold on to the good, and to each other.

Warning: While this is a story about friendship, found family, and two men epically in love, it also deals with difficult themes: childhood physical and verbal abuse, some violence, depression, and anxiety.

Daddy's Bite: Paranormal Age Play

Author: Jayda Marx

Nikolai is the master vampire to his coven, in a world where humans and paranormal beings live together in peace...usually. When a pack of rogue coyote shifters threatens the city, Nikolai answers a call for aid from the local police department; humans are no match for the speed and strength of paranormals. On his mission, Nikolai stumbles across a young man named Israel who is in need of help and terrified of the world around him. In an instant, Nikolai realizes that this precious angel is his fated mate; the one he's bound to love and cherish for all time. Israel is in need of someone to protect and nurture him; he needs a Daddy, and Nikolai, having waited nearly a millennium for a boy of his own, is his perfect match. Israel feels safe and at peace for the first time in his life as he explores his little side and places his trust in his vampire Daddy's strength and care.

**This M/M romance features my take on vampires and other paranormal beings. They share many (but not all) attributes of vampires found in other fictional works. This world is different from those found in my other paranormal series, and the vampires' properties differ as well. This low angst book contains insta-love between fated mates on a fast track romance, steamy scenes, a touch of danger, and age play between a powerful vampire Daddy and his sweet human little. Together, they explore elements including diapers and latching. Thank you for taking a look and happy reading!

Home Plate (Easton U Pirates Book 2)

Author: Christina Lee

Dominic Girard

My final baseball season with the Easton U Pirates feels bittersweet. I'd like to go out on a high note, graduate, and focus on the family business. But a certain pitcher is making senior year a challenge. Not only because Maclain is stubborn as hell, but because he makes me feel things I never have about another guy. With each snarky comment and hard-won grin, he reveals a little more of himself, and before I know it, I'm in over my head.

Mason Maclain

I'll be graduating college this year, which also means the end of baseball, a sport I've played my entire life. It feels like a significant chapter is coming to a close, leaving behind a void I'm unwilling to face. Something else I don't want to face? The impossibly charming Pirates catcher, whose quick wit and killer smirk poke holes in all my defenses. With each lingering look and quiet exchange, I want to push him away and pull him closer at the same time. I've never felt this intense draw before, and there's no way I'll ever admit it.

When Coach proposes a team-building activity to improve our chemistry on the field, little does he know things are heating up behind the scenes as well. A flicker of a connection sparks into a firestorm, and soon Girard and I are experiencing things for the first time—together. But outside the haven of our hotel room, reality infringes all too soon. I'm clinging to my fraying relationship with my dad, and for Girard, coming out is still scary, loving family or not. Resisting the pull to Girard seems futile, but I struggle at every turn. Any longer and I'll lose the only person who makes my pulse thud quicker than a fastball over home plate.

There's a pitcher-and-catcher joke in there somewhere.

Pound (Powertools: The Original Crew Returns Book 4)

Author: Jayne Rylon

The original Powertools crew are back in a brand new series!

When James was a kid, he aspired to be a superhero's sidekick. He's never enjoyed being the boss. Not on while working for the Powertools and not in his love life. Fortunately, his husband and wife are far better at assuming control than he is.

With each of his spouses stepping up to be the foreman of their own crews, James is left wondering what there is for a cute, hyper-organized, former construction worker to do in Middletown. Sure, he could play house husband for his spouses, and the rest of their sometimes lovers, while taking care of their ever-expanding family. But after decades of swinging a hammer for a paycheck, he's hungry for a higher purpose.

James has read enough comic books to know he should be careful what he wishes for. Because when someone threatens one of their own, he will do anything—including calling in some of their more qualified friends to help—in order to figure out who wishes they would turn around and go home before they've barely unpacked their moving boxes.

This is a standalone book set in the Powertools universe. All your favorite Hot Rods and Hot Rides characters will be making appearances as well. So come make new book boyfriends or hang out with old ones!

Unacceptable Risk (Hidden Wolves Book 1)

Author: Kaje Harper

For a hidden shifter, falling in love with a man may be the death of them both.

Simon Conley knows about being an outcast. Born into a secret werewolf pack, he's the lone gay wolf, an outsider even among his packmates. The top wolves consider him a perversion, a failure, and a security risk. To survive in the human world, werewolves rely on absolute secrecy, and any breaches of their code are dealt with swiftly—and violently.

So when Simon falls in love with Paul, a human man, even his Alpha's grudging tolerance won't protect him. He must keep Paul from discovering the truth about him and the secrets the pack jealously guards, or it's not just their love that'll end up dead.

(A re-release of the 2012 story with light editing and the 1.15 short story included)

First Blood (Mismatched Mates Book 4)

Author: Eliot Grayson

Blood is a necessity, but love is a luxury they can't afford...

Vampire enforcer Victor Schmidt doesn't have time for distraction. His enhanced senses can track human blood in or out of a body, but it doesn't usually smell like oranges, honey, and temptation. And it's not usually coursing through the veins of a beautiful back-alley rentboy. That should make it easier, right? Pay, bite and be on his way.

While prostitution isn't Laurie's dream job, someone has to take care of his sister and her kids. But being a blood donor to a tall, dark and brooding vamp isn't part of his career plan. Until he agrees...and it's far more pleasurable than he could have imagined.

Nurturing isn't in Victor's wheelhouse, yet he finds himself tucking the all-too-tempting boy into bed. And feeling things he shouldn't be. When Laurie's attacked, it's almost a relief: breaking necks is way more Victor's style and he's all-too-happy to kill. But Laurie being kidnapped wasn't part of anyone's plan.

Now Victor's determined to save Laurie at any cost. Can he bring them both out alive, or will they die before they've even shared their first kiss?

This book is set in the world of the Mismatched Mates series, but it stands alone. However, look for cameos of your favorite characters from the other books in the series.

Knight and Day : A Paranormal MM Romance

Author: Jacki James

Theodore Knight has a curious nature. Ever since he was a child, he's loved books that are full of danger and adventure. In real life, he's a simple bookstore owner. But in his imagination, he's a hero who goes on great quests to save the princess, or in his case, the prince, from evil dragons.

Until one day, real life starts to look a lot like his imaginary world. . . and the fate of an entire kingdom rests on his shoulders. The world is more magical than he ever thought, and he will have to learn to accept the impossible as possible, if he and Samuel are to succeed.

Samuel Day had never journeyed to the human realm, and he sure didn't mean to get stuck there. That said, he's found it all incredibly fascinating. Especially Theodore, the adorable human who holds a piece of the puzzle necessary to stop an evil immortal and save the magic realm known as Evorea. His loyalty is to his king, but it doesn't take long for Theodore to become equally important.

They come from different realms and are as different as night and day, but together they have everything they need to save Evorea from ruin. They just have to find their way back there.

Knight and Day is part of the Magic Emporium Series. Each book stands alone, but each one features an appearance by Marden's Magic Emporium, a shop that can appear anywhere, but only once and only when someone's in dire need. Brothersong (Green Creek Book 4)

Author: TJ Klune

In the ruins of Caswell, Maine, Carter Bennett learned the truth of what had been right in front of him the entire time. And then it—he—was gone.

Desperate for answers, Carter takes to the road, leaving family and the safety of his pack behind, all in the name of a man he only knows as a feral wolf. But therein lies the danger: wolves are pack animals, and the longer Carter is on his own, the more his mind slips toward the endless void of Omega insanity.

But he pushes on, following the trail left by Gavin.

Gavin, the son of Robert Livingstone. The half-brother of Gordo Livingstone.

What Carter finds will change the course of the wolves forever. Because Gavin's history with the Bennett pack goes back further than anyone knows, a secret kept hidden by Carter's father, Thomas Bennett.

And with this knowledge comes a price: the sins of the fathers now rest upon the shoulders of their sons.

When Three Points Collide: Ra's Story (The Gods Made Me Do It Book 9)

Author: Lisa Oliver

When Three Points Collide.

The Gods Made Me Do It #9 - can be read as standalone

An ancient god, a demon, and a wolf shifter walk into a bar. No, it's not the start of a joke, but Ra, The Father of Everything in the ancient Egyptian pantheon, thinks the Fates might be playing a joke on him when he drops in to try and help Cass and Wesley with their latest case. Seeing his mate for the first time, fighting for his life against three assassins should've been a cause for celebration, but Ra already knew the brave wolf shifter was destined for someone else.

Arvyn, alpha wolf shifter, didn't know what to think. One minute he was fighting off three attackers, the next, those attackers were frozen like statues and he was confronted with another wolf shifter and a demon. But he already knew, he'd heard his mate was locked up in a basement in the nearby vampire coven and he wasn't going to let anyone stop him from meeting and saving the one intended for him.

In the meantime, Kirill, Prince of the Dublin Coven was furious. Being chained to a wall in his own basement was the height of insult and as soon as he got his hands on the vampire responsible, that man's head was going to be permanently parted from his body. What he didn't expect, when he was busy trying to get out of his cell, was a feeling of calm that suddenly came over him, or the single drop of blood hovering in front of his face.

Three completely different men, all thrown together in one point in time. Can they build a future together the way the Fates intended, or will their differences split them apart?

This is an M/M/M menage MPREG Fated Mates story, although the mpreg is not the main focus of this story. While it can be read as a standalone, reading previous books in the Gods series will give you a better understanding of the dynamics between secondary characters like Paulie and Zeus. Wes and Cass's story (the demon/wolf shifter pairing) is the final book in the Cloverleaf Pack series. As with all of my stories, this book contains insta-lust, a journey towards love, no cheating and a guaranteed HEA.

Acquainted With the Night

Author: Lesli Richardson

I hated the military...and now I'm an alien's pet.

I hated the Terran military. I didn't volunteer, either. Like so many others, I was drafted as cannon fodder in the senseless Terran war against the Algonquans. Not like I had much of a future ahead of me, though, without a rich family to pave my way or even pay for me to have a wife.

Now, my entire ship's been captured. If what we've been told about the alien race is true, I'll never be seen again. I hope they don't eat me.

Turns out the truth is far different than we were led to believe. The Algonquans aren't vicious, insectoid monsters, either.

We're now their pampered pets...and they're using us to help replenish their population to win the war.

You know, maybe this isn't the worst life after all.

(MMMM, sci-fi romance, humans as aliens' pets, m-preg.)

Note: This book was previously published under my Tymber Dalton pen name. It has been revised and expanded for re-release.

Wounded Inked: Book 1 M/M Romance

Author: *Sky McCoy*

Tony:

"How can I explain this? There's really no explanation for the way I feel. It's beyond me. Maybe it happened on my last tour of duty, where I was wounded in the leg, spent months in the VA hospital with nothing but therapy, and reading love letters to pass the time, or to keep me sane.

The letters weren't from my wife, but an admirer. I hadn't heard from my wife in months. I think her last note informed me that she'd moved on, taking our dog with her, and was filing for a divorce. I guess she couldn't handle a damaged man without a job, with little or no income, and coming home.

Now it was time for me to accept that I was a broken man. I'd lost my identity, because I was a soldier, a leader of men, and all I had now were these few love letters from a strange woman to give me comfort.

Could this woman be as broken as I was? What would it take to make me whole—two broken pieces coming together?"

What would happen when Tony fell in love, because of a few letters, texts, and emails, only to discover that the person behind the letters wasn't who he imagined?

The "Wounded Inked" 3 book series contain hurt/ comfort, straight to gay, and fake boyfriend with HFN, and HEA in the final book.

On the Run (Whispering Key)

Author: May Archer

Take it from Aunt Hagatha, darling: Fake soulmates and secrets do not mix.

I came to Whispering Key to lie low for a while. A man who has secrets to keep (like, say, his identity as America's favorite agony aunt) should really not find himself embroiled in the paparazzi scandal du jour.

The last thing I needed was another guy in my life, since that's what got me into this mess in the first place... but then I met Beale Goodman.

He's my polar opposite. The world's largest, hottest, most virginal cinnamon roll. The human embodiment of goodness and light. A man whose blue eyes make me weak. A man who wouldn't know a designer label if he tripped over one. A man who rescues feral cats, for heaven's sake...

And a man who rescues me, too, by pretending to be my fake boyfriend—er, fake *soulmate*—while I'm hiding out here.

Trouble is, there's nothing fake about the way he kisses me, or the way it feels to be wrapped in his arms at night. And it's hard to lay low when the strange-but-lovable people on the island are determined to welcome Beale's new man into their ranks.

It's enough to make me realize I've been on the run for a while, and that this might be the first time I've found something I want to run *to* rather than *from*.

But only if I can keep my secrets from catching up with me.

Brand Drake knows he wants Devon the moment they meet, so he goes about adding Devon to his hoard the same way he would an amazing old book. But when Devon starts eating him out of house and home and showing signs that he has emerging dragon traits, he knows he hasn't just found a lover, he's found a mate.

When Devon starts to show signs of something even more amazing, Brand calls on his brothers Eagan and Tyson to help him figure out what to do, as well as how to tell Devon what's going on with his body, which is life-changing, and also dangerous. Someone always wants dragon magic to use, and Brand has to find a way to keep them safe, and to keep Devon with him, hopefully forever.

The Bookseller's Boyfriend (Copper Point: Main Street Book 1)

Author: Heidi Cullinan

Bookshop owner Jacob Moore can't believe his longtime celebrity crush, author Rasul Youssef, is moving to Copper Point. For many, the chance to meet the playboy novelist would be a dream come true, but Jacob dreads it. You should never meet your heroes.

You *definitely* shouldn't pretend to be their boyfriend.

Rasul came to this backwater town for an academic residency—a necessary evil, since he's burned through his advance without finishing the book that goes with it. But he's also getting distance from a toxic relationship. Quiet, reserved Jacob isn't his type, but their charade gives Rasul a respite from the social media circus surrounding his breakup, and Jacob's charming apartment proves the perfect setting to write.

Of course, prolonged exposure reveals that Jacob's reserved exterior hides a thoughtful, intelligent man who sets Rasul's imagination—and heart—alight.

Every day Rasul reveals himself to be more than Jacob ever dreamed he could. Jacob tries to be content with friendship and the professional overlap between author and bookseller, knowing a shooting star like Rasul could never make a home with Jacob in a small town like Copper Point.

Could he?

Frost

Author: Jaclyn Osborn

The first time I met Jack Frost, I was eight years old and lost in the snowy woods.

He took my hand and leapt into the air, soaring high above the treetops. Carrying me to safety. He disappeared afterward, leaving me with nothing but a memory.

Nineteen years later, I've convinced myself Jack was only a dream.

So why can't I forget him? He's so vivid in my mind, silver hair and a mischievous gleam in his wintery blue eyes. Sometimes I can even recall the sound of his voice as he said my name. There's only one way to get answers... to return to the woods where I first dreamed of him.

What I find there is more than I ever imagined.

Frost is an adult m/m romance between a legendary being and the mortal who loves him. You'll find steamy nights, magic, cuddles by the fireplace, and an ice Pegasus with an attitude problem. HEA guaranteed.

Interrogation Techniques (Shifter's Regime Book 6)

Author: Charlie Richards

Keeping the Peace: Walking into the interrogation room, a council enforcer realizes Fate has decided to throw him a curveball.

Enforcer Delanrue Drudeson is a komodo dragon shifter who's known as the intense brother, the unapproachable one, but he has his reasons. Keeping his brothers safe from a sadistic alpha while growing up meant he'd had to be a careful, manipulative adult...from a very early age. Specializing in interrogation for the last several decades, Delanrue is happy with his life. Then he walks into a secure room where he's supposed to question the occupant by any means necessary—Midget Suvergy, a guinea pig shifter.

Except, one sniff tells Delanrue that Midget is his mate—the other half of his soul. Knowing the mate-pull could easily compromise his judgment, he immediately assigns the interrogation duties to another. That doesn't stop him from walking back into that room to be with him. Midget claims just to have been in the wrong place at the wrong time, and to Delanrue's relief, his words scent true.

Then word comes down that Midget is wanted for the murder of a member of his guinea pig muddle. Delanrue isn't stupid. It's easy to see that Midget is no killer, no matter what anyone says. Can Delanrue's connections keep Midget safe long enough to clear him from the conspiracy dogging his steps?

Rising (Wolf Born Book 3)

Author: Claire Cullen

A lone wolf. A lonely merman. And a place to call home, if they can get there.

Kicked out of his pack as a kid, Jace has always considered himself a solitary wolf. He's happy to help the Eden pack rescue wolves and other shifters, but he's not ready to give up his life as a thief. Until he breaks into a mansion to steal a priceless watch and finds something far more intriguing—a merman.

Robin has lost everything that matters to him. Trapped in an opulent prison with his would-be savior, he can't see a way out. And then one night, a wolf appears. But this wolf is far more than he seems, and Robin is thrown headfirst into a world he never dreamed existed. A world that he and Jace could be a part of. But first, they have some kids to save.

Rising is the third book of the Wolf Born trilogy. It's a m/m shifter romance (no mpreg) featuring a stubborn thief, a captive merman, kids in peril, and a happy ending. There are some difficult themes and scenes, and Rising is not suitable for readers under the age of eighteen.

The Reluctant Alpha (West Coast Wolves Book 1)

Author: Susi Hawke

"As much as I felt bad for this Elisha person—God, my heart was breaking for the young man and all he'd been through—I was also angry. I'd left that pack in my rearview ten years ago for a good reason."

Matthias Longclaw is happy living his life on the back of his beloved Harley with his five best friends and brothers-in-arms at his side. The West Coast Wolves are a rare pack of alphas, made up of unwanted orphans and second-born sons. The packs they were born to may not have wanted them, but they've built a solid family of their own. They help where they can, doing random acts of kindness and expecting nothing in return, just helping to build a world they want to live in.

Then Matt gets a call from an old childhood buddy. He's being called back—begged to return—to reclaim his birthright and save a life in the process. The problem is... to do it, he will have to take a mate. And if he refuses? The omega will die.

Torn between his duty to help others and his resentment of his old pack, Matt never expects for Elisha Whitetail to tilt his world and change everything. Can Matt and Elisha rebuild a broken pack while tending to a new love and a growing family while dealing with outside threats from neighboring packs?

They're wolves. Strong, proud, and willing to do what it takes when their community needs them... whatever it takes.

This is the first in a new mpreg series about finding joy in a hard world, building family, and discovering that life can surprise a person when they least expect it. Although this world has harsher themes than my previous books, it still has the same heart you'd expect. Plus a dose of my irreverent humor and all the naughty, knotty heat that comes with true mates. It wouldn't be a Susi Hawke book without it. Be sure to read the author's note at the beginning for possible trigger warnings.

Love Him Breathless (On The Market Book 2)

Author: E.M. Lindsey

"And what if the man you're fighting for refuses to fight for you back?"

As a natural leader, Fitz reclaimed his trauma after half his body burned in a fire and worked his way up to Fire Chief at the local department. He had a good home, and good friends, even if his romantic life left something to be desired. In spite of his bad luck in love, he managed to keep a cheerful smile on for everyone. At least, until Antoine Tremblay crashed into town.

Literally.

Fitz can't stand the guy who has big plans to change Cherry Creek, but his dislike for the man spawns something inside him he can't name. And when the passion starts to consume him, he realizes there's a very fine line between hate and love.

Fitz has never found someone worth fighting for, and Antoine has never found a reason to stay, but they know that looking at each other leaves them absolutely breathless.

A 1920s m/m romance trilogy in the spirit of Golden Age pulp fiction.

Watch Me

Author: Sloane Kennedy

Nikolai

My rules when it comes to my job in personal protection are pretty simple:

1. Protect the client's life, not their feelings.
2. Don't put hands on a client unless you're getting them out of harm's way.
3. For God's sake, don't do something stupid like fall in love.

Twenty-four hours after meeting Jude Archer, rules 1 and 2 are already out the window.

Thankfully there's no chance of falling for the callous businessman who cares more about his next deal than he does his own safety.

Jude may have managed to make fools of all the guys his wealthy boss and rumored lover has hired to watch him, but he's playing in the big leagues now. The son of a bitch might not value his life, but I'm pretty fond of mine.

Time to teach the clueless Jude Archer a few hard lessons...

Jude

My rules for success aren't for everyone, but they should be.

1. Work hard.
2. When you're on the verge of giving up, work harder. Life owes you nothing. You have to take what you want.
3. For God's sake, don't do something stupid like get distracted by feelings.

With just weeks between me and the closing of the deal that will give me everything I want, I don't have time to worry about a supposed stalker who hasn't had the balls to do anything more than send a few threatening letters to my wealthy boss.

Sure, I sent a few so-called bodyguards packing. Even if I thought I was in serious danger, I can't have someone watching me 24/7. My life works the way it does for a reason and no one, not even the gorgeous Russian ex-soldier who thinks he can scare me into submission, is going to change that.

Nikolai Falkov thinks he has something to teach me? Yeah, good luck with that.

What I didn't know was that he'd be accompanying me, watching my back as we crept through the continent of Alantri—land of the monstrous Farungal. Nor did I know that our mission would bring us together in the most unexpected ways. The Hawk Lord is so much more than I thought. Stronger and more heroic, with a soul more beautiful than his face. But he also has a darkness inside him, one that could bind us together forever or tear us viciously apart. To survive his love, I'll need the heart and soul of a hawk.
