Author: Anna Carven

When Kora Williams wakes up inside the dark alien warship called *Silence*, fate has spun completely out of her control.

She doesn't understand why she was abducted by a vicious, depraved Kordolian, and she can't believe she was rescued by an even *more* dangerous one. A big, armor-clad brute of a warrior, who lifted her into his arms far too easily, as if she weighed next to nothing.

She should be dead, or at the very least, doomed to a terrible life as a slave.

But she's been saved, and now she's on a ship full of dangerous silver-skinned aliens and their surprisingly *human* mates. She wants nothing to do with this strange new reality. She doesn't want to dwell on her horrific ordeal. All she wants to do is return to a normal life on Earth; to her cozy little house, her job, her son...

But these Kordolians have other ideas. To her dismay, it turns out there's a *reason* she was taken.

And the big, lethal warrior who rescued her?

He's been assigned to protect her.

On the other hand he's an alien, a big green one, and after he's inspected me quite intimately and spanked me until I know who's boss he's planning to auction me off for whatever shameful use some lucky buyer has in mind for a blushing and apparently suitable-for-breeding human female.

At least he's going to steal me back after he sells me, even if it's just so he can sell me again.

Plus he's huge. You know, in the "That can't possibly fit!" kind of way.

Which can be good or bad I guess, depending on how you feel about being sore every morning.

Also we're now stuck in a time loop, so he'll be doing all of this over and over and over again.

Like I said, it's complicated.

Publisher's Note: *Sold by the Alien* includes spankings and rough, intense sexual scenes. If such material offends you, please don't buy this book.

Many centuries have passed since Morten vowed destroy all traces of the people who murdered his family, even if it meant reshaping the world to do so. But when he stands poised to do just that, he learns the curse he suffers still holds secrets, even after so long.

Dawn is now the prisoner of the undead and seemingly unstoppable Morten. But the gods marked her for a purpose—binding her fate together with that of the

North Wind.

Guardian: A Rough Shifter Romance

Author: Sara Fields

Maybe I would have claimed her more gently if she didn't beg for it... but probably not.

After watching over this world for millennia, a girl wandering in the woods should have been of no interest to me. But the moment I saw her bathing in a stream, I knew Emma was mine.

I kept myself from throwing her over a fallen tree and ravaging her... but only for a few hours.

If she had been obedient, I might have held instinct at bay a little longer. It was the scent of her helpless arousal as I reddened her bare bottom that tore away the last vestiges of my self-control.

But it would have made no difference in the end.

Sooner or later, she was always going to scream my name as I mounted and rutted her.

A beast must claim his mate.

Then it wasn't up to her anymore, and not just because an alpha like him had the right to strip her bare, punish her for her defiance, and use and enjoy her beautiful body in any way he pleased.

It wasn't the law that made her beg for every climax as he ravaged her over and over again.

It was nature itself.

Fleeing Fate (The Hidden Omegas Book 1)

Author: Sabrina Day

Nature knows where you belong.

For more than two decades, my entire world was made up of three square miles, buried deep in the woods. The same three people, the same daily routine. Life

revolved around trying to keep my mother, brother, and myself safe from my father's "corrections."

When a sudden bout of violence reveals a way out, I find myself speeding towards a new life behind the wheel of a stolen pickup, the bed loaded down with a feral monster that used to be my brother.

Now I'm hungry and lost in a new world filled with dynamics I know nothing about. When the sheriff of a nearby town offers to help, I'm hesitant. He swears his pack of friends, dominant and gorgeous, can help my brother adjust to what he's become. But the longer I spend around them the more I worry accepting their help means I won't escape their care with my heart and soul intact.

With my past hot on my heels and new threats bearing down, there's only one question left to answer: am I willing to pay their price, even if it means changing everything I thought I knew about myself?

I thought the woods were my prison.

But what if I was wrong?

Maybe I was hidden for a reason, and I just left behind the only place that was keeping me safe.

Fleeing Fate is a story which features supernatural elements, mate bonds, power exchange and a female main character who is attracted to more than one male love interest, and does not choose between them to get her happily ever after. In fact, some of the male love interests are attracted - and act on that attraction - with other male main characters. Alien Exile: A SciFi Alien Romance (Fated Mates of the Sea Sand Warlords Book 5)

Author: Ursa Dax

"I know that I may be frightening, my mate. But beneath all that makes me strange to you, my heart recognizes yours..."

ZOEY

I've spent most of my time on this alien planet alone in the wrecked human ship. So now that I'm living with the other girls and the barbarian warriors at the Cliffs of Uruzai, I'm finding it hard to adjust. These Sea Sand guys are just so... alien.

But they're nothing compared to the monster that comes stalking out of the shadows of the cliffs one night. He has a snout, and claws, and a massive spiked tail. He's more like a crocodile than a man, and even worse than that, he claims he has a human mate. When his dark eyes settle on me, I know with a sinking feeling exactly who it is he's been looking for.

I want to stay as far away from this nine-foot-tall lizard man as I possibly can. But when a mission across the sands throws us together, I find myself spending a lot more time with him than I'd bargained for. And I find myself starting to grow closer to him than I ever would have imagined.

But as my feelings for him grow, so does my fear. Because this mission we're on? It could be the end of him.

The end of both of us, before we even begin.

KOR

I have travelled days upon days to find my soft, strange mate. But now that I have found her, she recoils from me. I am the in-between, the exile, caught halfway between the sea and the sands and the only one of my kind. I am aware that I am strange, but I never thought my own beautiful mate would regard me as a monster.

The Sea Sand men tell me my mate does not feel the mate bond for me. If I am to have her, I must somehow win her. But before I can figure out how to do that, we are forced into a journey to the Bitter Sea. The Sea Sand tribes need me to find my father's people, a race of beings I have never even seen.

Crossing the Bitter Sea is the most dangerous thing I've ever done.

But it is in service of my mate, so I will do it. And I will not hesitate.

I would do anything to keep her safe.

Even if that means tearing myself from her side forever.

How far would you go to find *The One*?

A simple DNA test is all it takes. Just a quick mouth swab and soon you'll be matched with your perfect partner—the one you're genetically made for.

That's the promise made by Match Your DNA. A decade ago, the company announced that they had found the gene that pairs each of us with our soul mate. Since then, millions of people around the world have been matched. But the discovery has its downsides: test results have led to the breakup of countless relationships and upended the traditional ideas of dating, romance and love.

Now five very different people have received the notification that they've been "Matched." They're each about to meet their one true love. But "happily ever after" isn't guaranteed for everyone. Because even soul mates have secrets. And some are more shocking than others...

A word-of-mouth hit in the United Kingdom, *The One* is a fascinating novel that shows how even the simplest discoveries can have complicated consequences.

I came on board the Drexian space station to attend my cousin's wedding. That was it. Despite every other woman on Earth falling all over themselves for one of the tough aliens, I wasn't interested. Not even a little bit. I had my own life on Earth to sort out, and a hot Drexian did *not* figure into my plans.

But when a guy who's been pursuing me for ages shows up for Zoey's wedding, I need a way to prove to him that I'm not available. Unfortunately, roping Dryx into being my fake boyfriend isn't as cut and dry as I'd hoped. But once I'm thousands of miles away, the whole thing will be nothing but a bad memory. (Okay, a really hot memory, but that's not the point.)

When my return to Earth is postponed, I'm not only stuck on the space station, but I'm also stuck pretending the Drexian warrior least likely to settle down is my true love. Can I convince everyone on board that I'm in love with him while telling myself that his touch doesn't light my entire body on fire?

I need...affection.

Attention.

Okay, I'm lonely. *Really* lonely.

Strangely enough, the only person that I think understands what I'm going through is the same blue-skinned brute that stole my sister. It's wrong to hook up with him, even as a mindless fling.

Instead of fear, I feel hot and unwanted desire, awakening instincts that tell me I'm *his*.

When he discovers my ultimate betrayal, the enraged horde king vows he will take me as his prize, that I will wear his chains, and that I will serve him in *whatever* way he wishes.

I don't understand Savair's language, but I think he's under the impression that I'm his.

I am NOT his. I'm a 34-year old divorced scientist with no time for such nonsense. But if he can help me find the others in my group then perhaps I can play at being "his" for a while. It's not a hardship. He's the sexiest male I've ever met with a jawline to die for, but there's no way I'll fall for this guy. Nope. Not a chance...

Jetta makes me ache. I desire her the moment I pull her from a Brakken meat trap. Her soft, warm body awakens hungers long banked. But my Sola, the living ship I am bound to, is dying, and thus, so am I. I must find a way to save my Sola and my mate, or none of us will survive.

Brutal Claim (Planet of Kings Book 2)

Author: Lee Savino

Aurus:

The High King of Ulfaria needs no introduction. What I need is an Omega.

And now, I've found one. Kim. She is small and perfect, as I knew she would be.

I will demand her obedience, then I will give her the perfect nest and allow her to bear my heirs.

She vows to defy me, but one way or another, she will submit.

Kim:

Hold. My. Beer.

Alexander's Nest (Children of the Dead Fall Book 3)

Author: Susan Trombley

Alexander

I left New Omni and struck out into the Dead Fall in search of a place where I could feel content, hoping the growing restlessness driving me would finally come to an end once I found my "nest." I felt so certain that my destiny lay somewhere out in the ruins, now that the path to my father's homeland was gone. I was so sure I would find a nest that I could feed and protect as a proper Fayi male should.

But the new nest I found didn't bring me fulfillment, nor peace. I realized too late that I had already found my home—in the arms of my best friend Valerie, the

human woman I had abducted from her own dimension after mistaking her for my brother's mate.

Only, Valerie had grown tired of my philandering ways and would not risk her heart on a male who couldn't settle down and commit only to her. She'd put an end to our "friendship with benefits" relationship—and broke my heart in the process.

It was my fault she'd rejected me, because I had not offered what she needed most. When I returned to New Omni after realizing that what I needed most was her, I discovered that she had already chosen a mate—my own brother, Sherakeren.

Was it too late to convince her that she was the only woman for me? Even if I could, would my big bro accept me into their nest?

Author's Note: This book is part of a three-book story with the same heroine. Each book will focus on a different hero who will become one of her mates, while advancing the story and the growth of her "nest." She will have all three mates by the end of the three books. These books are best read in order, starting with "Sherakeren's First Date." This book is the follow up, with "Friak's Spark" as the third.

An orc.

He's utterly terrifying, with his towering bulk, sharp teeth, and deadly black claws — but his touch is gentle, and his eyes are kind. And his scent is a deep, decadent sweetness, sparking a furious flame between them...

But it's only more disaster, because **Alma's shy, soft-hearted rescuer is already mated... to another orc**. A tall, silent, snarling monster named Drafli, who loathes Alma on sight, and clearly longs for her death.

Yet Drafli will do anything for his sweet mate, even if it means tolerating a weak, worthless human. So he makes Alma a cold, calculated offer: **he'll share his mate with her... but only on his terms.**

He wants her silence.

Her surrender.

Her servitude.

And with Alma's fate firmly in Drafli's ruthless hands, how can she face her own dark desires — or all the secrets hidden behind Orc Mountain's walls? **Can a lost, lonely housemaid come between two orcs... without being crushed?**

A dark, angsty, full-length, enemies to lovers fantasy romance. Comes after The Midwife and the Orc, but also reads as a standalone. Happily ever after guaranteed.

Tempting Auzed: The Clecanian Series Book 4

But sadly, that's just when everything gets even more complicated.

Auzed has his orders. He is to find the missing human and deliver her to Tremanta. Getting caught trespassing in Sauven territory was *not* part of the plan. Neither was pretending to be the sexy beauty's fiancé to protect her from forced marriage to a Sauven stranger...but here they are.

Their relationship was supposed to be fake. But it's not long before they start to wonder if true love and a happily ever after is possible for two star-crossed opposites. And if it is...just how far are they willing to go to claim it?

Fejo can't believe his luck when Vanessa, a gorgeous human with a sharp tongue, chooses him as her husband. He doesn't know what he did to win her favor, but he's determined to do everything in his power to make her happy. If only he could figure out why his alien bride is so reluctant to accept the kindness—and pleasure—he's so eager to offer.

Vanessa's plan was simple. Until she started falling for her ridiculously charming husband. Now, she has to figure out how to get home without breaking Fejo's heart—or her own. Easy, right?

Captive of the Horde King (Horde Kings of Dakkar Book 1)

Author: Zoey Draven

She made a deal with the Dakkari devil. Now, he owns her.

On the unforgiving planet of Dakkar, I did what all the humans in our village did: kept my head down, worked to provide for my family, and I certainly didn't break any Dakkari laws to risk inciting the alien race's merciless wrath.

Unfortunately, the same couldn't be said for my brother and one careless mistake brings a horde of the nomadic, barbarian Dakkari straight to our doorstep, led by their powerful horde king—a cold, ruthless, battle-scarred warrior demanding retribution.

In order to save my brother's life, I do the unthinkable.

I sell myself to the horde king as his war prize. I agree to warm his furs, to travel with his horde across the wild lands of Dakkar, and to never see my family again.

But as I struggle with my new reality, I discover that the surly, mysterious, dominant horde king never intended for me to be his concubine...

He wants me as his *queen*.

Feral Sins (The Phoenix Pack Book 1)

Author: Suzanne Wright

When female wolf shifter Taryn Warner first encounters Trey Coleman, an alpha male wolf shifter with a dangerous reputation, she's determined to resist his charms. After all, Trey—who was only fourteen when he defeated his own father in a duel, winning the right to be alpha of his pack—can't have anything to offer the talented healer besides trouble, or so she thinks. Taryn finds herself drawn in by Trey's forceful demeanor and arctic-blue eyes, and she eventually agrees to enter an uneasy alliance with him. If the two succeed in convincing their respective packs that they've chosen each other as mates, Trey will win valuable political allies, while Taryn will escape an odious arranged mating.

But there are a lot of potential pitfalls to this plan—including the very real possibility that the wolf shifters, overwhelmed by their growing attraction to each other, will be unable to maintain the clear heads needed to pull off the deception.

The Alien's Kidnapped Omega: a scifi alien m/m romance (The Alien's Omega Book 1)

Author: Sienna Sway

Alex

My job was supposed to be easy; meet the dominant Alien race of Mukhana, negotiate an alliance, and leave. Being literally carried away into the night changes everything. Kidnapping a human is asking for trouble. Every alien in the galaxy should know that by now, but the nassa are more barbaric than expected.

Despite some small similarities with humans, their culture is hard to comprehend. They're kind yet controlling, warm yet stern. Even though he literally kidnapped me and will fight to keep me, Saar seems to respect me and maybe even care for me. Most confusing of all, everyone keeps calling me an omega...

Saar

Humans are confusing creatures. They send their most delicate and vulnerable through the universe unattended.

The moment I saw Alex, I knew he was an omega. Even though I was furious that he was being paraded around, unmated and unprotected, I was also thrilled because I knew at once; he was mine.

I will save my omega from his difficult life. I will keep him safe and protected, even if it means war...

The Alien's Kidnapped Omega is a lighthearted sci-fi m/m romance featuring a unique alien race, a sweet and confused human, a very well-meaning and equally misguided alien and a forced marriage.

Crown of Stars

Author: K.A Knight

The Crown Princess of Zyria was born to wear the crown....but what if she wants more?

My life was organised since birth until the carefully constructed plans exploded like a supernova. The lick of flames began when I decided to sacrifice myself for my planet and my people.

Abducted into the stars I dreamed of, I have no choice but to embrace the part of me I have always hidden—the fighter, the warrior, and the imperfect, crass woman who doesn't resemble the impeccable princess I am expected to be. Instead of using my silver tongue to fight my battles, I now hold true weapons, and for the first time since the crown was placed on my head, I feel whole.

Evil is flooding the galaxy, and for some reason, destiny has chosen me to stop it. The only problem is, I don't know how. Luckily, I meet some men along the way who are willing to follow me on this mission. If the king could see me now, draped in leather and wielding pistols and knives rather than wearing ballgowns and reading old scrolls, he would collapse onto his golden throne.

Now, I fight my way across the cosmos to try and stop the destruction of everything we know.

I was ready to give up my life, my future, and my body, but I never expected to lose my heart along the way.

Stars, don't let me fail now.

An Extended Look at *The Atlantis Plague*

In Marbella, Spain, Dr. Kate Warner awakens to a horrifying reality: the human race stands on the brink of extinction. A pandemic unlike any before it has swept the globe. Nearly a billion people are dead—and those that the Atlantis Plague does not kill, it transforms at the genetic level. A few rapidly evolve. The remainder devolve.

As the world slips into chaos, radical solutions emerge. Industrialized nations offer a miracle drug, Orchid, which they mass produce and distribute to refugee camps around the world. But Orchid is merely a way to buy time. It treats the symptoms of the plague but never cures the disease.

Immari International offers a different approach: do nothing. Let the plague run its course. The Immari envision a world populated by the genetically superior survivors—a new human race, ready to fulfill its destiny.

With control of the world population hanging in the balance, the Orchid Alliance and the Immari descend into open warfare. Now the last hope for humanity is to find a cure. Kate alone holds the key to unraveling the mystery surrounding the Atlantis Plague. The answer may lie in understanding pivotal events in human history—events when the human genome mysteriously changed. Her journey takes her across the barren wastelands of Europe and northern Africa, but it is her research into the past that takes her where she never expected to go. She soon discovers that the history of human evolution is not what it seems—and setting it right may require a sacrifice she never imagined.

They aren't the only barrier between us. The Bride Trials has turned on me and the blood contract demands I murder my fated mate.

As I race to find the hellfire crown to prove I'm meant to be the Queen of the Underworld, the king turns to the dark side, at the risk of losing himself and his wolf to keep me alive.

And even that might not be enough if we're pawns instead of becoming the masters of our own fates.

Hyperspeed Dreams: Darkstar Mercenaries Book 5

Author: Anna Carven

Lodan Vorkan has been called many things in his lifetime—perfectionist, control-freak, monster.

As one of the Kordolian Military's infamous First Division, he's one of the most feared warriors in the Nine Galaxies.

As a pilot, his skill is unmatched.

He doesn't like the unpredictable, and humans are exactly that.

One by one, he's seen his brothers fall to these confounding creatures. Even the most battle-hardened and ruthless of them have succumbed to the Mating Fever.

Humans are trouble.

Humans bring chaos. *Always*.

When he encounters the strange human called *Tasha*, all his warning alarms go off. She isn't anything like the other humans. She's faster; stronger—artificially so. She has secrets; she tells lies.

A trail of blood-scent lingers around her.

She is not the kind of human he would imagine as his mate.

But Lodan's control is about to be sorely tested—in more ways than one.

Hyperspeed Dreams is Book 5 in the Darkstar Mercenaries series. It's a full-length novel (76 500 words) featuring a lethal silver-skinned alien hero, a human heroine, and the usual action, violence, steamy sex scenes, and HFN ("happy for now") ending. It will probably make more sense if you've read the previous books first; both the Dark Planet Warriors and Darkstar Mercenaries series.

Dark Planet Warriors: A Science Fiction Romance

Author: Anna Carven

Book 1 of the Dark Planet Warriors Series

Abbey

Some scary looking aliens have just boarded Fortuna Tau, our little asteroid mining station. Kordolians, by the looks of things. What the hell do they want with this floating rust bucket? What are they even doing here?

Come to think of it, I've never seen a Kordolian up close before. They're huge and intimidating, with strange silver skin and pointed ears. They have freaky nano-armor, and they're packing a serious arsenal. We stand no chance against them.

When I encounter their General, I find him insufferable. Arrogant. Domineering. He won't tell me anything. I guess that's what happens when your race is kicking ass across the Nine Galaxies. You get pigheaded.

So why do I keep running into him? Why does he keep looking at me like that? And what's with this weird feeling I get when he's around?

Tarak

Sucked into a wormhole during a fierce skirmish with an enemy ship. Spat out near a human mining station in a remote corner of the Nine Galaxies. Stuck with weak humans who operate with inferior metals and technology.

This mission couldn't get any worse.

We need to fix our craft, kill the cursed Xargek, and get out of here before the wormhole collapses. I don't really care about these humans. Their existence makes no sense to me.

So why has this strange human female captured my attention? She's messy, awkward, and she babbles nonsense half the time. These humans are crazy. I don't understand them at all, especially this female. Why do I keep coming back to her?

I need to leave this place before I go insane.

Warning: This book contains swearing, violence and steamy sex scenes. It's recommended for readers aged 18 and over.

Barbarian's Rescue: A SciFi Alien Romance (Ice Planet Barbarians Book 15)

Author: Ruby Dixon

Bad day? Try mine on for size.

Rogue slavers have landed on the ice planet and captured the tribe. The only ones not snatched? Me, a walking human motormouth with no skill except that of incoherent babbling, and Warrek, who's as silent as he is attractive. Two more unlikely people have never been paired together.

And now we're supposed to form a rescue team.

Saving the others is either going to bring us closer together – or drive us completely apart. I'm pretty sure the feelings I'm having for my alien companion are as unrequited as they are inappropriate, but since we aren't going to make it out alive, what harm is one teeny, tiny kiss?

Who knew that one kiss could change everything?
