

The New York State Clinical Education Initiative
Hepatitis C and Drug User Health Center of Excellence

BRINGS YOU A VIRTUAL PANEL DISCUSSION ON

**Improving Transitions of Care for Patients Receiving Methadone
Between
Emergency Departments and Opioid Treatment Programs**

Date: Wednesday, June 10th

Time: 4PM - 5PM

REGISTER NOW

**Featuring panelists from New York State,
including Clinical and Administrative leaders from both
Emergency Departments and Opioid Treatment Programs**

Learning Objectives:

- Review ED and OTP clinical provider roles and responsibilities, as they relate to transitions of care for people who are on methadone
- Understand the connection between successful communication and timely clinical care for people who are on methadone
- Identify opportunities for improved communication between ED and OTP clinical providers to support transitions of care for people who are on methadone
