

# Lunch & Learn

## HIV IN THE TRANSPLANT PATIENT: WHERE ARE WE NOW?

**FREE CME  
AVAILABLE!**

**MONDAY JULY 14, 2025  
12:00 PM - 1:00 PM**

### LEARNING OBJECTIVES:

1. Recognize implications of having HIV in the solid organ transplant patient in terms of risk of rejection, graft failure, hepatitis C co-infection, medication interactions, and survival compared to the general population.
2. Discuss "HOPE in Action" – ongoing trials assessing the impact of HIV positive kidney transplant recipients receiving an organ from an HIV positive donor.
3. Review where we are clinically in terms of a potential HIV "cure" through bone marrow transplantation.

**PRESENTED BY**

**Aryn Andrzejewski, MD**

Assistant Professor  
University of Rochester School of  
Medicine and Dentistry
