A Monthly Webinar Series

Care of Infants with Perinatal HIV Exposure in New York State

LEARNING OBJECTIVES

1. Explain the management of infants exposed to HIV perinatally.
2. Describe a family-centered interdisciplinary approach to care for the infant with perinatal HIV exposure, including recommendations for consultation with a pediatric HIV expert.
3. Explain evidence-based, patient-centered counseling and shared decision-making for infant feeding.
4. Describe the management of breastfeeding infants in the context of maternal HIV.

Roberto Posada, MD

Fellowship Program Director, Pediatric Infectious Diseases; Professor, Departments of Pediatrics, Medical Education, and Global Health, Mount Sinai
