→ Sugar and Sugar products

Main Raw material for products delivered by Südzucker is sugar beet respectively sugar cane.

At present Südzucker does not process genetically modified sugar beet. Through contracts with beet breeders and growers, Südzucker has ensured that in agricultural production areas of her beet suppliers no genetically modified beet for sugar beet processing is grown. Food additives are not used in sugar beet processing.

The cultivation of genetically modified sugar beet is further on not allowed in the EU.

Concerning cane there are confirmations that no genetically modified cane is used.

Before the first use of other ingredients Südzucker makes sure that they comply with the relevant requirements of food law.

Resuming we can ensure, that the delivered products need not be labeled according to regulations EC No. 1829/2003 and EC No. 1830/2003.

The delivered products do not require allergen labelling according to Regulation (EU) No 1169/2011. Except for SO₂ the substances listed in Annex II are not used in the sugar production process. The SO₂ content is below 10 mg/kg.
