8. Reasoned Safety Evaluation of fragrance compound 89.2009 Lemon 200953

Fragrance 89.2009 Lemon 200953 has been evaluated for safety when used at 0.50 % in Wet Wipes (not baby).

Lothar Streeck GmbH & Co. KG only uses ingredients for which a thorough safety clearance procedure is carried out by qualified Regulatory Affairs staffs. The safety clearance procedure takes into account the following information :

1. The existing Safety data, from RIFM Database, from the suppliers or any published scientific literature. These data are evaluated according to the principles laid down in Appendix 5 to the IFRA Code of Practice.
The Appendix 5 requires a review of the possible effects in the skin, including skin irritation and sensitisation with a particular attention for ingredients absorbing ultra-violet radiation. Systemic toxicity should also be considered in relation to the quantities used and likely dose expected to penetrate the skin.
2. The IFRA Standards regarding the restriction on the use of the ingredients and GMP standard imposing purity specifications.
3. The history of safe use and current exposure level as well as any articles from Dermatologist or any other medical professional reporting adverse effect published.
4. Finally in the absence of data, structured relationships could be applied between the considered substance and analogue substance(s) already supported by robust data.

Safety evaluation of Lothar Streeck GmbH & Co. KG ensures that the final use level of the fragrance in the finished product is taken into account, applying the QRA approach for the corresponding product categories, whenever robust safety data and weight of evidence exist. This procedure ensures that appropriate margins of safety for each ingredient with regard to relevant toxicological endpoints are applied.

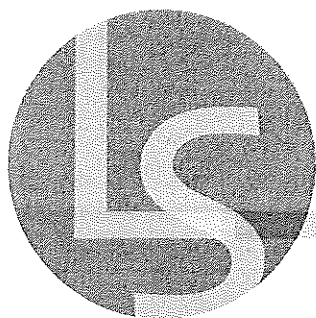

The fragrance compound 89.2009 Lemon 200953, contains only ingredients approved by the safety evaluation procedure and all ingredients contained in this fragrance in Wet Wipes (not baby) at 0.50 % are within the restrictions relevant for this use.
