FOLBB
virgin fiber cartonboard made personal

Valid as of 7 December 2023

FOOD SAFETY STATEMENT

Part 1 of 2

All our board qualities are suitable for direct contact with dry, aqueous and fatty foodstuffs (except Optimus Top for dry and fat) and are intended for use at temperatures up to 90°C. The cartonboard quality Excellent TOP Pure also meets the requirements of BfR recommendation XXXVI/2 for oven applications up to 200°C for 30 minutes.[1]

The Folbb Group board qualities comply with the latest German BfR recommendation XXXVI "Paper and board for food contact" of the Federal Institute for Risk Assessment, introduced in the 62nd Announcement, "Bundesgesundheitsblatt" 14 (1971) 83.

The grades also comply with the latest requirements of the USA Code of Federal Regulations, Food and Drugs Administration (FDA), 21 CFR Ch. I, §176.170 (components of paper and paperboard in contact with aqueous and fatty foods) and §176.180 (components of paper and paperboard in contact with dry food) (FDA not applicable to Optimus TOP).

The provisions of Regulation (EC) No 1935/2004 of the European Parliament and the Council of 27 October 2004, as well as Regulation (EC) No 2023/2006 of the European Parliament and the Council of 22 December 2006 on materials and articles intended to come into contact with food, are met.

Folding Boxboard Eerbeek B.V.'s cartonboard qualities also comply with the latest amendments to the Dutch Commodities Act Regulation on packaging and consumer goods intended to come into contact with foodstuffs, the "Warenwetregeling verpakkingen en gebruiksartikelen" (Part A - generic rules and Part B chapter II.1 – Paper and board for general use), introduced in "Staatscourant" 8531 (2014).

FOOD SAFETY STATEMENT

Part 2 of 2

The processes and procedures in our mill are defined, controlled and measured by excellent quality management systems such as ISO 9001 (since 1995) and hygiene management system ISO 22000 (including HACCP). Risk management as well as root cause analysis are an essential part of our management systems and ensure safe production of cartonboard for food applications.

[1] No statement is made regarding the technical suitability of the respective board grade; this statement declares the food-safe and chemical suitability of the packaging.
