

DESCRIPTION

ARCOS cutting boards are specially designed for every day use and are an essential part of a well equipped kitchen.

Function and design come together to make cutting and chopping effortless.

They are produced in different measures and in two colours (black and browns).

MATERIALS

ARCOS cutting boards are made of resin and cellulose fiber material and they are foodcontact, according to European Regulation.

FEATURES

- ⇒ Easy to clean.
- ⇒ Dishwasher safe (EN 12875).
- ⇒ No damage for the cutting edge (knife friendly).
- ⇒ High temperatures resistant (176°C), but not suitable for microwave or in direct contact with fire.
- ⇒ ECO material.
- ⇒ Resistance to immersion in boiling water and resistance to cracking at high temperatures, according to EN 438-2:2005.
- ⇒ Resistance of scratching according to EN 438-2:2005 (brown board Grade 3 and black board Grade 4).

ARCOS STANDARDS:

- UNE-EN-ISO-9001:2008 “Quality Management Systems”.
- PEFC certificate (Promotion Sustainable Forest Management).
