DECLARATION OF CONFORMITY
MATERIALS IN CONTACT WITH FOODSTUFFS

Company : ROSTAING

Adress : 17 avenue Charles de Gaulle, 01800 Villieu, France

Mrs : MUETTON Laura

Acting as : R&D Manager

Items listed below which may come into contact with foodstuffs

Reference : WARM250D2 gloves

Belong to the families of materials listed in Annex 1 of the (EC) Regulation No 1935/2004.

They are made of : plastics, especially the part in contact with food stuffs is composed of silicone.

I declare those materials conform with the requirements of :

- (EC) Regulation No 1935/2004 concerning materials and items meant to be in contact with foodstuffs (articles 3, 11, 15 et 17)

- In particular the demands of the (EU) Regulation No 10/2011 of January 14, 2011 specific to plastic materials – and its amendments:

- (EU) Execution regulation no 321/2011 of April 1, 2011

- OJEU corrective no L 278 of October 25, 2011

- (EU) Regulation no 1282/2011 of November 28, 2011

- (EU) Regulation no 1183/2012 of November 30, 2012

- (EU) Regulation no 202/2014 of March 3, 2014

- (EU) Regulation no 2016/1416 of August 24, 2016

- (EU) Regulation no 2017/752 of April 28, 2017

- (EC) Regulation No 2023/2006 regarding good manufacturing practice of materials and items meant to be in contact with foodstuffs.

This declaration of conformity has been established :

- On the basis of the suppliers declarations of materials, treatments, surface coatings or components used in the goods and items production indicated in the declaration.

and

- On the basis of the datas from achieved migration assessments.

This conformity is subject to the respect of the normal and predictable conditions of use and if necessary, to profesional uses envisaged in the specifications or recommended conditions of use :

- Use of the glove with a maximum temperature of 100 °C
- Use of the glove in a temperate environment

Valid at the date of delivery of the equipement, this declaration should be renewed in any cases when the conformity to what is above is no longer ensured.

The declarant holds at the disposal of competent authorities an appropriate documentation to prove this conformity – upron reasoned request.

Villieu-Loyes-Mollon,

On the 19/11/2019

Signature and company seal

ADDITIONAL INFORMATION DOCUMENT

COMPATIBLE FOODSTUFFS :

The designated item is :

Suitable for any contact – Any type of food

TERMS OF USE :

Restrictions according to duration and type of contacts :

Tests performed for repeated use from a few minutes to a few hours at room/temperate temperature.

The relation surface in contact / quantity of foodstuffs to establish the item conformity is : 6 according to the Regulation 10/2011.

GLOBAL MIGRATION

Specify the simulant(s) and the tests conditions (ex : water, 10 J, 40°C).

Simulant B / water – acetic acid 3% : 2 hours at 40°C, repeated 3 times

Simulant D1 / water – ethanol 50% : 2 hours at 40°C, repeated 3 times

Ethanol 95% : 2 hours at 40°C, repeated 3 times

Isooctane : 30 minutes at 20°C, repeated 3 times

ANALYSIS OF SUBSTANCES SUBJECT TO RESTRICTION

No substance used in the coating composition of the WARM250D2 reference is subject to a maximum allowable specific migration limit (MSL)

PRESENCE OF DOUBLE FUNCTIONALITY ADDITIVES [additive that could be used in plastics as in foodstuffs]

No additive is used in the coating composition of the WARM250D2 glove

PRESENCE OF RECYCLED MATERIALS

No recycled material is used in the coating composition of the WARM250D2 glove

PRESENCE OF ACTIVE AND INTELLIGENT MATERIALS

No active and intelligent material is used in the coating composition of the WARM250D2 glove

Additional results available upon reasoned request.
