SC10 virtual meeting – Presentation Materials

Purpose: This document sets out the process and high-level presentation materials for the System Council’s 10th meeting, to be held virtually on 10-11 June 2020.

Prepared by: CGIAR System Organization
Distribution notice: This document may be shared without restriction
Overview of formal SC10 meeting sessions  
Wednesday 10 – Thursday 11 June 2020

<table>

1. Meeting opening  
2. CGIAR research response to COVID-19  
3. Ensuring adequate resources to deliver on CGIAR’s mission and transition  

4. Leveraging independent advice: from MOPAN and CGIAR’s advisory services  
5. Progress towards One CGIAR  
6. The road to doubling CGIAR research funding by 2030  
7. Consent Agenda, Other business & Closing
Day 1 – CGIAR’s Responsiveness

1. Meeting Opening

2. CGIAR’s research response to COVID-19
   a. Highlights on COVID-19 relevant research
   b. A coordinated CGIAR research response to COVID-19

3. Ensuring adequate resources to deliver
   a. Our focus on people – an information update on where efforts are focused
   b. A package of financial responses to facilitate flexible funder support, particularly in a time of COVID-19
   c. Funding mechanism for the One CGIAR transition

Materials shared on SC10 webpage on 25 May 2020:

- Document SC10-02
- Document SC10-03
- Document SC10-04
Agenda Item 1: Meeting opening

a. Welcome by System Council Chair

b. Appointment of Co-Chair
   *Decision request: System Council Voting member to be appointed as co-chair for the meeting*

c. Adoption of Provisional Agenda
   **Decision request: Adoption of the Provisional Agenda**

d. Possible items for ‘Other Business’

e. Declarations on potential conflicts on Agenda

Take note of additional workshops available on Friday 12 June 2020, including on:

- Deep Dive on MOPAN assessment
- CRP ‘sound bites’ on COVID-19 responses
- Highlights from CGIAR Dashboards

~Timetable at end of deck~
Agenda Item 2: CGIAR’s research response to COVID-19

2a: Highlights on COVID-19 relevant research

Video available at https://vimeo.com/424920541/76bb079597
Agenda Item 2: **CGIAR’s research response to COVID-19**

2b: A coordinated CGIAR research response to COVID-19

**Five Impact Areas of CGIAR**

- Nutrition & food security
  - Poverty reduction, livelihoods & jobs
  - Gender equality, youth & social inclusion
  - Climate adaptation & greenhouse gas reduction
  - Environment health & biodiversity

---

- **CGIAR has a strong portfolio of work** on issues related to the causes and consequences of the COVID-19 crisis in relation to food, land, and water systems, including through **One Health approaches**.

- In coordination with **global, national, and local partners**, CGIAR has responded by actively sharing its existing and emerging knowledge and experience to address the challenges posed by COVID-19.

- By immediately **pivoting the current CGIAR program of work**, CGIAR is leveraging tools and evidence to help countries cope with the effects of the pandemic.
Agenda Item 2: **CGIAR’s research response to COVID-19**

2b: A coordinated CGIAR research response to COVID-19

**Short term: Crisis Response**
Up to 12 months
Provide immediate evidence and tools for decision-making to support food availability and access, health interventions, and public programs, policies and investments at scale.

**Medium-term: Recovery**
Up to 18 months
Understand the impacts of crisis response and adapt policies and programs to reflect initial experiences and consequences for all groups in society. Recovery actions consider longer term resilience issues.

**Long-term: Resilience**
Up to 24 months*
Generate evidence and tools to prevent and manage emerging disease threats and comparable food system shocks and build greater resilience into food, land, water systems.

*For endorsement
Agenda Item 2: **CGIAR’s research response to COVID-19**

2b: A coordinated CGIAR research response to COVID-19

The CGIAR COVID-19 Hub for coordinated research response will:

- Be positioned within A4NH Flagship 5: Improving Human Health which is co-implemented by IFPRI, ILRI, and the London School of Hygiene & Tropical Medicine.
- Provide a convening facility for CGIAR funders and major partners seeking to engage with CGIAR on COVID-19 research and responses.
- Promote a system-wide strategic research response during 2020-21, drawing from expertise across the system and aligning Centre and CRP actions across the four research pillars.
- Invest efforts in the highest priority areas where research results and enhanced coordination are most critical, particularly in cross-CGIAR efforts to support national response and recovery efforts, including in the areas of surveillance of food availability/access and management of disease risks.

Operations of the CGIAR COVID-19 Hub will depend on levels of funding – three budget scenarios.

**<USD 1M:**
- A limited number of common research projects largely adapted from existing research
- Cross-CGIAR coordination and research partnerships

**USD 1–10M:**
- New research for country-specific actions linked to demands from national partners
- Modeling of key national and regional trends; surveillance of impacts on key sub-populations of women, children and poor communities
- Some cross-CGIAR coordinated actions linked to country demand in recovery phase

**>USD 10M:**
- Comprehensive new response and recovery research with clear bridging to CGIAR research beyond 2021.
- Major support provided to partner countries through cross-CGIAR coordinated actions linked to country demand.
- Joint work conducted with the health sector on co-managing health
Agenda Item 2: **CGIAR’s research response to COVID-19**

**2b: A coordinated CGIAR research response to COVID-19**

**For endorsement**

**Decision requested of the System Council:**

The System Council:

i. **Endorses** the CGIAR Research Response to COVID-19 as set out in meeting document SC10-02; and

Comfort break

10 minutes

Reconvene at 10:25 Washington time
Agenda Item 3: Ensuring adequate resources to deliver

3a: Our focus on people

Main developments since SC adhoc briefing call of 30 April 2020

Very low numbers of confirmed infected staff (10 cases reported: 8 recovered; 1 recovering, 1 hospital care)

“CGIAR Guide to planning for return to the physical workplace” developed and available to all entities

Placing a focus on ‘readiness’ to be prepared for a second wave

Most staff still working from home, but phased return to the physical workplace happening in some countries in line with governments directives

Ongoing process to collectively develop CGIAR Guiding Principles for managing and supporting the workforce and organizational sustainability during COVID-19

CGIAR staff making good use of wellness support options offered through GDI initiative, including:
- Expert Webinar on “Wellness in the time of COVID-19”
- Confidential counselling services available for individual session

On 1 July 2020 IARC Employee Assistance Program will be extended to a large number of local staff

For information
In the absence of remedial action, CGIAR is projecting a cumulative reduction in revenues of approximately 20% in 2020 primarily due to the effects of the COVID-19 pandemic. In addition, recent communications from Funders have led to a further reduction in projected W1/W2 funding in 2020. An up to date view will be provided during the meeting and can be tracked in real time on the online dashboard: https://www.cgiar.org/funders/trust-fund/financing-plan/

Despite mitigations applied to the respective contexts, Centers are currently projecting an aggregate net deficit of approximately US$ 40M in 2020 (please note that this figure is changing rapidly and an update will be provided during the meeting) which will consume over 10% of accumulated accounting reserves within the System.
### Agenda Item 3: Ensuring adequate resources to deliver

**3b: The Ask:** A package of financial responses

---

<table>
<thead>
<tr>
<th>Measure 1</th>
<th>Measure 2</th>
<th>Measure 3</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Continue current planned contributions and bringing them forward where possible</strong></td>
<td><strong>Make additional investments in Pivot towards COVID-19</strong></td>
<td><strong>Provide special support to address one-off falls in Center revenues</strong></td>
</tr>
<tr>
<td>a) Funders to maintain planned and indicated W1/W2 investments in CGIAR Research Portfolio for 2020 and 2021 to ensure stability and confidence;</td>
<td>Invest additional funds in newly established COVID-19 Hub within existing “improving human health” flagship in A4NH (IFPRI lead with co-leads ILRI and London School of Hygiene and Tropical Medicine).</td>
<td><em>potentially most financially significant set of measures</em></td>
</tr>
<tr>
<td>b) Request to Funders to provide 2020 and 2021 planned cash contributions at earliest date possible to optimize liquidity within the system (see paragraph 8 above); and</td>
<td></td>
<td>a) For W3 and Bilateral agreements, in principle agreement on one or more of 3 options:</td>
</tr>
<tr>
<td>c) Adjust partial de-linking rules to ensure Funder interests met¹.</td>
<td></td>
<td>• full-cost, 6 months extensions of all existing agreements;</td>
</tr>
</tbody>
</table>
<pre><code>                                                                                       |                                                                       |   • temporary increase (for 2020) in level of Indirect Cost Recovery (ICR) of 15% (For example, if the originally planned or negotiated indirect cost rate to be applied for a given project for 2020 was 15%, this would allow for a temporary increase in 2020 to 17.25% - thus an increase of 15%); and |
                                                                                       |                                                                       |   • reorientation of project level outputs, deliverables and targets.  |
                                                                                       |                                                                       | b) For W1/2 funded activities, agreement for a temporary increase (for 2020) of indirect Cost Rates (ICR) by 15%. |
</code></pre>

---

¹A footnote to paragraph 6 of the W1/2 Partial de-linking principles to expand current funding rules will be added to exempt from partial de-linking treatment any additional W2 contributions for which the funder has expressly communicated that their desired outcome is to reduce the amount of W1 otherwise allocated to the Program or Platform.
Agenda Item 3: Ensuring adequate resources to deliver

3b: A package of financial responses

Decision requested of the System Council:

The System Council approves the three financial response measures as set out in meeting document SC10-03.
Agenda Item 3: Ensuring adequate resources to deliver

3c: Funding mechanism for the One CGIAR transition

One CGIAR implementation initiated with support of a bilateral grant from the Bill & Melinda Gates Foundation.

Another funder has deposited US$ 1.1M in the provisional account of the CGIAR Trust Fund (earmarked in support of One CGIAR implementation)

A detailed transition budget associated with a 2020-2021 Transition Plan is a planned deliverable of the TPMU (now appointed) by end-June 2020.

Rationale for approach set out in requested decision on next slide:

- The transition to One CGIAR is a complex process requiring investment and engagement across the System towards the objectives outlined in the SRG recommendations.

- One CGIAR Transitional Funding Facility will provide the opportunity for Funders to invest directly in the transition process while ensuring resources are uniformly directed in effecting the transition towards One CGIAR.
Decision requested of the System Council:
The System Council approves the following mechanisms as part of a One CGIAR transitional funding approach, as set out in meeting document SC10-04:

a. Repurpose the narrowly defined W1 Alliance Opportunity Fund to a One CGIAR Transitional Funding Facility to support more expansive objectives of One CGIAR implementation;

b. Transfer $1.1M provision account balance to the One CGIAR Transitional Funding Facility;

c. Allocate a $6.5M draw down facility approved as part of the 2020 Financing Plan to the One CGIAR Transitional Funding Facility; and

d. Establish an indicative target of $40M-$70M to fund investments into One CGIAR through the One CGIAR Transitional Funding Facility between 2020 and 2024.
### Day 2 – Building a stronger CGIAR

| 7. Consent Agenda; Any Other Business; Meeting Close | Document SC10-08 Document SC10-09 |
In 2019, the Multilateral Organisation Performance Assessment Network (MOPAN), assessed the performance of the CGIAR.

The assessment looked at CGIAR’s organizational effectiveness (strategic, operational, relationship and performance aspects) and the results it achieved against its objectives.

This was the first MOPAN assessment of CGIAR.

Documents available:
2019 CGIAR Assessment report
2019 CGIAR Brief
What is MOPAN?

The **Multilateral Organisation Performance Assessment Network** is a network of 19 members with a common interest in assessing the effectiveness of the major organisations they fund.

</tbody>
</table>
CGIAR’s assessment has followed a structured process

- Working hypothesis
- Document review: 105 documents reviewed
- Survey of external partners: 162 responses
- Interviews & consultations: 50 interviews with individuals and groups
- MOPAN Assessment Report
- Validation
- Triangulation
- External expert review by ex Internal Oversight CoE
Areas of Strength

- Diverse and flexible System – responsive to demands, context
- SRF, Business Plan, and Financial Plan
- Shift towards greater professionalism, transparent and responsive culture
- Progress on performance & results processes and systems
- CGIAR Research Programs a strong concept - provide coverage and delivery
- Open intellectual assets a significant global resource
Areas for Improvement / Challenges

- Decision-making and change can be difficult and slow in the diverse System
- Complex governance and organizational structure compound weaknesses
- Yet to agree a consensus on the way forward: System, reforms, and support to CRPs
- Lack of consistency in focus and capacities across System: resource management, audit, M&E
- Reformed evaluation function – risks of reduced independence and limited leadership
- Lack of strategic position on partnerships and capacities
- Efforts on gender equality are isolated pockets of good practice with a risk of a superficial ‘Gender Fix’
Full report and next steps

Full report and performance brief

Leveraging Independent Advice: ISDC and Evaluation Function

Holger Meinke, Chair, Independent Science for Development Council

Presentation Contents

• ISDC & Support to One CGIAR – Foresight and Tradeoffs
• Independent Evaluation Function – CRP 2020 Reviews w/ emerging findings
+ SPIA input available through https://www.youtube.com/watch?v=TTms9C-rdwg
Agenda Item 4: **Leveraging independent advice**

4b: Presentation by the ISDC Chair

**Highlights of ISDC’s Current Work**

**Independent Advice**
- Supports the One CGIAR reform
- Engages with and challenges key CGIAR entities
- Advises on strategies and approaches for the forthcoming program portfolio

**Representation in One CGIAR**
- Transition Advisory Groups (TAGs)
  1. Cross-cutting: Lesley Torrance
  2. Research: Holger Meinke
  3. Finance: Andrew Ash
  4. Resource mobilization: Nighisty Ghezae

**ISDC Deliverables Q1&2 2020**
- Published updated QoR4D
- Foresight & trade-off research and recommendations

---

*according to adaptive management principles, during 2020 ISDC members have been engaged also as chair and members of various One CGIAR-related search committees*
A Critical Time for Global Food Security

- Hunger Could be More Deadly than Coronavirus in Poorer Countries, Washington Post, 14-5-20

- How Coronavirus Is Exposing the World’s Fragile Food Supply Chain – and Could Leave Millions Hungry, TIME, 8-5-20

Agenda Item 4: Leveraging independent advice

The Process
• Semi-annual ISDC meeting with consensus building resulting in foresight reflections
• Foresight reviews focusing on the 5 impact areas
• Trade-off analysis report
• Technical Note published that includes foresight synthesis, ISDC reflections, and trade-off questions and implications
Agenda Item 4: Leveraging independent advice

4b: Presentation by the ISDC Chair

Foresight Review Research Gaps

- **Future long-term impacts among nutrition & food security; poverty reduction, livelihoods, & jobs; & gender dimensions, youth, & social inclusion**
  - Fish stocks & more sustainable forms of aquaculture & mariculture
  - Effective management of trees for co-production of food and ecosystem services
  - Adoption and adaptation pathways of technology and institutional innovations
- **Governance & policy barriers not sufficiently considered**
  - Migration gender dynamics
  - Specific challenges within sub-Saharan Africa
  - Linkages between access to water, sanitation, & water infrastructure & gender, poverty, & nutrition
  - Biotic pressures on the AFS resulting from climate change
- **Megatrend analyses that include shocks**
  - Effects of food prices across impact areas

Credit: 2013 /CIAT Neil Palmer
Foresight Reflections Highlights

- Success will depend on integrating foresight and trade-off analyses into ongoing decision-making processes.
- Foresight and trade-off analyses should prioritize attention to key barriers to adoption, adaptation, and diffusion of innovations for impact.
- Expanded attention to—and investment in—research concerning fruits, legumes (including pulses), nuts, and vegetables to broaden the System’s commodity composition.
- Research needs to align and influence emerging trends in AFS.
- Sustainable intensification and stronger agroecological systems approaches are synergistic pathways for CGIAR.
Trade-off Questions & Implications Highlights

• What are CGIAR’s mechanisms and capacities to identify and engage key partners in weighing trade-offs?

• What opportunities exist in emerging research modalities and tools to streamline ongoing trade-off discussions?

• How will the trade-off analysis systems of CGIAR continually assess and weight the inevitable unintended consequences that new technologies spur?

• Studying and projecting the possible impacts of shocks will be critical in aligning and influencing emerging AFS trends.
Agenda Item 4: Leveraging independent advice

Independent Evaluation in CGIAR: CRP 2020 Reviews

- CAS Evaluation Function is undertaking CRP Reviews
- Lean, evaluative reviews of 12 current CRPs: 2017-2019 period
- Evaluation criteria are
  1. Quality of Science (through the QoR4D lens)
  2. Effectiveness (progressing outputs to outcomes)
- Each review takes <12 weeks, not including data pre-analysis
- The first 3 reviews—GLDC, WHEAT and A4NH—at mid-point
- More information [https://cas.cgiar.org/evaluation/crp-2020-review](https://cas.cgiar.org/evaluation/crp-2020-review)
What are we learning so far from preliminary CRP 2020 Review findings?

• IPG content has been generated through publications and other outputs; general good quality of scientific publications.

• The stabilizing function of consistent pooled funding to foster QOS and effectiveness (and the inverse) is an emerging finding.

• Management structures that engage partner institutions and ARIs in leadership may enhance the quality of science and partnership reach, including to private sector. Partnership seen as fundamental to competitive advantage.

• By and large, fidelity to plan at Flagship level is evident. However, COVID-19 may affect final 18 months of work (after these reviews).

** THESE ARE NOT FINAL FINDINGS, CONCLUSIONS OR RECOMMENDATIONS **
What are we learning so far from preliminary findings?

- The interpretation of what makes a good quality Theory of Change (TOC) and how best to use a TOC vary. TOCs are not used systematically for monitoring, reporting and learning.

- Investing in gender-specialized staff and embedding these researchers is a success factor for gender-responsive research. Youth as a cross-cutting theme may have received comparatively less attention – TBC/still under exploration.

- For Capacity Development, the importance of mentoring and engagement of junior scientists is emerging in findings. More formal structures and mechanisms of CapDev still under examination.

** THESE ARE NOT FINAL FINDINGS, CONCLUSIONS OR RECOMMENDATIONS**
Agenda Item 4: **Leveraging independent advice**

4b: Presentation by the ISDC Chair

Questions & Discussion
The System Council unanimously endorsed the recommendations of the System Reference Group (SRG) for a ‘One CGIAR’ in November 2019 and requested that the SMB provide quarterly updates on the implementation of the endorsed recommendations.

This progress update follows the SMB Chair’s report to the System Council on 30 April 2020 and builds on the regular communications by the four co-chairs of the Transition Consultation Forum (TCF).
The endorsed recommendations include target dates that reflect the urgency of the changes needed: escalating climate crisis, narrowing window of opportunity to achieve SDG, and – more recently – Covid-19.

The target dates reflect a clear sequence of work, which prioritizes the appointment of an empowered One CGIAR Executive Management Team (EMT), operating with Unified Governance, and a clear and convincing research offer.

Since November 2019, minor adjustments consistent with a principle of adaptive management.

Agenda Item 5: **Progress towards One CGIAR – the implementation process**

**A transparent, inclusive process of co-creation:** broad-based TCF and thematic TAGs providing multi-stakeholder advice in support of key decisions

**Key decision moments: SMB, SC, GA, Center Boards**

- **SC endorsed One CGIAR recommendations**
- **GA proposed adaptations, input on transition process**
- **SMB decision-making on key transition steps, including EMT, TP/MTU, TAGs, taking into account GA input**
- **GA agreed to form an inclusive Nominations Committee to reconstitute SMB, approved amendments to the Charter of the System Organization**
- **SMB approved TP, launched search for initial EMT**
- **SC to take stock of progress towards endorsed One CGIAR recommendations, opportunity to consider any course corrections**
- **In July: GA to appoint reconstituted SMB**
- **Aug-Sept: Center Boards to appoint reconstituted SMB members to Center/Alliance Boards, as a minimum 2/3 voting majority, with an effective date of 1 Oct**
- **SMB to recommend 2030 Research Strategy**
- **SC to approve 2030 Research Strategy**
- **SMB to recommend, SC to approve initial set of large 3-year CGIAR Projects**

**Key input/advice mechanisms: TCF, Transition Advisory Groups**

- **16-19 June: Research Strategy Workshop: TAG2 to design and convene event to shape the 2030 Research Strategy**
- **By end-Sept: TAG3 to advise on proposed accountabilities & responsibilities across Common Board, Center Boards, EMT, and DGs (from 1 July working closely with EMT and DGs on respective roles and delegations from Oct)**
- **By Oct: TAG2 to guide development of (8 pooled funding modalities and 2 institutional rate model)**
- **By end-May: TAG7 to guide the development of a scenario-based resource mobilisation, communications, and advocacy strategy for One CGIAR**
- **by end-April: TAG3 to advise on the Toll for the inaugural One CGIAR EMT, (with phased approach)**
- **Completed**
Agenda Item 5: **Progress towards One CGIAR – the implementation process**

Agenda Item 5: Progress towards One CGIAR Decision to take forward Unified Governance

Putting One CGIAR Common Board in place

The requested decision set out on the next slide...

- **Permits reconstitution of the SMB that will become the One CGIAR Common Board** once relevant appointment decisions are taken by Center Boards.

- **Has already been approved by the General Assembly**, and it is anticipated that the System Management Board will approve the same amendments* at an ad hoc meeting in the week of Monday 22 June 2020.

* To be effective, amendments to the Charter require approval by the System Council, the System Management Board and a two-thirds majority of the General Assembly of the Centers.

Forthcoming – Enabling appointment of EMT

Immediately following the Council’s and SMB’s approvals, the General Assembly will be asked to approve a decision to:

- **authorize the SMB to appoint the inaugural EMT** pursuant to the timetable set out in the EMT Candidate Information Pack; and

- **put in place initial delegations of authorities** to the EMT that remain in place until such time as the One CGIAR Common Board becomes operational and agreed delegations of authority as between the EMT and Directors General based on relevant board decisions come into effect.

**Further proposed changes to the Charter** will be required in due course to facilitate the transition to unified governance (e.g. provisions relating to the EMT for the longer term; One CGIAR Common Board members’ term lengths; appointment of ex officio Board members)
Agenda Item 5: **Progress towards One CGIAR**  
**Decision to take forward Unified Governance**

**Decision requested of the System Council:**

Pursuant to the amendment provisions of Article 15.2 of the Charter of the CGIAR System Organization, and subject also to approval by the System Management Board, the System Council approves the following amendments to the Charter of the CGIAR System Organization as set out below in “strike-out” and underlined text:

<table>
<thead>
<tr>
<th>Ref</th>
<th>Proposed Charter text amendment</th>
</tr>
</thead>
</table>
| 7.2 | The System Management Board shall comprise the following up to ten (10) nine (9) voting members who, when taken as a collective whole, will have the skills, experience and gravitas required to enable the System Management Board to discharge its responsibilities under this Charter. Members of the management and employees of CGIAR System entities, including Centers, are not eligible to sit on the System Management Board as voting members, as follows:  
   a) six (6) Center Board members or Directors General, as appointed by the Centers; and  
   b) three (3) independent members, one of which should, whenever possible, be the Chair. |
| 7.3 | The System Management Board shall appoint a Chair from amongst its voting members. |
| 7.8 | All System Management Board members, Active Observers and the Chair of the System Management Board’s Audit and Risk Committee shall act in good faith in the interests of the CGIAR System and shall act according to the System Management Board’s policy on ethics and conflicts of interest and shall respect the conflict of interest obligations of the entities they may be affiliated with represent. |
| 7.9 | The term of office of the initial System Management Board shall be three (3) years. Thereafter, new voting members of the System Management Board shall be elected by the Centers every two (2) years at a General Assembly of Centers. In the transition phase terms may be shorter or elections staggered to ensure a gradual replacement of the members of the System Management Board. Members from the Centers’ Boards which are members of the System Management Board, when acting at the System Management Board, shall represent the CGIAR System and will not be re-appointed when their term as Center Board members is expired. |
Comfort break

10 minutes

Reconvene at 11:00 Washington time
Analysis shows funding sources to support a $2 billion annual One CGIAR sustainable financial ambition by 2030.

In addition to strong System Council commitment to advocate and invest, it demands a targeted, multi-channel fundraising approach – made up of 5 Action Areas each targeting specific sources and types of investments.

This also requires a new way of working across CGIAR – coordinated, targeted, and transparent campaign approach.

The five Action Areas have been designed with a view to strengthen relations with existing funders, diversify the portfolio of investors and to expand the use of innovative financing approaches to support a $2 Bn target.
Agenda Item 6: The road to doubling CGIAR research funding by 2030

6: Exploring a UN Food Systems Summit (UNFSS), or alternative, pledging/commitment moment

- CGIAR needs to take action now to execute a major campaign and pledging “moment” in 2021 to elevate the global importance of agricultural research for development, announce the transition to One CGIAR, recognize 50 years of impact.
- The UNFSS provides a unique platform for Funders to align commitments and investments in CGIAR to support the Sustainable Development Goals (SDGs).
- CGIAR – with strong System Council support – needs to move rapidly in this new environment to produce key positions and negotiate a place at the UNFSS table.

Are System Council members willing to work together towards a public pledging moment for One CGIAR in 2021?
Agenda Item 7: **Other Business: Consent Agenda**

**Items in the Consent Agenda- to be adopted as a group without discussions include:**

i. The System Council is requested to approve the appointment of **Dr. Juergen Voegele** for a second four-year term with effect 12 July 2020, as nominated by the World Bank.

ii. The System Council is requested to approve the extension of the membership terms of **Saad Bounjoua** and **Maurice Goddard** on the System Council's Assurance Oversight Committee to 30 June 2021, unless earlier determined by the System Council.

**Decision requested of the System Council:**

The System Council **approves** the items outlined in the Consent Agenda
Agenda Item 7: Other Business: Next meeting

Background

According to the System Council’s Rules of Procedure, article 2.1:
(b) The System Council discusses, prior to the closure of each meeting, the timing and venue of the next two meetings.

Proposal

• **SC11: To be held in early December 2020**
• Meetings in 2021: Consider at least one as virtual even if in-person options become feasible

Way forward

Open for some discussion at SC10, with a follow-up poll to be issued to identify preference for modality and dates
Appendix – Agenda for additional workshops session

Program for adhoc sessions on Friday 12 June follows
