Welcome

10th System Council meeting
10-11 June 2020, Virtual
A few engagement modalities for the meeting

**Mute:** You will be muted on entry, please stay muted during the meeting *(red when muted)*

**‘Raise your hand’** *(will turn blue)* if you wish to make an intervention, when Chair/Co-Chair invites

Note: Victoria Pezzi will bring to the attention of Chair/Co-Chair those who have ‘raised hands’ in batches of around three, with interventions sought by System Council voting members first

**Once called upon, unmute** yourself to make your intervention *(grey when unmuted)*

**Click again to ‘take down your hand’** once intervention complete, or change your mind

**Use chat function** as needed for technical issues or comments

Note: Recording is on for minutes purposes. The recording will be deleted shortly after the call
### Overview of formal SC10 meeting sessions

**Wednesday 10 – Thursday 11 June 2020**

## CGIAR’s Responsiveness

### 1. Meeting Opening

### 2. CGIAR’s research response to COVID-19

- a. Highlights on COVID-19 relevant research
- b. A coordinated CGIAR research response to COVID-19

#### Materials shared on SC10 webpage on 25 May 2020:

- Document SC10-02

### 3. Ensuring adequate resources to deliver

- a. Our focus on people – an information update on where efforts are focused
- b. A package of financial responses to facilitate flexible funder support, particularly in a time of COVID-19
- c. Funding mechanism for the One CGIAR transition

#### Document SC10-03

#### Document SC10-04
Agenda Item 1: Meeting opening

a. Welcome by System Council Chair

b. Appointment of Co-Chair
   * Decision request: System Council Voting member to be appointed as co-chair for the meeting*

c. Adoption of Provisional Agenda
   **Decision request: Adoption of the Provisional Agenda**

d. Possible items for ‘Other Business’

e. Declarations on potential conflicts on Agenda

Take note of additional workshops available on Friday 12 June 2020, including on:

- Deep Dive on MOPAN assessment
- CRP ‘sound bites’ on COVID-19 responses
- Highlights from CGIAR Dashboards

~Timetable at end of deck~
Agenda Item 2: **CGIAR’s research response to COVID-19**

2a: Highlights on COVID-19 relevant research

**Video available at** [https://vimeo.com/424920541/76bb079597](https://vimeo.com/424920541/76bb079597)
Agenda Item 2: **CGIAR’s research response to COVID-19**

2b: A coordinated CGIAR research response to COVID-19

For endorsement

---

- CGIAR has a **strong portfolio of work** on issues related to the causes and consequences of the COVID-19 crisis in relation to food, land, and water systems, including through **One Health approaches**.

- In coordination with **global, national, and local partners**, CGIAR has responded by actively sharing its existing and emerging knowledge and experience to address the challenges posed by COVID-19.

- By immediately **pivoting the current CGIAR program of work**, CGIAR is leveraging tools and evidence to help countries cope with the effects of the pandemic.
Agenda Item 2: **CGIAR’s research response to COVID-19**

2b: A coordinated CGIAR research response to COVID-19

**Short term: Crisis Response**
- Up to 12 months
- Provide immediate evidence and tools for decision-making to support food availability and access, health interventions, and public programs, policies and investments at scale

**Medium-term: Recovery**
- Up to 18 months
- Understand the impacts of crisis response and adapt policies and programs to reflect initial experiences and consequences for all groups in society. Recovery actions consider longer term resilience issues.

**Long-term: Resilience**
- Up to 24 months*
- Generate evidence and tools to prevent and manage emerging disease threats and comparable food system shocks and build greater resilience into food, land, water systems.
The CGIAR COVID-19 Hub for coordinated research response will:

- Be positioned within A4NH Flagship 5: Improving Human Health which is co-implemented by IFPRI, ILRI, and the London School of Hygiene & Tropical Medicine.
- Provide a convening facility for CGIAR funders and major partners seeking to engage with CGIAR on COVID-19 research and responses.
- Promote a system-wide strategic research response during 2020-21, drawing from expertise across the system and aligning Centre and CRP actions across the four research pillars.
- Invest efforts in the highest priority areas where research results and enhanced coordination are most critical, particularly in cross-CGIAR efforts to support national response and recovery efforts, including in the areas of surveillance of food availability/access and management of disease risks.

Operations of the CGIAR COVID-19 Hub will depend on levels of funding – three budget scenarios.

- **<USD 1M:**
  - A limited number of common research projects largely adapted from existing research
  - Cross-CGIAR coordination and research partnerships

- **USD 1–10M:**
  - New research for country-specific actions linked to demands from national partners
  - Modeling of key national and regional trends; surveillance of impacts on key sub-populations of women, children and poor communities
  - Some cross-CGIAR coordinated actions linked to country demand in recovery phase

- **>USD 10M:**
  - Comprehensive new response and recovery research with clear bridging to CGIAR research beyond 2021.
  - Major support provided to partner countries through cross-CGIAR coordinated actions linked to country demand.
  - Joint work conducted with the health sector on co-managing health operations.
Agenda Item 2: **CGIAR’s research response to COVID-19**

---

**2b: A coordinated CGIAR research response to COVID-19**

For endorsement

Decision requested of the System Council:

The System Council:

i. **Endorses** the CGIAR Research Response to COVID-19 as set out in meeting document SC10-02;

ii. **Requests** that the System Management Board provide an update to the System Council on the CGIAR Research Response to COVID-19 at the end of 2020; and

iii. **Invites** Funders to reflect on their capacity to, where possible, provide funding to contribute to the research response.
Comfort break

10 minutes

Reconvene at 10:30 Washington time
Agenda Item 3: Ensuring adequate resources to deliver

3a: Our focus on people

Main developments since SC adhoc briefing call of 30 April 2020

- Very low numbers of confirmed infected staff (10 cases reported: 8 recovered; 1 recovering, 1 hospital care)
- “CGIAR Guide to planning for return to the physical workplace” developed and available to all entities
- Placing a focus on ‘readiness’ to be prepared for a second wave
- On 1 July 2020 IARC Employee Assistance Program will be extended to a large number of local staff

For information

- Most staff still working from home, but phased return to the physical workplace happening in some countries in line with governments directives
- Ongoing process to collectively develop CGIAR Guiding Principles for managing and supporting the workforce and organizational sustainability during COVID-19
- CGIAR staff making good use of wellness support options offered through GDI initiative, including:
  - Expert Webinar on “Wellness in the time of COVID-19”
  - Confidential counselling services available for individual session

On 1 July 2020 IARC Employee Assistance Program will be extended to a large number of local staff
Absent strategic funder support, CGIAR is projecting a cumulative reduction in revenues of approximately 20% in 2020 primarily due to the effects of the COVID-19 pandemic. In addition, recent communications from Funders have led to a further reduction in projected W1/W2 funding in 2020. An up to date view will be provided during the meeting and can be tracked in real time on the online dashboard: https://www.cgiar.org/funders/trust-fund/financing-plan/

Despite mitigations applied to the respective contexts, Centers are currently projecting an aggregate net deficit of approximately US$ 40M (of which approximately $35M represents the impact of COVID-19) in 2020 which will consume over 10% of accumulated accounting reserves within the System.
Agenda Item 3: Ensuring adequate resources to deliver

3b: The Ask: A package of financial responses

For approval

Measure 1

Continue current planned contributions and bringing them forward where possible

a) Funders to maintain planned and indicated W1/W2 investments in CGIAR Research Portfolio for 2020 and 2021 to ensure stability and confidence;

b) Request to Funders to provide 2020 and 2021 planned cash contributions at earliest date possible to optimize liquidity within the system (see paragraph 8 above); and

c) Adjust partial de-linking rules to ensure Funder interests met1.

---

Measure 2

Make additional investments in Pivot towards COVID-19

Invest additional funds in newly established COVID-19 Hub within existing “improving human health” flagship in A4NH (IFPRI lead with co-leads ILRI and London School of Hygiene and Tropical Medicine).

---

Measure 3

Provide special support to address one-off falls in Center revenues

*potentially most financially significant set of measures*

a) For W3 and Bilateral agreements, in principle agreement on one or more of 3 options:

- full-cost, 6 months extensions of all existing agreements;
- temporary increase (for 2020) in level of Indirect Cost Recovery (ICR) of 15% (For example, if the originally planned or negotiated indirect cost rate to be applied for a given project for 2020 was 15%, this would allow for a temporary increase in 2020 to 17.25% - thus an increase of 15%); and
- reorientation of project level outputs, deliverables and targets.

b) For W1/2 funded activities, agreement for a temporary increase (for 2020) of indirect Cost Rates (ICR) by 15% as is proposed above for W3 and Bilateral agreements.

---

1A footnote to paragraph 6 of the W1/2 Partial de-linking principles to expand current funding rules will be added to exempt from partial de-linking treatment any additional W2 contributions for which the funder has expressly communicated that their desired outcome is to reduce the amount of W1 otherwise allocated to the Program or Platform.
Agenda Item 3: **Ensuring adequate resources to deliver**

3b: A package of financial responses

---

**Decision requested of the System Council:**

In the context of One CGIAR, The System Council **approves** the following:

a. Funders are *encouraged* to maintain planned and indicated W1/W2 investments in CGIAR Research Portfolio for 2020 and 2021 to ensure stability and confidence;

b. Funders *will provide* 2020 and 2021 planned cash contributions *at earliest date possible* to optimize liquidity within the system;

c. **The partial de-linking rules** will be adjusted to ensure Funder interests met.

d. Funders are *encouraged to invest* additional funds in the COVID-19 Hub within the existing “improving human health” flagship in A4NH (IFPRI lead with co-leads ILRI and London School of Hygiene and Tropical Medicine).

e. For W1/2 funded activities, Funders *agree* that there will be a temporary increase (for 2020) of indirect Cost Rates (ICR) in recognition of the increased proportion of indirect costs implementing Centers will face during the initial year of COVID-19 response.

f. For W3 and Bilateral agreements, Funders *agree* that, where possible, a flexible response should be encouraged if Centers seek to renegotiate the terms and conditions of the agreement. A flexible response in this context may include considerations in the following areas as well as others not listed here:
   - Extensions (cost or no-cost as appropriate) to agreements for specified duration;
   - Temporary increases (for 2020) in level of Indirect Cost Recovery (ICR) rates;
   - Reorientation of project level outputs, deliverables and targets.

---

1A footnote to paragraph 6 of the W1/2 Partial de-linking principles to expand current funding rules will be added to exempt from partial de-linking treatment any additional W2 contributions for which the funder has expressly communicated that their desired outcome is to reduce the amount of W1 otherwise allocated to the Program or Platform.
One CGIAR implementation initiated with support of a bilateral grant from the Bill & Melinda Gates Foundation.

Another funder has deposited US$ 1.1M in the provisional account of the CGIAR Trust Fund (earmarked in support of One CGIAR implementation)

A detailed transition budget associated with a 2020-2021 Transition Plan is a planned deliverable of the TPMU (now appointed) by end-June 2020.

Rationale for approach set out in requested decision on next slide:

- The transition to One CGIAR is a complex process requiring investment and engagement across the System towards the objectives outlined in the SRG recommendations.
- One CGIAR Transitional Funding Facility will provide the opportunity for Funders to invest directly in the transition process while ensuring resources are uniformly directed in effecting the transition towards One CGIAR.
Agenda Item 3: Ensuring adequate resources to deliver

3c: Funding mechanism for the One CGIAR transition

Decision requested of the System Council:

The System Council approves the following mechanisms as part of a One CGIAR transitional funding approach, as set out in meeting document SC10-03:

a. Repurpose the narrowly defined W1 Alliance Opportunity Fund to a One CGIAR Transitional Funding Facility to support more expansive objectives of One CGIAR implementation;

b. Transfer $1.1M provision account balance to the One CGIAR Transitional Funding Facility;

c. Allocate a $6.5M draw down facility approved as part of the 2020 Financing Plan to the One CGIAR Transitional Funding Facility; and

d. Establish an indicative target of $40M-$70M to fund investments into One CGIAR through the One CGIAR Transitional Funding Facility between 2020 and 2024.
End of Day 1

Reconvene Thursday 11 June at 09:00 Washington time
RE-ORDERED* Day 2 – Building a stronger CGIAR

4. Leveraging independent advice
   a. Highlights of the MOPAN independent assessment of CGIAR
   b. Presentation by the ISDC Chair on forward-looking reflections and recommendations on the One CGIAR Research and Partnership Agendas, including update on lean evaluative reviews of 12 CRPs

5. Progress towards One CGIAR
   a. Update by SMB on progress and next steps in the transition to One CGIAR
   b. Facilitative decision to enable One Common Board to be put in place

6. The road to doubling CGIAR research funding by 2030
   a. One CGIAR Resource Mobilization, Communications, and Advocacy strategy and exploring a UNFSS pledging/commitment moment

~Meeting Close~
In 2019, the Multilateral Organisation Performance Assessment Network (MOPAN), assessed the performance of the CGIAR.

The assessment looked at CGIAR’s organizational effectiveness (strategic, operational, relationship and performance aspects) and the results it achieved against its objectives.

This was the first MOPAN assessment of CGIAR.

Documents available:
- 2019 CGIAR Assessment report
- 2019 CGIAR Brief
What is MOPAN?

The Multilateral Organisation Performance Assessment Network is a network of 19 members with a common interest in assessing the effectiveness of the major organisations they fund.

First assessment for CGIAR
CGIAR’s assessment has followed a structured process
Areas of Strength

- Diverse and flexible System – responsive to demands, context
- SRF, Business Plan, and Financial Plan
- Shift towards greater professionalization, transparent and responsive culture
- Progress on performance & results processes and systems
- CGIAR Research Programs a strong concept - provide coverage and delivery
- Open intellectual assets a significant global resource
Areas for Improvement / Challenges

- Decision-making and change can be difficult and slow in the diverse System
- Complex governance and organizational structure compound weaknesses
- Yet to agree a consensus on the way forward: System, reforms, and support to CRPs
- Lack of consistency in focus and capacities across System: resource management, audit, M&E
- Reformed evaluation function – risks of reduced independence and limited leadership
- Lack of strategic position on partnerships and capacities
- Efforts on gender equality are isolated pockets of good practice with a risk of a superficial ‘Gender Fix’
Full report and next steps

Full report and performance brief

Leveraging Independent Advice: ISDC and Evaluation Function

*Considering the consequences of choices*

Holger Meinke, Chair, Independent Science for Development Council

Presentation Contents

- ISDC & Support to One CGIAR – Foresight and Tradeoffs
- Independent Evaluation Function – CRP 2020 Reviews w/ emerging findings

+ SPIA input available through https://www.youtube.com/watch?v=TTms9C-rdwg
Agenda Item 4: Leveraging independent advice

4b: Presentation by the ISDC Chair

Highlights of ISDC’s Current Work

Independent Advice
- Supports the One CGIAR reform
- Engages with and challenges key CGIAR entities
- Advises on strategies and approaches for the forthcoming program portfolio

Representation in Transition Advisory Groups (TAGs)
1. Cross-cutting: Lesley Torrance
2. Research: Holger Meinke
5. Country and Regional Engagement: Mandefro Nigussie
6. Finance: Andrew Ash
7. Resource mobilization: Nighisty Ghezae

ISDC Deliverables Q1&2 2020
- Published updated QoR4D
- Foresight & trade-off research and recommendations
Agenda Item 4: Leveraging independent advice

Research Gaps evident from Foresight Review

- Governance & policy barriers not sufficiently considered
- Megatrend analyses that include shocks
- Nutrition & food security; poverty reduction, livelihoods, & jobs; & gender dimensions, youth, & social inclusion
- Fish stocks & more sustainable forms of aquaculture & mariculture
- Effective management of trees for co-production of food and ecosystem services
- Adoption and adaptation pathways of technology and institutional innovations
- Migration gender dynamics
- Specific challenges within sub-Saharan Africa
- Linkages between access to water, sanitation, & water infrastructure & gender, poverty, & nutrition
- Biotic pressures on the AFS resulting from climate change
- Effects of food prices across impact areas
Foresight Reflections Highlights

- To develop an impactful research strategy, decision-makers need to understand current and emerging trends in AFS.
- FS and TO analyses should prioritize attention to key barriers to adaptation, adoption, and diffusion of innovations for impact.
- Expanded attention to—and investment in—research concerning fruits, legumes (including pulses), nuts, and vegetables to broaden the System’s commodity composition.
- Sustainable intensification and stronger agroecological systems approaches are synergistic pathways for CGIAR.
Foresight and Trade-off analysis are essential tools for developing research strategies

- FS and TO analysis should integrate into all of the CGIAR’s ongoing decision-making and priority-setting processes.

- To deal with complexity and uncertainty, FS and TO analysis implementation should respect the principle of parsimony by using the simplest scientifically-sound approaches that fit the problem domain.

- One CGIAR needs a strategy for capacity building to ensure the effective use of FS and TO analysis by all its governance, management, and research teams.
Agenda Item 4: Leveraging independent advice

Independent Evaluation in CGIAR: CRP 2020 Reviews

• CAS Evaluation Function and external evaluation specialists are undertaking CRP Reviews
• Lean, evaluative reviews of 12 current CRPs: 2017-2019 period
• Evaluation criteria are
  1. Quality of Science (through the QoR4D lens)
  2. Effectiveness (progressing outputs to outcomes)
• Each review takes <12 weeks, not including data pre-analysis
• Final reports for WHEAT, A4NH and GLDC will be made available for SIMEC and SC w/c 6 July.
• More information https://cas.cgiar.org/evaluation/crp-2020-review
• Request to SIMEC for AAR in July to check on utility of the lean evaluative approach with the Funders

For strategic guidance
What are we learning so far from preliminary CRP 2020 Review findings?

- IPG content has been generated through publications and other outputs; general good quality of scientific publications
- Consistent pooled funding considerably enhances the QoS and effectiveness
- Management structures that engage partner institutions and ARIs in leadership often enhance the QoS and partnership reach, including to private sector. Partnerships are critical for future success
- By and large, fidelity to plan at Flagship level is evident. However, COVID-19 may affect final 18 months of work (after these reviews).

THESE ARE NOT THE FINAL FINDINGS, CONCLUSIONS OR RECOMMENDATIONS!
Agenda Item 4: **Leveraging independent advice**

4b: Presentation by the ISDC Chair

Questions & Discussion
Items in the Consent Agenda - to be adopted as a group without discussions include:

i. The System Council is requested to **approve** the appointment of **Dr. Juergen Voegele** for a second four-year term with effect 12 July 2020, as nominated by the World Bank.

ii. The System Council is requested to **approve** the extension of the membership terms of **Saad Bounjoua** and **Maurice Goddard** on the System Council's Assurance Oversight Committee to 30 June 2021, unless earlier determined by the System Council.

**Decision requested of the System Council:**

The System Council **approves** the items outlined in the Consent Agenda
Putting One CGIAR Common Board in place

The requested decision set out on the next slide...

- **Permits reconstitution of the SMB that will become the One CGIAR Common Board** once relevant appointment decisions are taken by Center Boards.

- **Has already been approved by the General Assembly**, and it is anticipated that the System Management Board will approve the same amendments* at an ad hoc meeting in the week of Monday 22 June 2020.

*To be effective, amendments to the Charter require approval by the System Council, the System Management Board and a two-thirds majority of the General Assembly of the Centers.

Forthcoming – Enabling appointment of EMT

Immediately following the Council’s and SMB’s approvals, the **General Assembly** will be asked to approve a decision to:

- **authorize the SMB to appoint the inaugural EMT** pursuant to the timetable set out in the EMT Candidate Information Pack; and

- **put in place initial delegations of authorities** to the EMT that remain in place until such time as the One CGIAR Common Board becomes operational and agreed delegations of authority as between the EMT and Directors General based on relevant board decisions come into effect.

Further proposed changes to the Charter will be required in due course to facilitate the transition to unified governance (e.g. provisions relating to the EMT for the longer term; One CGIAR Common Board members’ term lengths; appointment of ex officio Board members)
Decision to take forward Unified Governance
Approving the same decision the GA has already taken, and SMB will shortly take

Decision requested of the System Council to facilitate the appointment of the One CGIAR Common Board:

Pursuant to the amendment provisions of Article 15.2 of the Charter of the CGIAR System Organization, and subject also to approval by the System Management Board, the System Council approves the following amendments to the Charter of the CGIAR System Organization as set out below in “strike-out” and underlined text:

<table>
<thead>
<tr>
<th>Ref</th>
<th>Proposed Charter text amendment -</th>
</tr>
</thead>
<tbody>
<tr>
<td>7.2</td>
<td>The System Management Board shall comprise the following up to ten (10) nine (9) voting members who, when taken as a collective whole, will have the skills, experience and gravitas required to enable the System Management Board to discharge its responsibilities under this Charter. Members of the management and employees of CGIAR System entities, including Centers, are not eligible to sit on the System Management Board as voting members, as follows:</td>
</tr>
<tr>
<td></td>
<td>a) six (6) Center Board members or Directors General, as appointed by the Centers; and</td>
</tr>
<tr>
<td></td>
<td>b) three (3) independent members, one of which should, whenever possible, be the Chair.</td>
</tr>
<tr>
<td>7.3</td>
<td>The System Management Board shall appoint a Chair from amongst its voting members.</td>
</tr>
<tr>
<td>7.8</td>
<td>All System Management Board members, Active Observers and the Chair of the System Management Board’s Audit and Risk Committee shall act in good faith in the interests of the CGIAR System and shall act according to the System Management Board’s policy on ethics and conflicts of interest and shall respect the conflict of interest obligations of the entities they may be affiliated with represent.</td>
</tr>
<tr>
<td>7.9</td>
<td>The term of office of the initial System Management Board shall be three (3) years. Thereafter, new voting members of the System Management Board shall be elected by the Centers every two (2) years at a General Assembly of Centers. In the transition phase terms may be shorter or elections staggered to ensure a gradual replacement of the members of the System Management Board. Members from the Centers’ Boards which are members of the System Management Board, when acting at the System Management Board, shall represent the CGIAR System and will not be re-appointed when their term as Center Board members is expired.</td>
</tr>
</tbody>
</table>
Recognizing the importance of CGIAR's global role in COVID-19 crisis response, recovery and longer-term resilience of food systems, the System Council:

i. **Recommends** that the System Organization ensure that CGIAR provides an ambitious response to the COVID-19 crisis; and

ii. **Requests** that this be done via immediate initiation of the COVID-19 Hub, with leadership of the Hub coordinated across IFPRI, ILRI and the System Organization, and the Hub tasked with, among other roles:
   a. providing a system-wide entry point on COVID-19 for partners and Funders;
   b. delivering an active intelligence service to the System Management Board on COVID-19 impacts and priority responses, so that the Board is best able to make timely decisions to ensure that CGIAR is providing the most strategic response as the crisis unfolds, and
   c. articulating a set of prioritized areas of work on COVID-19 response, recovery and longer-term resilience matched to budget scenarios.

**Note:** Decision already taken on Item 2 on Covid-19 research response

The System Council:

a. **Endorsed** the CGIAR Research Response to COVID-19 as set out in meeting document SC10-02;

b. **Requested** that the System Management Board provide an update to the System Council on the CGIAR Research Response to COVID-19 at the end of 2020; and

c. **Invited** Funders to reflect on their capacity to, where possible, provide funding to contribute to the research response.
Agenda Item 7c: Finalizing agreed position
Agenda 3.b - Financial response to COVID

The System Council:

a. **Takes note** of the following measures as important ways for Funders to support adequate resources for CGIAR to deliver in the context of significant disruption having resulted from the COVID-19 pandemic:

   • Maintaining planned and indicated W1/W2 investments in CGIAR Research Portfolio for 2020 and 2021 to ensure stability and confidence
   • Providing 2020 and 2021 cash contributions at the earliest date possible to optimize liquidity
   • Using the opportunity that is now available to invest funding in the CGIAR COVID-19 Hub within the existing “improving human health” flagship in A4NH (IFPRI lead with co-leads ILRI and London School of Hygiene and Tropical Medicine)
   • Ensuring as much flexibility as possible to Centers and programs under W3 and Bilateral agreements – where such flexibilities are sought, and on the understanding this would need to be on a case-by-case basis – to renegotiate the terms and conditions of the agreement, by way of, but not limited to certain options such as: (i) Extensions (cost or no-cost as appropriate) to agreements for specified duration; (ii) Temporary increases (for 2020) in level of Indirect Cost Recovery (ICR) rates; and (iii) Reorientation of project level outputs, deliverables and targets.

b. **Recognizes** the need for:

   • A temporary increase (for 2020) of indirect Cost Rates (ICR) in recognition of the increased proportion of indirect costs implementing Centers will face during the initial year of COVID-19 response.
   • The partial de-linking rules to be adjusted to ensure Funder interests met.¹

¹ A footnote to paragraph 6 of the W1/2 Partial de-linking principles to expand current funding rules will be added to exempt from partial de-linking treatment any additional W2 contributions for which the funder has expressly communicated that their desired outcome is to reduce the amount of W1 otherwise allocated to the Program or Platform.
Comfort break

10 minutes

Reconvene at 10:50 Washington time
The System Council unanimously endorsed the recommendations of the System Reference Group (SRG) for a ‘One CGIAR’ in November 2019 and requested that the SMB provide quarterly updates on the implementation of the endorsed recommendations.

This progress update follows the SMB Chair’s report to the System Council on 30 April 2020 and builds on the regular communications by the four co-chairs of the Transition Consultation Forum (TCF).
Agenda Item 5: Progress towards One CGIAR

- The endorsed recommendations include target dates that reflect the urgency of the changes needed: escalating climate crisis, narrowing window of opportunity to achieve SDG, and – more recently – Covid-19.

- The target dates reflect a clear sequence of work, which prioritizes the appointment of an empowered One CGIAR Executive Management Team (EMT), operating with Unified Governance, and a clear and convincing research offer.

- Since November 2019, minor adjustments consistent with a principle of adaptive management.

<tr>
<td>Program Monitoring, Evaluation, and Learning</td>
<td>Monitoring and reporting framework that promotes accountability, transparency, and effective delivery by measuring quantitative and qualitative metrics throughout the transition</td>
</tr>
<tr>
<td>Communications</td>
<td>A communications strategy and plan that encourages engagement in and support for the transition across CGIAR and partners, and a communications function that supports the development and roll-out of products and processes</td>
</tr>
<tr>
<td>Organizational Design</td>
<td>High-level advice to the EMT on organizational design/ institutional structure of One CGIAR</td>
</tr>
<tr>
<td>Support Towards Thematic TAGs</td>
<td>Differentiated coordination support towards the thematic TAGs, with a priority on TAGs 2 and 3</td>
</tr>
</tbody>
</table>
Analysis shows funding sources to support a $2 billion annual One CGIAR sustainable financial ambition by 2030.

In addition to strong System Council commitment to advocate and invest, it demands a targeted, multi-channel fundraising approach – made up of 5 Action Areas each targeting specific sources and types of investments.

This also requires a new way of working across CGIAR – coordinated, targeted, and transparent campaign approach.

The five Action Areas have been designed with a view to strengthen relations with existing funders, diversify the portfolio of investors and to expand the use of innovative financing approaches to support a $2 Bn target.
Agenda Item 6: The road to doubling CGIAR research funding by 2030

6: Exploring a UN Food Systems Summit (UNFSS), or alternative, pledging/commitment moment

- CGIAR needs to take action now to execute a major campaign and pledging “moment” in 2021 to elevate the global importance of agricultural research for development, announce the transition to One CGIAR, recognize 50 years of impact.
- The UNFSS provides a unique platform for Funders to align commitments and investments in CGIAR to support the Sustainable Development Goals (SDGs).
- CGIAR – with strong System Council support – needs to move rapidly in this new environment to produce key positions and negotiate a place at the UNFSS table.

Are System Council members willing to work together towards a public pledging moment for One CGIAR in 2021?
Background

According to the System Council’s Rules of Procedure, article 2.1:
(b) The System Council discusses, prior to the closure of each meeting, the timing and venue of the next two meetings.

Proposal

• **SC11: To be held in early December 2020**
• Meetings in 2021: Consider at least one as virtual even if in-person options become feasible

Way forward

Open for some discussion at SC10, with a follow-up poll to be issued to identify preference for modality and dates
Appendix – Agenda for additional workshops session

Program for adhoc sessions on Friday 12 June follows
# Additional virtual workshop sessions
