Systems in South Asia

## FAO SCIENCE AND INNOVATION FORUM SIDE EVENT

# Catalyzing Investments into Climate-Smart Agriculture: Experiences in South Asia and East and Southern Africa

Thursday, 13 October 2022

10AM – 12PM CEST

*Held virtually*

*Climate change and nutrition are two critical, connected, and growing development challenges facing South Asia and East and Southern Africa, particularly across agricultural value chains.*

*This side event will bring together stakeholders to look at innovations and activities in agribusiness growth, acceleration, and supporting value chains, and consider experiences and share lessons learned across contexts and between the two regions.*

**[LEARN MORE AND REGISTER HERE](#)**

*Organized by the CGIAR Research Initiatives on Diversification in East and Southern Africa and on Transforming Agrifood Systems in South Asia*
