- Contributions across multiple SDGs

Narrative reports

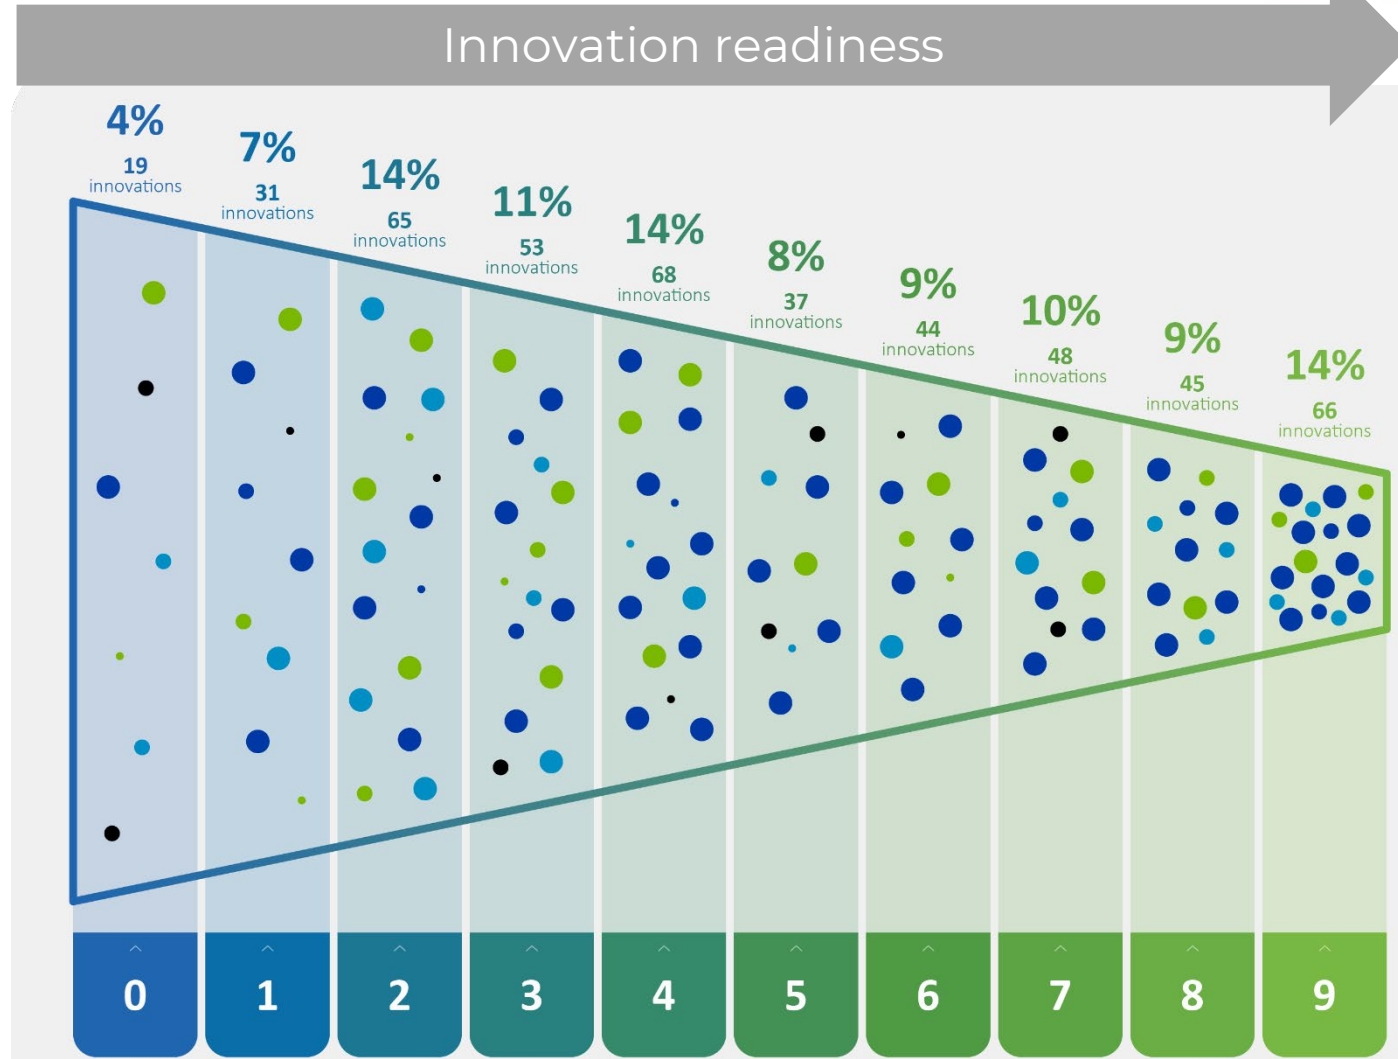

- Available week of 23 April
- Per-Initiative/Impact Area Platform
- Standard template aligned with [Technical Reporting Arrangement](#)

Zooming in: Innovation pipeline

476
innovations
profiled

Pipeline overview: innovation readiness

	Pipeline overview # of innovations
9	PROVEN INNOVATION The innovation is validated for its ability to achieve a specific impact under uncontrolled conditions
8	UNCONTROLLED TESTING The innovation is being tested for its ability to achieve a specific impact under uncontrolled conditions
7	PROTOTYPE The innovation is validated for its ability to achieve a specific impact under semi-controlled conditions
6	SEMI-CONTROLLED TESTING The innovation is being tested for its ability to achieve a specific impact under semi-controlled conditions
5	MODEL/EARLY PROTOTYPE The innovation is validated for its ability to achieve a specific impact under fully-controlled conditions
4	CONTROLLED TESTING The innovation is being tested for its ability to achieve a specific impact under fully-controlled conditions
3	PROOF OF CONCEPT The innovation's key concepts have been validated for their ability to achieve a specific impact
2	FORMULATION The innovation's key concepts are being formulated or designed
1	BASIC RESEARCH The innovation's basic principles are being researched for their ability to achieve a specific impact
0	IDEA The innovation is at idea stage

- Technological Innovation
- Capacity Development Innovation
- Policy, Organizational and Institutional Innovation
- Other Innovation
