

Measuring  
Progress in  
CG-NARES  
Partnership :  
Proposed  
Indicator  
Dashboard

*Presentation at 2<sup>nd</sup>  
CGIAR-NARES  
Leadership Meeting,  
Morocco, UM6P  
October 26<sup>th</sup>, 2023*

Godfrey Asea, CTT

<b>Overarching Goals</b>	<b>Objective</b>	<b>Means to achieve the Objective / Indicator</b>	<b>Actor</b>
Aligned strategic priority setting: CGIAR aligns priority setting with those of countries and regions	Crop priorities	The country (or region) has defined crop priorities aligned to research strategic plans and NDPs	MoA & NARES, SRO
	NARES capacity development priorities	The country (or region) has defined NARES capacity development goals aligned with NDPs	MoA & NARES, SRO
	Seed sector development priorities	The country (or region) has defined seed sector goals aligned with national development goals.	MoA & NARES, SRO
	Joint high-level priorities	(Number of) MOUs established jointly documenting crop and capacity development priorities and the roles and contributions of partners	Joint
Aligned technical priority setting: CGIAR breeding networks pursue priorities set by national and regional stakeholders	National breeding priorities have been defined	Network country members conducted in-country stakeholder consultations about breeding priorities	NARES
		National priorities have been endorsed by NARES leadership	NARES
	Regional priorities have been jointly defined	Regional priorities have been based on the aggregation of national network needs and priorities, and endorsed partners	Network coordinator

Overarching Goals	Objective	Means to achieve the Objective / Indicator	Actor
Joint ownership and decision making in breeding networks	Network objectives have been jointly defined	National and regional Market Segments and Target Product Profiles have been jointly reviewed and prioritized.	Network coordinator
	Key operational decisions are being jointly made	Advancement decisions that have been jointly made.	Network coordinator
	Roles and responsibilities of partners (NARES, SME, CGIAR) viz network objectives have been jointly agreed	(Number of) NARES, CGIAR, SME partners that have agreed to common institutional standards.	NARES, CGIAR, SM
		(Number of) Networks that have defined CGIAR and NARES engagement in germplasm development (Level 1) and testing (Level 1 & 2) defined	Network coordinator
	All partners (CGIAR, NARES, SME) are actively involved in network governance	(Number of) Networks that have a technical steering committee, representing all (types of) partners.	CGIAR
		Partners take turns in chairing/leading technical/steering committees	Network coordinator
Augmenting NARES capacities	NARES capacity development to modernize their individual breeding programs and augment their network roles	(Number of) NARES strength assessments completed	CGIAR & NARES
		(Number of) Capacity improvement plans completed	CGIAR & NARES
		(Number of) Modernization of sites that have been completed	CGIAR & NARES
		Data management policy and system in place	NARES
	Human capacity to modernize breeding programs is developed	(Number of) NARES & CGIAR participants in training events	CGIAR & NARES

<b>Overarching Goals</b>	<b>Objective</b>	<b>Means to achieve the Objective / Indicator</b>	<b>Actor</b>
Augmenting NARES roles	Greater NARES participation in germplasm development	(Number of) Germplasm contributions that have been made by CGIAR & NARES	CGIAR & NARES
	NARES effectively leading downstream components: variety identification, release and dissemination	(Number of) Varieties that have been advanced to NPTs, release, dissemination	NARES
		Number of varieties licensed and/or taken up by seed companies	CGIAR & NARES
Aligned financing	Partners (CGIAR, NARES, others) make contributions (in-kind, financial) viz network objectives transparent		CGIAR, NARES, others
	Partners (CGIAR, NARES, others) apply for (government, donor) funds in support of aligned priorities		CGIAR, NARES, others
	Joint proposals are being made	(Number of) Joint proposals that have been developed	CGIAR, NARES, others
Fair attribution	Partners (CGIAR, NARES, others) attribute each other in communications and publications		CGIAR, NARES, others
	Joint publications are being made	(Number of) Joint publications that have been developed	CGIAR, NARES, others

<b>Overarching Goals</b>	<b>Objective</b>	<b>Means to achieve the Objective / Indicator</b>	<b>Actor</b>
Technical network success	Technical network success	Genetic gain achieved	CGIAR & NARES
		(Number of) Varieties that are taken up by the seed sector	CGIAR & NARES
		Average age of varieties in farmers fields	Seed Services
Effective collaboration with local ARI's	Local MSc and PhD students are trained in collaboration with CGIAR-NARES breeding networks	(Number of) Local MSc and PhD students that have been trained	CGIAR & NARES
		Number of in-service breeders trained (short-term and long-term)	NARES
		ARI's are incorporating CGIAR training content into their curricula	(Number of) ARI modules that have been influenced or developed with CGIAR training content

**Breakout session to  
discuss and refine  
performance metrics**
