The System Council amends its 23 November 2016 decision on the approval of the 2017 System work plans and budgets (Decision reference SC/M3/OPM) in respect of the IFAP's 2017 work plan by placing on hold until further decision of the System Council, the following planned evaluations and/or activities:
   a. The external independent evaluation of IFAP.
   b. Preparation for a CGIAR System-wide evaluation
2. In addition, the scope of the IFAP's evaluation of CGIAR's ISPC is reduced to facilitate the presentation of recommendations by the end of September 2017 to be considered for the re-design of the terms of ISPC; the reduced scope of the evaluation thus resulting in a reduction in the overall cost of the evaluation by US$120,000 (down from originally US$250,000 to US$130,000).
3. The System Council delegates special authority to the SIMEC to discuss and agree with the Head of IFAP and thereafter report to the System Council on the appropriate timing to launch work on the multi-year evaluation planning. | 19 July 2017 | N/A

   2. Noted that indicative funding amounts to be provided from funds from the CGIAR Trust Fund for the approved proposal will be decided later in this meeting. | 9-10 November 2017 | Cali, Colombia
SC/M5/DP4 | SC5 | In-session | Business Cycle | 4 | The System Council endorsed a business planning cycle concept for the CGIAR System, with a proposed multi-year business plan for the CGIAR System being brought for final approval to the System Council's November 2018 meeting (and launched from 1 January 2019), with an update on progress being provided to the System Council in May 2018 meeting. | 9-10 November 2017 | Cali, Colombia

SC/M5/DP7 | SC5 | In-session | Funding Matters | 7 | The System Council:
   1. Endorsed the introduction of the process of within-cycle adjustments to CGIAR Research Programs (CRPs) and Platforms as set out in meeting document SCS-07 (‘Improving System Financing Modalities’) to enable CGIAR’s research agenda to respond when relevant to an evolving environment, noting that any independent scientific review would follow existing regular practice, and that the System Council would be the final decision-maker on any major reduction in scope/dropping a flagship.
   2. Decided to introduce the possibility of flagship-level earmarking of Window 2 funding contributions, noting that the mechanism is intended to provide flexibility to respond to the needs of individual Funders who may not otherwise be able to contribute funding to CGIAR’s shared agenda funding mechanism. | 9-10 November 2017 | Cali, Colombia
