

CAIRO WATER WEEK

Climate adaptive water productivity

Building Coherence across Food, Water, and Land

Tuesday, October 31 at 11:30-13:00

Room: Heliopolis Ballroom | The Nile Ritz – Carlton Hotel, Cairo

Code: TS 3.7

The CGIAR's National Policies and Strategies (NPS) initiative provides an empirical analysis of the policymaking related to climate-adaptive water productivity programmes in Egypt. It aims to highlight the multifaceted aspects of water productivity, and emphasize the existing and best practices, as well as the opportunities of enhancement to achieve optimal policy coherence around water productivity and climate resilience policies.

Objectives of the session

- **Explore** the NPS initiative's best practices.
- **Document** reflections and recommendations on policymaking and policy coherence around water productivity.
- **Nurture** the conversation on Egypt's national priorities in food and water security, and climate change agendas.

CAIRO WATER WEEK
