

Trekking Dientes de Navarino

Update date: 17 August 2021

 Wildlife watching at Cabo de Hornos National Park, Trekking the Chilean Patagonia

 Recommended months for the visit:
October - March

 Difficulty level Medium - Advanced

Share

Download

 1 day - 50 km

Day 1

The adventure begins 2.8 km south of Puerto Williams. Report to Carabineros de Chile (Chilean Police) before starting the circuit and upon your return. During the tour you will enjoy panoramic views of the Beagle Channel and Cape Horn, if the day is clear. After a few hours of trekking, you will see the Dientes de Navarino rock formations, where you can rest before returning.

 Bring cash, carry-on bag, your passport, cell phone charger, first aid kit, and toiletries.

Plan your perfect trip

-  Bring a backpack with snacks and water for a day's worth of hiking. And if you have binoculars, don't forget to bring them to watch different species of birds.
-  Always have cash available because there are areas with no ATMs.
-  Prefer travelling during the low seasons to avoid high traffic and higher costs.
-  Don't forget to check information on covid-19 restrictions before traveling anywhere.
