## Day 1

Concepción, located southwest of Santiago, is the second largest city of Chile; we recommend visiting the university district where you will find the University of Concepción's campus overlooking at nature and lakes; it is one of the largest universities nationwide, has a department of Astronomy, the architecture of the place is amazing, and you can see a large arched building that stands out at the main entrance.

Bring cash, carry-on bag, your passport, cell phone charger, first aid kit, and toiletries.

## Day 3

Always observe posted instructions and environmental protocols.

Enjoy nautical sports such as kayaking at Lake San Pedro. This is an activity you can do alone or with company, begins at the Amphitheater in the district of San Pedro. Sailing these waters will captivate you with the background scenery and a wide range of wildlife. Enjoy the sunset and the species that inhabit the lake.

Always observe posted instructions and environmental protocols.

## Plan your perfect trip

- If you are from another country, we suggest buying a travel insurance policy with coverage in Chile in case of any contingency.
- Prefer travelling during the low seasons to avoid high traffic and higher costs.
- Have cash available because there are areas with no ATMs.
- Don't forget to check information on covid-19 restrictions before traveling anywhere.

## Transportation options

Car

Bus
