<b>Number of shares represented by ASA</b>	0.9m
<b>Market capitalisation</b>	\$4.56b
<b>Were proxies voted?</b>	Yes, on a poll
<b>Pre AGM Meeting?</b>	No

### Brief and to the Point

The virtual meeting consisted of screen presentation of audio and slides. A voting box was provided during the meeting replacing a box showing the proxy voting results.

The Chair opened the meeting on time at 11am EDST and provided an introductory address. The Chair and CEO then gave presentations on the company's performance for the year. Both were delivered quickly together with illustrating slides that were rather difficult to read. The Chair called for questions after the presentations. The ASA provided four of the six questions that were received. They were answered succinctly and objectively as were the others.

The final results posted on CWY website showed all the resolutions were approved with in excess of 95% of the votes except for the REM Report which achieved a 90% approval.

It was a short meeting that lasted some 30 minutes.
