

When Kevin Twit and RUF (Reformed University Fellowship) began setting historic hymn texts to new tunes, who knew it would grow into a movement with contributions from Indelible Grace, Sojourn Music, BiFrost and others? And who knew that in Europe a similar approach would rejuvenate singing the Psalms? Several leaders in this movement will discuss the cultural background, perform examples of their own songs, and discuss the future of this movement. We'll give special attention to ways of using this repertoire in the local church.
